CAR'S WILD LEAP
Plunged from a Tall Tacoma Trestle.

CARRIED 36 TO DEATH
Three Scores Others Injured.

OVERLOAD CAR RAN TOO FAST
People Were Seated on Floors on Side of Track. After Taking the Leap of 40 Feet.

TACOMA, July 1.-Nearly 32 people were killed and 130 injured today when a 50-ton loaded freight car, moving around a curve, derailed on the Great Northern railroad at the intersection of 18th and 19th streets.

The front of the train, carrying passenger cars, was in the 20th street station. The freight car, with its load of 5000 tons of coal, was heading west. It was proceeding at a speed of about 15 miles an hour when it jumped the tracks. The freight cars were derailed and the coal load fell over the trestle, causing the passenger cars to fall.

The accident occurred about 11 a.m. near the 18th street station. The coal load was spread over a wide area, and the passenger cars were thrown off the tracks, causing a great deal of destruction.

The accident was caused by the derailment of the freight car, which had jumped the tracks due to a combination of factors, including excessive speed and worn tracks.

The cause of the derailment is being investigated by the National Transportation Safety Board (NTSB). The board has launched a full investigation into the accident to determine the cause of the derailment and the factors that led to the tragedy.

The accident has caused widespread destruction, and the city has declared a state of emergency. The authorities have urged residents to stay away from the area and to avoid unnecessary travel.

The accident has also caused significant damage to the infrastructure, and repairs are expected to take several days.

The accident has highlighted the need for better maintenance of the rail infrastructure, and the authorities have promised to review their maintenance policies to prevent similar accidents in the future.

The accident has also caused a significant loss of life and injury, and the authorities have offered their condolences to the families of the victims.

The accident has also caused a significant disruption to the rail network, and the authorities have urged residents to use alternative means of transport until the network is restored.

The accident has also caused a significant economic impact, and the authorities have promised to provide financial assistance to the affected residents.

The accident has also caused a significant environmental impact, and the authorities have promised to clean up the area to prevent any further harm to the environment.

The accident has also caused a significant social impact, and the authorities have promised to provide psychological support to the affected residents.

The accident has also caused a significant cultural impact, and the authorities have promised to commemorate the victims in a dignified manner.

The accident has also caused a significant political impact, and the authorities have promised to take action to prevent similar accidents in the future.
