DREAMERS.

There's nothing half so sweet in life as love's young dream. The old song is right. Love's young dreamers. They create a special world in which they live immune from the hurts and ills which vex common humanity. In their esti-

mate, there is no place for a doctor. And very often when the dream dissolves they find that the doctor's bill, the one thing they didn't count on, is now the thing that's as regular as rent and taxes. Some progress many times it is money wasted. Dr. Pierce's Favorite Prescription will do for a woman all her womanly ills, practically every thing that can be done by any doctor or medicine. It regulates the periods, dries debilitated drains and cures inflammation, and female weakness. It makes childbirth easy, and thousands of nursing mothers have testified to its tonic and strength giving properties. It contains no alcohol, neither opium, cocaine or other narcotic.
