### CITY NEWS IN BRIEF

Amusements Tonight. METROPOLITAN THEATER (Third street)-

ALISKY'S WINTER GARDEN (Third and Morrison streets)-Concert nightly.

PERMITS FOR BUSINESS BUILDINGS .- A permit was issued resterday to the Henry Failing estate for the erection of the superstructure of a four-story brick block at the southeast corner of Third and Washington streets. The foundations are completed, and the girders for the ground floor in. The superstructure is to cost \$50,000. A permit was also issued to J. D. Coleman for the erection of a three story brick block on Stark street, be tween Fifth and Sixth, nearly opposite the brick block being erected by H. W. Corbett for Neustadter Bros. Mr. Cole man has been planning for this improve-ment for some time, but has not been able to get the occupants of two cot-tages on the property to vacate the prem-ises sooner. This makes three brick blocks under way on Stark at or near Fifth, and as that street is now being improved with a pavement of vitrified brick, other permanent improvements will doubtless be made there soon, and the upper part of Stark street will be added to the business portion of the city.

RAILBOAD TO CLACKAMAS.-A railroad will soon tap the timber belt of Clackamas County, according to the expectaand railroad contractors, who are now organizing a company for the purpose. The line, which has already been mapped out in a preliminary survey, will begin at the Isman, Poulsen & Co.'s mill and follow a southeast course for 30 miles, to Eagle Creek. The track will be of standard guage, and its construction will open up an important farming section hitherto cut off from Portland during the wet season. There are about 50,000 acres of fir and larch along the proposed the uniform grade favors the project. The company is not yet incorporated, but its promoters expect that it will be in a few days, when the names of the now in stockholders will be made public.

His Simple Viand.—Mush is a very wholesome viand, no doubt, and enables a hearty man to make a good break-fast, with the aid of a bit of fish, a chop could not get his favorite brand of mush and no one knows how many -it is all mush up there—he came He explains his reasons for eating nothing but mush for breakfast by saying that he does not want anything else. Probably thousands of people would make their breakfast on mush only if they had no desire for anything else, so

FIGURING ON HOP CROP.-M. L. Jones. president of the Hopgrowers' Association, was in Portland yesterday, from his home in Marion County. He figures on 75,000 bales of hope as Oregon's product this year, which would be 15,000 bales less than in 1829. At present prices he favors picking but three-fourths of the crop, as this would insure a better quality. Pick-ing, he thinks, will begin about Septemsays, is hard on hop lice, and should it sealed bids were presen continue no harm would be done by this were opened, as follows:

KILLED AN EAGLE-A pair of bald eagles have been looking after a herd of Angora goats on Sauvie's Island, owned by Everding & Farrell. They were partial to kids as food for their young. Some cartridges loaded with buckshot rell's place of business. The eagles might this city without attracting much atten-tion, but Angora kids are not healthy for them. There remains one old eagle to it is going to have to rustle, and will probably often be led to exclaim "It beats - how hard times is."

HOME-MADE "AUTO."—The automobile on which W. G. Hartman has been put-ting in his leisure hours for some time is now about completed, as far as the machinery soes, and will soon be sent to the buggy maker for finishing the woodwork. The engine of his "auto" is a marvel of compactness and work-manship, having ball bearings for the shaft, crank and eccentrics. The boller is also a masterplece, and the carriage bids fair to be one of the best in the

### PREPARING FOR FALL WORK

Commercial Travelers Indulge in Oregon Sports-Nestor of Drummers.

This is the off season for the majority commercial travelers, and many of them are taking their Summer outlings and getting up their stamina for the la-bors of the busy Fall season soon to commence. A number of them have come to Oregon, well understanding the advan-tages in the way of climate, fishing and hunting which this state affords. Two hop buyers for Eastern houses have gone to the Nehalem for a month's fishing. They fished that stream last season and had so much sport and enjoyment that they come out early to put in a whole month there before the hopgrowers are ready to talk business. Others are out in the mountains fishing or chasing the wild deer and the roe, and having a good time generally.

A young member of the profession a

day or two ago received a letter from two of his chums, who are away up on the headwaters of the McKenzie, about Belknap Springs, where they have shot eight deer. He immediately purchased a rifle and enough ammunition to wreck a kopje, and a viliainously wicked looking knife, and has spent most of his time since sharpening his knife and talking about skinning bears, as if it were no trick at all to shoot them. In his luck moments he has laid in a stock of fishing tackle, enough to load a pack horse, and intends to show Uncle George Frizzele, route, and this timber can be brought to at McKenzie bridge, who has caught more Portland in the log at small expense, as and bigger trout than any other living man, just how to capture cut-throat, rainbow and Dolly Varden trout.

Among the other commercial travelers now in the city is James Eider, the Nestor of the profession, the father of all drummers, the best-known man on the Pacific Coast from Mexico to British Columbia. He represents the manufacturers fast, with the aid of a bit of fish, a chop of spool cotton, the greatest trust on or steak, eggs, coffee, fruit, etc. An earth, and has represented them all over old-time citizen, whose white hair and the Coast for something over a quarter beard contrast well with his bronzed of a century, and in Mexico before that face, and who has just returned from for some is years. He is portly, genial, Nome as hearty as a buck, attributes his vigor to the fact that he makes his breakfast of mush alone, made from a brand generally than he could tell in a life time of germea made in Oregon. He saw nothing in Nome to attract him, and as he German, French, Spanish, Gaelic, Hebrew languages, and can tell the truth in all of them. He is a little too stout to enjoy hunting and fishing, but he enjoys life every minute of it, and is universally re-spected by all commercial men.

### "HIS NIGHT OUT."

At the Metropolitan Tonight-Must-

cal Melange and Dramatic Recital. Tonight the popular company will present at the Metropolitan for the first time here their second big trump card, "His Night Out." This is a famous combdy, having been adapted from the French, and is said to be very funny, and, like all good French plays, is full of sparkling dialogue, and very amusing complica-tions. It is in three acts, and a witness to a rehearsal says it is the funniest

omedy he has seen.
"His Night Out" will be followed by a nusical melange and dramatic recital. Miss George Elliot will recite, "Three Miss George Elliot will recite, "Three From Three Leaves Nothing." Miss Rose Standish will sing, Mrs. Madge Corcorcin will recite, "Her Letter," by Bret Harte, Mr. Joseph will furnish a song, the whole to conclude with "A School of Modern Acting," introducing a travesty on "Sapho." W. T. Townsend appears as Sapho, and Herbert Jones as Jean. The company will leave immediately after the performance on Sunday next for Canada. Usual matinee Saturday.

### CARNIVAL

EXECUTIVE COMMITTEE PLANS NEW ATTRACTIONS.

Voting on the Nominations for Queen of the Carnival Begins

The Portland Street Fair and Carnival is coming, and the general executive comlarge task on its hands to extricate or der from the chaos of details that con-fronted it. Space for booths was assigned plans for new attractions discussed, advertising, tickets and posters ordered, music for the carnival and parades bargained for, and a mass of small and vexatious details that keep hobbing up serenely set-

tied for the last time.

A new idea was suggested by D. Solis Cohen for an artificial park to be con-structed between the Portland Hotel and the Postoffice building. The whole area would be laid out into an attractive land-scape garden, with winding walks and rustic seats, with rows of large forest trees planted along the sides of the street for shade. In the center of the park would be a pretty fountain of running water, and radiating from this, the walks between the beds of flowers, palms and potted plants, with an occasional glimpse of a stretch of green turf. As a crowning feature of this sylvan plaza, it is proposed to bring down the cik from the City Park and have them on exhibition in a nest rustic structure. Directors Cohen, Bow-ers and Ehrman were instructed to in-

vestigate the project.

A booth that will attract notice and interest was arranged for last evening. when the executive committee adopted the plans submitted by the military auxiliary committee for an Oregon National Guard booth, A collection will be made of all the most interesting and distinctive Filipino trophies collected by the Oregon regiment, and the booth will be built after the style of a Filipino dwelling, with four or five natives presiding over it. On guard during the whole fair will be militiamen of the Oregon National Guard. In this booth also the souvenir buttons of the monument will be sold, the executive committee having willingly granted that privilege. Captain Riley was added to the

military auxiliary committee,
Julius Adler, of the Tacoma Military
Band, has donated to the committee a musical composition entitled, "The Port-land Carnival March,," for the use of the bands during the carnival. The com position was turned over to Director Ehrman, for action upon the offer. At the request of the women's auxil-ary committee, September 7 was set aside as women's day, and the pro-gramme for that day was placed in charge of that committee.

When the erection of the carnival arches and buildings was discussed, the executive committee decided that no labor so notified

elers' day, and it was voted to notify the Muitnomah Amateur Athletic Club that the committee will make every effort to encourage the club's Fall games held on that day, and also to arrange for the holding of the parade before the games

A generous amount of advertising was ordered, and the work of distributing it over Oregon, Washington and Idaho will be begun at once. The fair is already well advertised, and delegations of Elks are already engaging hotel quarters. From Wallace, Idaho, alone, 180 Elks are coming, and have engaged hotel accommodations. The demand for carnival buttons remains unabated, and a new issue will soon be ordered.

Voting Commences Today. The boxes that have been made to receive the votes for the carnival queen are finished, and will be placed in position today to receive the nominating votes for the carnival queen. Boxes have been placed at Meier & Frank Co., Olds & King, Lipman, Wolfe & Co., Swetland's confectionery store, Heiler's millinery millinery store, Woodard, Clarke & Co., Sig Werth, eimer's cigar store, Esberg, Gunst & Co.; Watson's restaurant, Portland Hotel office. Chamber of Commerce cigar store, Wickie's grocery, First and Market

streets. The votes will not be free, as planned at first. In order to eliminate any attempts on the part of would-be humorists to play pranks by putting in fictitious names, it was decided to charge 5 cents a vote. Any one having the interest of the fair at heart will not hesitate to pay such a small sum to nominate a favorite candidate. The boxes will remain in posi-tion several days, after which the votes will be taken to the carnival headquarters and carefully counted. Those receiving the highest number of votes will be declared candidates, and the voting will then begin in earnest.

#### FAVORS PORTLAND FOR 1902 Prominent T. P. A. Man Wants National Convention Held Here.

Sam P. Jones a leading light of the Travelers' Protective Association, halling from Louisville, Ky, was the guest of the local T. P. A. men yesterday. Mr. Jones, who is with the firm of Jones Bros. & Co., Louisville, is spending his vacation on the Coast. He was at the National convention held at New Orleans this year, where he met the Oregon delegation, and as a result of the friend-ship formed there, is now visiting the traveling men of Gregon. One thing seems to be uppermost in his mind, that is that Portland shall get the National convention of the association in 1902. He is de-lighted with the state, scenery and people, and believes a trip to the Pacine Northwest will be one of the most en-joyable events in the history of National conventions. His prominence and influence in the association may be judged from the fact that he is the leading candidate for the National presidency for next year. He joined the order when it had

said be yesterday when seen at the Hotel Portland, "that the 1962 National conven-tion of the T. P. A. will be held in Port-land, if you ask for it. If the delegates last year had been left to vote their own free choice after hearing Mr. Kunz's eloquent address on Oregon, they would have had the 1901 convention here. Your boys executive committee decided that he seems and made a heat of friends. But every thing was against them for 1901. Richmond was in the fight with New Orleans mond was in the fight with New Orleans mond was in the fight with New Orleans and it is an unfor the 1900 convention, and it is an un-written law of the association that where a city is defeated one year and appears next, it shall receive the favors. Port-land made a hard fight this year, and only has to make the claim next year to insure success

'I want particularly to compliment your Oregon delegation. That was one of the most representative delegations present. showed to the East the fine class of business men that fill the ranks of the Oregon and Washington divisions, both of which have already become widely known in this respect. In addition to In addition to Portland's claims stated before, the association wants to compliment the Pa-cific Northwest on the splendid growth of the local divisions here, by holding a National convention in their midst. You can rest assured that it will come. Why, I want to become president of the associa-tion, but if it were necessary, I would sacrifice my chances for the office to draw the 1902 convention to Portland."

Mr. Jones was being entertained yester-

day about the city by various members of the order. Today he will be taken on a trip to Oregon City, and Friday an ex-cursion up the Columbia has been planned for his benefit. All local traveling men are eager to get a chance at their dis-tinguished fellow-worker, and he will get little rest while in Portland. Mr. Jones will remain until Saturday night, partly to see the ball game Saturday afternoon and to attend a meeting of the T. P. A.'s Saturday evening. Then he will start East to join his family, who are now in Manitou Springs, Colo.

No plane can outwear it.

No plane more nearly equals the human voice in sweetness, clearness, purity and power of tone.

This is the sentiment of the musical profession itself—the judgment and recorded verdict of the greatest living musicians and also the boards of experts who awarded highest honors to Kimball planes at the World's Fair, Chicago, and at the Trans-Mississippi Fair at Omaha. There is no botter plane than the Kimball that sell at a much higher price.

Why? My 7.
The Kimball plane is made in the most modern and best equipped factory in the world, on a scale more extensive than was ever before attempted in plane man-

was ever before attempted in plano manufacturing.

Every part of the plano is made right at the factory.

All raw material is secured for cash in large quantities and delivered at the factory by the shipload and varioad.

Chicago freight is lower than Eastern freight.

The cost of many a plano included more than its simple excellence and value as a plano. It includes freights, cartages, middlemen's profits, agent's commissions, etc. etc. The purchaser foots the bills. Our price of the Kimball plano is therefore more reasonable, because it's simply the price of the plano without unnecessary handling expenses and profits.
