# The Fear of Endangering Republican Victory in the State Led to Mutual Concessions. BEATTLE Aug. 1.-Expectation that the second day of the Republican county convention would prove a turbulent af-fair was disappointed. Both sides had got tired of the vain struggie for su-premacy, and a compromise was reached which resulted in the Frink people gat-ting control of the convention. It was a virtual surrender for the Humes-Guis forces. They realized that they could not maintain their position without Break-ing the convention up in a row and en-dangering Republican success in both county and state. They gained a barres

county and state. They gained a barron victory, however, in forcing the Frink people to recomine the temporary organ-ization as proper and regular, and then left to the convention itself the matter of effecting permanent organization. The convention selected Frink delegates in the state convention and instructed them

o voto as a unit. The whole effort of the Frink faction The whole effort of the Frink faction yesterday was to have the temporary or-animation vacated, and they were suc-cessfully resisted by the opposition. It was evident that the Frink men feared that if the Humes-Guie people were to name the credentials committee they would institute a number of contests and unseat enough delegates to give them control of the convention. The Humes-Guie element discinimed any such inten-tion and accounted the offer of the Frink following to do away with a credentials following to do away with a credential committee and allow the defentes sho participated in the temporary organiza-tion to declare themselves the duly ac-credited members of the convention. The initial committees on platform and reso-lutions were appointed without dissent from the Humai-Gule non. They real-ized that they were short of a majority and concluded to move themselves for a fight over the election of delegates to the state accuration.

There was an immense crowd present at the Armory at 9 o'clock this morning, the time set for the assembly of the con-vention, fully expecting to be entertained by a great row. Nearly two heaves aftar the time set. Temporary Chairman Lew-is mounted the contrum and then the programme mapped out by the compro-mise committee was carried out without friction. The convention, after the appointment of committees, tock a recess till 2 P. M., when the platform commit the made its report. The committee an order of business followed with its report and the final test of strength between the factions was precipitated.

The fluctions was precipitated. The flumes-Guie men had a majority of the committee and they wanted the naming of delegates to the state conven-tion placed last in the order of husi-ness. The Frick people submitted a mi-nority report providing that the Govern-orship matter be placed first, and that the delegates to the state convention be see

## is awaited with great interest. Meanwhile the Government of the Meanwhile the Government of the United States, like the governments of Europe, has not abandoned its efforts to establish communication with its Minis-ter at Pekin, and the State Department has instructed Consul-General Goodnow, at Shanghai; Consul Fowler, at Che Foo, and Consul Ragsdale, at Tien Tsin, to spare no effort or expense to open direct nication with Mr. Conger. In addition to his short message relative to the Japanese check, transmitted through Admiral Remey and received this SIIMMAI through Admiral Remey and received the morning, General Chaffee made another and direct cable report this afternoon. The message is withheld from publica-tion by Secretary Root. It is presumably a recital of General Chaffee's needs in a military way. In view of the London military way. In view of the London statement that the advance on Pekin actually began with the present week, there Chaffee's message has some bearing on that subject, though it is thought the advance, if started, could not beyond Tien Tsin, as the outpost encoun-ter, as far as described by him, took place only 19 miles out of town. LI HUNG CHANG TEMPORIZES. Asks That the Attack on Pekin Be Deferred. WASHINGTON, Aug. 1.—Consul-General Goodnow has cabled Secretary Hay that

he delivered to Li Hung Chang the Sec-retary's answer to the former's sugges-tion that the attack on Pekin be deferred in consideration of opening free communi-cation with the foreign Ministers. Li Hung Chang made no positive comment upon the reply, but immediately began to advance suggestions looking to further negotiations on the same point. BRESSI'S MOVEMENTS.
