### The Military Situation.

The War Department today received the owing:

"Taku, China (no date) .- Adjutant-Gen eral, Washington .- Pekin, 28. The officers and soldiers of the China relief expedition send thanks to the President and cretary of War for congratulation. Formal entry of the palace grounds made today at 8 o'clock, salute of 21 guns bring ired at the south and north gates. Troop. of all nations participated, the United States by a battalion 750 strong, composed of details from each organization present at the taking of the city. Place (palace?) vacant, with exception of about 20 servants. General Barry sails for Manila to-day. Danish cable, Shanghai to Taku open for business, connect with our wire "CHAFFEE."

The War Department received the following cablegram from General Barry: "Taku, China (no date).--Adjutant-Gen-

erai, Washington -- All quiet Pekin, Supplies promptly unloaded, forwarded when disponitions determined. All supplies received; troops comfortable for Winter, No cation Chinese officials after August 28. James H. Wilson, Brigadier-General of Volunteers, goes Pekin tonight. "Rockhill, Shanghal-Telegraphic com-

munication Pekin-Tien Tsin bad, Exreme heat ended. All conditions satisisfactory. Go Nagasaki tomorrow take first transport Manila. BARRY." General Barry goes to Manila to assume

the duties of chief of staff to General MacArthur. General Chaffee's message makes it clear that he alone is proceeding on the understanding that the American troops are to Winter in China, and he and General Barry speak of the comfortarrangements that have been made for the soldiers. The American contingent in the parade through the imperial palace was small, probably in conformity with an arrangement between the various commanders in Pekin that the force selected to make the demonstration should be limited in numbers, in order to reduce the chance of losting. It is supposed here that this demonstration was made to im-press the Chinese people as a whole, and

not from any present military necessity. Some action of this kind appears to have been necessary in order to offset the stories which were affoat in the Southern ese ports to the effect that the allies had been completely overthrown by the imperial troops and the Boyers, which stories were calculated to cause further unrising. Besides, the demonstration at ace may reduce the ill effects of any withdrawals of troops from Pekin as

result of the present negotiations. The announcement from the cable companles that the offshore cable from Shanghal to Taku had been completed encouraged the officials here in the hope that at last it would be possible to com-municate with Pck'n the same day that a message was dispatched. It appeared, however, from General Barry's report that the Boxer® are still cutting the wires between Tien Tsin and Pokin, and the messages received today from the Chinese capital show no improvement in the rate of transmission over those received before the completion of the new cable. It is expected that the reinforcements of foreign troops sterdily pouring into Fe-kia by way of Taku and Tien Tsin soon will be able to clear the line of communications complete'y of these wire-cutters, and that the military telegraph lines E. ### Discharging Sick Volunteers.

WASHINGTON, Sept. 6 .- The War De partment this afternoon issued the follow.

"The Secretary of War has instructed General Shafter, commanding the Department of California, to discharge all volunteers in San Francisco. About 400 are now there, having been sent home from Manila sick or wounded, most of them being convalescent, and such will be dis-charged from the service, being no longer required. This course will be followed the volunteer regiments return for final discharge. General MacArthur has been instructed to forward all sick volun-teers who the medical officers think are able to travel or who will be benefited thereby. Those convalescent will be sent to hospitals for treatment, and will be discharged as soon as cured.'

### Lumber for the Army in China.

### SEATTLE, Sept. 6 .- The Government

transport Goodwin, now at Tacoma, is loading building lumber for the troops in the Orient. She will come to Seattle to complete her cargo of 2,500,600 feet, taking also (0) doors and 800 windows, and then will sail for Taku, China. The War Department is to establish a cantonment or temporary post at Taku. This point is the entrepot of China, and all supplies for American troops must pars through there. Local officers of the Army believe that this shipment of lumber indicates that regardless of the settlement of Chinese affairs or the continuance of the war, American troops are to be kept in China for at least six months.

It is curious that General Roberts' re cent dispatches contain no reference to fighting in the Orange River colonies, which has been serious. Ladybrand, with its garrison of 150 men, has been besleged by a strong force of Boers and has made a desperate and probably successful resistance. According to Reuter's telegram yesterday, the slege has been raised by the Boers. A commando has also appeared at Tha-

banchu, near the Bloemfontein water works, the scene of one of the most suc water cessful exploits of the burghers in the Spring. A British force under Bruce Hamilton hastily left Bloemfontein on Saturday, and there was an engagement near the water works on Sunday in the Central Free State.

### The Delagon Bay Award.

### LONDON, Sept. 6 .- A meeting of the British bondholders of the Delagoa Bay Railroad approve the compromise ar-ranged by Mr. Trehane, ex-United States Consul at Berne, Switzerland, counsel for the American claimants in the United States, and the Earl of Hardwicke, Lord Hillingdon and Sir Cauther Quilter, rep-resenting the bondholders, According to the compromise the American claimants get an aggregate of about £100,000, out of which they have to pay the costs of the United States Government. The first mortgage bondholders, who are entitled to 7 per cent interest, agree to take per cent. This permits the payment of about 3 per cent of the second mortgage

debentures, which otherwise would get nothing. The arrangement will be forth-with submitted to the two governments, and as the bondholders have approved it unanimously, it is expected the statement will be carried through. But it is not likely the American share will be paid out much before the end of the year.

### Cotton Scarce in England.

MANCHESTER, Sept. 6 .- The greatest interest is felt in tomorrow's meeting of the Lancashire spinners, at which a pro

# RANGE WAR IN COLORADO.

### Cowboys Drove 3000 Sheep Over a High Precipice.

WALESENBURG, Colo., Sept. 6 .- Re posts received from Sharpsdale, a small town near Mount Blanco, in Southern Col-orado, say that the feud over the use of the range, which has long existed between cattlemen and sheepmen, reached a cli-max this week when the cattlemen drove 3000 sheep over a high precipice. The trouble has grown out of the scarcity of water along the water courses. Where grass still remains the sheep were pas-tured and after they had once passed, cattle refused to eat, and either died or became very poor. The cattlemen rose in revolt and taking horses, corraled about 3000 sheep. The cheepmen protested, but being unarmed, could do nothing. The sheep were then driven down a narrow gulch at the foot of which an ancient waterfall had hollowed out a pit over 200 feet deep. Faster and faster the animais ran, urged on by the shouts of the cowboys, until the leader paused at the bowdys, the press behind him forced him over and the others followed. Some of the last who fell on the bodies of the first were not killed, but the majority were killed. resolutions on the death of Mr. Th Huntington say:

"We recall his eminent success in mercantile business in his earlier years, his great constructive and administrative work by which, in the second half of his lifetime, he built and brought under his administration over 10,000 miles of railway and lines covering upward of 12,000 miles of ocean transportation; the in-domitable courage which he displayed in overcoming great natural obstructions building railroads, not alone over easy routes and fertile valleys, but across deserts which the explorer had feared to traverse, and over mountain ranges deemed practically impassable his master

spirit found the way; the marvelous caimgencies and patience in most trying emer-gencies and his considerate and concilia-tory nature which, before his death, had overcome accusation and detraction and without violence or bitterness had over-mastered his enemy.

"His vigorous intellect, clear and quick perception, unfaltering devotion to the right as he understood it; his strength in action, combined with his kind consideration of all with whom he came in con-tact; his sturdy belief in the equal rights of all men, regardless of race or creed; oldness in expressing his convictions, whether popular or unpopular, and his constant efforts to bring every one to the highest standards of character, fidelity, industry and success combined to make him a notable type of the best American citizenship and one of the greatest men of his generation, and his real character and work will be more clearly understood and more fully appreciated with each passing year."

Speaking of the dispatch from Sar Francisco, which stated that there had been some difference of opinion between the late Mr. Huntington and the firm of Speyer & Co. on the dividend policy of the Southern Pacific, Mr. Speyer said this afternoon:

"As far as I know, the question has not been considered since Mr. Hunting-ton's death. Mr. Huntington and our firm always agreed that the maintenance of the property at the highest standard of efficiency ought to be the chief object of the management, and that the South-ern Pacific Company ought not to begin paying dividends until there seemed a reasonable certainty that they can be " hantatnad
