PICKING EARLIER THAN USUAL-A Polk County hopgrower says hop-picking will begin surfler than was expected if the weather continues favorable. The pick-ring of Fuggles' hope, an early variety, will begin about August 27, and picking will begin about August 27, and picking generally will begin about September 3. The crop and the quality bid fair to be the best harvested for years. The hops are of a healthy yellow color, and will be allowed fully to mature before they are picked, as there is no vermin on the vines. Of late years it has been necessary to pick the hops before they were fully matured on account of the vermin, which would sould the hops if rain come. which would spoil the hops if rain came on. The hops are all right now and could stand quite a rain without injury, but the growers would like to have the fine weather continue until the crop is harvested. Buyers are offering to contract for hops at II cents, and It is rumered that in some cases 12% cents has been

VOTING ENDS SATURDAY

CONTEST FOR CARNIVAL QUEEN OVER AT 10 P. M.

Wholesale Houses Will Close Saturday Afternoon, September 8, for Travelers' Parade,

"Resolved. That the voting for Carnival Queen shall close Saturday evening at 10 o'clock," was the text of a resolution passed by the executive committee of the Portland Street Fair and Carnival Association last evening. The contest is now approaching its height, and the directors decided to have if draw to a close before interest lagged, and also to give the successful aspirant ample time to select her maids of honor and to fill the other posttions of trust in her court, as well as to accustom herself to her royal privileges and her robes of state. Beginning today, the votes will be counted daily and the re-

sult announced, so that the progress of each candidate may be observed. A telegram from Judge Alex Sweek from Chicago received while the session was in progress stirred up considerable enthusiasm when the announcement was made that negotiations and contracts with the midway attractions were pro-ceeding favorably, and that all the shows with their full complement of performers would soon be on their way to Portland.

D. Solis Cohen reported to the directors that all the available booth room had been taken up, and that applications had been received for double the original space allotted. Eastern and California business firms ware daily sending to repusiness firms were daily sending in re-quests for space, but the local merchants who were paying for the Fair were being given the preference. It was decided, in view of the rush for booth space, to forfeit the right of any exhibitor to his booth who was tardy and delinquent in preparing his exhibit.

The hospitality committee presented plans for the entertainment of visiting lodges of Eliks and other fraternal orders, and reported the Tabernacie fully equipped as a clubroom and resdy for Plans for lighting the Fair were adopted which will make the nightly illumination of the arches, booths, buildings, pavillons

It is the tone of a piano that gives it value and settles its grade as a musical instrument. Everything about a piano, from its scale to its case, if properly constructed has a part in the making of this tonal quality. It is because each big and little part of a Weber Piano is absolutely faultiess that the WEBER TONE is unequaled. It isn't merely mechanical skill that secures this result; it's something akin to genius.
