STRENGTHENING THEIR LINES.

Mipers of Pennsylvania Coal Region Preparing for the Struggle.

WILKESBARRE, Pa., Sept. 16.-The United Mineworkers spent Sunday in strengthening their lines where they were weak. Organizer James came up from Harleton and addressed a large meeting day. Mr. James was sent for and a meet-ing called. In the course of his address Mr. James was loudly applauded. There were many women in the audience, and they stemed to be as enthusiastic as the men. At Plans, Organizer Nicholls addressed a large meeting. He, too, aroused much enthusiasm. He said the prospect of winning the strike was excellent, and he advised them to stand firm. In one of the suburbs of this city a big meeting of union and nonunion men was held. The meeting resolved itself into a union gathering, a resolution was adopted requesting all men to keep away from the mines. Meetings were also held in many other places in the county, and all were largely attended.

tonight that there will be no work to-morrow. They say there may be some men who will report for work, but they will be so few in number that it will be almost impossible to carry on operations. The coal companies will make a desperate effort to keep some of the mines going. All the men that can possibly be secured will be sent to one mine, and it is hoped will be able to mine some coal. The operators realize that the quickest way to break the strike is to show the strikers that some mines are in operation, and that some men are doing work and being paid, for work that they should be doing and geting paid for. But no operator or miner can make a prediction as to the outcome tomorrow.

based the adverse criticisms induged in, not only by visitors ignorant of exposi-tions, but by intelligent and prominent difficents. I am afraid many of these have not observed carefully or at length, "I am proud to say that Americans took

2000 awards or one-third of the entire number awarded. The Americans at the exposition were the most lavish enter-tainers of any nation, and of the Americans the most enthuslastic hosts were the Californians. The people from my state spent \$130,000 in taking care of guests

tion, saying: "The Paris exposition is the greatest the world has ever seen. I say this un-qualifiedly, notwithstanding the many ad-verse criticisms which have been indulged in by many Americans. In its displays of manufactures and science the exposition is simply complete. There is not a line of anything used by man for transporta-

ation exists there. He says that 180 bodies were buried there; that the prairie nes fare strewn with the carand m nesses of animals and reptiles, and that the stench is terrible Now that the water works are running,

some of the streets lighted, many others some of the screets lighted, many others hearly cleared of debris, and telegraphic communication with the outside world re-established, the people of Galveston are situationally looking forward to the re-establishment of railroad communication. They will not have to wait long, for the work of relaying the tracks and rebuildbridge across the bay is being ing a with great energy. The officials in charge of the work believe that they will be able to run trains into Galveston Union depot on Thursday. The work thus far done has been remarkable, and has been accomplished under the greatest difficulties. Track has been laid along a right of way which has been swept by the storm and washed into ravines along a line bestrewn with dead bodies of men The men worked under a and animals. blasing sun in mud and in surrounding sickening to the senses, and at first with out an adequate supply of food. The greatest difficulties in the way of securing aterial for the work, or, rather, in getting the matter to the places where it is meded, have been encountered. Not-tibstanding these difficulties the work has gone on day and night, and the struc ture that is to bring Galveston in real touch with the outside world is being

gradually pushed forward toward th tricken city, which is so rapidly and marvelously recuperating. The Santa Fe sys-tem has contracted nearly all its bridge and track-building on the island, and is working to the restoration of communica

State Health Officer Blunt left here today for Austin, where he will make a report to the Governor concerning con-ditions in Galveston. It is said that his statement will estimate the mortality at Mr. Blunt was in Galveston several days, and made a thorough investiga

ion of the destruction of the storm. Miss Clara Barton, of the Red Cross S clety, arrived at Texas City tonight with ital corps and supplies. She will reach Galveston tomorrow morning.

False Reports of Money Received.

HOUSTON, Nex., Sept. 16 .- The follow ing note was sent to the Associated as correspondent today at the request of Governor Sayers: "Reports sent out from this place, by

whomsoever sent, that \$300,000 or \$300,000 has already been paid in are absolutely false, and made without authority, and lculated to do great harm to the ne sufferers along our coast. No such sum of money has been received or anything ing it. It is believed that these approad stories have done great harm, in that they have prevented the contribution of money which is so sorely needed at Galveston." _

THE SICK AND THE DEAD.

Marcus Daly Improving.

NEW YORK, Sept. 16 .- Marcus Daly, of Montana, who has been ill in the Hotel Netherlands since the 8th of this month, is improving. He is said to be suffering om heart failure. He is able to be about his room, but not to leave it.

Art Critic Broke His Hend. NEW YORK, Sept. 16-John B. Ran dolph, a well-known art critic of this city, was killed by a fall downstairs in his residence on West One Hundred and Twen-ty-first street today. The accident hap-gened shortly after midnight, and death rounds of rifle ammunition.

Government in China. Mr. Adee, the ing Secretary of State, was at the de-partment for some time during the day, but tonight said he had nothing to public. Condolences from several gov. ernments expressing their regret over the Galveston disaster were received, these were not given out pending the

comment among the other commanders. The Sixth United States Cavalry, it is

rumored here, has been ordered to camp at Yang Tsun, up the Pel Ho, with a view of strengthening the line of commu-

WASHINGTON, Sept. 16 .- Special Com-

Rockhill, who was sent to

The regiment will take two

President's teply to them. Nothing came from General Chaffee during the day, and the situation regarding the question of the withdrawal of the troops from Pekin, it was stated, was unohanged.

When Li Hung Chang reaches Tien Tsin he will assume the Viceroyship of the great Province of Chi Li; thence he will roceed to Pekin. Whether in his new flice as Viceroy and with the additional powers he may have as a peace plenipo-tentiary, he will be able to meet the de-mands of the foreign governments for the complete restoration of order, the preservation of peace and the protection of foreigners, is not known.

It is understood that up to this tim there has not been any serious consideration by this Government of the personne of any commissioners that may be ap-pointed to secure a peaceful and stable government. Several names have been mentioned, but this is as far as the matter has progressed.

Nothing official has reached this Gov ernment of the rejection of Yung Lu as a peace negotiator with Li Hung Chang and Prince Ching. It would not be surprising however, if this were true, as the officials believe Germany or any other government would be justified in refusing to treat with a person who has been regarded, in

part at least, as responsible for much of the harm that has been done. The Paris dispatch announcing the disussion of the possibility of a confer some other country than China for the purpose of settling terms of peace caused some discussion in diplomati other circles. Such a suggestion has not been made to this Government, however, and nothing is known of it here

KRUGER GOING TO EUROPE.

Portugal Authorizes His Departure On German Steamer.

LISBON, Sept. 15 (Saturday) .- The Por tuguese Government has telegraphed to the Governor of Mozambique authorizing the departure of Mr. Kruger for Europe. The Governor, however, must satisfy himself that Mr. Kruger is really going to Europe. He is instructed to take all precautions to safeguard the safety of

Mr. Kruger. The newspapers here say that Mr. Kruger will take the German steame Hersog at Lourence Marques, his destina tion being Holland, by way of Marseilles

ands Rallway. General MacDonald, operating in the northeast corner of Orange Colony, com-pelled the Boers to make hasty flight from Vet River. He captured 31 guns, a quantity of cattle and stores, and 65,000

Cuba's agricultural exports to th United States averaged \$27,407,798 in annual value, of which sum \$20,455,000 was paid for sugar, and \$5,608,000 for tobacco. Fruits, principally bananas, nuts, hides, skins and molasses were the other principal articles. Germany sent us \$24,032,375 annually, of which \$13,264,000 was sugar. Hides and skins amounted to \$1,990,000 and wines to \$1,196,000. Rice, bristles, coffee tobacco, oils, hair and unbottled malt liquors also were sent from Ger to the United States. Japan many Aus \$18,109 810 annually, slik averaging \$12, 975,000 tas \$4,445,000 and rice \$5\$4,000

China's annual total was \$17,717.797, ter averaging \$6,483,000, silks \$6,270,000, averaging 30,455,000, mixs 30,20,000, wool \$1,514,000, hides and skins \$857,000 and prepared opium \$348,000. Rice, su-gar, coffee and vegetable olis were the oher articles. France sold us annually \$17,375,990, wines averaging \$4,339,(60, of which \$3,507,000 worth was in the form of champagne. Hides and skins averaged \$2,460,000, wools \$2,046,000, silk \$1,477,000, fruits and nuts \$1,091,000, vegetable oils \$932,000, including \$464.000 worth of olive cil; argols or wine lees \$620,000. Italy sent us \$15,235,146 worth per year made up of silks \$5,542,000. fruit and nuts, \$5,287,000, lemons \$3,892,000 and or-

anges \$761,000; argols or wine lees \$1,086 000, vegetable olis \$305,000, hemp \$406,000 and Acte \$456 000 The Dutch East Indies shipped us \$14. 392,466 annually, of which \$12,261,000 was paid for sugar and \$3,141,000 for coffee. Hawalian exports to us averaged \$13,616. 185, of which sugar amounted to \$13,172,000. Mexico sent us \$13,600,110, made up principally of vegetable fibers \$5,301.000, coffee \$4.178.000, hides and skins \$1,671.000, cattle

\$1,237,000 and vanilla beans \$512,000. Canada sent yearly \$10,149,241, including livestock \$2,175,000, wheat \$1,555,039, hides and skins \$1,255,000, hay \$1,077,000 and wool

The British East Indies averaged \$10. 078.849 076,849 annual exports to us, sugar amounting to \$5,057,000, fruits and nuts \$2,605,000 and cocoa \$1,316,000. The British East Indies, The Netherlands, Venezuela Argentine Republic, Egypt (mostly cot ton and sugar), the Philippine Islands (principally hemp and sugar) and Colom bia each sent us less than \$10,000,000 of

agricultual exports annually. Measured by their average annually for 195-1899, the leading articles and groups of articles in our agricultural import trade ranked in the following order: Sugar, coffee, hides and skins; wool silk, vegetable fibers, fruits and nuts, tea co, wines, vegetable oils and animals.

The products mentioned comprise in value nearly 90 per cent of our total agricultural imports.

ENGLISH TEXTILE SITUATION.

Cultivation in Great Britain Suggest ed as Remedy for the Future.

MANCHESTER, Sept. 16 .- The Man-chester Textile Mercury estimates that the minimum average of stoppage for the mills will be eight weeks, although the period may be longer and that the losses including the wages of 509,000 workers, will be £25,000,000. These losses are attributed to the failure of nature to supply sufficient raw material. The English man-

ufacturer is totally dependent upon a cir-cumscribed area of foreign supply, and those who provide this supply are now straining every nerve to consume the pro-duction at home, thus becoming formid-

able competitors of England. "These competitors," says the Mercury, "are the most formidable who could pos-sibly enter the markets of the world against us. The remedy for the future is
