THE PLOT IN AMERICA

NUMBERT AND OTHER SOVEREIGNS WERE DOOMED.

Breast's Friends Endeavored to Confuse the Police at the Time of the Assassination.

BOME, Aug. 2-Il Corriere della Italia says the police have discovered that a huge plot was formed in America to mur-

huge plot was formed in America to mur-for King Humbert, and that his assas-sination was to be followed by similar crimes throughout Europe. According to declarations made to the Milan police by persons who witnessed the assassination of King Humbert, and especially the King's footmen, four or five persons wearing around their necks black hundler-plant was Brand wore black handkerchiefs such as Bressi wore, were seen around the royal carriage at the time of the crime. After it was com-mitted they began shouting, evidently to increase the confusion and to help Bressi

ANABCHIST CONGRESS. Will Meet in Paris to Map Out a

Plan of Action. Plan of Action.

CHICAGO, Aug. 2.—The Tribune says:
According to Mrs. Lucy Parsons, an international congress of anarchists will be held
in Parls next month. The anarchists of
Chicago will meet locally next Sunday to
express approval of the "removal" of King
Humbert and inchientally will consider the
preparallon for the coming world's congress. This information was obtained from
Mrs. Parsons in an interview last evening. The congress, according to Mrs. Paring. Tursons in an interview has ever-ing. The congress, according to Mrs. Par-sons, has been called by the heads of the anarchisms' organizations in the different countries of Europe and America, and will be attended by representatives from

speaks French, has been chosen.
"What is the purpose of the congress?"
said Mrs. Parsons, repeating the question
put to her. "To map out a plan of action

Mrs. Parsons scouts the stories of a plot to kill King Humbert. She said: "Bressi was a militant anarchist. There are militant anarchists and philosophical anarchists. The latter are agitators and teachers and believe in organization. The former will not belong to any organization, but believe in action, and each one acts

independently of every one and in hisown way. Bressi did not even tell his wife of his intentions."

Lucy Parsons, relict of the anarchist, who put the crimp of anarchy in a meet-ing of socialists last night, was driven from the speaker's rostrum for her plain talk and almost precipitated a riot, which was quelled by the police, smid the dousing of red lights and scattering of 500 men who had assembled at Belmont and North Albany avenues to listen to the

When Henry Schultz and Otto Liberger had finished their addresses, Mrs. Lucy Parsons mounted the platform. Contrary to the supposed purpose of the meeting, she began by predicting great results from the international conference of anarchisis, called at Paris for September next. Some-body in the crowd interrupted the speakbody in the crowd interrupted the speak-or. This was followed by a brick that knocked over one of the red torches, Priends of Mrs. Parsons then made a rush for the man who dared interrupt her, but the police, fearing a riot, took a hand in the row and dispersed the crowd.

INVESTIGATION BEGUN.

Government Looking Into the Hum-bert Assassination.

NEW YORK, Aug. 2.—In compliance with an urgent representation made by Ambassador Fava, the Italian representative in this country, Secretary Bay has requested the Governor of New Jersey to take measures to obtain evidence prelim-inary to the prosecution of any person within his state who conspired to bring about the assassination of King Humbert eays the Washington correspondent of the Herald. Within a very short time, there-fore, the officers expect to have offi-Kinley, accompanied by Secretary Cortelcially determined whether the crime was the result of a conspiracy hatched in the United States. If evidence to support the assertion that such is the case can be obtained, it will then be necessary to decide whether the Federal or state laws permit prosecution of persons charged with conspiring against the ruler of a foreign nation.

The communication received at the Biate Department from Baron Fava shows clearly that he has placed detectives at work to put the responsibility for the crime upon the shoulders of those persons in Paterson who conspired with Bress! to murder the King.

The Governor of New Jersey, in compli-ance with the request of Secretary Hay, will set the state wheels of justice in mo-tion. Though it is denied that the so-cret service has decided to make an investigation, it would not be surprising should it inaugurate an investigation to obtain information for the use of the Gevernment in case further representations are made by the Italian Govern-ment. The authorities are horrified that the United States should have been the seat of the conspiracy, and they intend to use every available channel to punish the plotters, provided the proof necessary to establish their guilt can be obtained and a law can be found under which they can be prosecuted.

An examination of the revised statutes.

falls to show any section under which conspirators against the life of a foreign ruler can be punished. Besides, the treaty of extradition with Italy of 1898 specifically provides that "the provisions of this treaty shall not apply to any orime or offense of a political charac-

Baron Fava has not, of course, asked for the extradition of any persons who took part in the conspiracy, nor is he likely to do so, as such a request could not be entertained by this government. It may be, however, that the laws of New Jersey contain a provision under which the conspirators can be prosecuted. The administration is especially anxious to show Italy that it proposes to take whatever action it can to punish any persons who conspired with Bressi against

It is appreciated that unless vigorous measures are taken, Italy will not consider that this Government has behaved in a friendly manner and the cordial relations which exist between the two gov-eraments may in consequence be changed. Such steps as have been taken by the United States Government towards the arrest of persons in this country who have been connected with the assassina-tion of King Humbert were not instituted at the formal request of the Italian Government. The Italian Ambassador, Baron Pava, communicated unofficially on this subject with the United States Gov-ernment, and as a matter of international comity the Government put in motion such machinery as it has in command to discover Bressle co-conspirators, if there are such in this country.

GRIEVES WITH HIS MOTHER.

Italy's King at the Bier of His' Father.

MONZA Aug. 1 - King Victor Emmanue III. upon arriving here, met his mother, Queen Margherita, at the Castle. She fell into his arms weeping. The King knell before the body of his father and repeat-edly kissed and embraced it. Afterwards

for an hour, he, his mother and his wife prayed in the death chamber. Subsequently the King received the members of the Cabinet, the audience lasting an hour and a quarter. All the Ministers, with the exception of the Ministers of War and Justice, who are in Rome, took the oath of allegiance.

New York Italians Express Sorrow NEW YORK, Aug. 1.—Several representatives of the United Italian Societies of this city gathered in Tammany Hall to-night to express sorrow over the assas-sination of King Humbert. The meeting was presided over by F. P. Cambria, of the United Italian Association. A num-ber of addresses were made. Chairman Cambria offered resolutions expressing the sympathies of the United Italian So-COUNTY CLERK OF CROOK COUNTY.

every country where anarchists maintain an organization. America will send only one representative. A New York teach-er, who is a native of Switzerland, who John J. Smith, Clerk of Crook County, was born in Linn County, Oregon, in 1854. After spending a few years in Idaho he returned to said Mrs. Parsons, repeating the question put to her. To map out a plan of action for the anarchists of the world, to bring the followers of anarchy into closer touch, and to perfect a world-wide organization."

Those that mean that anarchists will plan fresh outbreaks?"

Mrs. Parsons black eyes snapped, but she ignored the question until it was repeated, when she said:

"It seems to me that they are pretty active now."

Mrs. Parsons scouts the stories of a plot to kill King Humbert. She said:

"Breast was a militant anarchist. There was regarded as the strongest man in the county, and the fight in the election was made on this office. As an evidence of Mr. Smith and Miss O. A. Forrest, of Eugens was a militant anarchist. There where he has since made his home gene, Or., were married in 1855. They have

two sons and two daughters. cieties of this city, and for the widow

and son of the dead King, and swearing alleriance to the new ruler. These were adopted. It was decided to cubic the text of the resolutions to the family.

New Jersey Laws Adequate. NEW YORK, Aug. 2 —Governor Voor-hees, of New Jersey, when asked if the state authorities would make any inves-tigation of the anarchists in New Jersey or try to stop the promotion of their cause, replied that the awa are well on-served now in New Jersey and amply suf-ficient a cover the are chy issue. If any ficient to cover the ara chy issue. If any transgressions of the laws were commit-ted, the state will take prompt action, and the offenders, when proved to be such, will be pros cuted and punished. The Governor did not seem pleased at the imputation that analchists were be-

San Prancisco Italians. SAN FRANCISCO, Aug. 2.—The Italians of San Francisco met last night and gave expression to their feelings on the assassination of King Humbert. A cableassessination of King Humbert. A cable gram of sympathy was sent to the Min-ister of Foreign Affairs to be communicaled to the royal family and it was de-cided to hold memorial services here on the day of the monarch's funeral, C. F. Serra, the Italian consul at this port, is now in Rome, and he was instructed by cable to represent the local

colony at the funeral.

you, reached Washington at 7:50 this morning. It is officially stated that nothing has developed in connection with the Chinese situation which especially demanded his presence in Washington at the present time. It is his intention to return to Canton tomorrow night. Secretary Long, who intended leaving

last night for Hingham, Mass, for his annual vacation, remained over, and called on the President on his way to the sta-tion this morning. He announced that the President was unusually well and in fine spirits.

Secretary Hay entertained the President at dinner at the Country Club, near Washington, tonight. Secretary Hay later said there was nothing new in the Chinese situation. Several dispatches from the East were received by the Navy De-partment, but they contained nothing from Minister Conger nor any word of the reported forward movement of the ailies.

Bomb Explodes in a Vault.

NEW YORK, Aug. 2.—A bomb was ac-eidentally exploded in a vault of the old City Hall, now used as a Recorder's Court, in Paterson, N. J., today. The Court, in Paterson, N. J., today. The loud report caused a sensation, and a re-port that anarchists had attempted to wreck the City Hall quickly became solid basis; its business men do a cash current. No one was seriously hurt. A business; the citzens are all well-to-do, small dynamite bomb which was seiged and the town goes on growing gradually, by the police from an Italian bombmaker. Every year finds improvement, not great,

month ago and placed in the vault by but substantial and solid. There is not

INDUSTRIES THAT ARE RAPIDLY COMING TO THE FRONT.

How Resources Are Developed, Making the People Prosperous and Contented-Future Very Bright.

PRINEVILLE, Or., Aug. 1—Crook County is a state within itself. It is not only so in area, but is so in resources. Stock-raising and wool-growing, farming Stock-raising and wool-growing, farming and mining, even now in their infancy, bring great wealth to the county. It is also a region of picturesque natural scenery, vast level piains, rolling hills, towering buttes, rugged mountains, spiral peaks, deep canyons, interesting caves, tall natural rock piliars, mountain streams, cold, clear springs and a hundred other colors. other points to interest the tourist and give the resident recreation. Crook Coun-ty was organized in 1882, but it had been settled long before that date. Still, it is just at the dawn of a great history. Stock-raising and wool-growing have been its main features for the past 30 years, in-terspersed with a little hay-raising and mining in later years, but now the latter is coming to the front, and will soon reach gigantic proportions. Rich discov-eries are being made and mines are being opened throughout the county, irrigation companies are being formed, ditches are being dux, and the water from the moun-tain streams that has heretofore flowed through canyons and guiches and over barren rocks is being diverted to the fer-tile soil in the rich valleys and on the

It is predicted that every nore of tillable soil will be subject to cultivation in a few years, and already the homeseeker is looking sharp this way, and railroad companies are drawing their places. While it will be one of the richest farming and mining countles in the state, wool-growing and stock-raising will go right on, and the number of head of stock and the number of pounds of wool will be increased annually. The time is ripe for the change. Already the wild

and the future points to the inevitable result that the bands must be reduced and the feed-raising increased. Even the Summer range is now a greater problem than the Winter range. In Winter what the "desert" range fails to supply the farmers or ranchers fill out, but in Summer great areas are traversed and left more barren every year, and many woolgrowers barely make it through, the shortness of the Summer range frequently retarding the growth of wool, thus lower-

raisers, more-stock, but smaller bands and better animals, is the watchword in Eastern and Southern Oregon.

The County Seat. Princylle, the county seat of Crook County, is one of the most prosperous towns of its size in the state. It always

has been. Barney Prine was the first settler. He built a home here in 1887 and opened a small store and a blacksmith shop combined in 1888. Bill Pickett and

snop combined in 1888. Bill Pickett and Wm. Heisler each opened business on a small scale in 1869. From that day to this the town has been one of the safest business points in the state. It probably has the best record of any in the world. T. M. Baldwin, cashier of the First National Bank, who has been in business here for more than 20 years, makes the statement that there has never been a

statement that there has never been a

business failure in Prineville. This is cor-

roborated by every man that is familiar with the history of the place. The town has never been on a hoom. It is on a

solid basis; its business men do a cash

this they always find ready sale, and they have grown wealthy. But the ground grows vegetables and fruits and grains, esides, and diversified farming is begin ning to stir itself, and irrigation will do the rest. Princylle will be a city. It is the business center of a section of coun-try covering hundreds of miles in extent. An immense volume of business is al-ready done here. The First National Bank, which was organized in April, 1888, has just filed its report. Its capital stock is \$50,000, and at no time has it falled to is \$50,000, and at no time has it false to pay dividends annually to its stockhold-ers. During the panic of 1853, when banks were failing all over the country, this bank was paying dividends. The last re-port shows deposits, which are lightest at this season of the year, to be \$138,000. The loans and discounts are \$51,223 33; the

MAYOR OF PRINEVILLE.

Arthur Hodges, Mayor of Prineville, was horn in Benton County, Oregon, 32 years ago. His parents moved to Prineville when young Hodges was 2 years old; hence he has lived in Princyllis 50 years. He was educated at Corvallis and Portland. His father was the owner wool-growing and stock-raising will go right on, and the number of head of stock and the number of head of stock and the number of pounds of wool will be increased annually. The time is ripe for the change. Already the wild range is decreasing, and the matter was becoming a problem.

It is a question among the large sheepowners who would get sufficient territory to sustain the vast individual herds through the Summer as well as Winter, and the couple immediately took up their residence at Prineville.

surplus, 210,000; undivided profits, \$17,000, and total assets, \$22,655 12. The total

hardware, tinware, farm implements, vehicles of all kinds, stationery, confectioneries and a few staple drugs and patent

medicines. Nearly every line of legiti-mate business is represented here. Among the harness makers, J. W. Bone has a reputation for making saddle specially adapted to this country. Templeton &

adapted to this country. Templeton & Son are popular druggists. Davenport Bros. have a splendid livery and feed stable, and Mrs. Maggie Bratton, formerly of the Williametts Valley, has a photograph gallery. There are many others in the various lines of business, all of whom are doing well, and the saloons and hotels as in all frontier towns do a thriv-

tels, as in all frontier towns, do a thriving business. New business houses are being opened to meet the demands of the increasing population, and as the indus-

tries of the county increase the town of

Princylle will continue to grow, and that

THE NEW HARVEST QUEEN

O. R. & N. CO.'S NEW TOWBOAT ON A TRIAL TRIP.

Is a Fast and Powerful Steamer Five-Thousand-Ton Grain-Carrier Arrives.

The latest addition to the O. R. & N. Co.'s fleet, the steamer Harvest Queen, was out on a warming-up trial yesterday afternoon. It was the first trip of the steamer, and as everything about her was steamer, and as everything about her was new and stiff, no attempt was made to speed her. The bollers, as usual on the first trip, "foamed" considerably, so that high steam was not carried. The new steamer demonstrated, however, that she could do all that was expected of her and could do all that was expected of her and make less fuss about it than any steamer that has ret appeared. With 125 pounds of steam, which is 00 pounds less than she will carry when she is ready for business, and making but 21 turns of her wheel per minute, compared with 30 turns, which she will make under full head, she ran to St. Johns, a distance of six miles, in 18 minutes. She is a very strong boat, built with a view to doing heavy work on the river and her hull is so well braced the river, and her hull is so well braced and chained that there was not the slightest tremor in any part of the boat when

est tremor in any part of the boat when she was running.

The Harvest Queen is 185 feet long, M feet beam, and 8.5 feet depth of hold. She is equipped with poppet-valve engines, M-inch diameter of cylinder, and 8 feet stroke, and has plenty of boller capacity to make all of the steam needed to keep the engines moving. The machinery was built by Wolff & Zwicker, of this city, and is thoroughly up to date. The house and upper works are of the regulation towboat type, with the exception that there are a few more staterooms than are usurily found on towboats. The lower deck forward of the house is admirably adapted for carrying heavy and

will be in command of Captain Lester A. Bailey, who has been very successful in towing deep-draft ships with the old Har-vest Queen. Chief Engineer Pape was handling the throttle yesterday, but when she goes into active service Fred Smith will have charge of the engine-room.

July 29, boy, to the wife of A. S.
Paulsen, 556 Union avenue.

Derangement of the liver, with consti-pation, injures the complexion, induces pumples, sallow skin. Carter's Little Liver Pills remove the cause.

What is wanted of soap for the skin is to wash it clean and not hurt it. Pure soap does that. This is why we want pure soap; and when we say pure, we mean without alkali.

Pears' is pure; no free alkali. There are a thousand virtues of soap; this one is enough. You can trust a soap that has no biting alkali in it.

All sorts of stores sell it, especially druggists; all sorts of people use it.

In cases of organic weakness, kidney mplaint, nervous debility, varicocela dyspepsia, sleeplessness, liver complaint,

(Patented) is worn by men with the cur-rent centered at two poles, one applied to the nerve-muscular center at the kitheys and the suspensory being the other pole. Thus the current, to complete the circuit, must pass from the pole at the back through all the affected and weakened organs, and the toning, exhibarating, soothing vigor which it supplies is imme-diately feit throughout the entire body. Call and consult me free, or send for my new illustrated book.
