FINED FOR ASSAULT.

Thumpsons, Father and Son, Held to Be Technically Guilty.

H. Thompson, Sr., and R. H. Thomp son. Jr., were each fined \$15 in the Mu-nicipal Court yesterday for an assault on Thomas Connell, of which Judge Cameron found them guilty under the law, although no violence had been inflicted upon Con-nell. In giving the decision, Judge Cameven reviewed the testimony, showing that both of the Thompsons had been re-strained by force from violence toward Council, and he cited cases showing that under the law an assault could be com-mitted, even if the acts of violence at-tempted did not reach the object of the tempted did not reach the object of the attack. The intention to commit an assault, the attempt itself, even though unsuccessful, whereby a man of firm mind was convinced that he was in danger of bedliy injury, were all considered as assaults in the meaning of the law.

"In the Thompson case," the Judge continued, "there was direct evidence introduced by reliable witnesses who had forcibly intervened between the Thompson.

SUDDEN

PASSING AWAY OF DR. F. A. MEYER AND CHRISTIAN SCHUMAN.

Both Were Found Lifeless in Their Homes-One Case of Apoplexy and One of Heart Disease.

Two men died while sitting upright in their homes in Portland yesterday. One of these, Dr. F. A. Meyer, sat by the bed of his delirious wife. The other, Christian Schuman, was found dead, sit-ting on his own sofa.

It was expected his wife would never rise so overcame Mrs. Carlson, the good neighbor nurse, that she is almost ill. Mrs Meyer has been ill for about two bed. Her husband, a physician, who has practiced in Portland for a long time, thought she was suffering from typhoid fever. At last Mrs. Meyer became defever. At last Mrs. Meyer became used connected since 1882. In 1880 ne bought the paper and was the manager until June of this year, when he disposed of not recover. Dr. Meyer never called in any other physician. All day Mrs. Carlany other physician and at night the son nursed the patient, and at night the doctor himself sat up with her. He would come home about 6 or 7 o'clock, when Mrs. Carlson would go to her own home, until between 9 and 10 o'clock the fol-

This was the only relative known by friends of the de-

Dr. Meyer had sustained the stroke probably a short time before Mrs. Carl-son called. Mrs. Meyer had received due attention during the night. Things in the house did not indicate that he had prepared his breakfast, but from the fact that he was dressed and apparently ready to go down town, it is assumed that he had finished his night vigil and was merely preparing to give place to Mrs. Carlson. Probably the little effort of fill-

ing and lighting his pipe was the immediate cause.

Sudden Death of Christian Schuman. Coroner Rand was summoned to 379 climate here makes life all the better that the chapman street, early yesterday morning, where Christian Schuman had been found dead. A neighbor calling at the house saw him through the window sittering, he was found seemingly sitting in a faint. She cast a cup of his face, but failed to revive him. Dr. Rand found that he had been dead over an hour. In the kitchen the stove was warm, and a cup of coffee half drunk seemed to indicate that he had been seized with a sudden faintness, and had gone to rest on the lounge. Heart disease was the cause of death. Christian Schuman was 68 years old, and lived with his wife near Mount Scott. He was taking care of the house of his son, Louis L. Schuman, on Chapman street, while the latter was away at the beach with his family. The members of the family were notified, and arrived last evening from Astoria.

VEHICLE LICENSE LAW.

New Ordinance to Go Into Effect Today.

A large number of inquiries have been received by the officials at the City Hall during the past week in regard to the new vehicle-license ordinance which goes into effect today. The new license tags have been received, the books and para-phernallia are ready, and the license officer will be ready to issue a license to the owner of every vehicle in the city for the four remaining months of this year. Those wishing to secure licenses will pay the fee to the City Treasurer and pro-cure a receipt, in exchange for which the license officer will issue the license tags. Vehicles of all descriptions are subject to license, generally \$3 per quarter for onehorse vehicles, \$5 per quarter for two-horse vehicles, and \$7.50 per quarter for vehicles drawn by three horses. Pleasure carriages are taxed \$1.50 and \$2.50 per quarter, and one-horse milk wagons \$1.50 per quarter, and two-horse milk wagons

23 per quarter.
It is generally understood that the money received from the tax on vehicles is to be placed in a fund to be used solely for the repair and maintenance of streets and bridges, and so there will be but few objections to paying it. It is not intended that any one shall pay two or three licenses on one vehicle, or any-thing of the sort, and persons applying for license will state for what purpose the vehicles are to be used. License Officer McEachern and

sistant Rogoway will enforce the law without fear or favor. It will be no use, only a waste of time, to discuss the law with them, as they have nothing to do with it except to enforce it.

PLACERS UNDERGROUND. Experience of a Miner in British Co-

lumbin.

J. Davis, a miner, who returned from Harvest Camp, B. C., yesterday, after five months spent at work underground there, says Oregon hereafter will be good enough for him. He was at work on a mine belonging to a San Francisco packing company, and the pay gravel was 560 feet below the says feet of the says feet and says feet below the says feet b feet below the surface of the ground. A shaft was dug this immense depth and then drifting began at the bottom. gold-bearing gravel lay within five feet of the bedrock, and, as this was removed and sent up through the shaft to be washed, heavy timbers were put in posi-tion to guard against caving in. The A meeting of the Council sewer committee was held yesterday. Remonstrances against the proposed sewer in East Tenth street were considered, and it being found that those remonstrating were not residents on the street, while all the residents on the street, while all the residents on the street desired the sewer, the prayer of the remonstrance was denied, and it was recommended that the

year. On an adjoining placer mine, the Blue Lake, the pay gravel was only 60 feet below the surface, and so this could be worked off by hydraulicking. Great charges of black powder, three tons at a time, were set off in this mine, to loosen up the bank so that the pipes could work it off more readily.

Wages paid in that part of Cariboo dis-trict run from \$3 to \$3.50 per day, and board at \$6 to \$7 a week is deducted from this. Goods are very high in that re-gion, a pair of overalls costing 75 cents in Oregon selling for \$1.50 there, and everything else in proportion, so that a miner could save very little, if anything. Davis feels assured that he can make more money in Oregon working for wages in the mines, and the difference in the

REOPENS TONIGHT. Fredericksburg Will Present

Number of Eastern Artists. The Fredericksburg after a thorough overhauling, will reopen its doors tonight under the management of Messrs, Brown and Grant, with one of the strongest bills that has ever been presented at this popular house. Expense has not been spared in securing high-salaried Eastern attractions, and it is remarkable that such a strong show can be presented when no admission fee is charged. Mile Trisceds who created a furore in the large Eastern cities, will dance herself into the hearts of a Portland audience. She is beautiful as well as clever. Oro, Bell and Oro will produce a very funny Chinese character sketch in which some marvelous acrobatic work is introduced. These artists have come West from a successful engagement on the Castle-Kelth circuit and will undoubtedly create a sensation. Miss Florence Brooks, a dainty dancer, will show a pair of nimble feet, and La Lista, pose plastique, is an artist of recognized merit. Professor Richter's famous orches-tra of eight pieces will enliven the entertainment with popular and classic music, It can be readily seen that this is a very strong bill and crowded houses will be

the natural result.
