The new corps of teachers at the Mil-waukes school for this year are: Ira McLaughlin, principal; Miss Thelsing, primary, and Miss Casto, intermediate. School opens Monday, September 16. A full school is expected.

C. A. Reed, who was elected principal of the Glencoe school in Mount Tabor district No. 5, has moved into the cot-

tage formerly occupied by O. P. Masten,

near the school building. He will be sec-ond principal, C. W. Durette being the general principal of the district.

A fuchsia was mentioned a short time

ago as being 6 feet high. P. Eby, at 600 Powell street, has a fuchsia that is 10 feet high, and is regarded as one of the

finest of that plant. It is covered with bloom. Mr. Eby started it from a cut-ting two years ago. It is still growing

covered, but as soon as it was an opera-tion gave him relief. CARBOLIC

Tabor, have taken their departure for Manila, where Mr. Coddington will be in the employ of the government. PATAL MISTAKE OF AN EAST SIDE Attorney J. V. Peach and family, who have been at Turner for several weeks, have returned to their home on East Eighteenth and East Ankeny streets. YOUNG WOMAN.

Mrs. C. E. Inglerock Dies Within an Hour After Swallowing the Poison -Bicycle Accident.

Mrs. Nellie Inglerock, wife of C. E. Inglerock, conductor on the Southern Pa-cific Railway, accidentally took a large dose of carbolic acid yesterday morning at her home, 360 East Davis street, and died in about an hour. She and her hus-band had just returned from the West Side, where they went to witness the circus parade. Mrs. Inglerock had been in poor health and was taking medicine. She did not see very well without glasses, When she and her husband arrived home she went to the shelf where there were two bottles, one containing nitre and the other carbolic acid. She took up one of the bottles, which happened to be the one containing the carbolic acid, and pouring out a spoonful, took the dose at a single swallow. She immediately discovered her mistake, and cried out that she had taken poison, and started to get mustard, but quickly relapsed into un-consciousness. Her sister, Mrs. Lizzle Gregory, who has been living with her, was present. As soon as possible Dr. Bachellor and Dr. Parker were summoned, and put forth every effort to overcome the effects of the poison, but it was impossible to save her life. They could see at the start that she could not

recover, but they spared no effort.

Mrs. Inglerock was a native of Oregon, aged 22 years. Her parents are Mr. and Mrs. S. E. Bristow, Oregon ploneers, living at Pleasant Hill, Lane County, and both are well along in years. Mr. and Mrs. Ingierock were united in mar-riage at Eugene City a little over a year ago under most pleasing auspices She was a handsome and highly respected woman, a member of Orpheus Temple, Rathbone Sisters, K. of P., and of Sunrise Auxiliary to the Trainmen's Union. The relatives at Pleasant Hill have been telegraphed to, and her father and brother are expected to arrive today, but her mother may not come on account of ill health. On their arrival arrangements for the funeral will be made

RODE ON THE WRONG SIDE.

Reckless Bicycle Rider Knocked Unconscious in a Collision.

Edward G. Inglefield, son of Mr. and Mrs. E. L. Inglefield, living at 646 Powell street, was nearly killed in a bicycle collision on Hawthorne avenue, near East Ninth street, Wednesday evening, while wheeling eastward. He is in the employ of Wolff & Zwicker's iron works. Nearly all wheelmen use the center of Haw-thorne avenue going and coming east of Grand avenue. Young Inglefield, who is a very strong rider, passed several others going in the same direction. J. R. Gilstrap, one whom he passed, said he was riding very rapidly, and in passing he went on the north side of the path usually taken by wheelmen. This placed ingle-field on the wrong side of the path. As he daried past these other riders Police-man Warner was wheeling toward ingle-field on the right side of the path, and it was Inglefield's duty to get out of the way. He did not see Mr. Warner in time to get out of the way, and the both came together with terrific force. Ingiefield was knocked about 15 feet, and was left almost lifeless on the ground. Warner also was knocked off his bleycle, but escaped being hurt. Dr. Wells came along and took the unconscious form of Inglefield in his buggy and conveyed him to his home on Powell street. He was seriously injured and remained unconscious until yesterday morning at about so'clock, when he was able to recognize his mother and other members of his family. There was some effusion of blood from his ears, which indicated concussion and serious injury. He continued to improve until about 8 o'clock in the mor ng, when the attending physician said he considered the young man out of dan-ger, much to the relief of the family. Young Inglefield is a well-known bicycle racer, and has won many medals.

Mill Dam Broke.

The dam at Cummins & Cole's sawmill, near the Sandy, eight miles from Pleasant Home, that held the logs for the mill and furnished water to flume the ties to the Sandy River, broke a few days ago and the water quickly escaped. The accident compelled the mill to close flown until the dam could be repaired. This is the second time the dam has given away. As the mill has a large order for rallway ties the delay was serious.

it was anybody's game until the last man was out. The Torpedoes came out winners by a small margin in each game, and now the clubmen claim rejuvenation and improvement, and a consequent wresting of the championship from the "iron-workers." Each team claims to have a couple of "cracker-jacks" in reserve to strengthen the batting order, but as yet names are not given. As the last two games have been above the After the "drummers" parade on Satur-day afternoon the two rival baseball teams, the champion Torpedoes and the ex-champion Multnomans, will play a game of ball on Multnoman Field in the average amateur ball, especially being void of the usual yellow streak, the last game, with its intervening regular practice, should be a good, lively two hours season of carnival sport.

rear of the Exposition building. These two good ameteur teams have met twice before this season, and in each instance won by Hood's Sarsaparilla.

Ashland Tidings. It is reported that the new dam recently completed in Rogue River at Grant's Pass by the Electric Light & Water Company, in its present condition is an ob-struction to the fish, which are unable to reach the upper river and tributaries by reason of it. Parties from this county passing there recently say that the water immediately below the dam is teeming with fish blockaded there by the obstruc-tion, and there is a demand that the proper authorities look into the matter.

work will last all Winter, but the pres-ent contract will not complete the south walls. Another contract involving the expenditure of \$125,000 will be necessary to make the locks navigable in stages of moderate freshet. In its present condition river boats are obliged to suspend travel at certain stages of flood, but the next contract will enable craft to go through the locks with the river five feet higher.
