COMMERCIAL AND FINANCIAL NEWS

in Portland. This fall in price is attributed largely to the firmness of charters. The only disengaged ship on the Columbia, the Halewood, is asking 52s 5d, and with a fair prospect of getting her fig-ures. The daily receipts of grain in Port-land are 25 per cent greater than those of the same date last year, and the Willamette Valley is contributing practically nothing, the local demand absorbing all the marketable wheat there. The ten-dency of the growers to pool their grain and sell in large lots on private terms is a feature of the market and such sales are usually at figures perceptibly better than the open quotations. A slight slack-ening in hops is noticeable, though little doing in this line. Growers would sell at 15 cents, but buyers will not pay so much, and both parties seem content to walt until the harvest shall be closed up and the crop becomes a definite quan-tity. Prunes hold firm. Most other fruits show a tendency to weaken. A carload of melons arrived from the Rogue River Valley yesterday, but they did not move readily. The receipts of poultry yester-day were unusually large for so early in the week, which tended to bring down prices a little. Some of this poultry was not in good condition for the market. Butter and eggs continue very firm.

fully arranged seems to come from last year's newly returned bear leaders, and renewed confidence of the bears and their attack on the market late in the day was successful in weakening it again. They continued their efforts further to depress prices this morning, and met success for a time in the most prominent industrials, notably Sugar. Tobacco and People's Gas, but the general list fulled to respond as

Wheat fell off again yesterday, dropping a cent and a quarter in Chicago, a little less in New York, and a full cent sequence bought to cover all through the these special stocks. The bears in con-sequence bought to cover all through the ilst, and wrought some substantial railles.

Last week's liquidation apparently outran the needs of the money market, and the raids on stocks were not successful in dislodging selling orders. Some timidity was induced by the bears on the possibilsome directions. The cut in the price of steel rails has not led to buying, so far as known, and railroad officials express dissatisfaction that the price was not placed lower. When the railroad companies begin to place their contracts for the coming year, however, an important

tlement of the coal strike, but there was nothing to show the imminence of any such event, outside the fears felt by the bears. While the liquidation of last week seems to have met the immediate needs of the money market, the forces making towards depiction of New York reserves continue in undiminished force. No doubt however, is felt that any wide-spread stringency in our domestic money market would bring prompt relief by gold imports, in view of our large outstanding credits. No one supposes that the needs of mere speculative holders of securities, however violent a rise in the loan rate they might effect, would induce any move-ment of gold from Europe under the cir-cumstances attending this Fall's money

IS THIS A FREE COUNTRY?

Then Why Are Not Voters Free to Vote in the South to PORTLAND, Sept. 24.—(To the Editor.)

PORTLAND, Sept. 24.—(To the Editor.)—When we take into consideration the total vote of Mississippi, South Carolina, North Carolina and Louisiana in their late elections, we conclude that the minority rules, and for the people of those states where the majority rules to vote for the leadership of that party which obtains its leadership by fraud, intimidation and the worst form of corruption would show that they accept the action of the Democrats of the South as right, and the National Democratic party may, treat the people of the North the same and the National Democratic party may, treat the people of the North the same way, as far as the Democrats of the North are concerned. In the elections mentioned, half of the white vote is eliminated, which goes to show that the majority of the whites have no consent in the Government, about which so much is said by the Democratic party in its plea for the Filipinos. For the people to give the Democratic party, their suffrages the Democratic party, their suffrages in the face of the action of the Democrats in Kentucky would indicate that the interest of the sweet, new. 75c@1 35 per cental; Salinas indicate that the interest of the Burbanks, 70c@31 05. that the people are gone to sleep on their rights, and all thought of future happiness is not a part of our being, and wisdom has no longer a place and a duty to per-form; in short, we are tired living, but we don't want to commit suicide. But we are willing to accept the agency of the Democratic party, whose term of office shows the greatest amount of suc-

cess along this line.

When Senator Mark Hanna, of Ohio, spoke of the dinner bucket and its fullness he reminded me of where we all live. I fear none of us will see the se-riousness of this dinner bucket until it is too late. Every man should let well enough alone, most especially the gen-eral welfare of the people. Workingmen should compare what they have with what they had in 1896 and what was

attainable. Little consideration or thought is given to the habits of men. It is the habits of a people that make them admirable or detestable. After we learn to want, that which we want becomes a necessity.

Downing, Hopkins & Co.

Room 4, Ground Floor BOTH TELEPHONES

These things which we want take labor

to produce. The greater the variety of wants the more industry is required to

supply them, and a greater amount of la-bor to meet the demands for these many

and our habits—or that which creates demands—have made us industrious peo-ple. We consume lots of things that we

could get along without, but we have learned how to use them, and now we

must have them, and we are willing to work for them. Now, as to money, it is only good to those people who have

learned the use of the products produced by foreign labor; for illustration, a farm-or wearing tailor-made suits and having

his shoes shined. The more things we learn to use the richer we grow. Man must have work to do or money to

spend, for he is a restless being in this climate, where he must have a house to hide him from the winds of the night.

It seems that our working people are too easy to forget what last Winter was and

how hard it was for us to keep warm-

imperialism, expansion and militarism

the hands of an unscrupulous clique.

to fear a strong central government, and

the weakness of the government has been an open door for the worst kind of or-ganized corruption to do its dirty work

to the people. The bird that flies and looks at his approaching enemy may fly against a stone wall. I fail to see as

much to fear in the history of the Re-publican party as is before our very eyes.

publican party, as is before our very eyes, of everyday occurrence, in the Democratic party, which ought to be a cause for much fear, because nobody in a Democratic state has liberty, not even men of the party. There is only freedom and liberty and right to consent for a Democratic leader. No other party has a say as to who shall be their, lawmakers, judges and administrators. The only hope of success for the Democratic party is

of success for the Democratic party is the ignorance of the people of its history. A man to trust it must not know any-

thing of its history, nor of what is being done in the party and by the party. Any

working man who would go to it expect-

be blind to its combinations. Its leader-

for the leaders of the Democratic

Chicago's Gas War.
