CITY NEWS IN BRIEF

Amusements Tonight. CORDRAY'S THEATER (Washington Street)

ALIENTS WINTER GARDEN (Third and

READY TO CLOSE FOR DOG DAYS.—Business in the State Circuit Court for the term is about at an end. One or two more divorce cases will be tried, but otherwise there will be no further trials until September. Judge Cleiand has gone to Clatsop beach, and the other judges will take a vacation soon. During vacation there will always be at least one will take a vacation soon. During vacation there will always be at teast one Judge available in order that any urgent matter may be disposed of. The next jury will be called for the September term, and there will also be a grand jury, as there are two murder cases to be investigated. Several decisions have not yet been rendered, but there is only one important case pending, being that of George H. Williams, Henry Weinhard and others against the Commercial National Bank. This was tried before Judges Sears and Frazer, and may possibly be decided before the final adjournsibly be decided before the final adjourn-

IMPROVING THIRD STREET. Improve-ment is making its way south on Third street. A second story is being added to Therkelson's brick building at the corner of Taylor street. Goldsmith's brick build-ing at the corner of Columbia street is also having snother story added to it. ing at the corner of Columbia street is also having another story added to it. At the corner of Montgomery an old shack, occupied by a Chinese laundry so long that the name of the building has been forgotten, is being torn down. The property is now in the hands of Russell & Blyth, who it is said intend to erect a building in flats there, which may necessitate the removal of two other cottages. Just south of College street Mr. Thurlow has lately erected three neat dwellings. On the adjoining property a fine two-story house was erected last season, and several cottages were fixed up and other improvements made.

DELINQUENT LICENSES.—The City Treas-

DELINQUENT LICENSER.-The City Treasurer was kept busy yesterday receiving license fees, and the Auditor's force was kept busy issuing licenses. Some 15 dealkept busy issuing licenses. Some 15 dealers in liquors had not secured their licenses hast evening, and a number of vehicle licenses have not yet been taken out. In all something over \$20,000 out of about \$34,000 due for licenses has been paid in. The 16th of the month is the last day of grace for paying licenses, all remaining delinquents after that time have a penalty of 15 per cent added. This, on the \$14,000 still due, would amount to \$200. Some have, however, maintained that licenses can be paid on the 11th of the month, without the penalty being imposed, and City Attorney Long has this matter under consideration. Probably a matter under consideration. Probably a considerable portion of the \$14,000 delinquent will be paid in today.

INCORPORATIONS.—Articles of incorpora-tion of the Columbia River Coal Company were filed in the County Clerk's office yesterday. The incorporators are Thomas G. Greene, A. J. Vantine, C. H. Bauer, and M. Sichel; capital stock 100,-Sauer, and M. Sichel; capital stock \$109,-600. The objects announced are to de-velop coal lands and contract for the sale of coal. Articles of incorporation of the Interior Warehouse Company were filed. The capital stock is \$109,000, and the incorporators are Walter J. Burns, Francis D. Chamberlain and David A. Pattulic, Portland, and Alexander Bati-lie, Seattle. The objects are to operate grain elevators and warehouses, and to grain elevators and warehouses, and to carry on a general warehouse, elevator, shipping, commission and trading busi-

DEPUTY CITY ATTORNEY,-At the last meeting of the Common Council City Attorney Long asked for an additional deputy. The matter was referred to the committee on ways and means, and they will probably report at the next meeting. There has as yet been no provision made for the salary of the additional deputy asked for. It is, however, understood that Mr. Long has appointed a new deputy in the person. John D. Mann, whose duty will be to attend to havings in the duty will be to attend to business in the Municipal Court, and Deputy Davis, who has been attending to this business, will assist Mr. Long in his office business. Probably Mr. Long has been informed that provision will be made for the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of Mr. Mann hence his appropriate that the salary of the salary ary of Mr. Mann, hence his appoint-

Parlor cars on all trains Ilwaco. Parior cars on all trains.

DON'T WANT THEIR MONEY.-About 50 DON'T WANT THEIR MONEY.—About 50 creditors of the Union Banking Company have not yet called to receive the amounts due them on the last dividends declared, although Frank Hacheney has made every effort to have them come in and secure their money, so that he can close up the business. Some of these "delinquent" creditors have only small amounts due them, but others have sums worth looking after. Mr. Hacheney's worth looking after. Mr. Hacheney's friends have advised him to take no more trouble in the matter, but to lay the money aside where it will be easily found when called for, and to let the creditors benceforth do the walking and worrying, and this is about what he intends to do.

AGAINST WOODEN SIDEWALES.-Appliestions are constantly being made to the City Engineer for permits to repair wooden pavements within the fire lim-Some time ago the Common Council, desiring to promote the laying of con-crete sidewalks in the city, passed an ordinance providing that no wooden side-walk should be repaired within the fire limits to an extent greater than one-third its original cost, and the Board of Fire Commissioners are prohibited from granting any other or further permit to repair such sidewalk. It is therefore useless to apply for permits to repair wood-en sidewalks within the fire limits after they have been once repaired.

MERTINO OF SOCIAL DEMOCRATE.—A convention of the Social Democrats will be held tomorrow at 7:30 P. M., at the Weah-legton Hotel, corner of Third and Flanders streets. Four Presidential electors for Debs and Harriman will be selected. Officers for the state organizations and executive committee will be elected to carry out the campaign. Speakers will be sent to all parts of the state, and it is the intention of the socialists to pursue the same tactics that proved effective and successful in certain counties during the successful in certain counties during the Populist campaign of 1896.

Populist campaign of 1896.

NEEDLESS FRICTION.—If the paving, planks and supports of Grand avenue had been impregnated with the German wood preservative, Avenarius Carbolinsum, when first placed in position the present strife between landlords and tenants regarding repairs would have been obviated. The treatment would have added but a triffe to the cest and the timbers would today and for many years to come be in as good condition as when laid. An ounce of prevention saves a pound of cure.

OTHER DEPLETED FUNDS.-The Board Police Commissioners have sent a imunication to the Common Council sarnestly requesting them to appoint J.

Wells as Humane Officer, in the interests of the Humane Society. They state that he has been dropped on account of the depleted condition of the police fund. This is very creditable to Mr. Wells, but the police fund is not the only one de-

pleted. There are others.
Home-Made Musi Material.—Among the manufacturing establishments which have found locations on Front street are four mills for grinding four, feed, mush minterials, etc. As Oregon produces plenty of wheat, oats, barley and rye of the best, it would seem that the de-mand for all kinds of materials for much. with foods, etc., should be supplied by

Free Chinook in Marker.—The salmon trade in this city has arrived at a pars never dreamed of a few years ago. Fractically there are no Columbia River salmon in this market, the supply being secured from Puget Sound and elsewhere outside. As the fish arrive minus their heads and entrella there is no offel out. outside. As the nsh arrive minus their beads and entralls, there is no offal procurable by those who are in the business of catching crawfish for market, and who have been accustomed to depend upon this offal for bait. These men are desirous of some one going into the business of catching carp for crawfish bait. The reason why Portland people have to depend on Puget Sound for salmon is that the price paid for Columbia River salmon for freezing and pickling to send abroad is so high as to render it unprofitable for dealers here to handle them. This will soon result in few or no Columbia River salmon being camed, and the business going into the hands of the picklers and cold-storage men, and the climination of the Chinese from the camery business. Coopers will be kept busy making tierces out of Oregon wood, to take the place of the cans, and more of the money received for salmon will be kept at home. heads and entralls, there is no offal pro-

PORTE COCHDAM - Preparations are about completed for beginning the work of building the proposed ports cochere over the Morrison-speet entrance to the Portland Hotel. The structure will be of iron and glass, much on the plan of the one over the main entrance to the hotel, and will not have any platform on top. The object of it is to mark more for the object of it is to mark above prominently the Morrison-street entrance, which was originally intended as an en-trance for the help and for supplies, but which is now much used by the public.

TO THE REPORM SCHOOL-Charles Van To the Repork School.—Charles Van Buren, 15 years of age, was committed to the Reform School yesterday by Judge Frazer on petition of Superintendent Gardner, of the Boys' & Girls' Ald Society, who stated that the boy is victous and incorrigible and beyond the control of the managers of the society.

GREAT DEMAND FOR HARVEST HANDS.— The general freight office of the Northern Pacific received word from Ritaville. Wash., yesterday that harvesting is delayed because of lack of help and that 160 men can get work at 22 a day and board for six weeks or two months. Go With St. David's Sunday scho New Wreat Pret.—A. M. Downing, of Lewisville, Clark County, Wash, has sent to The Oregonian several wheat plants which have been ruined by some insect pest. He says the wheat in the vicinity of Lewesville is all being killed

WELL-KNOWN EAST SIDE RESIDENT.

JOB HATFIELD, WHO DIED SUNDAY AT PASO ROBLES, CAL.

by this pest, which strips the outside off the leaf and the plants die down and disappear. The pests are found on the stem just above the ground. Mr. Downing has been Il years in this region and has never seen anything of the kind before. Pests of several kinds are damaging the wheat in many places in this region this year, and there have been many inquiries made in regard to them. As The Oregonian has no entomologist in its employ Mr. Downing's samples have been sent to the Agricultural College, at Corvallis, where all requests for information in regard to wheat pests should be forwarded. This region has heretofore been so free from wheat pasts that very few here know anything about them.

SMALL STOCKYARDS.—The stockyards it

SMALL STOCKYARDS.-The stockyards it seems are a small matter to be having so much fuss about. The property has been leased to Warren Merchant and H. H. Morgan since 1995, with an option to & C. R. R.—Leave Portland 8 M., arrive Astoria 11:30 A. M., Sendirect 12:30 P. M. Connect at Astoria direct 12:30 P. M. Connect at Astoria purchase, and they have lately consummated the purchase, paying \$10,000. The property is an irregularly shaped piece bounded on the north by the right of way of the Northern Pacific, on the east by Front street, on the south by Wilson street, and on the west by Sheriock avenue, and contains less than a block of land. It would seem that the owners should be anxious to remove the yards to some place where there is more room. to some place where there is more room and better conveniences for the business. The buildings are nothing but tumble-down sheds, and the land ought to be down sheds, and the land ought to be worth more for other purposes than for stockyards. Plenty of places suitable for stockyards could be found not far from the present location.

from the present location. LAST OF THE BLACKBERRIES.-Black berries which have been as pientiful as they were in Faistaff's day on the hills back of the city this season are now becoming scarce, and their time will soon be over. The berries have been unusually fine and could be obtained in any quantity for about 40 cents per gallon, and many housewives who never had enough of this delicious fruit to satisfy them before now have all of it their hearts desire. sire. Hundreds of men and boys have been engaged in picking and marketing these berries, and many of them have earned snug sums in this way. A few are still coming in, but a few buckets full now take the place of dozens, and wild blackberries will soon be a thing of

the past for this season BIG RUSH OF TAXPATERS.—There was another big rush to pay taxes yester-day, and the clerks had all they could do only, and the clerks and all they could do
to wait upon the people. The crowd was
thick at times, and, in order not to lose
any time and to be as accommodating as
possible, the office was kept open during
the noon hour. It is a remarkable fact
that so many persons will delay the payment of taxes until almost the last minment of taxes until almost the last minute, but it is so every year. The col-lections during the last two days have been very large, and Sheriff Frasier was kept busy indorsing bank checks. The collections are deposited in various banks, and the money is made available for the use of the County Treasurer almost im-

mediately.

Sacrificed Trams.—Seven trees in all have been cut down in clearing the ground for the site of the D. P. Thompson fountain between the plans blocks. Five of these were maple shade trees along the curbs, and one inside the fence of each plans block was sacrificed. One of these was a good-sized locust, and a section of the trunk has been secured by L. L. Hawkins for the forestry exhibit of the City Museum. A section where four branches forked has been preserved to make a stool to be placed in the plans. It is not common to find a section of a tree suitable for a stool with branches mediately.

a tree suitable for a stool with branches of equal size to form four legs. Ormning New Books.—City Treasurer Werlein is hard at work opening a new set of books for his office. This is necessary when a new Treasurer is elected, and is quite a job, and, until it is completed, the accounts of the office must be kept in temporary form. Mr. Werlein hopes to have his books all ready for business by Saturday.

EXTENDING WILLAMSTIE HIGHTS ROAD. EXTENDING WILLAMSTTE HIMSETS HOAD.

The work of grading the west end of Thurman street for a half-mile extension of the electric road to Willamette Heights is about completed, and the iron for the track will soon be on hand. As soon as it arrives the work of tracklaying will

The Case of Uganda.

LONG BEACH, July 10 .- (To the Edi-LONG BEACH, July 10.—(To the Editor.)—I, in common with those of my church lik, agree perfectly with The Oregonian that Christians should not expect, nor wish, their country to be embroiled through their missionary efforts. This would be contrary to the spirit which they profess. But is not the missionary but one element, and perhaps a secondary one, in the terrible development in China? one, in the terrible development in China? But there is another matter which is of great interest to Christians; and to this I will be giad to respectfully allude. And to do so, I would like to give only one instance of the many, to the fact that it is not mistaken charity which carries missionaries into the van of civilizing work. Uganda is my text. Twenty-five years ago (1 write from memory), Hannington was murdered there. Immediately Oxford students offered themselves as work-ers there—one giving his fortune as well. Now they are a Christian people.

Gift Acknowledged.

ROSEBURG, Or., July 2.—(To the Editor.)—Through the columns of your paper I desire to thank the ladies of Lincoln-Garfield Relief Corps, No. 18, Port-land, Or., for the beautiful rolling-chair they have presented to the sick and paraiyzed comrades in the hospital at the Oregon Soldiers' Home. It is oak, with cane seat and back, of the latest pattern, ornamented with a silver plate, with name and number of corps inscribed upon it. One of our paralyzed comrades said to me: "How nice it will be for me to have such a chair as this to get out on the porch in the sunshine." It is a generous and expensive gift, and does honor to the loyal women who compose the Lincoln-Garfield Woman's Relief Corps. MRS. ANNA M. SHIPLEY

Distinguished Representative Here. Representative Landis, of Indiana, who has come to Portland to deliver an ad-dress before the Chautauqua Association at Gladstone Park, arrived in the city yesterday, and was dined by Representative Moody at the Poetand. With the two Congressmen were Judge H. E. Mc-Ginn, C. J. Reed and O. F. Paxton. Mr. Landis was the distinguished colleague of Senator Beverldge, of Indiana, in the last Congress, and became known all over the country. He and Mr. Moody are par-ticular friends, and it was with much pleasure that the latter found the opportunity of entertaining the statesman from Indiana in the heart of Oregon.
