PORT OF PORTLAND. City Dredge and Tender Ordered Sold at Auction.

A meeting of the Port of Portland Com-mission was held yesterday, Vice-Presi-dent Williams presiding, and Messra-Hill, Flanders, Hughes and McCraken

present.
A communication from the Common Council, authorizing the Commissioners to sell the city dredge and the tender Louise Vaughn was read, and on motion

of Mr. Flanders it was ordered that these craft be advertised for sale and that bids be received up to September 5 at 11 A. M., by the executive committee, and that the same be submitted to the

board at a special meeting to be held at 5 P. M. on that day.

The dredge worked at Postoffice Bar digging the channel to a depth of 23 feet, until July 23, when, owing to the ship Rickmer Rickmers having gone

ship Rickmer Rickmers having gone ashore at the mouth of the river, the dredge was taken down, and has since been working at that point.

The recent freshet deposited about seven feet of silt at the mouth of the Willamette. A channel has now been dredged through this of 160 feet width, and another cut is being made alongside of the one already completed which will leave a

HOUSEBREAKING IS THUS MADE EASY

Safecrackers Also Are at Work-Police Have Relentlessly Hunted Down a Clew.

Having hit on the ingenious plan of plundering houses whose occupants are accounting where the rocking billows rise and sink by the chafed oceanside, the festive Portland burgiar has got things coming his way this Summer. He is tak-ing no chances on peering into the cav-ernous depths of an inquiring six-shoot-or, as he rounds a hall corner, of awaker, as he rounds a hall corner, of awaking an avenging bull-dog, or treading on
the treacherous mat that springs a tintinnabulating burgiar alarm. He simply
goes to an unoccupied house, hunts
around till he finds what he wants, appeases his insatiate appetits as best he
may with whatever edible he finds lying
around loose, and departs. Gentlemen on
burgiary bent have already entered the
residences of J. E. Thicleen, on the
southeast corner of Twenty-first and
Washington streets, E. J. Jeffery, on the
northwest corner of Twentieth street, and orthwest corner of Twentieth street, and Captain Archie Pease, 24 Couch street. They took their time in all these houses, and made a very thorough search, but the reward of their labors was by no means commensurate with the origin-ality of their plan of action. They will and people who live by the sea during the Summer months will add to the se-curity of their property by putting their houses in a safe-deposit wall while they

There is one thing about the robbery of the three houses just mentioned that looks as if the burgiars or their agents have been breathing the salt sea air them-melves perhaps, merely to take a brace, which it is uniferstood is a part of a burglar's kit. The three families whose niciles were invaded were living side by side at Long Beach, and there is reaon to believe that some unscrupulous serson, knowing of their absence from Partland returned to this city, looked them up in the directory and proceeded to loot and plunder. A pair of opera-glasses stolen from the Thielsen house were found in a pawn-shop yesterday. This furnishes the police with a clew. which will serve as a pleasant little sou-

which will serve as a picasant little sou-venir of the occasion, this being the chief use to which clews are put. Wednesday Mr. and Mrs. Thielsen re-ceived at Long Beach the pleasing in-telligance that their house had been loosed. They remembered of having left nothing there that would be of particular value as loot, but still they were somewhat disquieted at the news, and de-cided to come home and find out about

Mrs. King, who lives across the street from the Thielsen house, and who had been in the habit of watering the lawn ile the family was away, noticed esday evening that the kitchen blinds vere open. This attracted her attention screen door, and, perceiving that It has been broken through in order to enable some person or persons to her un-known to get a hand on the door latch. she decided that there was something do-

ing inside, and prudently went and armed herself with her husband. When they entered the house they found that Mrs. King's intuition had not milded her. A Kansas cyclone might have passed through the house and turned things more topsy-turvy, but nothing else could. Every drawer in every chest, bureau or washstand had been pulled out, and the burgiars had thoughtlessly negcted to put any of them back. On se dinner table were the remains of a bread which the visitors had constructed of some nuts they found in the sideourd, the shells of which were distribof around the carpets of the several one with remarkable impartiality. An tire cork remained to tell the sad story of a bottle of choice brandy which had n acquiring age and mellowness in a lower compariment of the sideboard. Pillows and sheets were gone, and the thisses did not have enough regard for human curiosity to leave a note explaining what they wanted of them. Letters know, read. The cloth lining of a walnut rnet-case was torn out, as if some one had been looking for jewels beneath it. The cornet was not disturbed. Every room was invaded, and its contents laid waste in the same fashion. A large part Thielsen's wardrobe, including eral hats, were taken. Mr. Thielsen's osets where they hung were exhaustive-

ramacked. If was evident that the visitors had been in no hurry, and had been seek-ing for something which they supposed was hidden away, perhaps the handsome watch charm which the employes of the Portland Railway Company presented to Mr. Thielsen when he severed his con-nection with the company. Had anything of the kind been left in the house, they would surely have found it, but fortun ately they were anable to secure anything of great value, and the damage they in-flicted on the furniture can be repaired by the liberal use of a broom and a shing cloth.

After viewing the trail of the burgiars through the Thielsen residence, some instinct prompted M*. King to take a look at the house of his brother-in-law, Mr. Jeffery on the corner below, and a hasty impaction of the exterior disclosed the fact that some gentleman had en-tered the bouse by means of a window. Mr. King procured a key to the bouse, and took a survey of the various rooms, in all of which traces of self-invited guests were in evidence. Not knowing just what Mr. Joffery had left in the house, Mr. King was unable to assess the loss, but he notified the owner, who will probably arrive today to add his voice to the hue and cry after the thieves. If he employed the same foresight as Mr. elsen and removed his valuables to a

place of safety before leaving his house, be may be equally fortunate. Captain Pease was not in Portland last night, but from a neighbor it was learned that some one has been in his house and made a cureful examination of the in-terior, although with what fortune it was not known.

SAFE-CRACKERS AT WORK.

Bold But Unsuccessful Try at an Auctioneer's Strong Box.

cessful attempt was made by burglars early yesterday morning to blow open the safe in the office of Wilson's auction rooms, 182 First street. A hole just large enough to admit an ordinary lead pencil was drilled through the door of the safe, just above the combination lock; powder and fuse inserted, and the charge exploded, a large carpet having been spread over the front of the safe to deaden the saund. The force of the explosion split the inner door and forced It back so as to crush in the fronts of some small drawers inside, but the lock was uninjured, and the safe was opened later by the combination, the same as usual. Two pieces of fuse were found on the floor near the safe, and beside it stood a bed stat with a wire attached, which had been used in pressing the drill against the safe to bore the hole. The burgiars had waited till after a sale day to attack the safe, and they will more than over regret the failure of their charge to do its work when they learn that there was over \$800 in coin in the safe, besides checks, etc.

left in the lock inside this door, and the door communicating with the sales-room was locked. The watchman com-ing along about 4 A. M. found both these ing along about 4 A. M. found both these doors open, the lock on the connecting door having been forced with a chisel found on the premises. The office was still filled with smoke, but the burglars had disappeared. It is not certain whether and disappeared, it is not certain whether they had been ridden away in the sales-room, or and gained entrance to the second story of the building by means of a ladder which had been carelessly left standing against it. Mr. Wilson considers himself very fortunate and will see that burglars do not have so good a chance to make a stake off him in the

No Information Received. No trace has been found of the silver communion set stolen from the Third Presbyterian Church. It is the opinion of the police that it and the stereopticon have been taken away from the city. Watch has been kept of the second-hand stores for them, but they have not turned up. On the pitcher of the communion set are engraved the words, "Presented to the First Presbyterian

arket this Fall on account of the drouth PROGRESS OF MAZAMAS in Texas and Montana, which will cause the sheepraisers of those states to throw their stock on the market, as fodder will be scarce, and more or less difficulty will be experienced in tiding the stock over PROBABLY WILL CLIMB MOUNT be experienced in tiding the stock over the Winter. He will, therefore, hang on to his 6000 head until Spring, when he expects a rise again. In fact, he will do some buying of lambs when the sheep return from the mountains in October, having abundance of Winter range and many stacks of hay with which to keep them in good order. After shearing them in the Spring he will sail these lambs as JEFFERSON TOMORROW. A Pleasant Railroad Trip-Membership of the Party-Modified Plans for the Outing.

ing.

DETROIT, Or., Aug. 7.—At \$:30 P. M. yesterday the main body of Mazamas left Portiand on the regular Southern Pacific train for Albany, where we were joined by members from other points. o'clock this morning we boarded a spe-cial coach on the Corvallis & Eastern for this point. At Lyons Station we were agreeably surprised to meet Mrs. W. E. Thomas, Mrs. E. S. Jackson and Mrs. G. L. Grindstaff, of Portland, who came to Detroit with us, returning on the same train. The pleasure of our trip today

Church of East Portland by the Mission has been materially increased by the Church, of Bellefontaine, O." The set is the solid silver, and is really of no value to any one. It cannot be melted up, and then the inscription on the set will prevent its being disposed of. Hence the thief is invited to do a good act by return-ing it. He has the same skeleton key by which he entered the church base-ment, and can replace the set in the box from which he took it, but the church entertains no hopes that the in-vitation will be accepted.

Burglays Held to Answer. Three alleged burglars were westerday held to appear before the Grand Jury in the sum of \$500 each. Two were Harry Smith and Frank Johnson, accused of robbing the Brown building, on the East Side, February 15. The third was John Williams, a colored hobo, who is charged with breakling into the dwelling of W. M. Strahlman. They were all remanded to the County Jail, in default of bonds.

THE ENGLISH PARTRIDGES. Let Those Who Wish to Shoot Them Pay Toward Importation.

It is understood that the effort put forth among sportsmen to raise a fund for the introduction of the English partridge to Oregon has been quite successful. There are still a few subscription lists out that have not been fully reported on, but they will all be called in by the 15th of the present month. It is determined to have the birds here this Fall, and it is therefore necessary to have an order placed in Europe for them early in September, to allow time for netting them on their na-tive heath. Just as many birds will be tive heath. ordered as there is money on hand for

and it is expected that they can be had here for liberation early in the Fail. These birds will be a great acquisition to the game supply of the state, they affording the very finest of upland sport, and it would be a pity if ample funds are not on hand to secure plenty of them and insure successful planting. There have been many generous dona-

tions to the fund from those who never handle a gun, while there are doubtless some who do a great deal of hunting that have failed to accept the polite invitation

Camp was pitched on both sides of the Santiam, and an excellent lunch was served. Roll call showed the following persons present:

Rodney L. Glisan, L. E. Anderson, R. Alex. Bernstein, E. H. Loomis, F. C. Lit-tle, R. B. Wilson, Miss Jennie E. Thomp-son, D. C. Freeman, W. L. Brewster, M. C. George, E. C. Blackwood, Fred A. Routledge, A. P. McKinlay, E. L. Mc-Kinlay, W. G. Steel and wife, of Portland; Kinlay, W. G. Steel and wife, of Portland; Frank D. Frazer and W. H. Dougan, of Seattle; Miss Minerva Udell, of Tacoma; Professor P. L. Campbell and C. C. Lewis, of Monmouth; Dr. W. A. Trimble, Rev. H. L. Reed, Rev. O. A. Petty, Ed Stewart and J. G. Crawford, of Albany, Professor T. O. Hutchinson, of Oakland; H. N. Cockerline, of Eugene; Harry Cook, of Sa-lem; George S. Betty, of Capby, Mrs. lem; George S. Batty, of Canby; Mrs. — Mercer, of Detroit, and E. T. Parsons, of

The day has been cloudy, with now and then a shower, but as evening advances the clouds are disappearing and prospects for the morrow are all that can be desired. Plans formulated in Portland are one by one giving place to better ones for approaching the mountain. Investigations commenced here yesterday by Mr. Routledge have been carried on today, the result of which is that we will probably not visit Lake Pamelia at all, but camp at Hunt's Cove Friday night and climb the mountain on Saturday; then probably move over to Marion Lake

SEATTLE ELKS COMING HERE IN FORCE.

Grows Livelier-Fire Protection for the Fair. in the Spring he will sell these lambs as yearlings for about \$3.50 a head, besides disposing of the wool clip, which will more than pay the expenses of Winter-

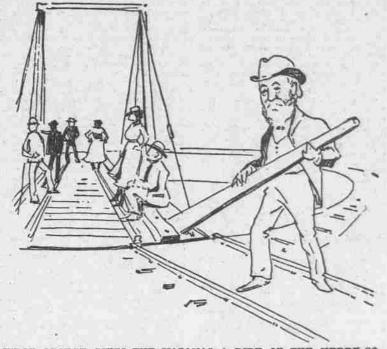

The only trouble that the Portland Street Fair and Carnival will make any one will fail to the lot of the railroads. They may have hard work to find passenger coaches enough to bring the crowds into Portland. It looked for a while as if everything was going to come in in a smooth, steady, easy stream, but it doesn't look that way any more.

THEY WANT 20 COACHES trading to the stranger within the gates what kind of things are made here. Work on the arches and buildings is going rapidly forward, and they begin more and more to show how imposing a spectacle the fair will be when it is all completed, and glittering with theusands of incandescent lights. Merchants are arranging to decorate on a lavish scale, and on the opening day of the fair the Vote for Queen of the Carnival city will present picture such as is seen but once or twice in a lifetime.

LICENSE THE WHEELS.

Only Way to Get Money for Bicycle Paths.

While the Portland anti-tax people have succeeded in stopping, or at least delaying, the construction of cycle paths in the city, it may be of interest to that class to note that in many other cities there is a growing enthusiasm over the building of cycle paths. We are dropping The people of Scattle want a train of 30 behind in the good work that is going cars to bring them over here on Elks' ahead in other cities. The statement made and any. The people of Tacoma will come in that the men who work in the mills proportionate numbers and bring a band.

schoolhouse and cross the vacant ground to East Eighth street. None of these can take that route when the rainy weather starts in. Not a few of these were vio-lently opposed to paying the tax.

Pass over to the Section path. Here converge wheelmen from Woodstock, and for some time there is a constant stream of wheels, ridden by men and women. They come from Woodstock, Trement, Ivanhoe, Mount Scott and from the wide section in the southeast and from South Mount Tabor and Kligaver. They also come from as far as Gresham. As to the cycle path on the Base line, every-body knows that it is of incalculable advantage to all of Mount Tabor, including Montavilla, Russellville and the set-tlement east of Mount Tabor. And yet there were many receiving the benefit who opposed the payment of the tax.

These paths are all constructed, and These paths are all constructed, and have to be kept in repair, or they will deteriorate. The heavy travel of wheels, the constant use by pedestrians and also stock will soon wear away the surface of these paths. It was proposed to build a fine system inside the city, connecting these outside paths, when the men who benefit from them jumped on to the law. There is bound to be delay now before anything further can be done in Portland in the way of cycle-path con-Portland in the way of cycle-path construction.

It may be assumed that the Supreme

then probably move over to Marion Lake for several days to enjoy the excellent fishing afforded there.

The raiser, brought some 700 hraded or year the poor little thing had to fight for a place in the calamity platform, and sections and the more elaborate specences and stabling after the section.

Miss Laura Windorf 201 had sequenced in thing all these struction.

It may be assumed that the Supreme Court will affirm the decision of the low study warned, will so to be adopted, or Portland will say to be adopted, or Portland will after the decision of the low suprements to ment; wheeler count is find a single line about the scared ratio of its of the fall to mind a single line about the scared ratio will say to be adopted, or Portland will have to be adopted or Portland will have t the cycle tax. They are willing that the paths should be built, provided some one other than themselves pay for them. In Tacoma there are 26 miles of fine

cycle paths built, and others are pro-Most of these paths are of cinders, and cost from \$300 to \$500 per mile. The money is raised by a yearly license of \$1 on each wheel, and the sum of \$5000 is raised annually. This sum is collected and expended by the municipal government on the recommendation of a committee of wheelmen. This method has proved satisfactory, and the work of laying out more paths is going forward with vigor. There is not a disward with vigor. There is not a dis-trict in Tacoma that has not its cycle path along some prominent street to ac-commodate the thousands of riders who ride to and from their work. Here in Portland the same sort of cycle system was laid out by the cycle council, and would now be under construction but for the opposition of the "kickers," who de-clare they want cycle paths, but want them some other wayunt is, somebody else to pay for them while they enjoy their benefits.

The cycle publications tell of the great interest that is being taken in cycle-construction all over the country, nearly every case there is a tax on wheels to pay for the work. every case is the tax collected by the city, but in some states the tax is similar to the Oregon law, but the general opin-lon is that the law works better where there is a license and the money is col-lected by the city and expended by the city authorities.

It would seem that this is really the only way to proceed in Portland, if we are to have a system connecting with the country paths. The license could be made at the rate of 50 cents on each wheel, which would likely yield enough money to build a good system of paths inside the city. It may be assumed that if the Supreme Court decides that the cycle-tax law is unconstitutional that every man who has paid his tax may be able to get it refunded in some way. The small claims will be bought up and pressed against the county, and it is hard to see if the law is unconstitutional how the county can retain what money it has on hand, and get out of refunding what it collected and expended last year. There are some, no doubt, who will not want their money refunded, but these will be

found very few, indeed.

It may be interesting to note that none of the difficulties encountered here in Portland in the construction of cycle paths has been met in other cities, but generally there has been acquiescence in the measures taken to get paths. But the "antis" we shall always have with us, and we will have to act accordingly.

LAID ASIDE 18 BALLOTS

REOPENING SCHMEER - HOLDROOK ELECTION CONTEST.

Under a Magnifying Glass, Crosses Marked for Holbrook Seem to Vary From the Others.

In the Schmeer-Holbrook contest, 18 ballots cost for Holbrook in precinct the were half aside yesterday as the result of the further inspection of the ballots ordered by Judge Frazer. If Holbrook

ordered by Judge Frazer. If Holbrook shall lose nine or more of these ballots, Schmeer will get the office.

The order of the court issued in relation to the matter was as follows:

"It is therefore ordered that the ballots cast in precinct 42 in the Ninth Ward may be inspected by the contestant and his representatives, or at least those that were not passed upon by the court at the former count, in the presence of the defendant, and that said inspection be had under the direction of the County. be had under the direction of the County Clerk."

Clerk."

At the recount of the votes, all ballots marked for Holbrook were passed over hurriedly, and counted for him without question. The attorneys for Schmeer subsequently, in view of developments, asked that these ballots be looked over sgain to see if the crosses opposite Holbrook's name look the same as those marked by the voter opposite other names. The idea is that if fraud was perpetrated ballots left blank by the voter for the office of Councilman may have been marked for Holbrook, and that the cross put there by another hand would appear different from other crosses on the same ballot.

appear director from other crosses on the same ballot. County Clerk Holmes, Schmeer, Hol-brook and their attorneys and J. A. Wesco were the only persons present at the inspection. Mr. Wesco was called the inspection air. West amined the in as an expert, and he examined the crosses carefully through a magnifying

glass.
The 18 ballots put aside are whereon the cross seems to vary slightly from other similar marks on the ticket. It is a little heavier or appears to dis-closs some small irregularity. That these crosses differ is a matter of opin-ion or suspicion.

ion or suspicion.

The next move will be to bring the case again before Judge Frazer on a motion for a rehearing on the ground of newly discovered evidence. If the motion is filed and granted, Judge Frazer will then probably pass on these is ballots as to whether he believes they are irregular, and if the proceed with the probably the process of the part of the process of the part of the process. irregular, and if the supposed variation the marks are apparent or real.

LET OFF WITH A WARNING. Lawiess Bicycle-Riders in the Police Court.

Wheelmen who persist in riding on the sidewalks, or who are out nights with-out lamps, were represented in the Mu-nicipal Court yesterday by 14 defendants. They stood up before Judge Cameron and made all sorts of excuses, some saying they were not aware they were violating any ordinance, and others that they had not read in the papers about the authorities having determined to en force the law.

Those charged with riding at night without lamps were mostly youths about the age of 20, and struck the spectators the age of 20, and struck the spectators as being fine specimens of the rash scorcher who humps himself down on his handle-bars, as he scoots by people, scaring the nervous, at the imminent risk of his own neck. They pleaded guilty, and each was allowed to make as good a showing as possible for himself. They had been stopped by the patrolmen in all quarters of the city, but more generally at the appoaches to the big bridges. One had been to town and expected to got back home before night, so he had neglected to carry his lamp; another "had heard a good deal about the ordinances being enforced on previous eccasions, but no one had been fined, and wheelmen continued to ride at night, wheelmen continued to ride at night, without lamps." He thought it was going to be that way this time. And so on through the list. Judge Cameron did not feel justified, he said, in fining all these

each pleaded guilty. The excuses made were that "the street along that particu-lar point was impassable for a bicycle"; that they were late in getting to their work and so thought they would take the sidewalk for a block or two, especially as no pedestrians were using the sidewalks just then." Some had been picked up on Milwaukee avenue, in Brooklyn, and others on Fourteenth street in North Portland. They all prom-ised to keep off the walks in future, and so only one, August Rickson, was fined, \$6. The rest were let off with

warning.
Two or three wheelmen whose bleveles were in charge of the Chief of Police failed to show up, and, as the wheels could not lawfully be declared forfelted. the deputy City Attorney asked for bench warrants to be issued. These were placed in the hands of the proper officers, and the defendants will probably be produced in court today.

Ten More Pulled.

Ten more sidewalk bicyclists were ar-rested yesterday afternoon and brought to the station. In each case the wheel or E was left with the Captain of Police for was left with the Captain of Police Se-security. The defendants will have a hearing this afternoon in the Municipal Court, and they will be given a chance to explain why they prefer the side-walks in spite of the ordinance long since made and provided, but until now not enforced. The arrested ones are: H. Bus-seil, F. D. Jones, H. B. Wood, Jacob Blum, C. Hansen, A. W. Holnizrest, August Lamb, John Stng (Chinese), E. A. Patterson and W. McAlpine.
