There follows a recital of the declara-

tions of the last Democratic State convention on the subject of imperialism. As

to the nominee of the Kansas City con-vention, the platform says: "We ratify and inderse the nomination

for the Presidency of William J. Bryan a statesman of undoubted patriotism and

independence, enjoying in a marked de-gree the confidence of his fellow-citi-zens, an honest, able and fearless cham-

pion of popular rights and aspirations, in whose hands the business interests of the country and the industrial elements of

Relative to the trusts, the platform specifically condemns "the corporate combinations known as the Ice Trust," and

denounces all combinations of capital

known as trusts as inevitably and intol-erably unjust, both to the producer and

consumer, "one result of which is to de-

stroy all individual enterprise and to rob

the young men of the country of the fair

competition which in Democratic times constituted the great glory of the Na-tion and permitted the advancement and

independence of our youth."
The platform concludes with a discus-

sion of purely state issues, the claim be-ing made that "the Democratic party in state and National affairs has been

Loss of Life in Galveston. CHICAGO, Sept. 12.—The following statement was received at 11 o'clock to-

loss on the island, in the City of Galveston and the Immediate surrounding districts between \$400 and 5000 deaths. I do not make this statement in fright or excitement. The whole story will never be told, because it cannot be told. The necessities of those living are pressing. Not a single individual escaped property loss. The property on the Island is half swept out of existence. What our needs are can be computed by the world at R. G. LOWE, "Manager Galveston News."

It will now never be known how many have lost their lives in this awful catas-

it as high as 10,000.

The great trouble now seems to be that those people who are in greatest need are the last to receive aid. Many of them are so badly maimed and wounded that they are unable to apply to the re-lief committee, and the committees are so overwhelmed by direct applications that they have been unable to send out messengers. The wounded everywhere are still needing the attention of physicians, and despite every effort it is feared that a number will die because of the impossibility to afford them the

"Galveston, Tex., Sept. 12.—To Charles S. Diehl, General Manager the Associated Press, Chicago: A summary of the con-ditions prevailing at Galveston is more than human intellect can master. Briefly than human intellect can master. Briefly stated, the damage to property is anywhere between \$15,000,000 and \$20,000,000. The loss of life cannot be computed. All is simple guesswork. Those buried in the sea and ground will foot up a horrible total of at least 2000. Many estimate the loss on the island, in the City of Galare can be computed by the world at large by the statement herewith sub-mitted much better than I could possibly mmarize them. GALVESTON, Sept. 12, 8 P. M., via Houston, midnight.—All attempts at bury-ing the dead have been utterly abaned, and bodies are now being disposed of in the swiftest manner possible. Scores of them were buried today, and hundreds were taken out to sea and thrown overboard. The safety of the living is now the paramount question, and

nothing that will tend to prevent the out-break of pestilence is being neglected. This morning it was found that large numbers of the bodies which had been previously thrown into the bay washed back upon the shore, and the situation was thus rendered worse than before they were first taken in the barges and

trophe. Mayor Jones thinks the dead will amount to several thousand, and others, whose opportunities for judging are less than that of the Mayor, place

Relief committees from the interior of the state have commenced to arrive, and, as usual, they are too large in numbers, and to a certain extent are in the way of the people of Galveston and an impediment to the prompt relief which they themselves are so desirous of offering. Some of the relief expeditions have had committees large enough to consume 10 per cent of the provisions which they brought. The relief sent from Beaumont, Tex., arrived this morning and was dis-tributed as fast as possible. It con-sisted of two carloads of ice and provis-

aid necessary to save their lives Every man in Galveston who is able to walk and work is engaged in the work of relief. But despite their utmost en-deavors they cannot keep up with the increase of the miserable conditions which Water can be obtained surround them. Water can be obtained by able-bodied men, but with difficulty. Mr. Shaw, of Houston, who is busily en-gaged in the relief work, said tonight that there were 200 people at St. Mary's Infirmary without water. They had been making coffee of salt water and using that as their only beverage.

Very little stealing was reported today, and there were no killings. The number of men shot yesterday for robbing the dead proved a salutary lesson, and it is not expected that there will be any more occurrences of this sort. The soldiers of the regular Army and of the National Guard are guarding property, and it is impossible for thieves to escape detec-

Every effort is being made to induce people to leave Galveston, and it is difficult for any one, no matter what his business, unless he is in direct charge of a relief train to gain admission to the place. scratic State convention tonight nominated its ticket

The head of the ticket was not selected without a sarcastic exchange of compli-ments among the leaders. But when the will of the convention had finally been registered, ex-Senator Hill was first to Stanchfield. This attitude proved so spontaneously effective that representatives of almost every county who had opposed Mr. Stanchfield were immediately upon their feet, and one by one they were recognized by Chairman Raines to secand the nomination. An evidence of a purpose of avoiding friction upon all othor questions than the gubernatorial candidate upon the nart of both Mr. Hill and Mr. Croker was manifest throughout the proceedings.

There developed this morning evidence that expectation of a hot fight between the organization and the Hill elements the Hill people to carry the business of the convention over until tomorrow would not be permitted to be carried out. The committee on credentials, which it had been suggested might unseat Hill men and seat organization men, was instructed from the Murphy-Croker headon merit and give the benefit of any close decision to the Hill delegates, so that there could be no minority report.

As a further step toward making the work of the convention smooth it was announced early in the day that Senator Mackey had decided to accept the second place on the ticket, waiving his claim upon the gubernatorial nomina-

When the convention was called to or der the committee on credentials reported. The report was received with min-gled cheers and hisses and when the motion on its adoption was put, the gal-leries joined in voting in the negative. Temporary Chairman McCarren declared

the report adopted.

The committee on permanent organization reported in favor of George Raines, of Monroe County, for permanent chair-man, and he was elected. Mr. Raines spoke at considerable length.

He said the Republican party of New York was wholly dominated by Senator Platt and predicted the defeat of the Republican state ticket this year by same element that overthrew the Folger ticket because of Federal interference. Mr. Raines said:

The chief financial issue of the hour is the stifling of competitive conditions of business by aggregations of corporate capital in trusts. There is no remedy except the annihilation of the party not antagonized but trusts. If the issue is not met with rem-edial legislation and willing officials of integrity of purpose, the million hands of organized labor will soon find a remedy kind with its bloody purpose.

After discussing territorial expansion fully, Mr. Raines concluded as follows: "The spectacle presented at the close of the century is of two nations which vaunt their leadership in Christian civilization forcing a foreign and alien rule upon the Transvaal and the Philippines under the specious plea that they extend thereby the frontier of Christian and civilized rule.' The Platform

The report of the platform committee was adopted without amendment, platform begins with pledging the Dem racy of New York anew to the principles and policies of the Jeffersonian Democrathe last Democratic National convention.

We recognize the truth of the declaration of that convention, that the burning issue of imperialism, growing out of the Spanish War, involves the very existence of the Republic and the destruction of our free institutions. We regard it as the paramount issue of the campaign. PREPARING TO SAIL FOR EUROPE

Collapse of the Boer Cause-General Botha Said to Be on the Point of Surrendering.

LOURENCO MARQUES, Sept. 12.-Prestdent Kruger arrived here last night. With several Transvaal officials he is staying at the house of Mr. Pott, the Consul of the Netherlands, it is reported that they will sail for Europe September 24 on the German steamer Herzog.

### WAR NEARLY ENDED.

Botha Said to Be Making Overtures to Surrender.

LONDON, Seyt. 12.-The flight of Prestdent Kruger from what is now designated as the Vaal River Colony, and his arrival last night at Lourenco Marques, is regarded here as indicative of an early end of the hostilities in South Africa. Another message from Lourenco Marques says the Transvaal state officials accompanied President Kruger Into Portuguese terri-

Significant also, although it is unconfirmed, is the announcement that Gen-eral Botha, the Boer Commander-in-Chief, is making overtures to surrender, and the question whether the burghers will now follow the usual course of beaten armics and lay down their arms or formally declare in favor of guerrilla warfare, must be speedily settled. It is, however, believed here that President Kruger's action deprives the Boers of their main pretext for remaining in the field.

The British War Office has issued a long report from Lord Roberts on the treatment of British prisoners of war at Pretoria, founded on the report of the court of inquiry. Briefly, Lord Roberts declares that the treatment of the officers was fair, but that the food of the men was quite inadequate and of inferior quality. He denounces the treatment of the colonial prisoners as criminal, and says the inhuman treatment of sick prisoners throws the greatest discredit on the authorities then at Pretoria. The prevalence of sickness and many deaths of prisoners, Lord Roberts adds, are at-tributable to the lack of proper food, medicines and the neglect of ordinary

sanitary precautions.

Joseph Chamberlain, Secretary of State for the Colonies, in the form of a letter to the Durham Conservative Association, issues an election manifesto. Referring to the settlement in South Africa,

"I should seriously fear that if for any cause the Liberals were now returned to office they would be ready to throw away in connection with the settlement the position which has been so hardly gained. I hope every elector who feels that the afrogest and arbitrary tyranny of the Boer eligarchy culminating in an invasion of Her Majesty's territories requires to be dealt with by a strong hand, will sup-port the Unionist candidates at the polls."
