Professor Bryan appears to be state, who are not satisfied with his former administration of the office, and a silver has been put to sleep by a Repub him. It resulted in nothing except an acrimentous discussion in the King County delegation. Several delegates insisted on voting for Professor Layhue, and appealed to the convention to be permitted to cast their votes, deeplie the unit rule enforced in the Scattle delegation. The Eing County leaders violently protested: and a very lively row ensued, to the edi-Scation of the convention, and the great delight of Pierce County, who was sented near. tion, a very tame affair. Whenever the platform adopted at Philadelphia, and commend it to the voters of this state was at once ratified. The proceedings bewas at once ratified. The proceedings became so monotonous that the delegates finally fell into the practice of shouling the work of Senator Addison G. Foster Age" as soon as the name of a slate and Congressmen W. L. Jones and F. W. esudidate was mentioned. The chairman entered into the spirit of levity which animated the convention, and in several instances declared a candidate who had thus informally been indersed by the conception its candidate without further ac-

Very good speeches were made by Congressman Jones and Cushman while waiting for the committee on platform. Mr. Frink was called before the convention after his nomination. His appearance was the signal for much enthusiasm, and he was given three cheers after it was over. But as a speech it was a very dismai effort. The convention was in session for chant marine.

Less thus an hour this morning, and for "We favor the building of railroads." about three hours this afternoon, making a record for brevity of proceedings quite unprecedented in the history of the state.

So far as personnel is concerned the ticket was fairly satisfactory to the concention as a whole; but there is great complaint from Eastern Washington that it is not better represented. The candifrom west of the mountains. Spokane gets a Supreme Judgeship and a Presi- further enlargement of our trade and dential Elector. Southeastern Washington gets nothing at all except a Presisontial Elector. Central Washington has the Auditor and a Presidential Elector and a Representative in Congress. Western Washington has the Governor, Lieutenant-Governor, Congressman, Treasurer, Secretary of State, Land Commiscloner, Supreme Judge and Attorney-General. Eastern Washington feels especially aggrieved, too, over the action of the platform committee in refusing to accept platform committee in refusing to accept periled in China, and for ample restitution for loss of life and property therein; sion. Quite a lively contest occurred in mmittee over the matter. It was voted down, then upon the very preent insistence of Eastern Washington was reconsidered. But the platform, as reported, contains only an innocuous expression declaring for the regulation and control of the rathroads. Some Eastern Washington delegates claim that the plank for a railroad commission, having been indefinitely agreed upon, should be in the platform. These delegates represent that they will during the campaign have to defend Candidate Prink for his opposition to the Helm bill, and they hoped the party would place itself on record so as to make their task easier.

Another interesting development of the day was the re-election of John H. Schively, of King, as chairman of the state central committee. Schively ardently supported Frink, but curiously enough he was strongly and bitterly opposed for re-election by John L. Wilson. The latter this morning publicly denounced Schively, but during the day a reconciliation ly, but during the day a reconclination was effected. TOWN BURNED OUT. Loss of \$100,000 at Columbia City,

WANCOUVER, B. C., Aug. 15.—A special from Grand Forks states that the neighboring town of Columbia, B. C., has been practically wiped out by a fire which started in the Escalet Hotel. This building was consumed, and the fire spreadthe Presbyterian Church, then to a to the Presbyterian Church, then to a business block, livery stable, and finally to residences. The town has a popfilation of 500, but had no water supply, and as a strong wind was blowing, it was a foregone conclusion that the entire town would be burned. Dynamite was used in blowing up buildings in the hope of stopping the flames, but it was unavailing. Grand Forks sent assistance to Columbin, but it arrived too late. The loss is settimated at over \$100,000. estimated at over \$100,000.

Big Mining Deal On.

W. E. McMartin, vice-president of the Big Yank Mining & Milling Company, left last evening for San Francisco to confer with persons there with whom the company is negotiating to bond its property in the Galice mining district. Mr. McMar-tin would not say what the amount of the bond was to be, but it is believed to be in the neighborhood of \$1.009,00.

The Big Yank property is located in Josephine County, Oregon. The ledge has been cut at a depth of 100 feet by a crosscut tunnel which exposes a 40-foot pay streak running good in copper and gold. From the crosscut drifts have been run a distance of 130 feet exposing ore the entire distance.

"In accordance with the provisions of this act," says Secretary Gage, "It appearing that no quarantine regulations nor provisions for the execution of necessary quarantine measures have been provided by the local or territorial authorities at Cape Nome or Dutch Harbor, Alaska, it is hereby ordered that quarantine stations shall be established for those two ports by the Surgeon-General of the Marine Hospital Service, which shall give particular attention to incom-ing vessels, and be conducted according to the regulations of the Department. "It is further ordered that, with-regards

to vessels, cargo or persons leaving these ports for other ports and places in the United States, the interstate quarantine regulations shall be enforced." In accordance with the instructions of this order, on the same day Assistant Surgeons Fox and Moore, of Port Town-

send, were detailed as quarantine offi-cers. Simultaneously an order was is-sued to Assistant Surgeon Earle, of Se-attle, detailing him as quarantine officer at Cape Nome. Earle and Fox are to re-main in Alaska only through the open season, being directed to return to the States by the last revenue cutter that leaves their respective stations. Earle is to be assisted by Assistant Surgeon Lloyd, also of Seattle.

Immediately after orders were fasued for the establishment of these two sta-tions, the Marine Hospital Service shipped to the new quarantine officers new duties. It is expected that with what was provided, and what they pur-chased, they will be able to hold the situation well in hand.

"THE 'SALT' OF SALTS."

A Hot Weather Headache Cure.

During the excessive hot spells the liver frequently refuses to do its work properly. Bile accumulates instead of being thrown off through the kidneys. This accumulated bile works its way to the stomach and from the stomach to the blood. The whole system then becomes poisoned with it. The result is usually severe headache through the eyes and temples, accompanied by names and vomiting. Such attacks are easily and effectively relieved by
