## NOTES IN DEMAND

Unexpected Pressure for Currency for Moving Crops.

ISSUES OF GOLD CERTIFICATES

Pausual Inquiry for Small Bills Reported From New York-Government Will Assist.

WASHINGTON, Sept. 24.—The press for currency for moving the crops is be-ginning to be felt. The issues of gold certificates by the Treasury at various points in the South and West in exchange for deposits of gold in the New York subtreasury by banks on behalf of their country correspondents, are already \$1,000,000 more than at the same time last your. The exchanges have reached M.-86,000, of which all but \$900,000 has been in September. New Orleans has taken \$3.875,000 of the gold certificates, St. Louis \$750,000, and Chicago \$400,000. These are not the only exchanges being made in New York and Washington in order to get curreny into the country. A shipment of \$190,000 in small silver certificates has just been made to St. Louis, in return for an econd amount of gold coin. turn for an equal amount of gold coin for the New York subtreasury. New Ocieans has received this month nearly \$3,000,000 in small notes of various classes.

The policy of shipping notes from Washington to interior points in return for gold at New York was adopted when the gold reserve was low, because the banks profited by the export rate on currency in one direction and generally directed their New York agents to deport gold. The pressure for currency was not ex-

pected by the Treasury, because of the great increase in the available supply, which has been made in the past year. but the Treasury has paid out in pre-miums on bonds under the refunding law 556,165,663, and has paid, in the redemption of the old 2 per cent bonds under the cent call of Secretary Gage, \$20,067, The two items of more than \$53,00,000 have been exclusive of the ordinary expectations of the Government.

DEMAND FOR SMALL CURRENCY. Treasury Takes Steps to Relieve the

Situation in New York. NEW YORK, Sept. 26.—Frunk A. Van-ersip, Assistant Secretary of the Treasury, conferred with bankers in this city try, conterved with pankers in this city today with reference to supplying the extraordinary demand for small currency. While what is known as "hand-to-hand" money is ruther soarce at this season, the supply of \$1, \$2 and \$5 bills is now wholly inadequate. The subtreasury has great piles of solied or mutilated currency turned in for redemption today.

After conferring with the bankers, Mr. Vanderellp said that he had ordered \$500,000 in \$20 gold certificates to be shipped to New York from Washington at once. That, he thought, would relieve the situation and supply the banks with a class of money that they did not have. He adds that the next step will be to supply small denominations at the sub-

Earlies were preparing today for heavy October disbursements. One of the larg-est institutions having hundreds of town accounts, reported a great mass of cou-pons on hand for collection. Banks are still using quantities of bank notes for in-terior currency demands. One large bank today had very few of its ow notes on hand, and reported little difficulty in keep-ing out what extra circulation it had ored at the time that the new currency law made possible greater expansion.

FINE EXHIBIT OF STOCK

UMATILLA COUNTY BREEDERS AT PENDLETON FAIR.

Growers Giving Great Attention to Thoroughbreds-Other States Taking Oregon Animals.

PENDLETON, Or., Sept. M.—No feature of the Street Fair, which closed Saturday, attracted more general interest than the exhibit of livestock. It was as complete as the management was able to make it. The show had not been expected by breeders, and with a few exceptions they had their stock on the Summer ranges, which put it out of the question for many of them to make a display. Others having hem to make a display, Others having choice animals could not be prevailed upon to exhibit, for the reason that their stock was not show-fat. But, despite the many reasons, including the drain by the State Fair, Umatilla County made a showing which will command the at-tention of the Northwest. To the ob-servant person the exhibit of stock opened the eyes of all to the obvious awakening of the breeders of Eastern Oregon from

BEST REPUBLICAN CAMPAIGNERS WILL VISIT NEBRASKA.

Roosevelt Will Make Forty Speeches -Repudiation of Bryanism Would Be No Great Surprise.

WASHINGTON, Sept. 20 .- There is going to be a very hot campaign in Nebras-ka during the month of October. Ar-rangements have been made for Rooseveit to make 49 speeches in that state, while the very best campaigners of the Republican party are going to devote considerable time to it just before elec-tion. It would not be at all surprising to see Nebraska repudiate Bryan, as it is altogether likely that Kansas will do, according to the best information received

COLFAX, Wash., Sept. 24.-Hugh Boyle, charged with cutting bars and assisting prisoners to escape from the County Jall, was released today by the information being squashed. He was immediately re-arrested, together with George Mansfield and James Moore on the same charge. The warrant also charged Charles De France, who was convicted in Spokane County last week, of the theft of grain from the Farmers' Warehouse as being implicated. The arrest caused a great sensation. Other arrests are promised by the Sheriff.

Suit has been brought in the Superior Court at Port Townsend by George W. Such, of Quilam, against J. N. Sill and S. F. Cahound, partners in logging bust ness, for \$1500 damages for trespass and cutting timber on land belonging to plaintiff. Besides the damages the plaintiff asks an injunction restraining defendants from further trespassing on his property. October 8 is the date set for hearing the temporary injunction against Commissioner Bridges, restraining him from-leasing the shore lands of Lake Union and Green Lake. At that time arguments will be presented by the property owners for the purpose of making the injunction permanent, and by representatives of Commissioner Bridges for the purpose of annulling it.

He was locked up over night, but was given his freedom next morning.

After an expenditure of \$4800 during the past year, the Hillyard Townsite Company has the new well and pump in operation. The pump has a capacity of 160,000 gallons every 24 hours. THE HOWL OF IMPERIALISM

In Its Degenerate Days, a Once-Great Party Takes to Sniveling.

WALLA WALLA, Wash., Sept. 22 .-A great party that for many years bragged about how it had increased the size of the Nation, how it had carried its fing over Mexico and added to the Nation vast areas of fertile "land for the landess," is now so degenerate that it whines and snivels because "the damned black Republicans want to make an empire out of the United States," Men how them-selves hoarse over the danger to the liberties of the people by increasing the regular army to 190,000 men.

Not long ago some of these howiers were doing all in their power to prevent the removal of the troops from Fort Walla Walla and to secure the establishment of a big military and the secure to the se Fort Walla Walla and to secure the estab-lishment of a big military post at Spo-kane. Then the army was not big enough. Then "the people could make money supplying the troops." There was no fear of empire then. Nor was there fear of empire in 1877, when Chief Jo-seph defied the American Army for months. Nor was there fear of empire in 1878, when the Bannock Indiana sent the farmers and their families to the the farmers and their families to the protection of the nearest troops behind horses foaming with sweat as they galloped from abandoned farms. We are told that Major McKinley will use the army and declare himself Emperor of America if he is reelected. When the facts are recalled that the army consists of 100,000 men, two-thirds of them volunteers whose time of service expires next June; that these 100,000 men are scattered from the North Pole to the Equator, from Maine to Manila, the crys of "Imperialism, tarism," becomes as funny as the most comical of comic operas. ISSUES CLEARLY SET FORTH A Word of Appreciation for the Speech of Judge Williams.

PORTLAND, Or., Sept. 24 .- (To the Editor.)—In these days of the "strenuous life," and wailing appeal for the young man Absalom, it is indeed refreshing to turn to the lucid, unblased presentation of the real issues of the campaign, by the Hon. George H. Williams at Hills-boro on September 22, as reported in The Oregonian yesterday. The Judge, who has lost none of his old-time vigor, as so often happens with many of our prominent aged men, furnishes arguments that are unanswerable, and need no comment. Last week we had in our midst imported orators presumed to represent the dif-ferent points of view, who were aptly compared with local talent. Perhaps the most pertinent remark made by any of these visiting gentlemen was a reference by one of them to the people of this city and state as lethargic mossbacks, more especially so in regard to their apparent lack of interest in political events. It might be well at this time when we are perplexed as to our plain duty in the new territories where so much work of every kind is needed, to seek advice or inspiration from the examples of Wil-liams, Shattuck and Deady in law and statecraft; of Ladd, Failing and Corbett in commercial affairs, and many other pioneer men and women, who founded an empire here such as the conquering warriors of the Old World never dreamed

of in their wildest flights of fancy. The suggestion is respectfully sub-mitted to the attention of the National committeeman that we have a mass meeting in Portland in the near future, and that Judge Williams be invited to B. Wade. repeat his excellent address. It should be a largely attended and enthusiasti gathering-a public appreciation of him who has always been guided by an exalted sense of right, from the bickerings and contentions of municipal affairs up to dealing with the Chief Executive—the friend of Lincoln and Grant, who stoo martyr President for duty an morality in the dark days of civil strife by McKinley for financial integrity in 1896, and again by McKinley for continued prosperity and National honor in 1900.

In the cattle line, the best exhibits were Jerseys, though, it must not be inferred from that that the Jersey is generally the choice of breeders. On the other hand, the Shorthorn, of which there are some fine herds in the county, take the lead, while the Red Poll and Holstein are the favorites with others. In the sheep line, excellent exhibits were made of pure-bred Spanish Delaines, Rambouillets, fords, Oxford Downs, Lincolns and Shropshires. In the hog line the exhibits were principally Berkshires, but Berkshires.

Perhaps one of the largest stalks of corn yet raised in the Grand Ronde Valley was brought to William Miller's office from the Weather's place, says the La Grande Journal. It was at least 12 feet ong. The many successful corn crops this year induce the observation that corn will hereafter be found much more profitable than Summer fallow. The Cove fruit drier, which was built

two years ago, at a cost of \$5000, is proving this year of almost inestimable value to the chief fruitgrowing sections of the Grand Ronde Valley. The prune crop is unusually large, and without a ready market the growers would have experienced great difficulty in disposing of the prod-uct of their orchards. Over 1.000,000 pounds will be handled by this drier alone, and although the prices, \$10 for second grade, and \$12 50 per ton for first grade, are not as high as offered in a few isolated cases elsewhere, they can be relied upon. Most of the growers have turned

over their entire crops to the drier.

good Senator. He is a lawyer of ability. He was a member of the House of Representatives, and although he did not serve there long, he won a good place for himself. He was one of the men of Nebraska who did not become frightened when the wave of Populism swept over the Middle States. He remained a straight-out Republican, and also a in some way, and that is why he was put forward and selected for Assistant Secretary of War. Having administered that office to the satisfaction of every-body that came in contact with him and gained wide experience in public af-fairs, he will be a Senator not only for the State of Nebraska, but for the whole

Georgia Gale. VANCOUVER, B. C., Sept. 24.—Four men at least met death in the equinoxial storm that burst over the Gulf of Georgia. A fishing boat was seen to capmon in the river below the hatchery rack at Mapleton. The hatchery will begin size just inside the narrows, and its four ecupants were thrown into the water. A boat sent to the rescue was also upset, but the men in it were picked up by a tug. The fishermen, however, were not
