

THIRD PARTY TICKET

GOLD DEMOCRATS AND ANTS JOIN HANDS.

McKinley's Policy and Bryan's Principles Are Assailed—Will Meet in Indianapolis.

NEW YORK, July 18.—In response to a call issued a few days ago, a number of Gold Democrats and anti-imperialists met in this city tonight to discuss the methods of bringing a third party ticket before the public. An address was adopted assailing President McKinley for his Philippine policy and his scandalous appointment to Federal offices, characterizing Governor Roosevelt as "the frank embodiment of militarism," and declaring that the Republican party stands for all forms of special privilege. Mr. Bryan, the address says, is as objectionable as President McKinley.

CONSTRUCTION TO BEGIN.

Pacific & Idaho Northern Railroad to Be Pushed to Council.

WEISER, Idaho, July 18.—P. P. Shelby, general manager of the Pacific & Idaho Northern Railway, returned today from a visit to the Legislature, and he is enticed over the prospects for the West. He states that the construction of the Pacific & Idaho Northern will be resumed this fall, and pushed through from Cambridge to Council before snow flies. There has been no construction this summer, because of the excessive cost of labor, now that this commodity is selling at a high price. The company has sufficient material to push the work the 25 miles indicated, at least; when it may be they will suspend operations until a further reduction is effected. It is believed to be on the cards at this time. The Pacific & Idaho Northern has been sold half a dozen times by as many persons, and yet such things are not known by the owners and promoters of the enterprise, Mr. Shelby stating that it was absolutely without foundation. This road was promoted for the purpose of furthering the mining interests of the Seven Devils section, in which Lewis A. Hall, the president of the road, has large interests. It was built from this city to Cambridge, Idaho, and the grade was done to Council, 25 miles further, and considerable on to Helena, 40 miles further still. Between Council and Helena, which is the town and postoffice for the celebrated Pascook mines, there was much discouragement to the railroad-builder, but the worst places have already been overcome, several tunnels having been dug, and the road is now 2000 feet above the wagon road at Bear, 20 miles away, the grade of the road may be seen. This line from Council to Helena was a big business, even though it has been so fully done as to enable tracklaying to begin almost at a moment's notice and continue without cessation, as the grade is not to be done in a superficial nature. Until the road is completed, the mines of that great section will not advance as they ought, as there is at present only the most primitive method of transporting the ore, which is by wagon roads, and the very best character, the mountains are steep, the winters long, and the expense of getting ore out is from \$10 to \$15 per ton, which is a charge only the highest-grade ores can stand. There is now an immense tonnage of ore lying on the dumps waiting for cheap and rapid transportation, so that the road is the highest-grade ores can stand. There is, as well, a great timber belt to be taken care of by a railway, and this will insure a big business, even before the mines are reached, as the forests are below the altitude of the ore deposits. There seems no possibility but that the road will be built, and it is continued, before this time next year into the heart of the Seven Devils. This fact will have a reviving effect upon all the industries of this section, and especially mining.

PRESIDENT HAS THE POWER.

Hanna Says an Extra Session is Not Necessary.

CHICAGO, July 18.—"I see nothing in the present time to warrant a special session of Congress. The question is one which affects the moral and patriotic sentiment of the public, and one which should not be dragged into politics. The President is clothed with all necessary power to deal with the existing situation in the Orient, and unless there is a serious change for the worse there is nothing that Congress could accomplish by assembling."

The Populist Notification.

LINCOLN, Neb., July 18.—Vice-Chairman J. H. Edmiston, of the Populist National committee, said tonight that the notification will occur in Indianapolis at the same time the Democrats meet. Mr. Bryan, Mr. Edmiston said, Mr. Towne had not yet officially accepted the nomination or withdrawn from the Populist ticket, but he expected to hear from him before many days. Mr. Bryan had no visitors of prominence today.

FOR STRIKING CIGAR-MAKERS

Funds Voted by the Federation of Labor.

DENVER, July 18.—The executive council of the American Federation of Labor today voted to give the striking cigar-makers of New York 2 cents per capita of the membership of the Federation. This, it is said, will amount to about \$15,000. It was announced today that the offer of the council of its good offices in the effort to adjust the differences between the Chicago Building Trades Council and the contractors had been refused by the latter. The labor unions of Colorado were advised to use every effort to secure a constitutional amendment providing for an eight-hour law. Several minor matters were referred to President Gompers, with power to act. Tonight the members of the council addressed an eight-hour mass meeting at the Lyceum Theater.

Bossism and Bosses.

The American system of politics has developed, or rather evolved, a class of creatures known as "bosses," and these wield a most despotic sway. Those who attach themselves to either party for the personal and pecuniary advantages to be derived. These clinging, subservient beings, upon whom the boss depends for success in his schemes, are time-servers in every regard, and would constitute the servile population in all countries. They would never have stood in the ranks at Runnymede to demand of King John, and if necessary, die for Magna Charta liberties; they would not have opposed the Declaration of Independence with the Revolutionary patriots. The work of bossism begins at the pri-

Futallers to surrender. The enemy suffered severely. They had 15 killed and 10 wounded, and four were taken prisoners. The British casualties were seven killed (including the Canadian Lieutenants, Borden and Rich), 30 wounded and 21 missing.

"Isaac Hamilton's column advanced to Waterval yesterday unopposed, and today reached the enemy's position. Fifteen hundred Boers with five guns managed to break through the cordon formed by Hunter's and Ruddle's divisions between Bethlehem and Ficksburg. They were making towards Lindley, being closely followed by Paget and Broadwood's brigades."

In a dispatch dated today, Lord Roberts says: "They were killed while gallantly leading their men in a counter attack on the enemy's flank at a critical juncture of the assault on one position. Borden was twice brought to my notice in dispatches for gallant and intrepid conduct."

The Rev. Hugh Price Hughes, president of the Wesleyan conference, said he conveyed from 30,000 Methodists of Great Britain the desire to form an alliance with every true Christian in the world. The Rev. Madell Creighton, of London, presided at the Christian Endeavor Society's heartiest welcome of his diocese, and assurance of sympathy with the work of the large body of Christians here represented. Dr. Parker, of the City Temple, urged the Endeavorers to nominate Rev. Francis E. Clarke and Rev. Charles M. Sheldon for the highest office in the United States, as Christian men should be at the head of things. The United States Ambassador, Joseph H. Choate, and the Archbishop of London sent sympathetic messages.

GEORGETOWN, Ky., July 18.—The trial of Caled Powers in the Goebel assassination case was resumed today. John Black, of Barboursville, a banker of that place and a Republican of prominence, was the first witness called. Witness said Powers had told him in January he was organizing an armed mob to go to Frankfort. Witness discouraged the project, but Powers insisted that the mob should be formed, saying it would intimidate the Legislature. Black, continuing, said: "I saw Mr. Powers later and again remonstrated against the formation of the mob which was going to Frankfort. Powers told me it was being formed with the approval of Governor Taylor, Charles Finley and other Republican leaders at Frankfort. Charles Finley also came to me and endeavored to get me to cooperate with them. I protested bitterly. Powers became very angry with me on account of the position I took. I tried to persuade them to send good citizens, people of influence, if any crowd was to be sent."

Recently she asked Mrs. Daniel Manning if a date had been fixed for the reception, and was told the invitation had never been accepted. Countess Spottiswood-Mackin therefore prints the letter to justify herself before the members of the society. In the course of an interview the Countess hints at dissatisfaction between the officers of the National society and the New York Chapter, and says this is the reason of the non-appearance at Paris of New York's regent, Mrs. Donald McLean, who is also an appointee of President McKinley. Mrs. Daniel Manning expressed regret at the publication of the letter, but declined to be interviewed.

BALMY SUMMER THE SEASON FOR TREATING DISEASE

Dr. Copeland's Earnest Advice to All Chronic Invalids Is to Take Advantage of Favorable Climatic Conditions for the Medical Attention They Require

HOME TREATMENT.

Doctor Copeland requests all who are illing, all who feel a gradual weakness or all who realize that their health is being undermined by some unmarked complaint, to cut out this slip, mark the questions that apply to your case and he will diagnose your case for you.

Of the hundreds of cases of asthma, lung troubles, rheumatism and catarrhal diseases treated and cured at the Copeland Institute during the past seven years, under the inexpensive system now so popular with the community, statistics prove that the average time occupied in a cure, with patients beginning during the summer months, is from one-third to one-half less than with those beginning a course during the rigors of winter.

The aim of the Copeland Institute is not only to cure the diseases that make so much of the gloom and sorrow of life nor is it their sole aim to bring relief to suffering at the lowest possible cost to the sufferer. Beyond this humane and most useful consummation, it has been Dr. Copeland's great ambition to cure disease in a far briefer period of time than that usually considered necessary.

There are maladies that it requires time to master. Asthma requires time. Seated lung troubles require time. Crippling rheumatism requires time. The rot and poison of catarrh requires time.

Dr. Copeland feels that when human beings are to be lifted from the pit there should be expedition. His earnest advice to all who contemplate treatment at the Copeland Institute is to begin now, while Summer lingers with her balms, and all the pleasant climatic influences strengthen the efforts of science to make recovery not only certain, but expeditious!

CHRONIC CATARRH COMPLICATED WITH SEVERE STOMACH TROUBLE

Mr. J. M. Miller, 340 East Sixth and Welder streets, Portland, telling of his radical cure of a distressing and debilitating chronic catarrh of the head, nose, throat and stomach, by a course of treatment at the Copeland Institute, said:

Aside from the many offensive annoyances incident to catarrh of the head and nose, that is to say, aside from the nuisance and discomfort and unpleasantness of the disease, I had been constantly increasing physical weakness and debility, a constant decline in health and strength.

WARM COMMENDATION OF THE COPELAND TREATMENT

Mr. D. N. Burwell, 300 Holladay avenue, Portland, a well-known postal railway clerk, Portland-Corvallis route: I had been in a very uncomfortable and more or less ailing condition from catarrh of the head and throat since childhood. The distressing and offensive feature of my disease, in spite of

Almost Incessant Doctoring

And doping with remedies, was in the stopped-up and scuffed-up condition of my nose and head, causing a constant drip of mucus from behind the palate, and in the intolerable abomination of an everlasting hawking and spitting to clear the throat, and clogging of the nostrils with scabs.

Some years ago the poisons of the disease began to tell on my stomach. My stomach began to turn against food so that I could hardly eat at all without nausea and sickness afterward. I ran down in weight until I weighed only 115 pounds; my normal weight is 160, and became irritable and nervous.

My wife had been a sufferer from catarrh for years, and a little time ago read the testimonial of a lady whose symptoms seemed just like hers. She called upon this lady, found the facts to be just as stated, and immediately placed herself under treatment. She improved so well that I became convinced the treatment would be just the thing for me, and took it up. Now I feel as I have not felt in 10 years, well and active, and free from the symptoms that made life a burden to me for a lifetime.

I have always had grave objections to making a public statement, but I do not believe it is possible to commend the Copeland Treatment too highly, and for the sake of those who are suffering and discouraged with aimless doctoring I feel it my duty to make this statement.
