# SOME STRIKERS AT WORK

OUT.

Montgomery Dock, No. 1, W. K. Scott, manager, and at the Pacific Coast Elevator Dock, D. T. Brush, manager, work was in progress during the day, but at the others there was nothing doing. At the Montgomery Dock all the old force resumed work yesterday morning, there being about 2 men employed. They were engaged in running wheat through the cleaner. No cars were unloaded. At Columbia, No. 2, adjoining Montgomery Dock, there was nothing doing at all, and the manager said that he could not understand how the old men had gone back to the Montgomery and had not returned to Columbia, No. 2, and to the other docks. He said that Mr. Scott had not agreed to pay the wages demanded by the men, but was paying the old terms of 20 cents an hour. At the Pacific Coast Elevator Dock there were 16 men at work, gathered in the afternoon, and they declared that they were just as determined as ever to stand firm, and would not resume work at the old figures. They had been sent for by the dock managers in the morning, but had refused to work unless they got what they asked for. Regarding the crew of the old men resumout again. It is understood along the beach that Mr. Scott is paying his men 30 cents an hour, while the striking men on the street were claiming that the crew had been promised 40 cents an hour. This was the situation yesterday afternoon.

They Declare They Will Stand Firm for Their First Demands.

long and lively meeting of the striking dockmen was held in Schrantz Hall, Lower Albina, last night, which was attended by a greater portion of the men. Milton Forney presided, as he has at air former meetings. Minutes of the former Street Pair Committee Are Not Remeeting were not read, and the chair called for business. One of the results of the meeting was to stiffen the back-

fact that a considerable number of men who had signed the agreement had gone to work in Montgomery dock, W. K. Scott, manager, and also at the Pacific

Coast Elevator dock. More had gone to work at the former than at the latter dock. Several of these men were present, and an explanation was asked of them. Their statement was that Man-ager Scott had indirectly promised them 40 cents an hour, and on this promise they had gone to work. He did not state directly that he would pay the 40 cents per hour, but they considered from what he said that they were to be paid at that rate. He said they would be satis-fied with their wages Saturday night. This was the explanation of the men of why they went to work. One of the men said that Manger Thorn, of Columbia, No. 2, was much put out at the men going to work at Montgomery, and had not returned to his dock, and that he was ready to pay as much as Mr. Scott at any time. It was also asserted that other managers, other than Mr. Bush, of the Elevator, had made the same statement. After the explanations had been given, vote and expression it was decided by the meeting that none who had signed the agreement could resume work at Montgomery on the indirect promise, but that Mr. Scott must say what he will pay directly. To continue to work under an indefinite promise was regarded as a dis-tinct violation of the agreement that had

been signed. They could not know what Mr. Scott considered "good wages," It might be 30 cents, or even less. Howeyer, it was the opinion of all the men present last night who worked at Mont-gomery that it was the intention of Mr. Scott to pay them 40 cents an hour. All present who worked there yesterday agreed that they would not go back there without a specific and definite under-standing that they should receive 60 cents an hour. Six present agreed to this. Of those who went back to the Elevator yesterday, several agreed to keep away from there.

The chair then announced that about 25

men had been placed with good jobs in the country, and he wanted 11 men to send away at once at good wages. There was some more discussion and the meeting adjourned.
