"FIGURING" WEALTH.

A Valley Paper Pokes Fun at Money Dreamer.

The devil is to pay, John P. Robertson has discovered that had some one journed George Washington only 11. a 16th per cent per annum, payable semi annually, and compounded every six onths, there would on October 1 nex e due to the fortunate lender \$8,800,000, 900,600! And all the property under our fing, estimated at \$75,000,000,000, would pay less than I per cent of the debt! And all the wealth of the world would probanot pay 10 per cent? This is one disclosures in Mr. Robertson's de lightfully dismal communication printed in yesterday's Statesman. It is fortu-nate for this country and the world that some calculating John P. Robertson of his time did not loan George Washington a dollar at that rate of interest, and stay on top of the earth until October 1 next to collect and compound his interest semi-annually. History bolds its breath in thankful consideration of the fate which the world escaped on account of the fact that the contemporaries of the Father of His Country were not good at figuring, and prompt to act upon their knowledge. Mr. Robertson also tells us, in slightly stronger terms than usual, that the "Na tional banking system is inchoate trea son," and the National banks have been piling up profits far beyond their share. And still a lot of owners of private banks persist in refusing to open National banks, and actually go out of the National banking business-and even right here in Salem-in spite of the fact that John P. Robertson points them the way to much greater affluence, and proves it by the figures—and figures don't lie, though John P. will figure. Our old friend Uncle John Minto has best the National banks making money, by raising sheep. He has made 160 per cent and more on his money-160 per cent a year. And still no one has been greatly downtrodden by Mr. Minto's good fortune. Let Mr. Robertson figure up the wonderful profits made on sheep, and advise every farmer to keep a few sheep, and he will stand a chance of turning his faculty of fig-uring to some account. Then if the sheep-owners gubble up all the wealth, and crush out even the National banks, the wealth will be in good bands, and we will all be happy yet, and so will our children, despite the shadow cast over the universe by that dollar th loaned to George Washington that dollar that ween't
