DEMAND BY GERMANY

Chinese Responsible for Outrages Must Be Delivered Up.

CIRCULAR NOTE TO THE POWERS

Surrendering of Guilty Officials an Indispensable Preliminary to Beginning Peace Negotiations.

BERLIN, Sept. 18.-The Foreign Office has sent a circular note to all the powers announcing that the German Government considers that an indispensable preliminary to the beginning of peace negotiations with China is the delivering up of those who were responsible for the outrages. The text of the telegraphic note, as the North German Gazette gives it.

"The Government of the Emperor holds as preliminary to entering upon diplo-matic relations with the Chinese Gov-ernment that those persons must be de-livered up who have been proved to be the original and real instigators of the outrages against international law which have occurred at Pekin. The number of to the civilized conscience and the circumstances of such a group of leaders cannot be completely ascertained, but a few whose guilt is notorious should be delivered up and punished. The represen-tatives of the powers at Pekin are in a position to give or bring forward con-vincing evidence, as less importance at-taches to the number punished than their characters as instruments or leaders. The Government believes it can count on the unanimity of all the Cabinets in regard to this point, insamuch as indifference to the idea of just atonement would be equivalent to indifference to a repetition of a crime. The Government proposes, therefore, that the Cabinets concerned should instruct their representatives at Pekin to indicate those leading Chinese personages from whose guilt in instigating and perpetrating outrages all doubt is precluded. VON BULOW." The note has been sent to the German Embassies at Washington, London, St. Petersburg, Paris, Rome, Vienna and To-

The publication of Count von Bulow's note was decided upon because it was deemed best to let the world see that Germany had nothing to hide regarding her real aims in China. The diplomatic corps here so interpret it. The note shows, also, that Count von Bulow's sober and moderate views regarding the Chinese muddle and its solution have now triumphed over Emperor William's "more

Tomorrow the leading German papers will approve the note. The Pressinning Zeitung, calling particular attention to the passage declaring that wholesale executions will be contrary to the civilised conscience, will say: "This is in significant contrast with Emperor William's instructions to the departing troops to spare no one and make no prisoners."

TABLES TURNED ON RUSSIA.

Great Satisfaction in England Over

Germany's Note. LONDON, Sept. 19, 4:30 A. M.-As might have been expected, coincident with the arrival of Count von Waldersee in China, comes the most important dec-laration of policy yet issued by any of the allies. As the Daily News remarks, Germany's circular note has turned the tables on Russia, whose evacuation proposal had put Germany into an awkward corner. Now, if Russia assents to the German note, she will be unable to continue, says the Daily News, to pose as China's lenient and forgiving friend; while if she dissents, Russia will lay herself open to the charge of reducing the puniexpedition to a farce.

London morning papers have little but braise for what is called Germany's "ad-The Times goes so far as to wish that the credit for making such a proposal belonged to Great Britain. The Morning Post alone, in a cogent and wellreasoned editorial, points out a grave objection, namely, that if the real authors and instigators of the uprising should prove to be identical with the personnel of the Chinese Government, it can bardly be expected they will deliver themres up and that if the Chinese should be designated as guilty, it would be under the ban of the pow-ers, a condition of things only terminable by the conquest of China or a revolution

As there are millions of acres of arid lands, sometimes called desert, in the southeastern portion of Oregon, and no two of these acres are in the same place nor have exactly the same facilities for nish all the information asked for; beside, it would be practically impossible to ascertain how much water per acre is required for irrigation, as this amount would vary greatly in different localities There are lakes, rivers and numerous streams in the mountains in that section of the state, and by securing a favorable purposes. The question is now presented arid lands will do well to visit some section in that part of the state and see the lands for himself. Thousands and hundreds of thousands of acres of these arid lands are owned by stockmen, and form the finest stock ranches on the Coast. "American Desert" is in most part covered by a dense growth of vegetation, and herds of cattle thrive there in the Winter, when there is snow on the ground, but cattle cannot live there in the Summer as there is no drinking water obtainable.

Three piledrivers are at work closing up the breach in the Galveston Bay bridge made by the steamship Roma. The re-building of the bridge is progressing rapidly, and it is expected trains will be able to cross Thursday. Orders have been issued to have all freight proceed to Galveston. The one bridge will be heavily taxed to accommodate all the trains. The tracks on Galveston Island will be completed to the bridge tomorrow noon. Engines are again running into the Union station and switching in the wharf yards, and are bringing freight to the ships in

An incident of the journey was th meeting of two special trains filled with delegates and visitors bound for Helena to attend the Democratic State Conven tion to be held at that place tomorrow.

Greetings were exchanged by the occupants of the two trains in passing. Cries for Bryan came from across the track, and shouts for McKinley and Roosevelt answered back.

At Clancy a short stop was made and little speaking was done by Governer Roosevelt. Here he said in part: "I wish I had a chance to go through Montana, place by place, and discuss everywhere the issues involved in this campaign. As I have come through your state for the past few days, it has been impressed upon me more and more and day by day the importance of the vast and wonderful state that you have. Its future it will be impossible to predict. It is not physically possible that I should is not physically possible that I should stop at all stations or meet all your citi-zens, and still less is it possible for me to discuss all the issues of this great National campaign. The issues of this campaign are more important than any campaign are more important than any we have seen since 1884. I want merely to express my pleasure at seeing your More and more during this tour it has been impressed upon me that every candi-date for a National office should have an opportunity of growing acquainted by travel, if not by residence, with the great areas and with the people of your coun-try, that will in the end dominate the affairs of this Government.

"I have just one word to say about campaign matters. I am more than de-lighted to discuss the one issue which our opponents are pleased to term imperialism. There is, of course, no such thing as imperialism in this country. Imperialism and militarism are mere shams mere phantoms raised to frighten timid people, that is all. But the fact remains. It is simply the misnaming of that sys law of our National existence, and which is the law of our National growth. That is the reason you are here today, because you expanded into this country. They talk about the Constitution following the flag. That talk is sheer non sense. You people here were not in full equality of rights with the other states until 11 years ago, when you became a state. Congress passes laws for the territories. Now you are a state and you pass your own laws. You have representative your own laws. You have representatives in Washington who pass laws for all the Union and for you. You have equal rights with any other state in the Senate of the United States. You have passed through the different stages of development until you stand today among the states of this Union, with all the rights that the Constitution can confer. The Philippine Islands must pass through the same stages, and Congress will frame such laws for them and confer such able to exercise with wisdom and as much self-government as they are capable of wielding."

Big Crowd at Concord to See Mother of Christian Science.

Boston Post. CONCORD, N. H., Sept. 6.-Rev. Mary Baker Eddy was a guest at the Concord State Fair this afternoon, at the special invitation of Governor Rollins, the day being observed as "Governor's day." Accompanied by Judge and Mrs. S. J. Hanna, of Boston, Mrs. Eddy arrived at the grounds at 3 P. M. in her victoria. She was received at the gates by the city and state authorities, represented by the City Marshal of Concord and an escort of police, mounted and on foot, and mounted military aid of Governor Rollins, specially detailed. With her escort Mrs. Eddy made the circle of the which had been previously cleared for her benefit.

As the carriage approached the Governor's reviewing stand, she was announced to the throng as the Rev. Mary Baker Eddy, the discoverer and founder of Christian Science. The band struck up a patriotic air, and the 19,000 spectators in the amphitheater waved handker chiefs, cheered and applauded. In deference to Mrs. Eddy's distate for undue demonstrations, the crowd had been requested by the authorities to refrain from a too bolsterous recognition of her pres ence. After having made the circuit of the grounds, Mrs. Eddy and her escortogether with about 50 visiting Christian Scientists, witnessed the greater part of the afternoon programme. Before leaving Mrs. Eddy expressed to the authorities and to her escorts her appreciation of the honor paid her.

A prominent Christian Scientist, speaknight of the unusual reception tendered Mrs. Eddy today, said:

"This is the first instance in recent rears that Mrs. Eddy has attended a punlic functions, except such as might be con-nected with her church. The cordial inviengagements and finally returned to Tim- by the vast throng expressed their rec- dandruff germ.

"Every person present had the oppor tunity to see that Mrs. Eddy is in excel-lent health. She is in full possession of overy faculty. Whatever may be the number of her years, and they are more than three-score and ten, she is youthful in appearance and vigorous in every act and movement. Her bright, spark-ling eye, her clear, fair complexion, her quick, vivacious movements, bespoke a strong body and a forceful Her public appearance is conclusive evidence that she is no recluse. She is glad to meet the people, and the only reason for so seldom appearing is the strict attention she gives to the best and import-ant interests in her care. Her appearance on the state fair grounds shows the breadth of her interests.
