No Money in Street Contracts.—
"There is plenty of work in the way of grading streets, laying sidewalks, etc., at present," said a contractor, yesterday, "but there is nothing to be made at such work any more. Contractors could make much more during the hard times of five or six years ago than at present. The price they can get for doing such work has not increased, while their expenses have. The wages of men have been advanced to \$2 and \$2 25 from \$1 75 and \$2 Vanced to \$2 and \$2 \$2 from \$1.75 and \$2. The price paid for teams has been advanced \$30 cents per day, and they now receive \$4. Spikes for sidewalks used to be \$1.75 per keg, and now they are \$5. Horses used to be shod for \$2 a span and now it costs \$4. Shovels used to cost \$4.30 to \$5 per dozen and now we have to pay \$11 per dozen. Shovels last only about two weeks, and I have to buy \$5 dozen about every week. The men a dozen about every week. The men are caroless and strike them against the wagon wheels and bend them, and then

they are done for." TUNNELING AT RESERVOIR SITES.-Work on the tunnel from reservoir No. 4 up the hillside to the slide which has caused so much trouble at the reservoirs in the City Park is progressing favorably. From reservoir No. 4 it is in about 70 feet, and is progressing at the rate of four feet a day. Another section of the tunnel has been started from the foot of shaft No. 16, some 250 feet further up the hill. A small elevator has been put in the shaft, and the material excavated is loaded in a car and run out on to this evator and hoisted to the surface by a donkey engine. The plan works well, and the tunnel is in some 20 feet. The material excavated is a compact clay, with fragments of rock in it.

RECEIVED THE BONDS -- Cruthers & Co., to whom were awarded the improvement ds sold by the city a few days ago, paid for them yesterday and received them from City Treasurer Werlein. The bonds amounted to \$436 61, on which a premium of \$22.50 and \$42.68 accrued in-terest was paid. This is the first lot of improvement bonds sold since January last, and the premium amounts to less than I per cent, whereas those sold in January brought a premium of 10 per cent by a "fluke." Now that the city has to pay interest on the bonds for those for whom the money is borrowed, people can take advantage of the bonding act with much satisfaction. But there's a reckoning day a-coming.

A CONTINUED STORY,-Assessor Greenleaf yesterday opened a branch office in the City Hall, where several men will proceed with the preparation of the tax roll. The names of taxpayers and dections of property are entered on the and now an index will be made out, and the values and improvements entered on the roll. When this is comploted the total of the assessed valuation can be made up, and then the levy can be made, and in due time the roll will be completed and opened for collection, and then the joyous season for paying taxes will begin, and thus it will ever be, world without end. Amen!

To DENVER.—Rev. Huber Perguson, astor of the First United Presbyterian hurch, at Sixth and Montgomery streets, and his wife left yesterday morning over the O. R. & N. for Denver to attend the international convention of the Young Men's Christian Union of the United Presbyterian Church. Mr. Ferguson will deliver an address before the convention. They will return early in August, and Mr. Ferguson will occupy his pulpit August 5, after which he will take a month's rest. Next Saturday, Rev. Mr. Patty, now at Albany, will occupy Mr. Fergu-

REPUBLICAN LEAGUE WILL AID.-The executive committee of the Republican League of Oregon intends that that organization shall take an active part in the Fall campaign. The committee has secured rooms in the Chamber of Comserce adjoining those now occupied by the state central committee, and in a few days will open its headquarters It is intended that the league shall assist the state committee in the work of distributing literature, providing speakers and in such other work as circumstances arising during the campaign may war-

THE excellent train service of the Astoria & Columbia River Railroad between Portland, Gearhart Park and Seaside is attracting thousands of people to the beach. Through trains leave Portland daily at 8 A. M., and run through direct without transfer or vexatious delays, arriving at Gearhart Park at 12:20 P. M. and Seaside at 12:20 P. M.; returning, leaving Seaside at 5 P. M. and Gearhart at 5:10 P. M., arriving in Portland at 5:60 P. M. of the same day, thus giving passengers an outing of nearly five hours

PREFERS SUMPTER TO NOME - Jack Powers, who has been in the city for several days, left for Sumpter last night. He has been mining in the Sumpter district for the past five years, but, de-siring to see what there was at Nome, came down here and took passage for that pince on the Nome City. He soon saw all he wanted to of Nome, and re-turned a few days ago on the Farallone, and is now content to go back to Sumpter and take his chances there, deeming them much better there than at Nome.

Will. RETURN FROM LUZON.—Walter Stratton, a Portland boy, now a Government teamster at Luzon, has written to his father, D. P. Stratton, \$\overline{x}\$5 Twenty-first street, that he expects to return home by the next steamer leaving Manila. He has had several close calls from Filipino bullets, fired from ambush, and is now slowly recovering from a severe attack of mularial fever. severe attack of malarial fever. FISH & GAME ASSOCIATION.-This even-

ing at the Hotel Portland there will be an interesting session of the Oregon Fish & Game Association, at which important business will come up for discussion. Members of the association and others interested in the work are requested to be present. The meting will be called to order at 8 o'clock.

OPENED FOR BUSINESS,-The Portland Tent & Awning Company has opened an establishment at 229 Ankeny street. The proprietors have the benefit of 30 years' experience in this business, 15 of which was with the W. C. Noon Company, of this city. They will manufacture sails, tents, awnings, etc. A. M. SMASHED THINGS, BUT DID NOT STRAL—Burgiars broke into a storeroom at 71 First street Sunday night and spent considerable time in breaking open cases of hats with which the room was stocked, but did not take anything away. They obtained admirator by senseiting in the obtained admission by smashing in the back door with an ax and then used the implement right and left. They broke open a desk that had been locked:

knocked off the hinges of several trunks and scattered the contents about the Why they did not steal a wagon load of goods is a mystery to the owners of the stock, Barker & Diven, who did not inform the police of the affair. The firm think the burgiars were looking for money, but there was no cash in the place. The premises were occupied temporarily as formance, headquarters. porarily as drummers' hendquarters. Asken For.-Captain Harts, Bipa United States Engineers, has sent out dir

culars requesting proposals for furnishing materials for the repair of the trammaterials for the repair of the tram-way and plant connected with the Co-lumbia River jetty. He was require some 700 tons of 40-pound steel rails for the tramway, & lot of lumber for repairing the piledriver, wharves and buildings, material for building or repairing cars, etc. The proposals will be received and opened in a few days. No Concert.-On account of a sever

and sudden attack of illness that befoll Miss Marsh last evening, the concert that was billed to be given by Miss Marle Marsh and Miss Retta Johnston Shank was declared off. The management re-funded the price of admission, and the disappointed audience rejuctantly retired. BETTER MAIL CARS.-The Southern Pacific Company has placed new mail cars on the night train. These cars, which are very much finer than any ever before seen on the run, are 60 feet long, furnished with the most recent improvements, and lighted by gas.

DR. L. E. Himsand, who has been absent from the city more than a year, has returned and can be found at his office in the arquam building.

EVERYBODY TOO BUSY. Why a Bootblack Was Obliged to Leave Pendleton.

A stranger bootblack who has lately up a chair on the sidewalk of a downtown street, yesterday caught a customer whose shoes needed cleaning, by calling whose shoes heeded creaming, by count, "Shine, str." While he was at work the customer asked him where he came from He said he had a home in Philadelphia, where his mother and sister lived, and where he had been in business for 23 years. He came to this coast a many for his health and had been year ago for his health, and had been working in Pendleton, but, said he: "I uld not make board there now."

"How is that?" asked the customer.

"Oh, everybody has gone out to work in the harvest fields, and they will be gone for two months or more, so I packed up and came to Portland." "Did you recover your health?" he was

"Oh, yes, I am all right now, I weighed only 98 pounds when I struck Oregon, and now I am as hearty as a buck, and am looking forward to going back to Phila-

When told that New York people decmed Philadelphia slov, he said he would much rather live in Philadelphia than in New York, but if he had his folks out here he would remain here, for Oregon was the finest country he had seen, and the climate, he thought, was the best in the world. And then he whirled his whisk around the customer said "Thank you for the dime he received, and yelled "Shine, sir?" at the next man coming down the walk.

"Sapho" Tenight and Tomorrow-"His Night Out" Thursday.

Tonight and tomorrow the talented company will appear in the noted "Sapho" play. This will positively be the two farewell performances of the piece. On Thursday night the company will appear in the entirely new and original farce-comedy, "His Night Out." This is the second strong card of the company's the second strong card of the company's repertoire. It is spoken of as being remarkably funny and the members of the company or the majority have played the piece in Australia.

Any who have not seen "Sapho" should certainly do so, as it can be recommended to all lovers of high-class plays, and it is certainly in the hands of a good company.

TYPHOID GERMS IN MILK

CANS WERE WASHED IN POLLUTED WATER.

Dairyman's Customers Stricken With Fever-He Is Fortunately Out of Business.

Portland milkmen should use no other water than that from Bull Run in dilut-ing their milk or in washing their cans. rding to several prominent physicians of the city, as there is more or less dan-ger of typhoid fever where water from surface wells is utilized. Last week 10 cases of typhold fever were discovered long one milkman's route, three of them eing in his own family. The milk ranch situated in the vicinity of Mount Taor, and, being outside the city limits did not come directly under Health Of-ficer Menefee's jurisdiction, but that official visited the scene yesterday ordered the well closed up, on finding that its water was polluted with the microbes of typhoid. The milkman's father died of typhoid fever about a month ago, so that at least one death has been traced to the well, which was so situated as to drain the fifth from cow corrais and hog-

The milk itself was pronounced all The milk itself was pronounced all right by the physicians, but the germs of disease had been introduced from the water by which the cans had been cleaned, some of the aqueous fluid having probably been left in the bottom of the vessels. There need be no further uneasiness over the milk from this particular ranch, however, as the cows have been soil off and the route discontinuous control of the ro have been sold off and the route discon-

The 10 cases of typhoid discovered were all among grown persons, four being on the west side of the Willamette and the others on the East Bide. The milk had been drunk cold by each patient, so the baccilli were absorbed into the systems in full vigor, as milk is considered one of the most successful transmitters of of the most successful transmitters of typhoid serms, which fatten and wax strong while living in the incteal fluid. Two patients had been fed on the in-fected milk for over a fortnight, and the doctor wondered why there was no im-provement in their condition, until the urce of the milk was discovered, when the supply was promptly cut off, and improvement was soon noticed.

Provement was soon noticed.

"There were but seven cows on this milk rapch." Dr. A. J. Sporry said yesterday, "and yet we have 10 well-defined cases of typhoid among its customers. If it were a large ranch where N cows were milked, the fever would have almost amounted to an epidemic. The reason no children were afficied with the disease is because milk is usually heated before being fed to them, and ally heated before being fed to them, and if heated to the holling point the serms of disease are killed. I would advise the eating of milk in all cases before being drunk, as this insures safety from what

germs it may contain.

"Before Bull Bun water was introduced it was impossible to trace the origin of typhoid fever in the city, but now such cases are rare, and a thorough investigation into the surroundings usually exposes the cause."

AT BEACH AND SPRINGS.

Visitors Flocking to Elk Creek and to Wilhoit.

CANNON BEACH, July 20.-Elk Creek, or, as it is more commonly known. Cannon Beach, seems more beautiful this year than ever before. The points are well filled, the beach perfectly smooth and level, the hills and cliffs wild and and level, the fills and clins wind and grand, making one of the most beautiful spots on the Pacific Coast for a Summer recreation. Many letters descriptive of this beach have been written, but all fail to do it justice. It must be seen to be ppreciated.
The greatest drawback has been the

means of reaching here, the Elk Creek tollroad, but this is gradually being placed in first-class condition. C. C. Clark, of Seaside, has leased it for a term of four is over one can drive over it with very little trouble or delay.

Among the first to arrive this season

are: J. N. Griffin and family, and E. Z. Ferguson and family, of Astoria, who have opened their cottages for the season. William H. Griffin, accompanied by his son, Eimer, is visiting his brother, J. N.

Several Astorians, among whom are Dr. Hill Hastings, Harry Findiay, J. R. A. Bennett, Jack Astbury, Charles Higgins and several others, will arrive Saturday and spend Sunday on the beach. The Lowis and Flanders party, from Portland, is expected down the latter part of the week, to occupy their large and commodious cottages at Ecola, for the season. This place is said by some to surpass the beauties of the famous Cliff House, at San Francisco.

The Elk Creek House, under the management of John McCormack, and the

Austin House, at Cannon Beach, are both open for visitors and have a number of guests booked during the season. At Wilholt Springs.

WILHOIT SPRINGS, July 20.-Ever since the rise of the thermometer the influx of Summer sojourners and healthseekers is daily on the increase. Both hotel and camping-grounds are rapidly filling up. Good cheer and wholesome sport and sociability are everywhere pre-vailing. The center of attraction and amusement is, of course, the spring itself. It is amusing to see the new-comers, es-pecially if they be ladies, taste the strong mineral water at first, with unfeigned re-luctance, then with an ever-increasing gusto, until they reach the state of confirmed drinkers. Archbishop Christie, of Portland, has announced his intention of spending a week at Soda Springs. may be of interest for visitors of Wilholt Springs to know that at the recent in-ternational competition for the championship among mineral waters, held at Baden Baden, Germany, the first prize, after Apollinaris, was granted to Wilholt soda water. In fact, Wilholt water showed the same composition as Apollinaris. Among the people at the hotel are: W. McPherson, W. S. Winnieford, Carl Anderson, Mrs. Carl Anderson, Duncan O. Taylor, J. E. Boyington, George L. Boyenton, Portland; Watt Shipp, P. C. Shipp, Salem; Burt Smith, San Jose, Cal. Paul Hauser, Salem; Frenk Everett, Chehalis, Wash.; Mrs. B. S. Backman, Miss Louis Seyon, F. L. We attribute the heavy buying of this stock to the large ore reserves in sight and large profits being made by the com-pany, and that it is the only regular dividend payer on the list, and investors were anxious to participate in the divi-dend to the paid on the 25th inst. Helena No. 2 made a gain of 4c for the week, and closed strong at 55 bid. Contracts have been let for 400 feet of

work on this property. Reports from May Queen are very flattering; work is being actively pushed on the property and enough ore is being encountered to justify the company in preparing a shipment which they expect years, and intends graveling it from one preparing a shipment which they expect end to the other, and before the Summer to send out as soon as possible. As soon as returns are in from the shipment, we anticipate the stock will meet with still

greater favor. Prices throughout the list were gener ally firm, with a rising tendency, that prevailing opinion being that good stocks will continue to advance in price.
