#### COMMERCIAL AND FINANCIAL NEWS 12 2000 to choice, \$1 174601 25; gray.

It was soo early in the week and too late in the month for a very large volume of business yesterday, but the commission-house portion of Pront street had plenty of work. Beceipts of fruit and produce by both steamer and train were very heavy, among other truck being three carloads of cantalouses and waterned-ports of a pending strike, which was denied by representatives of the company, and respect to the company of the company and respect to the company of the company of the company of the company of the company. ona, a carload of bananas and a lot of assorted fruit. Bananas were of the Port Limon variety, and arrived in excellent order, and found a ready sale, although they are not usually received in carload lots in the Summer time. The butter and egg market is a little out of soria, both being weaker on a light demand and fairly large resident for the hot senand. and fairly large reneipts for the hot season. Grain markets are dull, and there is nothing

PORTLAND MARKETS.

Grain, Flour, Etc. Business in the local wheat market was on a very restricted scale yesterday. The Eastern markets held privity stoady on a falling off of about 2,000,000 hushels in world's shipments, and the European cargo market was unchanged. There is no tonnage offering, and very little wanted without it can be secured at a lower figure than has been asked for the past two mouths. On such a littless market, quotations are naturally to a large extent nomtoal, and prices generally quoted are about 55c for Wallin Walla and Valley, and Despote for bluestern. The dock atrike is practically over, and no further delays in the business are ex-

octed from that quarter.
Wheat-Walla Walla, nominal, 55@55c; Valoy, 55@55c; bluestem, 55@55c per bushel.

NEW YORK STOCK MARKET. Sugar and Brooklyn Transit Leaders

in Activity. NEW YORK, July 30 - The stock market continued very dull and professional today, but the field of activity broadened out some-what so as to include more stocks than in the dealings during the latter part of hast week, . The added life to the trading was on the selling side, and inroads were made upon walson at points that have hold remarkably firm on to the present time. Sugar\* and Brooklyn Transit were the leaders in point of activity and weakness, but a number of other specialties came forward into a fair degree of promisence. It was still a market of specialties, and railways were relatively in the sackground. But there was some addition to the attention paid to them also. Dealing were not widely distributed in the railroad list, the pressure against a few active atocks in that division apparently not affecting the firm undertone of the railroad department as a values at points that have hold remarkably firm undertone of the railroad department as a

The grangers were most affected, and Burl-ington was the leader of the depression, with a fall of 14 Ned practically no recovery. St. Pant, fell a point, and the decrease in net samings for June of \$150,504, compared with the corresponding period of last year, was the effective cause of heaviness in that stock and in the group. Pennsylvanie was a point of weakness in sympathy with London, and was sold down Ph. London came weaker on ac-

Count of the assassination of King Hambert. The depression in Sugar was in evidence at the outset, and apparently due to shifting professional attitude of the traders. There were reports of a pending strike, which was denied by representatives of the company, and reports of approaching competition by unrefined approach in the company of the company sugars, invited by the present high level of

Tobacco was affected by profit-taking, attracted by the recent considerable rise. Brook-lyn Transit was under renewed pressure, and fell back to near last week's low price, carryfeel back to hear last week's low price, carrying the old local traction stocks with it. The
Steel group drypped under the unsattifactory
outcome of the Chicago conference, designed
to restrict production. Tennessee Coal was
active and yeak, failing an extreme 3 points.
The stock railed a point. Besides these
points of weakness in special stocks, speculative sentiment disturbed by the uncertainty
regarding the money outlook the exercise regarding the money outlook, the growing likelihood of considerable decreases of net carnings of railroads, and nwakened apprehension regarding the crops, American ex-change fell a fraction further today, raising a doubt whether gold is likely to go out this

changed, and the opinions regarding the fu-ture events there are a good deal mixed. The bond market was dull and prices were sensation among traders and causing the market to close at best figures for the day. Trading was quite active late in the session, shorts covering liberally and early sellers attempting to buy back their deals. September opened %6% clower, at 75%74%. It declined to 75% and sold for some time between that figure and 74% c, then railied to 75%675% c, where it closed.

Corn's opening prices were somewhat inclined to go lower. United Sintes bonds were unchanged at the last call on the ex-

Chicago Grain and Produce.

CHICAGO, July 30.-Wheat was quite weak at the opening and for some time

after. Liverpool cables showed a decided alump in prices in that market, while reports from the Northwest told of more

favorable weather. Though selling pres-sure was not particularly heavy, it was

sufficient to send prices to a point is below flaturday's closing figures in the four and one-half hours trading. But here the decline stopped. Shorts came into the market to cover at the low prices, and though at times the market developed soft apole yet, on the whole.

prices, and though at times the market developed soft spots, yet, on the whole, steadiness was shown until the last hour's trading. Then the market became strong. Some buying orders came in during the morning from the seahoard. They were accompanied by reports of an improvement in the export demand, and these reports later became the predominating influence of trading.

Reports as to the total engagements

Reports as to the total engagements

were conflicting, the figures running from Il to 30 loads, the report creating a mild sensation among traders and causing the

where it closes.

Corn's opening prices were somewhat lower, but the market soon railled sharply. September closed it higher, at 1996;

ly. September closed 1/2 higher, at 20%C. Outs were heavy all day. September closed 1/4c lower, at 21/3c. \*

Provisions were dull and heavy most of the morning, but before the close all of the declines had been recovered. The weakness of wheat and lower has prices caused some liquidation early, but covering took place when the grain market developed more strength. A feature

kets developed more strength. A feature of the trading was the strength of Bep-tember ribs, which closed He over Octo-ber. The cash demand was good, and the

small local stocks were factors. September pork and lard closed unchanged, with

94 65; hens, \$494 50 per dozen; geese, \$181 13 give a shadow at noonday in institude 40 degrees of 12 feet at one time of the year, Receipts—Flour, quarter macks, 18,500; do of less than two feet at another. This instrument, so simple, so easily carried, so easily set up, may well have begun the scientific study of astronomy.

NOTE OF WARNING.

Republicans Will Have Fight to Carry Next House. WASHINGTON July 26.-Chairman Bab-

cock, of the Republican Congressional Committee, has given out a note of warning, that he fears it will be almost im-possible to carry the next House, even if the Republicans elected their President. While Mr. Babcock makes his statement quite plain, and shows how it could be done, if is quite doubtful if what he predicts, will come to pass. For instance, men like Daiy of New Jersey, who is a Democratic member of the House, and who was on the committee on resolutions at the Kansas City Convention, declared emphatically after 15 to 1 had been incorporated into the platform, that it would mean the defeat of nearly every Democratic member in New York, New Jersey, Penusylvania and Massachusetts. Outside of the solid Tammany districts In New York City, he did not consider it possible for the Democrats to be elected; and he was also of the opinion that very few of the present Democratic membership from the states named would accept a renomination which would mean defeat. It is, of course, a question KANSAS CTTY, July 30.-Cattle-Re- whether the Republicans can hold what ceipts, 800; market, active, strong. Texas they have in the West. This they will steers, 23 4064 75; Texas cows, 32 7668 60; no doubt be able to do. In the Misnative steers, \$4 2566 45; native cows and sissippi Valley they may lose a Congressnative steers, \$4 2564 5; native cows and feeders. It 8064 65; stockers and feeders. It 2564 60; bulls, \$567 75.

Hogs-Receipts, \$600; market, steady; bulk of sales, \$5 12465 20; heavy, \$5 12465 76.

Sights, \$4 8567 224; porkers, \$5 106 234; porkers, \$5 106 234 OMAHA, July 20.—Cattle—Receipts, 15005 60: Western steers, 24 2504 60; cows and here. ism fisue. In Maryland it is expected that the Democrats will gain some Congressional votes, although there is a very good possibility of the state being carried for McKinley.

Of course, the members of Congress, and especially those men who have the patronage at stake in the House, the chairmanships of committees, and all that goes with it, are intensely anxious to have the Republicans remain in control of the But it is not beyond the possibility that a great many people and good Republicans also would be willing to see the House under Democratic control, for the reason that they would like to make the Democratic party responsible to a cer-tain extent in solving problems that will arise over the Philippines and the fur-ther dealings with Cuba and the Islands that have been acquired under the present Administration. It certainly would be a very interesting thing to see how a Democratic House would take up the question of the disposition of Cuba, and whether it would have the audacity to carry out the professed intentions of the Democratic platforms and speakers in making Cuba absolutely independent, and withdrawing all United States control from the Island. As to the Philippines, no one could say how the Democratic House would move. Unquestionably, un-der present conditions the control of the Philippines is vested in Congress, and it might not be very bad Republican poli-tics if the House should turn up Demooratic, to allow that party to inaugurate measures dealing with the islands. There is no doubt that one reason why Chairman Babcock issued his manifesto was to alarm the Republicans everywhere and to stimulate them to better efforts in the campaign that is to come. It is a fact that the Republicans feared an apathetic campaign, and are doing everything they can to stimulate interest, not only in the Presidential, but in the Congressional election and Chairman Bab-cock's manifesto was no doubt directed toward those men who are not taking the active interest in that campaign which he thinks should be manifested if the Republicans are to retain control of the
