NO NEGOTIATIONS FOR SETTLEMENT

Interesting Meeting Between Operators and Employes at Jeddo, in the Hazelton District.

HAZLETON, Pa., Sept. 19,-The third day of the strike passed off as guictly as the two preceding days. Beyond the occasional stoning of a mineworker going to or from his work, there is no dis-order. It was estimated tonight that about 70 per cent of the mineworkers of this region were idle today, which is quite an increase over yesterday's figures. President Mitchell did not issue a formal statement tonight. He said, however, that from reports he had received he figured on more than 125,000 men being idle in the anthracite district. He added that most gratifying reports were received from this and the Schupikill district. No negotiations for a settlement of the

strike are yet in sight, and the situation in that respect is precisely the same as it was yesterday. The United Mineworkers of this section are confining their offorts to get the men to quit work everywhere, believing that they cannot successfully carry on the contest unless every opera-tion in the three districts is tied up completely. The operators appear to be do-ing nothing toward a settlement of the trouble. They are working the crippled

collieries as best they can.

The mincowners in the Hazleton district complain bitterly of what they call the "cruel tactics" of the union. They claim that the workmen who are still going to the mines are being intimidated and even threatened with serious bodily harm if they do not quit work. They also add that most of the men now idle desire to resume work, but through fear of as-sault they do not leave their homes.

The meeting this afternoon at Jeddo of the employes of G. B. Markle & Co., who operate the Jeddo, Ebervale, Highland and Oakdale collieries, proved to be probably the most remarkable gathering of its kind ever held in the anthracite region. It was expected to be a heart-to-heart talk between John Markle, managing partner of the firm, and his em-ployes, who number 2500, but it devel-oped into a joint debate, in which Mr. Markle, President Mitchell, Rev. Father Philipps and National Committeeman Benjamin James took part. It began in a dignified argument and wound up very close to personalities. Over 1600 persons of the Markles one of the miners in the crowd moved that the men in the Markie mines strike. A viva voce vote was taken, and there was a great roar

President Mitchell was in the crowd, he was invited to speak. As he and he was invited to speak. As he walked up the steps of the schoolhouse, John Markle, Alvin Markle and General Superintendent Smith, of the firm's mines, came along the railroad track, and the trio stood on the cinder embankinem of the road and listened to the strike lender exhort ble hearts. Al the strike leader exhort his hearers. All around them, sitting on the embanknent, were the wives, mothers, sisters and sweethearts of the men, while the school children gazed from the windows of the one-story building and the school-

master stood at the door.
Mr. Mitchell said in brief that he re gretted that the men of the Markle mines ere divided, but was glad that those to opposed the strike were in the minority. He said the eyes of 138,000 miners were looking toward them, and that if they all stopped work the victory would be won; but, on the other hand, if a few went to work it would injure the inter-Then John Markle made his way to-

ward the crowd of miners and started in order that the strikers will not be able to address the men. Mr. Markle was unable to speak for a while, because of interruption by many in the crowd. Sev-eral of the United Mineworkers' officials attempted to get the crowd to disand not listen to Mr. Markle. The latter, however, won over the gathering. He told them the company stood ready to arbitrate any differences with the men. He said the company had an arbitration agreement of long standing with the men, and that he would live up to It and expected the men to do the same decision of the arbitrators, no matter what the award might be. Mr. Markie concluded his address by paying his respects to the United Mineworkers' officials, calling them agitators and chargith being responsible for all the turmost in the region.

Mr. Mitchell then got on the steps, and standing beside Mr. Markle, told the crowd that the United Mineworkers would not accept arbitration on that banot a part of it.

Mr. Markle again addressed the men and refterated what he said last Sunday, that he would accept Archbishop Ryan, of Philadelphia, as an arbitrator, to which Mr. Mitchell replied that they would accept the archbishop on the basis that the United Mine Workers proposedarbitration of the whole region at one and At this point Father Philipps was called

upon by the men and delivered a speech favoring arbitration. He told the men that there was a chance to arbitrate their honest differences, and if they did no selze the opportunity, they would be giving organized labor the hardest blow it has ever been dealt, and that all the men who refused the offer deserved all the hardship that the operators could put upon them in 100 years. President Mitchell and Mr. Markle again

spoke, and Benjamin James also ad-dressed the men, but their remarks were largely of a personal nature. The meet ing lasted two hours. The strike leaders claim that as a result of the meeting the Markie mines will be closed, while the firm claims that the meeting was a packed one, and that their mines will

Even the much-advertised clash in the Lykens restion of the Pennsylvania Railroad Company was sidetracked through the decis-ion of the strikers at Lykens that it would be unwise to march on the non-union men at Williamsport and force them to quit work. Nevertheless, there were fewer men at work today than yes-terday. Contradictory reports come from the Schuylkill region, one to the effect the strikers at Morea, after being out two days, had decided to return to work tomorrow, but that is said to be in-credible at beadquarters.

The mine operators, after generally

maintaining a dience for several days, are showing a disposition to talk for publiention, and as a result several state ments from their side are printed. All breathe the same spirit-no recognition of the United Mineworkers and a fight to a finish with President Mitchell and his fel-

Even with this extra output, the company cannot supply the demand, and it served notice on the West today that extraordinary orders could not be filled. Meanwhile reports are coming from all parts of the country of large increases in price of coal to consumers to keep orders down.

Calvin Pardee, owner of the Lattimer and Harwood collieries in the Hazleton district, in an interview today said: "Under no consideration will the opera tors yield to the United Mineworkers. It will be a fight to a finish, and the operators will win. So far as I am per-sonally concerned, I have ordered the mules to be taken out of the Harwood mine and put to pasture. I am preparing

EFFORTS TOWARD SETTLEMENT. Mount Carmel Operators Wiling to Adjust Grievances.

SHAMOKIN, Pa., Sept. 19.-The mos important development of the coal miners' strike which has occurred since its in-ception was the effort made today by a committee of miners employed at the Natalie colliery, Mount Carmel, who are in close touch with the operators who control that mine—all New York capitalists—to secure a settlement. They came here this afternoon to consult with sev-eral leading mine officials as to the best method of effecting their object. They said that the operators they represented are willing to adjust the principal griev-ances embodied in the demands of the Hazieton convention, and they are anxious to get their proposition to National President Mitchell. It is believed that, if they can effect their object, other operat-ors will follow in the same line.

One thousand miners employed at five Collectes owned by the Philadelphia & Reading Coal & Iron Company and Individual operators ceased work today in the vicinity of Mount Carmel, compelling the stoppage of the operations. This makes the tie-up complete in the Shamokin re-gion, excepting the Locust Gap and North Franklin collieries, operated by the were present at the meeting. Conl Shipments Falling.

READING, Pa., Sept. 19 .- One feature of the coal situation tonight is that all ship-ments to the West have been cut down considerably, and that they will become smaller in that direction as the product from the mines becomes less. The de-mands of the local trade along the Atlantic seaboard are so enormous that every carload is needed in the Reading Company's own territory. Western cities have sent in enormous orders, and it is now recognized that they will be the first to suffer if a combine should be made It is thought there will be a falling off in shipments at the end of the week.

Brooklyn-St. Louis Game Ended in a Row. BROOKLYN, Sept. 19.-Today's game

between the Brooklyn and St. Louis clubs ended in a row in the third inning, and Umpire Gaffney declared it forfeited to Brooklyn by a score of 9 to 0. With Farrell at third, Jones sent a grounder to Wallace, who threw badly to the plate. Farrell slid under Robinson's hands and was declared safe. Robby tumped up, and after throwing the ball at Gaffney, rushed up and struck him on the chest with his fist. The umpire swung his mask at the player, just grazing his nose. He ordered the big catcher out of the game, but he refused to go, and McGraw backed him up. After waiting the customary time, Gaffney declared the game forfeited. McGraw withdrew his men from the field. McGinnity and Jones were the opposing pitchers, and the game promised to be interesting. Brooklyn had scored a run on a homer by Jennings in the first and another in the third on Farrell's double, McGinnity's sacrifice and the play above-mentioned, while St. Louis blanked, although they gave indication of batting hard, having made five hits to two for Brooklyn. The 800 spectators received their money back.

GOVERNOR SAYERS' ESTIMATE OF THE NUMBER OF DEAD.

The Property Loss, He Says, Will Aggregate \$20,000,000 - Clearing the Debris From Galveston.

GALVESTON, Tex., Sept. 19.—Governor Sayers tonight telegraphed the following signed statement to the Associated Press: "The situation in all parts of the stricken district, so far as known to me, is improved, and will. I believe, should the weather continue fair, continue to improve. The method of distributing the contributions of the people has become systematic, and is reduced to the lowest expenditure possible, and in this I have had the hearty and voluntary assistance of the railroad, telegraph and telephone companies, all of whom have promptly and without charge transmitted supplies and messages, besides contributing to the relief of the sufferers.

"The loss of life occasioned by the storm in Galveston and elsewhere on the southern coast cannot be less than 12 000 lives, while the loss of property will probably aggregate \$29,000,000. Notwithstanding this severe affliction, I have every confidence that the stricken districts will

PRIMARY ELECTION LAW

RESULTS OF ITS FIRST TEST IN MINNEAPOLIS.

It Was Successful in Getting Out the Vote-Split in Democratic Party in Montana.

MINNEAPOLIS, Minn., Sept. 19,-The first test of the primary election law, so far as is known in the West, and one of the first in the country was made yester-day in this (Hennepin) county. It was a great success in getting out the vote, a total of 35,000 votes having been cast in this city against 33,912 in the regular election of 1898. The law worked smoothly and with little confusion. Candidates were nominated for Congress and all county and city offices.

The comment of the Journal (anti-Ames is as follows: "The results of the first trial of the primary election law, under which voters nominate by direct vote instead of by a representative in convention, are some-what mixed. The vote was surprisingly and gratifyingly large. More votes were Baltimore, chairman of the executive cast at the primary election yesterday committee. HOME FOR BURIAL.

Remains of Soldiers and Sailors Will Be Brought From the Orient.

WASHINGTON, Sept. 19 .- Colonel William S. Patten, of the Quartermaster Department, on duty at the War Department, has completed arrangements for the free transportation to the United States of the remains of soldiers and sailors and civilians who lost their lives and were buried in the island possessions of the United States and China. According to the present plans of the department a burial corps will take passage on the transport Hancock, scheduled to leave San Francisco on Outober 1 for the Phil-

ippines.

At the request of the Secretary of the Navy the same burial corps will undertake to perform similar service with respect to officers and enlisted men of the Navy and Marine Corps buried in China and the islands of the Pacific. The corps will be in charge of D. H. Rhodes, inspector of National Cemeteries, who was sent to the Philippines in November, 1899, on a similar errand. When the transport stops at Honolulu to coal, the bodies buried there will be taken up and made part of her cargo. Similar setten will be taken at the Island of Guam and in the

Philippines, Colonel Patten says that the prevailing conditions in China will scarcely render practicable any disinterments in that and earlier than next Spring. The re-mains recovered are to be given honorable burial in the United States at places selected by next of kin. In all cases where not otherwise ordered, the interment will be made in the National cemeteries, with preference for the cemetery at the Pre-sidio at San Francisco and Arlington,

near Washington. The approximate number of the remains to be exhumed is 1331, distributed in the

Is removed by Hood's Saraaparilla so completely that a radical and permanent cure is effected.

This statement is proved by thousands of voluntary testimonials. Silas Vernoov, Wawarsing, N. Y., writes: "When our daughter was two years old, she broke out all over her face and head with scrofula sores. Nothing we did for her seemed to do her any good, and we had become almost discouraged when we thought we would try Hood's Sarsaparilla. The first bottle helped her and when she had taken six the sores were all healed and her face was smooth. She has never shown any sign of the scrofula returning."

geived from two officers in the Philippines the tops of pasteboard baxes in which cartridges are packed upon which was a label saying that the cartridges were soft-nosed bullets, used by the Krag-Jorgensen or standard United States rifles. As none of these bullets have ever been purchased or manufactured by this Government the two firms using the label were notified that such use must stop.

HOWARD ON THE STAND.

Contradicted the Testimony of Stubbleffeld and Other Witnesses.

FRANKFORT, Ky., Sept. 19.-The defense began introducing its testimony in the Howard case today, Attorney Little said the defense would prove that Howard had to borrow money to go home when he left Frankfort, and that he had consequently received no money for killing Goebel or from any other source, and that the records show he had never received a pardon of any kind, though the commonwealth alleges that both money and a pardon were to be his reward.

Howard, in a general way, contradicted overything of an incriminating nature told against him by James Stubblifield and other witnesses in regard to the al-leged remarks concerning the murder of Goebel. Howard resumed the witness box this afternoon and was subjected to a most rigid cross-examination. He remost rigid cross-examination. He re-tained his composure and answered all questions in the most deliberate manner. He will resume the stand for further cross-examination tomorrow,

Killing of a Marderer.

SAN DIEGO, Cai., Sept. 19.—Deputy Sheriff Sam Thing, of Picacho, arrived in the city today with news of the killing of Pedro Morales, the murderer of Deputy Sheriff Wilson, of Los Angeles, last Sunday afternoon near the Real Del Castillo. After the murder of the deputy, some six years ago, Morales made his escape into Lower California in the mountains. Last Sunday he ventured near the settlement, and, after a desperate fight with three officers, Morales was over-
