### COMMERCIAL AND FINANCIAL NEWS Canadian Pacific. 89%; Union Pacific preferred, 73%; Northern Pacific preferred, 73%; Grand Trunk, 6%; Anaconda, 8%

Heavy receipts of fruit were again the principal feature of trade in the commission-house portion of Front street yearday, and some liberal concessions were made on some of the ripest, in order to wheat crop, and on hopes of the concessions were wheat crop, and on hopes of the concessions were made on some of the ripest, in order to clean it up. Peaches are coming in in large quantities from California, and Ore-gon growers have also commenced shipthe week, they met with a good reception. General trade was reported excel-lent on the street, but aside from pro-duce and wheat, price changes were few in number. The wheat markets were lower all round.

PORTLAND MARKETS.

Grain, Flour, Etc. The Portland wheat market is lower in sympathy with other markets. This sympathy is not asserting itself to the limit, cline of only about a cent, while other markets are off from 364 cents per ushel. No sales of consequence were re-orted yesterday, and buyers are waiting or matters to settle before they attempt to do much business. Freights continue very firm, with no new tonnage offering. Wheat-Walla Walls, nominal, 56959c; Vale, haghne; bluestem, one per bushel. Flour — Best grades, \$3 1005 30; graham, 85 per barrel.

White, 34905c; gray, 32905c per bushel. Barley-Ford, \$14@15; brewing, \$16 per ton. Millstuffe-liran, \$12 50 per ton; middlings, \$19; shorts, \$13; chop, \$14. ay-Timothy, \$10@11; clover, \$7@7 50; Ore-wild hay, \$0@7 per ton.

NEW YORK STOCK MARKET. Break in Wheat Causes a Bulge in

NEW YORK, June 28 .- The stock market showed symptoms during the early hours of the trading today of having fallen back into the condition of lethargy fallen back into the condition of iernargy and sagging prices, which marked the trading last week. But the large out-standing short account showed itself very sensitive to developments in the wheat market. With the continued fall in price of that cereal, reports of the enormous quantities of wheat thrown upon the narket to liquidate, the courage of the market to liquidate, the courage of the bears oped out at the tips of their fingers, and they scrambled to cover their short contracts in the late dealings with considerable precipitancy. The result was a strong closing at the top level, with the raily still in force, and at a level of prices from 1 to 2 points over last night for many active stocks. The bears were in full retreat all theory the last sught in full retreat all through the list. B. & O. turning from its persistent down-ward course with a raily of three points from the early decline. Sugar, Brooklyn Pransit, People's Gas and American Tobacco all made notable upward move-ments, the latter apparently on a belated appreciation of yesterday's dividend dec-

While the break in the wheat marke was unquestionably the dominant influ-ence, there were other points of strength which radiated a favorable influence. The coalers advanced on the rise in rice of anthracite. The Southwestern

stocks moved upwards in company on, the more favorable prospects of the Tex-as cotton crop, compared with that in other cotton states, on the large Winter wheat crop, and on hopes of the corn crop. Estimates by a Western trade journal, that the Winter wheat crop and the wheat reverses would make up the de-ficiency in the shortage in the Spring wheat crop, had much to do with the gon growers have also commenced ship-gon growers have also commenced ship-load of bananas arrived yesterday, and as they were not so ripe as those which have been reaching Portland earlier in prices of stocks have not only kept pace with a damage to wheat but have been discounting continued deterioration. The rains in the Northwest caused a sharp check to the speculation on this basis. The iron and steel stocks showed decid-

> Hank of England's price for gold and for American Engles. The decline in ex-change is said to have been caused by the coming upon the market of long sterling bills, which have been held for maturity, and are now being sold as sight bills. As they had figured meantime as collateral for loans, their liquidation now involves the paying off of loans, and may help to account for the current ease of the money market. The decline in exmoney market.

prices were firm. Total sales, par value, \$1,050,000.

The total sales of stocks today were 220,200 shares. The closing quotations were;

the wheat weakness, it was firm. August closed 1/6% depressed, at 43%; July closed 1/6 lower, at 45%. Outs were steady early, but yielded some later out of sympathy with wheat. July closed 1/6 lower, at 1/4%. Provisions were weak, despite light hog receipts. A drive was made at pork by longs, and the whole list, as usual, suffered. The wheat weakness was a factor in the decline. There was a fair cash demand, but it was not equal to the task of susutaining prices against the influen-tial selling of today. At the bottom the market steadled in covering by shorts. September pork closed 23½c down, and lard and ribs 12½c down.

four hours to the regular sessions of the Board of Trade, and those hours today, were occupied principally in getting rid of recently acquired wheat. The market opened lower because Liverpool was

opened lower because Liverpool was down, and the long pressure was on the market. Under a demand from Wall street and the Northwest, and some covering by shorts the market regained the initial dip, and this and a lot more was lost later. Local longs of the influential type started the market in its waskened

type started the market in its weakened

condition, and simply choked up the open-ing through which much high-priced stuff has recently disappeared. Outside longs on the decline joined the ranks of sellers, and the market became so one-sided that it dropped the, with only momentary checks.

The bottom was reached near the end of the session, and covering by shorts caused a little recovery, but not sufficient in amount to relieve the market of the charge of decided weakness. The August option was the more active, although July was anything but slow. August closed % down at 81%, July closed % lower, at 80c. There were rains in North Dakota and Manitoba, but private advices from these sections and other parts of the stricken Northwest did not vary much from the recent tone.

IRON AND STEEL,

naces Are Closed. YORK, June 28.-Ascording to the Iron Age, in its weekly review of the Iron and steek situation, it is idle to attempt to disguise the fact that the situation in the Iron trade has been growing worse instead of better. That paper after thus deciaring its views, says:
The reductions in prices which have
thus far been made have not served
their purpose in bringing the great body of consumers into the market. They con-tinue to withhold their orders and it will probably take some definite devel-pments of a favorable character to induce the pincing of any considerable business. Instead of favorable developments, we have had for some time a succession of unfavorable influences. Among these, the drought in the Northwest is just now exerting a particularly distressing effect If conditions in that section were as they should be at this season, the great im-plement manufactures would unsoubted-ly have placed orders to cover the material they need in making up imple-ments for next year, while other im-portant consumers having considerable outlets in that direction would have un-

doubtedly been good buyers of iron and A meeting of leading iron and steel makers was held in this city on Tuesday

pig iron, steel and finished products must get down to a solid basis before business will start up. The fact must not be over-looked that a restriction of production is taking place, with the possibility that in a short time the supply of various kinds of material will be found shirply reduced. It is estimated that at least 20 blast furnaces making foundry iron have been blown out in the past two months. Southern blast furnaces are being banked because of labor troubles, and fear is expressed that a satisfactory arrange-ment cannot be made, but that quite a number of furnaces will be co

cannot be moved. The failure to agree on the wage schedule for the coming year in Western rolling mills will cause the closing of a considerable number of establishments of this kind after July 1. The effect of low prices in plate is seen in the stoppage of a large Western plate mill because of inability to meet present

market prices without loss.

An important development in the metal market has been the sharp advances have the price of pig lead. Two advances have been made during the week, aggregating \$10 per ton, presenting a marked con-trest to the recent course in prices in this commodity. Spelter also manifests in upward tendency.

Eastern Livestock. CHICAGO, June 28. — Cattle—Receipts. 8000. Steers, active, strong to 10c higher; butcher stock, steady to strong; natives best on sale today, five cars at \$5 60; good

The Metel Markets. NEW YORK, June 28.-Iron today was even in a worse condition than it has been. No. I Northern was offered at \$18, but found no buyers. Pittsburg reported free offerings of bessemer pig at \$19, but, with steel billets down to \$25, bessemer pig is not worth over \$15. English mar-kets for iron were all weak. The showed an advance of £4 15s for spot in London, with only small transactions. The al market was firm, but dull, while of during were neglected. The close was quiet at \$1 27\cdot 631 \$2\cdot 67 for spot. Copper both here and in London was quiet, closed, at \$4 22\cdot 67 given by the spot of t lead was \$4 10, and for copper, \$16 25.

LONDON, June 28 .- Bar sliver, 28 9-16d.

The Cotton Market. NEW YORK, June 28 -- At the opening makers was held in this city on Tuesday and while the nominal Pittsburg' prices of \$30 for Bessemer iron and \$25 for Bessemer billets were not changed, it is noted that the market is now an open one and that pig iron and steel are both being offered at much lower prices.

The pian of having a fixed price on pig iron and steel and then selling at lower prices is not helping the market, but a hurting it. It is realized that prices on pig iron, steel and finished products must get down to a solid basis before business.

NEW YORK, June 28.—At the opening of the cotton exchange today, values in the cotton exchange today. me, 47 points; July, 30 points; August and September, 2 points higher; months, steady at a decline of 499
