BRITISHERS FORCED TO ADMIRE DEWEY'S MANEUVERS

Boers Cut Lord Roberts' Communications and Captured a Party of Highlanders

LONDON, July 23.—A blue book has been issued containing the official correspondence with reference to the treatment of rebels in South Africa. It contains an interesting note by Sir Alfred Milner, British High Commissioner, estimating the number of Boers who joined the Boers at 10,000. Mr. Chamberlain, Secretary of State for the Colonies, laid down the rule that there should be no vindictiveness in the treatment of rebels, but that justice to the loyalists is the obligation of duty and honor.

DEWEY'S BOLD RAID

Federal Commander Cut Roberts' Communications

LONDON, July 23.—General Dewey has again succeeded in cutting Lord Roberts' communications both by railway and telegraph and captured 100 of the Highlanders. Alejandro, containing an alleged account of an interview between Dewey and General Alejandro on board the Olympia, April 1898, in which it is stated Admiral Dewey promised independence to the Filipinos, was shown to the Admiral today by an Associated Press reporter. Dewey has characterized it as a "tissue of falsehoods." He declared it absurd on its face.

Rescuers Came Just in Time to Save Them From Perishing—Other Foreign News

PUMBU, July 23.—The Kumassi relief column has just arrived here from Kumassi, which it left July 17, bringing the old garrison, about 30 fairly fit men, 70 broken-down invalids and some women and children in a pitiful condition. The success of Colonel Willcocks is due to choice of a route not suspected by the Ashantees who concentrated in thousands along the eastern route, but in much smaller numbers along the western route, via Pict, which Colonel Willcocks adopted. As it was, the Ashantees were active, and the roads knee-deep in mud.

COMPLAINT AGAINST DOLE

Appointed All Republicans on the Registration Board

SAN FRANCISCO, July 23.—Advises from Honolulu, dated July 16, state that there is dissatisfaction expressed with Governor Dole's board of registration. DISCHARGING EARS AND DEAFNESS

Mrs. M. Donthit, Postoffice address Portland: Many years ago I had diphtheria and since that time have been troubled with my ears. There was a constant discharge from both ears. Sometimes it was merely a little watery discharge; at other times it was thick and foul. I had sharp, shooting pains through the ears, and a terrible itching. At times this would nearly set me wild. The ears were dry and scaly. My hearing was very dull. I could not understand the common tones of the voice. At church I could not hear what the minister said unless I was right up in front. I could not hear the clock tick except when close up to it. There was a continual buzzing and roaring in my head and a stopped-up feeling. Under the treatment given me at the Copeland Institute my ears healed and my hearing returned. I will gladly answer any letters, for I am always pleased to see this slip, mark the questions that apply to your case and he will diagnose your case for you.

BALM FOR THE SEASON

FOR READING DISEASE

What Summer Means in the Cure of Catarrh

There are contracted during the periods of Fall, Winter and Spring those catarrhal conditions of the head and throat and other parts that are engaged in carrying air to the lungs. The changeable weather, the cold spells followed by warm periods with thaws and dampness, together with a necessary during the cold weather of living indoors with the house shut up and often overheated, the impure air of closed buildings, all tend to the development of disease of those parts which carry the air to the lungs and to the ears. Not only does the inclemency of Spring, Fall and Winter produce such diseases, but the same causes that produce the diseases also interfere with the efforts of the doctor to cure them. During the summer months things are different. The climate is warmer, the high winds loaded with dusty particles that irritate the diseased parts that carry the air about; there is plenty of fresh air, as the doctor is able to get the patient out of doors. Life improves the general health. Nature is able to improve all these diseases that attack the breathing tract and ears. Thus, in the treatment of all catarrhal diseases, that which has been frequently used is true, namely, that one should be treated during the summer, when the humidity and moisture of the air, the humidity and Nature lends her aid to the physician. In worst two months of the most skillful and conscientious treatment during Winter.

Opportunities of Summer to the Deaf

It has been seen, even during the inclement and unfriendly influence of the severe Winter weather, and the changeable weather of Spring and Fall, how this treatment, even against the influences of the climate and weather, restores the lost hearing to those of all ages, and regarding the original cause. As is well known, in Southern climates deafness is not nearly so prevalent as in the North. The reason for this is that in a mild climate the inflammation which closes the Eustachian Tube, thus causing deafness, is subdued more easily. So, from now on Doctor Copeland's treatment will have the wonderful benefits of Nature's help, instead of the trying influences of her opposition, as it has had during the harsh Winter and Spring months. During the Winter and early Spring the influence of the wonderful medication finds constant opposition to its work in opening up the inflamed and exposed passages leading from the throat to the inner ear. Hence, one month of treatment during the Summer is worth at least two months in the Winter.

Catarrh 25 Years Cured by the Copeland Treatment

Mr. H. Thompson, Sycamore, Multnomah County, Oregon: I went to the Copeland Institute to be treated for catarrh of the nose, throat and stomach of about 25 years standing. The symptoms I suffered from were these nearly always given by those afflicted with catarrh: "Cold in the head all the time and nose always so stopped up that I couldn't breathe through it."

Mr. H. Thompson, Sycamore, Multnomah County, Oregon.

HOME TREATMENT

Doctor Copeland requests all who are ailing, all who feel a gradual weakening or all who realize that their health is being undermined by some unknown complaint, to copy this slip, mark the questions that apply to your case and he will diagnose your case for you. "Do your sleep stopped up?" "Do you sleep with mouth wide open?" "Is there pain in front of head?" "Is your throat dry or sore?" "Do you have a bad taste in the morning?" "Do you cough?" "Do you cough worse at night?" "Is your tongue coated?" "Is your appetite failing?" "Is there pain after eating?" "Is there pain after drinking?" "When you get up suddenly are you dizzy?" "Do you have hot flashes?" "Do you have liver marks?" "Do you have aching in the back?" "Do you have pain in back or under shoulder-blades?" "Do you wake up tired and out of sorts?" "Are you losing flesh?" "Is your strength failing?"

THE WRETCHED STATE I HAD

Drifted into. I was always doctoring, but without any lasting benefit. I could hardly have been worse if I had never used a drop of medicine. Finally I went to the Copeland Institute and they soon made a new man of me. My appetite returned, I gained in weight and the misery of my chronic trouble was ended. I could not bear my watch tick unless pressed close to the right ear; now I hear as well as any one.
