THE MORNING OREGONIAN, TUESDAY, JULY 31, 1900.

Dutch Harbor, have been received at the Treasury Department. Captain Tuttle re-ports an epidemic of measles and pneu-monia at Sinecock, Port Clarence, Cape York and Cape Prince of Wales. In con-cluding, Captain Tuttle says:

"The situation along the whole coast I regard as very serious. It is estimated that at present there is within a radius (taking the United States postoffice as a center) of 10 miles 25,000 people. Most of them are living in tents, either on the beach or tundra. The sanitary condition of the portion of the city where huts have been erected is simply frightful. Typhoid fever is raging, and amaligox steadily gaining. All possible efforts are being made to stamp out the smallpox. but with so many thousands of tents, scattered over miles of territory, it is impossible for the health authorities to keep track of all cases. As nearly as can be traced, the disease was introduced from the sleamer Oregon. Afterwards the steamers Ohio and Santa Ana were found to be infected, and were placed in guaran-tine. The Oregon had left before her cases were discovered. General Randall is commanding with a firm hand, and, having troops at his disposal, will maintain order until such time as civil gov ernment is organized. I understand the natives all along the Siberian coast are suffering from influenza and pneumonia and not disposed to trade for reindeer at

REVENUE CUTTER RUSH REPORTS.

Will Be Sent to Ald Nome Authorities-Sick Official.

WASHINGTON, July 30 .- Captain Shoe maker. Chief of the Revenue Marine Serve, has received a letter from Lieutenant Cushing, in command of the revenue cutter Rush, which was at Dutch Harbor July 14, after having made an 11 days' trip around Pribyloff Islands. Lieutenant Cushing says he made a running survey of the north side of St. Matthew's Island, and found a good harbor, which he named "Shoemaker Cove," in honor of his chief. He found no scalers near the islands. The Rush will go to Cape Nome September 15 and remain as inte as possible, giv-ing what aid it can to the military au-thorities. Lieutenant Cushing said he found Mr. Morton, the Special Agent of the Treasury Department on the Pribyloff Islands, seriously ill. The surgeon of the Rush announced his aliment "locomoto ntaxia." Mr. Morton is a son of ex-Gov ernor Oliver P. Morton, of Indiana.

WASHINGTON, July 30 .- Directions have been sent to Captain Roberts, of the revenue cutter Manning, now at Nome City, to bring Mr. Morton back when the Manning returns, in September.

CONFERRED WITH HANNA.

Governor Roosevelt Has Not Made Definite Campaign Arrangements.

NEW YORK, July 30.-Governor Roose reit was one of the first callers at Republican headquarters today. After he came from a conference with Senator Hanna and others, he said:

"I have seen Senator Hanna, Senator Scott, Mr. Manley and Mr. Gibbs, and have had a pleasant talk with them. I don't expect to be anything but a private citizen during the month of August. Later than that I have not made any definite arrangements."

the weakness of the monsoon. The situa-tion is serious and critical in Gujarat, Baroda and Rajputana West, which are not sown. No fodder whatever is available in the southwest part of the Punjab. Sown crops are in imminent danger, as rain continues to hold off. Fodder is scarce, and cattle are dying in the cen-tral provinces of Therea and Hyderabad

Good crops are possible only in case the monsoon improves. One-quarter of the inhabitants of the central provinces are on relief. The total number receiving relief is 6,266,000, with incomplete Bombay figures. The Governor of Bombay telegraphy

that there were 8007 cholera cases in th famine district during the week ending July 21, of which 5073 resulted fatally. The total deaths in the relief works of the British district were 6753, or 4 3-5 per

There has been a good rainfall in North Gulfarat, and Kathiawar, and agricul-tural prospects are favorable in the re-mainder of the affected tracts. The numbers on relief works are decreasing, and gratuitous relief is increasing.

ERUPTION IN JAPAN.

Hundreds Killed by Lava and Rock

stamp

From Mount Asuma. SEATTLE, July 30 .- Particulars of th eruption of Mount Azuma, in Japan, on July 17, have been received in Oriental papers, Bo far as known, 250 persons were killed and many hundreds were injured. An English agent of the Japanese Gov-ernment, who was among the natives in the vicinity of Mount Asuma during the eruption, says:

"Early on the morning of July 17 loud detonations as if heavy guns were being fired were heard. They gradually decreased, and finally ceased altogether. But about 6 o'clock the internal disturbances came to a climax and tongues o fire spouted from the crater. We all eded towards the valley, not, how ver, before one of the great boulders had crashed through the place and killed 20 people. The ashes and small rocks were falling like hall, and it became difficult to breathe. I reached the village of Hi-yukule after scrambling through the trees

for two or three hours. "Everything seemed to be drying up from the intense heat. The ashes were hot and covered the ground for half an inch. One family of 10 who were too frightened to do anything but pray, got hemmed in by the lava and were ground and burned in the field. Several men and hildren from the village played out along the road and most of these were burned to death."

REBEL LEADERS AT OUTS.

Explanation of the Victory of Gov

ernment Forces at Panama. COLON, July 3h-Surprise has been ex-pressed at the ease and completeness of the victory of the government forces over those of the rebels in the battle of Mon-day, July 23. The reasons most gener-ally ascribed for the failure of the insurgents are that there had been a rupture between the leaders in the rebel camp, and that there was little discipline among the troops, who utterly disregarded the General's order to intrench and prepare for attack by the government army. When once the two forces were face to face, the rebels made a mad rush for the a withering fire, which resulted in a hor rible slaughter. Under the direction of government officials, the work of cremating the corpses of those who feil in the battle is pro-ceeding. The odor from putrefying bodies and the pyres pervade the atmos phere of the city.

ginning of the thirteenth round, and in-stead of putting up his hands for attack or defense, he extended his gloved right hand to McFadden, giving the latter the In the early stages of the fight O'Brief did fairly well, and with rushing tactles kept McFadden blocking on the defensive but as the battle went on McFadden's superior strength began to tell, and it was plain to be seen that O'Brien was in difficulty. In the tenth round O'Brien's legs began to give out and it was only a question then how long his pluck and endurance would carry him. In the twelfth O'Brien was sent to the floor three times with lefts and rights over the heart and was in such bad condition when he went to his corner at the end of the round that he was advised to give

up. He complained of his left side, but insisted on going on. However, better counsel prevailed, and he was induced to shake hands with McFadden, who would certainly have put him out in another round.

When O'Brien reached his dressing-room and was examined, it was discovered that the fifth and seventh ribs on his left side were broken. There were about \$000 persons in the

ouse, most of whom had seen the Erne-McGovern contest two weeks ago, and it was the impression that McGovern could bent either of the men in tonight's bout The betting was not very brisk. Mc-Fadden was the favorite at 100 to 60 early in the evening, but later these odds were increased to 2 to 1, being freely laid on McFadden and even money that he would win within 15 rounds. Both

men weighed in this evening, each being under the weight of 133 pounds. McFad-den was seconded by Billy Roche, Harry Tuttle, Archie Martin and Tommy Shortell, O'Brien's hadlers were Tom O'Rourke, Paddy Moran and Bammy Before the fight came off there was

12-round go at 105 pounds between Char ley Garrigan and Terry Edwards, both of Brooklyn. The work of these ban-tams was amateur and the contest reulted in a draw.

Failed to Pat Out Two Men.

ROCHESTER, N. Y. July 30 .- Dennis (Kid) McFadden, of San Francisco, failed in his effort to put two local fighters out in 20 rounds and incidentally was a dis-appointment to a crowd of 700 at the Falls Field Athletic Club this evening, The first bout was between McFadden and Hennemey, of Syracuse, and McFadden had agreed to put his man out in 10 rounds, or lose the purse. He lost. Kid McFadden then had another try with Kid Herrick, a local aspirant, under the same conditions as the McFadden-Honnessey bout, and it was declared a draw,

winds loaded with dusty particles that irritate the diseased parts that carry the air are absent; there is plenty of fresh air, as the house is kept open, and this, together with outdoor life, so impr the general health that Nature is able to improve all those diseases that attack the breathing tracts and cars. Thus, in the treatment of all catarrhal diseases, that which has been frequently urged is true, namely, that one month of treatment during the Summer, when the liability to catching cold is reduced to the minimum and Nature lends her aid to the physician, is worth two months of the most skillful and conscientious treatment during Winter.

The total expense to patients of the Copeland Institute is \$5 a month, treatment and medicines included. That's the limit. Patients not permitted to pay more, even if they so desire.

ant-General Miles has made few changes in his uniform since he attained his new rank. He is privileged to devise his own and that of the members of his nites staff. Since becoming Lieutenant-General he has added a star to his decorations

ne has added a star to his decorations and has adopted a cap of the Russian military type. He has under considera-tion changes of uniform of Army officers. These changes will not be radical and will be dictated by economy and greater adaptability for service, with special consideration for the requirements of duty on foreign stations. One of the changes published is the abandonment of the full-dress heimet, which does not add to the personal appearance of the wearer and increases the discomfort of military apparel. It has been suggested that a cap worn on all occasions and that a use be adopted which will serve for full dress and undress uniform. The disinction for full dress will be attained by additional decorations.

The Quartermasters resent any intererence with the uniform regulations and the fact that General Miles is consider-ing the subject has already led to some feeling between the Quartermaster's office and the General of the Army,
