Germany and England Said to Have Entered Into an Agreement to Remain in Pekin.

WASHINGTON, Sept. 10.-The develop-ments of the day in the Chinese situa-tion still point to a speedy withdrawal of the United States troops from China. General Chaffee has added the weight of his opinion to that already entertained by many officials here. It probably is sig-nificant that the General's statements on this point were given publicity by the Ad-

No confirmation is at hand here of the report that Great Britain and Germany have joined in an agreement to remain together in Pekin, regardless of the attitude of the other powers. Should this be true, the fact doubtless would hasten the rearward movement of the American troops, for there is a firm determination to avoid becoming involved in any clash between the powers, such as might reasomably he expected to follow the execu-tion of this reported British-German pro-gramme. If there have been further responses to the Russian note relative to evacuation, their purpose cannot be as-certained. This delay no longer interferes with the execution of the American policy. The State Department has a reasonably accurate understanding of the attitude of even those powers that have not made formal responses to the Rus-The part of the problem relative to withdrawal that remains unsolved is the best means of securing guarantees for the attainment of the few objects set out in Secretary Hay's note of July 5, which have not yet been secured. Possibly guarantees must be obtained from two sides-from the Chinese Government as to the security of American treaty rights, and the creation of a claims commission, which shall provide for the payment of indemnity for the losses suffered by American citizens and for the expenditures on account of the pending relief expedition. Then it is entirely possible that it may be regarded as necessary, if any of the allies refuse to leave Pe-kin and persist in a war of conquest. that the interests of the United States in the matter of trade, of the "open and of all rights now guaranteed to us in China by ireaty be made a matter of special agreement between the United States and this warring power.

It does not follow that because the United States troops are to be withdrawn this Autumn from China that our interests will be left completely at the mercy of the other powers. On the contrary, such disposition will be made of those troops that they, with the others. can be returned to China in short order. if necessary. To this end, the entire army of General Chaffee will be quartered in some of the pleasantest portions of the Philippines. If they are wanted again in China they can be transported inside of a week, thoroughly refreshed and fitted for effective action. Minister Wu has not yet been clothed

with power by his government to effect a settlement of the Chinese trouble di-rect with the Washington authorities. The officials are inclined to believe that no such large power as this will be conferred upon him, though he may do as the Chinese Ministers in Europe-play an import-ant part in the preliminaries to the in-gtitution of regular negotiations through ters for a final settlement. A dispatch from Pekin says that after the allied troops traversed the Palace, August 2, the foreign Ministers and Gen-erals returned and visited the audience halls, where they found six Mandarina, including officials of the Tsung Li Ya-mun. The royal apartments and the rooms set apart for the women were not entered. Magnificent marble staircases, costly bronzes and valuable vases were encountered everywhere. The Emperor's throne, situated in a small building, is surrounded by pedestals on which are caskets containing written wishes to be opened after his death. A special dispatch from Berlin says that Great Britain and Germany have

agreed not to evacuate Pekin until full satisfaction for the recent outrages has been obtabined.

#### THE MURDERED MISSIONARIES.

Ninety-three Known to Have Been Killed and 170 Unaccounted for. SHANGHAI, Sept. & Saturday. John Goodnow, the United States Consul-General here, after inquiries in every pos-sible source, learns that the number of British and American missionaries murdered during the uprising in China has been SS, while 170 others stationed in Chi Li and Shan Si Provinces are unaccount ed for, and there is reason for the belief that they have met the same fate. Of those whose deaths have been absolutely proved, 22 were Americans, 8 men, vomen and 6 children; 34 were British, 9 men, 15 women and 10 children. There is strong proof that 37 more were killed at Tai Yuen. All the natives from that place tell substantially the same story. Ten men, 13 women and 7 children are

known to have been there. The list of missing numbers: Ameri-cans, 30 men, 21 women and 20 children, British, 41 men, 49 women and 19 chil-

President McKinley looked to be in un-usually good health. It was announced that the President would devote his time to absolute rest while here. Although it was generally known that his train would make but a short stop, an immense crowd was at the station. The edict is prior to the request sent by Li Hung Chang to the throne that the Viceroys of Nankin and Wu Chang and Prince Ching be included with him as negotiators. This request has not yet been responded to by the throne, so far as the Chinese Minister here is advised, but if Enri Li's request is granted there is no doubt it will carry the same absolute authority with which LA Hung Chang has now been invested. The con-ditions reported by General Chaffee appear to warrant the conclusion that Mr. Conger will speedily leave Pekin for one of the ports on the coast, where he can act more effectively, and that the United States troops will not respond to the German invitation to make a further offensive campaign outside of Pekin.
