Movement to Clear the Country South of Pekin.

SCENE OF DESOLATION IN THE CITY

An Attempt Was Made to Mine the American Legation-St. Petersburg Reports Peace Negotiations,

LONDON, Aug. 29, 3:40 A. M.-That the inexplicable delay in forwarding tele-grams from the Chinese capital still c.n-tinues is illustrated by the fact that the latest dispatch from Pekin, the telegram from the special correspondent of the As-sociated Press describing the search for Boxers in the Imperial Park, is dated no later than August 21 later than August 21.

There is no confirmation from any source of the report of an advance toward the north from Pekin. On the contrary, a movement southward to clear the country and to insure free communication with Taku is apparently in progress. The powers, as late as August 21, were still unable to agree as how to deal with Pekin itself, the Japanese and Russians being at variance as to whether the Im-perial Palace should be destroyed. Nor is there any further news of the alleged detention of Li Hung Chang by the Ad-

Probabilities increase that all the memhers of the Imperial household have got-ten safely to the interior.

A Reuter dispatch, dated Pekin, August 15, and sent by post to Shanghai, describes scenes of appalling desolation and wanton destruction in Legation street. All houses of foreigners were riddled with shells, burned or blown up. An attempt was made to mine the American legation. A shelf was supply from the ton legation. A shaft was sunk from the top of the wall 15 feet, and was continued as a tunnel with a sharp slope in the direction of the legation. Apparently, the Chinese did not have time to faish it.

DIPLOMATIC FEATURES.

Some of the Powers Trying to Evade the Compact.

WASHINGTON, Aug. 28,—Several com-munications came to Washington from the United States officials in China today, but, being undated in most cases, the but, being undated in most cases, the Government was by no means ratisfied with the state of communications, and the Cabinet meeting gave the largest part of its attention to the problem of rectifying the state of affairs. Evidences of interference with the messages have accumulated to a point where the Government has determined to take steps to establish cables of its own even if it tablish cables of its own, even if it is necessary to employ the rather expensive devices of a man-of-war plying between Shanghal and Che Foo for this purpose. Sanaghal and Che Foo for this purpose. Meanwhile, word comes that rapid progress is making with the shore cable which is to connect these points, and it is believed that within a week this means of communication will be open. Three messages were received from General Chaffee today, and while they cast no light on the general situation, they were inferentially important. The General's state. ment that he needs no stege battery, taken in connection with the diversion of the First Cavairy, which was bound for Taku, to Manila, seems to make clear From St. Petersburg it is rethat there is no intention of entering into a prolonged campaign in China as would involve the use of heavy artillery or of men in Pekin. Page 1.

the Government has shown any sign of a the brilliant operations of the little American force in the Flowery Kingdom, But It begins to appear that the battle of to-day is one of diplomacy, rather than one of arms, and, notwithstanding the various rumors that have filtered out from Chinese sources of heavy engagements between the international forces and the Boxers, the officials here are satisfied that no formidable organized resistance would be offered by the Chinese if the demands of the powers are limited to the princi-ples iald down by the United States. Therefore, more interest attached to a series of diplomatic calls upon Acting Sec-retary Adee this afternoon than any report of purely military operations in Chi-First came the Japanese Minister. Mr. Takahira, next the Russian Charge Wollant, and finally Mr. Thiebaut, French Charge. These trained diplomats naturally are averse to letting the public know the developments of incom-plete negotiations. Nevertheless, it was gathered that one of the principal topics of discussion was the propriety of accepting Li Hung Chang as a person with whom the powers might negotiate for a settlement in China.

It is quite evident from the conferences held this afternoon that the statement made early in the week to the effect that this matter is still an open issue was correct. Otherwise, it would not have been necessary for the officials to enter into a laborious comparison of the credentials suplied by Li Hung Chang to the various powers of Europe, as well as to Japan and the United States. Past experience with some of the Chinese decrees has shown very radical differences from the translations, and as so much turns on the form of Eari LI's credentials, it is regarded as highly important that these shall be shown to agree in each case.

The statement is made that the Russian Government is willing to deal with Li, of course, upon properly framed conditions, and this appears to be borne out by the earnestness with which Mr. Wollant, the Russian Charge d'Affaires, is secking to impress upon the State De-partment the entire agreement between Russia and the United States as to China. At least, he insists that Russia wishes to prevent the dismemberment of China, and also that her animating purpose new is the restoration of order and the safeguarding of the future. Under these limitations, it is urged here that Russia's objects can be achieved, as well as those of the United States, by dealing with Li Hung Chang, who occupies the advantageous position of being the only Chi-nese personage so far officially accredit-ed as a peace piculpotentiary. Acting Secretary Adec found sufficient matter of interest in these three calls to

repair to the White House late in the

afternoon to confer with the President. It is quite certain that our Government is willing and anxious to do all it can to bring about a speedy settlement of the

Chinese difficulties and a retirement of Chinese difficulties and a retirement of the forces. But it is determined that no proper advantage is to be lost through this wish, and the Government will not be coerced by foreign combinations or threats of combinations against our in-terests. One of the officials of the Gov-ernment said today:

"The United States is not going to turn tail and run because sume of the rowers.

tail and run because some of the powers show a disposition to break a compact under which we became allies in China. The powers accepted the note of Secre-tary Hay of July 3 as a basis for joint action, and they will be held to that agreement. The question of actual force in China is secondary—one regiment of In China is secondary—one to as 100,000 United States troops is as good as 100,000 men to establish a principle. Any indig-nity offered to them would be resented as quickly as if we had 100,000 men on Chinese soil, and the United States Gov-ernment is willing to try the case as to

whether one thing could be said July 3 and accepted by all the powers, and changed two months later to advance a selfish interest." Notwithstanding this firm attitude on the part of the Government, there is not the least doubt that friction between the powers will be averted, and that the

resources of diplomacy will be equal to the needs of the present case. The telegram of General Chaffee rela-tive to the movements of Baroness Ket-teler, which were called forth by an inquiry from Washington on the 17th, taken In connection with the press report of the arrival of Miss Mary Condit-Smith at Tien Tesh in safety on the 25th, leads to the hope that the Baroness is with the little party of rescued Americans at Tien Tsin. inquiry at the State Depart-ment as to the personality of the per-sons named in the dispatch shows that besides Miss Condit-Smith, who is the aister-in-law of Mrs. Conger, there is a Miss Payne, a resident of Milwaukee, and Mrs. and Miss Woodward, of Chicago, mother and daughter.

A motion that the chairman appoint the five members of the conference committee, instead of the convention itself, started a spirited discussion. The Rogers men protested, and the motion was finally withdrawn. Two slates were then put up, as follows. Anti-Rogers slate—J. W. Godwin, of King; M. T. Then a violent controversy arose, and when the committee adjourned at a late hour tonight no agreement had been reached. The Democratic and Populist conferees are all anti-Rogers men, and the Silver Republicans, headed by R. R. Tillow, of Pierce, a keen politician and very aggressive fighter, are for Rogers.
The first trouble arose in committee over the proposed two-thirds rule, but it was finally agreed upon by a majority vote over the opposition of the Rogers men.
Then came the matter of an order of bus-Then came the matter of an order of bus-iness, and the Rogers conferees found their first real opportunity to make trou-ble. The Voorhees men wanted the Governorship first, but it was finally devel-

Finally the conferees returned to their various conventions. The an-nouncement of the unexpected obduracy of the Populists created great excite ment and greater exasperation in the Democratic convention. There were two or three inflammatory speeches, and a suggestion or two that the Populists could go to the mischief and the Democrats would go it alone. A resolution was adopted instructing the Democratic cou-ferees not to agree to any name but the Democratic. The vote was unanimous. The Populist Convention gave no further

Silver Republicans Making Trouble. When the committee got together again, Graves of Spokane delivered the Democratic ultimatum. The Populists unanimously declined to recede. The committee adjourned till morning and thus matters were left. The demand of the Popullsts is generally regarded as a bluff, but it has served to inflame the The demand temper of the Democratic delegates and has led to accusations of bad faith. Probably the Populists are using it as a club to demand certain concessions in the way of offices. The Silver Republicans

are doing all they can to silr up the trou-ble and widen the breach.

The several conventions had little to do today. They were waiting on the conference committee. The Populists adopted a platform, but the Democrate decided to wait and see if there is to be a union convention. The expectation is that there will be a union platform, this time with no single tax or other fatal doctrines in it. In the Dem-ocratic convention there was a test vote between the Rogers and anti-Rogers forces, and the latter showed decided gains, showing a majority of more than

In that event, Rogers cannot be nominated, and Voorhees probably will not be. Faw cett, too, is impossible. The dark horses cannot now be even guessed at. Names like Thomas Carroll, of Pierce: Jere Neters, of Whatcom; L. C. Gliman, of King and James Hamilton Lewis, of King, are suggested. One of them may be lucky enough to get it. At the evening session of the Democratic cohvention Graves of Spokane, of the conference committee, reported progress. The order of business for a union convention had been agreed upon, provided that candidates be nominated in the usual order and that all be nominated by a two-thirds vote. Upon this the vote the Governor next, and other blacks the usual order.
