"King of the Opium Ring." What the public regulres is novelty, and that it is given them with a will in the "King of the Opium Ring." which will be presented at the Metropolitan Theater one week, commencing tomorrow night, was proved by the record-breaking business done by this play when presented in New York last season. There are several reasons for its unqualified suc-cess, chief among which is that there had not been a really stirring melodrama on the boards for many years, which had combined just the features to please that this play has. There is enough of vaude-ville to tickle the palate of vaudeville lovers; enough of the emotional to please the sentimental people in the orchestra, and enough of the heroic to make the "gallery gods" yell with unalloyed delight. The main ambition of the play was to provide a novelty, and in this it has been

successful. The slums of the Chinese quarters of The slums of the Chinese quarters of San Francisco provide ample opportunity for novel effects, both in scenery and incident. The scenery is very elaborate, being exact reproductions of streets and interiors of Chinatown. IN THE SEVERAL COURTS

MODE OF PROCEDURE WHICH WAS ALL WRONG.

Decision Which Will Open Lawyers Eyes-Probate Matters-Court Notes.

Judge Sears yesterday set aside the attachment in the suit of Frank Michels against W. J. Deits, of Rainier, on the ground that the summons was not in the hands of the Sheriff before the writ of attachment was issued. The court said that it has been the common practice of attorneys to do otherwise, but the Su-preme Court has held that it was fatal error to have the writ issued previous to having the summons in the hands of the Sheriff.

The mode of procedure of the majority of the lawyers for years past has been to file a summons and complaint, writ Sheriff, all together, and these practitioners will be much surprised to learn that such method is not only wrong, but renders the attachment invalld. Accord ing to the decision of the court, in order to proceed legally the attorney must first file the complaint with the Clerk of the Court, and next file the summons and copy of the complaint in the Sheriff's office. The attorney then returns to the office of the Clerk of the Court, and has the Clerk issue the writ of attachment, and from there goes back to the Sher-iff's office with the writ and undertaking The statute upon the subject is as

"The plaintiff, at the time of issuing summons, or at any time afterwards, may have the property of the defendant at-tached as security for the satisfaction of

any judgment that may be recovered."

The opinion of the Supreme Court regarding the meaning of this statute was rendered by Judge Wolverton, in the case of Isam White vs. Cordella Johnson, executrix. The court said: "Without a valid writ there can be no

levy under it, hence no attachment. So it has been held, and statutes similar to ours have been so construed as to re-quire the issuance of a summons at the by his wife. time or prior to the issuance of the writ of attachment; otherwise, the attachment just returned from Nome, was in Fortis without validity or force.

"A summons may be said to have is-sued when it is made out and signed by the plaintiff or his attorney, and placed in the hands of the Sheriff, with the infendant. It is difficult to see how anything less than this would constitute the issuance of a summons. The statute requires that the summons shall be served the Sheriff, and without a delivery to him for service such instrument is not yet endowed with vitality for any pur-

Judge Sears, in rendering his decision, said he was bound by the opinion of the Supreme Court, while it does not meet

entirely with his own views.

In the case at issue the store of Dictz at Rainier was destroyed by fire, and Michels sued for \$632 on account of notes executed by Dietz to secure the purchase price of the stock of goods, and attached the insurance. Attorney M. J. McMahon, acting for the plaintiff, also filed a suit in the equity department of the court to restrain the insurance companies from paying the insurance, it being alleged in the complaint that Deitz transferred the policies to his wife before the fire. The plaintiff is therefore not out of court alogether, but still has a fighting chance. J. C. Moreland, who appeared as attor-

ney for the defendant, stated that he raised this point on a County Judge some years ago, and it worked, so he tried it on Judge Sears, and again was In connection with the decision of the

Supreme Court the statute provides: "At the time of issuing summons, or at any time afterwards, the plaintiff may have the property attached." The Supreme Court in its decision refers to "the issu-ance of a summons at the time or prior to the issuance of the writ of attach-
