ONE SUCCESSFUL VENTURE—Frank T. Schuck, who has just returned from Nome, is one of the few who have made a financial success of their trip to that place. Mr. Schuck had been at Juneau for the past year or two, but happened to be in Portland when the Elder was getting ready to sail for Nome, and had idea, arising from his experiences in Alaska, that tents and canvas would be in demand at Nome when the rush of goldseekers struck that place. He accordingly salled on the Elder, taking with him 15 tons of tents and a lot of heavy canvas. He disposed of all his tents in two weeks after arriving at Nome getting \$22 to \$25 for tents which sell here at \$7.50, and \$300 for tents which sell here for \$40. He did not find sale for his heavy canvas, as long as lumber was cheap, but soon lumber went up to \$300 per 1000 feet, and then his heavy canvas was in demand for roofs, and peo-ple were standing in line to buy it, and ple were standing in line to buy it, and he sold all he had in two days at very remunerative rates and started back with money to burn. When asked if any of the others who took goods up to Nome to sell had made any money, he said he did not know of any one. Those who took up groceries, liquors, etc., found everybody well supplied, and their pros-pects for making money on their ven-tures very poor. Mr. Schuck leaves for Juneau in a few days.

UPHEAVAL ON MOUNT HOOD .- H. Graham, who has just returned from a visit to Government Camp, on the summit of the Cascades, at the base of Mount Hood, reports that there has been an upheaval or some convulsion of Nature, which has changed greatly the appearance of the south side of the mountain about the snow line, at the point whence parties usually start to ascend the mountain. The new and picturesque hotel lately completed by Guide Focum was not disturbed, but he has been obliged to make a new trall from his place to the snew line. Many persons are on and about the slopes of the mountain now, and as the smoky season has not yet set in, the view is grand and the climate heavenly.

WOMEN TALKED STREET CLEANING .- A committee from the Woman's Club, consisting of Mrs. Cleveland Rockwell, Mrs. A. H. Breyman and Mrs. R. H. Hoyt, had an interview with Mayor Rowe yes terday afterroon. The object of the club is to promote the cleaning up and beautifying of the streets of Portland, and their talk with the Mayor was in reference to these matters. They made some sugges-tions, which met his favor, and they were assured that the Mayor would render them every aid in his power in carrying out their laudable scheme. It has been suggested that it would be a very proper thing for two or three of the members of this club to be put on the Park Comission or added to it.

MANY CLAIMS PAID.—The taxes intely ceived by the City Treasurer have enabled the city to pay off all claims against the fire and police departments to date, and allow of a fresh start being made. Warrants have been made out and are ready for the owners covering claims against the fire department for the past six months and against the police department for the past seven months. Salaries of employes of seven departments have been kept pretty well paid up, and now all claims have been cancelled. The bills of the Portland General Electric Company for light have also been paid to date, and a lot of people have been made happy.

DRIVING MONEY AWAY .- The action of the bar pilots in sending the schooner Pulitzer around to Puget Sound to undergo an overhauling said some not very ex-tensive repairs is tacher severaly commented upon by river men, ship carpen-ters and others. It is said that men at Astoria or in thus city offered to put the schooner in good condition for \$400, and that there is no reason why the work could not have been done here. The men who did the work laughed at the pilots, and remarked that Oregon must be a long way behind the times to render it necessary for such a job to be sent

around to Puget Found. around to Puget Fourne.

INPLUENCED BY OUR CLIMATE-Report rom New York received yesterday tel of the successful work of Mrs. Edyth Tomer Weatherred in securing for land the next annual convention of the International League of Press Clubs. It appears there were several cities in the race for the honor, but the totrid tem-perature prevailing in New York at the

time, together with the refreshing de-scriptions given by Mrs. Weatherred of Pacific Coast snow-capped peaks, ocean breezes and great forests, overcame the delegates, and they voted for Oregon with one voice. A considerable attendance of newspaper men is promised next year when the League of Press Clubs is called to order. Their itinerary will include Colorado, California, Washington

and British Columbia. ANNOTING DELAY.-Boating is largely indulged in evenings since the warm weather set in, and quite a fleet of boats and inumeres is to be seen speeding over the bosom of the placid Williametic every evening. There is also a good deal of driving on the Riverside road, which is in excellent condition, although there is much coinciaint in regard to the unnecessary delay in improving a portion of Macadam street, under contract to Smyth & Howard. If they wish to keep in good odor with the members of the division association they will have to driving association they will have to get a move on their employes.

MINER'S INCH ONCE MORE -A short time ago some one furnished The Ore-gonian with the definition of a miner's inch of water. A few days after it was stated that there are five different defini-tions of a miner's inch of water in use in Oregon, and that there had been som 50 decisions by courts in this state on the subject. Now, J. F. Halloran, publisher of the Mining and Scientific Press, San Francisco, formerly of the Astorian, writes to The Oregonian that "in Cal-lfornia and Oregon a miner's inch is 14 cubic feet flow per minute. The plank is 1¼ inches thick." OREGON HISTORICAL SOCIETY.-The Ore

Gradon Historical Society rooms in City Hall, top floor, will be open today from 1 to 5 P. M. for inspection by the pub-lic. THESE WERE STAR PLAYERS AT THE TENNIS TOURNAMENT.

Very Fast Work-Heat Told on All Contestants.

The feature of the tennis tournament yesterday was the match between Gifford and Andrews, which was without question the most exciting and most interesting match of the tournament thus far. It was replete with pretty passes, clever volleying and sensational cturns.

Both were on their mettle, and both played themselves to a finish. In the first set Andrews did not have vory good control of his strokes, and either kn ut or netted enough balls to lose the set, 6-3, winning the first, fourth and eighth games. Gifford, by steady playing, won the first three games of the sec-ond set, Andrews knocking out 10 of the 21 balls served. Andrews fairly carned fourth and fifth games by eight clever asses. Gifford won the next on his ervice. The next three games went to Andrews; score, 5-4 in his favor. Gifford made the set a deuce one, but could not prevent Andrews from getting the next two games and the set, 7-5. Andrews could not be stopped the first part of the third set, winning the first three games. Gifford then did the same thing; score, 3-3. Each then took three games alternately, and the set was deuce at 6-6. Andrews by a spurt got the necessary two games on 40-15 and 40-love. Score, 8-6. Throughout the entire match neither dared let up on the fast pace, and the furious play and the hot sun completely used them up. Eighteen of the 25 games played were deuce games, Andrews winning 11 of

Probably the hardest ladies' match was that between Mrs. Cook and Miss Elmore. Mrs. Cook won the first set, 6-4, not with-out considerable difficulty. After a short rest Miss Elmore won the next set, 8-6. The sun shone so hotly and the exertion was so great that Miss Elmore was unable to continue, and she defaulted the third set and match to Mrs. Cook. This places Mrs. Cook in the finals against Miss Hal-

Goss and Lewis won two matches in the nen's doubles, one in the morning against Wickersham and Leiter, 6-3, 8-6, and one in the afternoon against Andrews and C. H. Lewis, 6-3, 6-3. This places them in the semi-finals against Cheal and La

being perfect in execution. He excels at the net and plays a heady game. Gifford and Remington, by beating Gra-ham and Paget, 6-1, 6-2, go into the semi-finais against Smith and Benham. Rem-ington is a very careful, steady player, and the two makes a strong combination. and the two make a strong combination The mixed doubles, as usual, attracted the spectators, particularly the match been Lewis and Mrs. Cook, and Baker and Miss Halsted. Each of the two mixed doubles matches required three sets, doubles matches required three sets, Lewis and Mrs. Cook winning, 6-2, 4-6, 6-1. Leiter and Miss Morse bent Goss and Miss Goss, 3-4, 7-5, 6-0, after having lost the first set and almost the second.

A leading feature will be an article on the Chinese embrogilo, describing scenes embracing the present theater of action of the Boxers, and giving information concerning the people and institutions of the Flowery Kingdom, by one who knows whereof he speaks. The article is illustrated by well-executed views, and is prehensive in its scope, as well as be-very apropos at the present time. On the same page will appear an article reminiscent of the great Cheyenne upris-ing in 1862, written by H. B. Metcaif. This historic event is graphically and
