SOUTHERN PACIFIC'S GENEROUS OFFER TO STATE FAIR.

There Will Be No Charge From Any Point on the Company's Lines in Oregon.

The Southern Pacific Company set a mark yesterday for liberality when it offered to carry exhibits to and from the coming state fair.

Portland, July 26.—Mr. M. D. Wisdom, Secretary State Board of Agriculture, Portland, Dr.—Dear Sir: In order to encourage exhibitors and attendance at the State Fair, this company will transport exhibits originating at points on its lines within the confines of the state to Salem and return to point of origin free of charge.

Portland, July 26.—Mr. M. D. Wisdom, Secretary State Board of Agriculture, Portland, Dr.—Dear Sir: In order to encourage exhibitors and attendance at the State Fair, this company will transport exhibits originating at points on its lines within the confines of the state to Salem and return to point of origin free of charge.

While all the transportation lines centering at Portland have generally shown a liberal spirit to all undertakings which promise to benefit the state, this offer is generous beyond all expectation, and encourages the state fair managers more than anything else that has occurred for a long time.

One of its direct results will be the largest exhibit of the products of Western Oregon ever brought together in one place. Perhaps it is not generally known that every county in the Willamette Valley, south of Portland, is getting up a county exhibit—Washington, Yamhill, Polk and Benton on the West Side, and Clackamas, Marion, Lane and Lane on the East Side. Douglas County, also, will make an exhibit.

With the cost of transportation wiped out by the broad spirit of the railroad company, it may reasonably be expected that these exhibits will be much larger and more comprehensive than if there were freight bills to pay.

Then, too, the action of the railroad company equalizes distance, so that Ashland, Medford and Grant's Pass can be represented at the state fair on quite as favorable terms as Albany or Oregon City. It will enable Southern Oregon at a minimum of expense to make an exhibit of her famous fruit, melons and grains, to say nothing of the precious metals.

The railroad company's liberal policy is entitled to the commendation, not only of those directly and indirectly connected with the state fair, but of the community at large.

BACK FROM THE NORTH. Captain Archie Geer Gives an Opinion of Alaska in General.

Captain Archie Geer, a cousin of the Governor, has returned to Portland from Alaska, after nearly two years' absence. He spent most of this time first as captain of the steamer J. P. Light, and afterward captain of the Mary T. Graff, which plied the Yukon between St. Michael and Dawson City.

When seen at his residence, 225 Sixth street, yesterday afternoon, the captain was enjoying the comforts of his pleasant home, doubtless pleasant now, in contrast with his experience of the past two years. He said his venture North had proved a paying one, and he was glad he had taken the trip. He now has two promising placer claims at Norton, on the Alaskan coast, 50 miles north of St. Michael, and these are being worked this summer, by a force of miners in his employ. Mining, he says, cannot be pursued on the Alaskan coast in the winter, as there is too much water on the ground, but in summer, provision may be made for draining. He # across prospect 12 cents to the pan at the surface, but he does not know yet how much gold lies on the bedrock, which reposes at an average distance of five feet. He hopes to have these diggings worked without his personal supervision, as he desires to stay at home with his family in future.

He spent a few days in Nome after the rush of people had struck there in June, and he thinks thousands of men will have to be assisted out of there this
