

NEED OF GOOD TEACHERS

WOULD GET BETTER RESULTS FROM THE INDIANS.

Resolution Favoring Graduates of Agricultural Colleges for Industrial Teachers of Red Men.

CHEWAWA, Or., Aug. 16.—This morning, after reading a telegram of congratulation from National Superintendent of Indian Schools...

The entire morning was devoted to discussion of industrial education, many present, including Superintendent Frank A. Coomer...

Resolved, That inasmuch as the Government has placed industrial schools, known as agricultural colleges...

In this connection it was decided that the Oregon Agricultural College might enter this examination and take up the work of industrial training in these schools.

Resolved, That inasmuch as the Government has placed industrial schools, known as agricultural colleges, in all the states of the Union...

The new curriculum, as supplied by the honorable commissioner, is very good, but while not so rich in protocols as the old one...

Summers gave him a regular discharge, and now he wants the medal he earned by gallant service in the field.

Governor Geer has complied with the request by ordering a medal for Company L's mascot, the expense connected with the making of the medal will be borne by the former members of the company.

Mrs. J. D. McCully, of Joseph, Willoughby County, who has been attending at the bedside of her grandmother, Mrs. E. N. Cooke...

William Purvise, aged 39, was received at the Asylum today from Creswell, Lane County.

LARGE CONTRACTS FOR TIES.

Lumbering Business Active in Benton County.

CORVALLIS, Aug. 15.—The activity in the lumbering business is illustrated by operations in Southern Benton County.

In the vicinity of the original Walters mill new saw mill is in process of erection. It is to have a capacity of 20,000 feet per day...

Thieves have been active in and about Corvallis recently. Last week the Woodcock creamery was entered and a number of cheeses were taken.

WANT ASSESSMENT REDUCED. Railroads of Idaho Before State Equalization Board.

BOISE, Idaho, Aug. 16.—The State Board of Equalization was in session today and heard representations from railroad companies...

SHERIDAN, Or., Aug. 16.—Angus McCulloch, a prominent farmer living three miles north of town, was severely crushed yesterday by being caught in the wheels of a machine while going down a hill.

There are 42,000 pounds of chittam bark stored in the warehouses here, which will be shipped to San Francisco soon.

Prof. J. B. Horner, of the Oregon Agricultural College.

pathy is the one important thing for the solution of all social questions. The outward impassiveness of the Indian child is a mask put on to hide the natural feeling which has been taught to believe will be misinterpreted by the white people, their hereditary enemies.

Major T. J. Buford, president of the association, spoke on "The Indian as a Self-Supporting Citizen and Producer." He said:

"There is not now, nor has there been for years past, an Indian upon the Nez Perce reservation. All live in frame houses, and some of them are very comfortable and nicely painted. All the farmers have good horses and wagons, plows and harrows. They own their own mowing machines, harvesters and threshing machines, do their own blacksmithing and wagon-building, carpenter work and painting. They operate the Government stave mill and planer, do their own sawing and engineering. Many of them milk cows, make butter, and have fresh eggs sell. All raise good gardens and manure the fairly good crops of oats and hay. They have a good start in cattle and sheep. During the past year they sold 100 worth of live hogs. They are, as a rule, industrious, yet there is some criticism in their management. If such alternate farms were conducted by some competent farmer, the Indian would soon be doing the same kind of work. The Government does not provide a dollar toward the support of these people other

bushel yields, while 40 bushels to the acre is quite common. Around St. Johna, Sunset and Okadalea, on the Pleasant Valley branch of the O. R. & N. Co., a very satisfactory yield is reported, here, as elsewhere, the lightest soil turning off the best crop.

The State of Idaho undoubtedly has the largest acreage it has ever produced, and the yield is sufficient to bring the crop of the state up to the largest on record. There is a considerable amount of new acreage turning off a fine yield in the Clearwater country, and land in the vicinity of Lewiston and Lapwai is running from 35 to 36 bushels to the acre. There is a light yield in the vicinity of Moscow, and some of the Spring wheat on the Nez Perce lands is not running heavy, but

GALLERY OF NEW MEMBERS OF THE OREGON LEGISLATURE

GEORGE W. HOLCOMB, A REPRESENTATIVE FROM MULTNOMAH COUNTY.

Geo. W. Holcomb, one of Multnomah County's Representatives, is a native of Connecticut, from which state he removed with his parents in 1881. Mr. Holcomb was only 12 years old when his father reached Oregon, and settled along on the Clackamas River near Oregon City.

Mr. Holcomb is largely interested in one of the most promising mines in Eastern Oregon, and is represented in several other business enterprises. In 1896 he ran for City Auditor against Mr. Gambell, but was defeated by a few hundred votes, and in the last election stood third among those receiving the highest number of votes for Representative. Mr. Holcomb left school when only 12 years old, and is self-taught. Politically he is a Democrat, with broad-minded tendencies, sympathizing with self rather than wealth.

around Genesee there is an excellent crop. The output for the state will approximate 3,000,000 bushels, and the quality is No. 1.

Around Dayton, Wash., there is a very large barley acreage, which is cutting down the wheat area. The barley is generally of excellent quality, but, like the wheat, the yield is not up to expectations.

The river counties of Oregon will do much toward bringing the total for Oregon up to normal proportions, or slightly above, for the yield of Sherman County alone promises to come very close, if it does not equal that of Umatilla County. There is so much new land in cultivation in this county, that as yet nothing like accurate acreage figures are obtainable. Estimates on the probable output range from 3,000,000 to 4,500,000 bushels, with 3,500,000 bushels generally considered a conservative figure.

Mr. J. D. McCully, of Joseph, Willoughby County, who has been attending at the bedside of her grandmother, Mrs. E. N. Cooke, of this city, received word today that her husband is dangerously ill at home. Mrs. McCully is also seriously ill, and left for home this evening, attended by a physician, a nurse and her brother, Hal I. Patton. Mrs. E. N. Cooke, a pioneer of 1850, and now 84 years of age, is expected to live but a short time.

William Purvise, aged 39, was received at the Asylum today from Creswell, Lane County.

celved the shares, hence the suit. Barclay Henley, of San Francisco, is president of the company. Papers in the case were served on Superintendent Macomber as he was starting tonight for that city.

NEW INDUSTRIES FOR ROSEBURG. Light and Water Service and Fruit Curing—Large Fruit Crop.

ROSEBURG, Or., Aug. 16.—The newly incorporated Roseburg Water & Light Company is pushing operations very energetically. The Dumberton property, on the south side, and the Guthrie property, on the north side of the North Umpqua River, recently acquired by the corporation, gives it control of an extensive water front and water power at Winchester. The company has located its pipe line from there to Roseburg, and secured the right of way for a good part of the distance. For its reservoir it has purchased a site on a high hill to the north of Roseburg, and now has a small force of men and teams at work excavating. There are some who profess to believe that this activity is intended as a bluff to force the Roseburg Water Company to sell to the new concern at a figure far below the asking price. There are certainly many indications to strengthen this view of the situation, but it is generally believed that the North Umpqua will do this project, and that the water of the old company is not purchased. The Roseburg electric light plant has already been purchased, and power for it will be transmitted from Winchester as soon as the poles can be set up and the wire strung. A large saw mill will also be erected at Winchester soon.

BUGS DID NO DAMAGE. A Farmer Who Attributes Short Grain Crop to the Weather.

JUNCTION CITY, Or., Aug. 16.—Inquiry made among the farmers and at the warehouses here discloses the fact that the wheat crop will be about one-third of the usual yield. What grain has been raised is of a very poor quality. There are several reasons given for the shortage. B. S. Hyland, a farmer living three miles southwest of here, attributes it to the fact that the grain had to be sowed in damp soil, and that the weather was wet weather last Fall and Spring, and the unusual long cold spell after the grain was in. He says he has 100 acres of wheat, and that he has not a bushel per acre. He has sown the same ground in wheat every year for the past 40 years, and it has averaged 25 bushels per acre. Mr. Hyland doesn't believe that the bugs are in any way accountable for the shortage, for he says he has noticed them in the wheat for 40 years. There will be about one-half a crop of oats.

Lang & Co., wholesale grocers and produce dealers, of Portland, have leased two large warehouses in Roseburg and will establish a fruit-processing house here in time to handle this year's crop of prunes. This enterprise will employ 100 hands during the season, and tend to make this city a fruit shipping center of importance.

Peaches are going from Roseburg at the rate of 1000 boxes a day, the yield in this vicinity having been large and the quality excellent. Shipments begin this week, and will continue until the usual time. The largest sale made yet is one of 15-carloads of Bartlett's by Agee & Sheridan, and W. C. Winston to the Portland Canning Company. There are certainly many indications to strengthen this view of the situation, but it is generally believed that the North Umpqua will do this project, and that the water of the old company is not purchased. The Roseburg electric light plant has already been purchased, and power for it will be transmitted from Winchester as soon as the poles can be set up and the wire strung. A large saw mill will also be erected at Winchester soon.

Good Prospect for Hop Yield.

GERVAIS, Or., Aug. 16.—The hop crop at Gervais is expected to be the largest of the season. It is expected to be of exceptional quality, similar to that of 1898, when it was 36 per cent choice. The crop will be less than last year, but it comes to number of bushels, but of heavy quality. The unforeseen climatic condition prevailed, it will be a rich crop, and will be gathered without any great loss. The area will have a good yield, and a small crop will not differ materially from that of the Fall-sown grain.

DEADLOCK ON SALOON LICENSES. Situation of the Centralia City Council—Industrial Notes.

CENTRALIA, Wash., Aug. 15.—The Centralia City Council is at present in a state of deadlock over the matter of granting licenses to two new saloons that are making preparations to locate in this city. It is expected to be of exceptional quality, similar to that of 1898, when it was 36 per cent choice. The crop will be less than last year, but it comes to number of bushels, but of heavy quality. The unforeseen climatic condition prevailed, it will be a rich crop, and will be gathered without any great loss. The area will have a good yield, and a small crop will not differ materially from that of the Fall-sown grain.

SUIT OVER MINING PROPERTY. Transfer of Claims Mixed Up in Stock Company Organization.

SPOKANE, Wash., Aug. 16.—E. B. Burdick, in a complaint filed in the local Superior Court today, alleges that the Northwest Mining Company, of San Francisco, is insolvent. He demands the invalidation of that company, the Acme Mining Company, of Portland, of which W. H. Horner, general passenger agent of the O. R. & N., is president, C. A. Macomber and W. F. Stevens. He demands the invalidation of his deed to the Acme Company and of the contract of the latter company with Stevens, Macomber and the Northwest Mining Company for the sale of the four Acme mining claims in this state. The complaint alleges that June 7, 1889, Burdick agreed to deed his three claims to the Acme company, the owner of an adjoining claim, and to procure and execute a deed of sale of the group from the latter company to Stevens and Macomber for \$35,000. Stevens and Macomber were to pay him \$10,000 in cash, and the balance in a note payable in two years. The purchasers were to pay him \$10,000 in cash, and the balance in a note payable in two years. The purchasers were to pay him \$10,000 in cash, and the balance in a note payable in two years. The purchasers were to pay him \$10,000 in cash, and the balance in a note payable in two years.

ORDERED TO CHINA. Assistant Surgeon From Pendleton—Motions on Land Decisions.

WASHINGTON, Aug. 15.—Acting Assistant Surgeon Louis J. Perkins has been ordered from Pendleton, Or., to San Francisco for assignment to one of the regiments leaving for service in China. The Secretary of the Interior has denied a motion for review of its decision holding a quarter section tract in the Burns land district, Oregon, to be mineral in character. George H. Rollins sought to have this land declared agricultural, and subject to homestead entry, and the motion for review was made by him. The Secretary also denied motion for review of his decision rejecting the survey of a tract of land situated in Humboldt Harbor, on Popoff Island, Alaska, claimed by the Lynde & Hough Company. The tract in question has too great frontage

on navigable water to be allotted to one party, the limit being almost doubled. Pending cases have been granted as follows: Oregon—Additional, William H. Lewis, Amity, \$12. Increase, Anderson C. Smith, Enterprise, \$10. Original widows, etc., Joanna Hogan, Salem, \$2. Washington—Increase, Daniel Gallop, Anacortes, \$25. John E. Gleannham, Yelm, \$5. Charles P. Twiss, Forest, \$12. Original widows, etc., Mary E. Loughman, Fremont, \$2. Original widows, etc., Mary E. Loughman, Fremont, \$2. Original widows, etc., Mary E. Loughman, Fremont, \$2.

The Secretary of the Interior has approved a patent of 1200 acres of land in the Roseburg land district, Oregon, to the Oregon & California Railroad Company. The postoffice at Astell, Lincoln County, Or., has been moved one-half a mile to the east, and Peter S. Jorgensen appointed Postmaster.

DISTRICT OFFICERS NAMED. Joint Senators and Judges of the Superior Courts.

TACOMA, Aug. 15.—Nominations for Joint Senator and for District Judges of the Superior Court were made in the district Republican convention Wednesday as follows: For Senator in the district composed of Franklin, Adams and the northern half of Walla Walla County, O. T. Cornwall, of Walla Walla. For State Senator in the district composed of Douglas and Kittitas, J. E. Knapp, of Ellensburg. For State Senator representing Lincoln, Okanogan and Chelan, M. E. Hays, of Lincoln County. For Senator representing Island, Mason and Kitsap, created by Act of the State, J. W. H. Hays, of Vancouver. For Joint Senator in Clark and Skamania Counties, E. M. Randa, of Vancouver.

HORSES AND MULES FOR CHINA. Army Animals to Begin Leaving Vancouver This Week.

VANCOUVER BARRACKS, Aug. 15.—There are now in the post 100 mules and 150 horses brought from all parts of Oregon, and the majority of which are destined for China. There are 60 pack animals, the rest being team mules. Saturday about half the number will be sent to Portland for shipment, as it is expected a transport will be ready for them by that time. The rest will follow as soon as possible. The horses are for the cavalry, and they are being broken in with a view to their being used in the mountains. Later in the week another lot is expected to arrive here. It speaks for the Oregon's resources that demand for so many horses up to the requirements. Officers in California are having great difficulty in getting the right kind of animals.

"SILVER REPUBLICANS." Lively Remarks at a Slender Meeting of the Faithful.
