would be 16 per cent.

ings of mineworkers were held in various sections of this district today, and the Reading Company's notice was discussed. The meeting of the foreign employes in this town was addressed by C. S. Potter, chor in the stream loading with salmon when we arrived, and were being towed out to see when we left. The first run of fish in the streams emptying into Bristol Bay is the kins salmon, a fine table fish, but not equal to our royal chinook. The second run is the red salmon, and the third run is the sliver salmon. Each run is mixed, how-ever, with dog and hump-backed salmon. All cargoes are shipped to San Fran-cisco, sold through brokers and re-shipped to foreign markets. The price-paid for fish by the canneries to fisherpaid for fish by the canneries to fisher-men is a cent apiece, and the limit of daily catch for each man is 1200. A few reach the limit for the senson; many approach it closely. A number of prospecting parties are now on the Kveehak and Kuskokwine, at Good News Bay, but reliable reports can-not be expected before next Spring. Upon returning to Nome, I find the vast array of tents considerably thinned out, not so much so as they would be if steamers were more plentiful or those already in the service possessed greater carry-ing capacity. Hundreds are all ready to go out as soon as they are able to secure passage.

NO RECOGNITION OF UNION. Officers Say Miners Will Not Go Back

for the Pay Offered.

HAZLETON, Pa., Sept. 30 .- The post-ing by the Philadelphia & Reading Coal & Iron Company of a notice granting an increase of 10 per cent to all the employes of its 39 collieries in the Schuylkill Valley did not cause any apparent commotion at the headquarters of the United Mineworkers today. President Mitchell did not know of the action of the Reading Company until informed by a reporter of the Associated Press. He did not express

the Associated Press. He did not express the least surprise. He refused to discuss the advance, but it is understood he knew the 10 per cent increase would be made and wanted to see in what manner the information would be conveyed to The action of the Reading Company in

directly notifying its men through posters indicates that the operators will not re-cede from their refusal to recognize the union. What President Mitchell's first move will be in view of this new phase of the situation is not known,

"The operators are evidently not taking me into consideration," he said, "but they will wigh they had."

Discussing the question of a compro-mise, the president said it would depend upon circumstances whether a compro-mise would be considered. When asked if the amount of the increase would be one of the circumstances, he said it would be a consideration. There is much talk as to what result the posting of the notice will cause in the strikers' ranks. President Mitchell said he did not order the miners' notice to be placed along with thet of the Boading Concerner.

with that of the Reading Company, but he thought it was done on account of his warning to the strikers that they should not go back to work until they were or-dered to do so. The strikers, he said, probably chose the poster scheme as one of the methods of keeping the men in

The usual Sunday quiet prevailed throughout the Lehigh Valley today. A big mass meeting was held at Freeland, which was addressed by President Mitch-

Reading Company is separate and dis-United Mineworkers here and a national tinct from the natural scale increase, and organizer. After the meeting, Mr. Potter said the strikers in this vicinity were dehence the total increase to the miners termined in their intention to abide by the instructions of the National Board of United Mineworkers.

Notice to Be Issued by All Collieries the same sentiment throughout the re Organizer Potter said tonight that gion. Organizer Potter said tonight that 140 mine employes at Lost Creek last SCRANTON, Pa., Sept. 30 .- At every colliery in the anthracite region a no-tice will be posted Tuesday morning an-nouncing a 10 per cent increase in wages night joined the union, and about the same number added their names to the roll at tonight's meeting here.

Arbitration Agreement Broken.

HAZLETON, Pa., Sept. 30 .- G. B. Markle & Co. have posted a notice at all of the firm's collieries to the effect that in accordance with the report of the committee of employes presented last night that the arbitration agreement between the firm and the men has been broken and the contract ended. The firm also an-nounces that it will start up all its collleries tomorrow morning, and afford any of its employes an opportunity to work so long as the collicries are sufficiently manned to operate them to the firm's sat-sfaction. The notice also says the presistaction. ent rate of wages will continue until further notice.

Notices of the 10 Per Cent Advance SHAMOKIN, Pa., Sept. 30 .- Notices were posted here today by the Philadelphia & Reading Coal & Iron Company to the effect that beginning with tomorrow an advance of 10 per cent on the net wages of all men and boys would obtain. While some strikers said they were ready

to go to work in the morning, others hold that it would not be wise to act until President Mitchell had issued official notice as to the course the men should pursue. Interest is manifested as to pursue. whether the Reading Company's collier ies will be able to work tomorrow irre-spective of the question of the recognition of the mineworkers' union by the mine operators.

Efforts to Bring Men Out.

WILKESBARRE, Pa., Sept. 30.-The committee of operators here learn that more strenuous efforts were put forth by the United Mineworkers today to bring men out in the Schuylkill region than at any time since the strike began. The report given out that the contemplated offer of the companies' call for a 5 per cent reduction in powder is erroneous. It any reduction is made it will be uniform 11 and it is thought the price will be fixed at \$1 50 per keg, instead of \$2 75, as is now paid in the Wheeling and Lackawanna region.

No Coal for Tidewater.

READING, Pa., Sept. 30 .- For the first time in years practically no coal will come over the Reading Railway tomorrow for tidewater. Everything at the mines was cleaned up today, and tomor-row's product will not be sent out until early Tuesday morning.

Serious Riot in Lima.

LIMA, Peru, Sept. 30, via Laredo, Tex. -Owing to a lack of prudence on the part of the police authorities of Lima, a se-rious conflict took place this afternoon in the principal square of the city bein the principal square of the city be-tween the populace and a force of mount-ed police. So great was the excitement that the cathedral bell rang an alarm. Some of the leading journals of Lima urge President Romana to follow the ex-ample of M. Casimir-Perier and M. Grevy, former Presidents of France, and resign. Ex-Finance Minister Belaundot is a pris-oner in Fort Santa Catalina.

mander-in-Chief of the British Army.

Although the fact that the appointment had been made was already known, the formal announcement is hailed by the Unionist party as a welcome pledge that army reorganiza tion will be carried out in the most effective manner. It was beginning to be recognized that something was needed to give strength to the Unionist campaign. official announcements are out that George Wyndham, Parliamentary Under Secretary of State for War, in his speech at Derby tomorrow will outline the government's scheme of army reforms, and that the War Office is arranging with Lord Roberts for the return of a large portion of the army in South Africa.

LONDON, Oct. 1 .- The Times in an editorial reference this morning to the appointment of Lord Roberts as Commander-in-Chief hints that Lord Kitchener will come home to assist him at his new post.

the advices, in addition to the edicts or-dering Grand Councillor Kun Kang to of-fer oblations before the coffin of Baron von Ketteler and the edict directing that American troops were received this after-noon, and preparations to comply were Li Hung Chang's entire plan be fol-lowed in regard to the punishment of the begun immediately. The Great Storm at Nome.

There is little excitement here, aside from that caused by the great storm now subsiding, the damage from which is variously estimated at from \$500,000 to 1750,000. This has been a terrific and one of the characteristic storms of Behring Sea. The surf has been one boiling, seething mix-up of breakers big as houses, rolling landward. I don't believe the craft exists that could live in such a howling surf as beat and lashed itself on Nome's beach for the past 48 hours. And another storm seems to be brawing, for the wind is rising rapidly. Very fortu-nately, however, of the many steam and fishing vessels off shore, only two have been wrecked by the storm, although during the storm of a week ago three good-sized schooners were driven on shore and wrecked. During that storm a number of lighters and tugs were destroyed and it seems now that the work of de-struction is complete. Not a barge or tug is to be seen. Many have apparently come ashore or gons to the bottom. One tug put to sea, but was seen to capsizo, and the five men aboard of her disappeared and have not been heard of since The ravages of this storm are terrible to contemplate. Tents by the score have been washed away; all sorts and all sizes of frame buildings have either been washed away or torn down and demolished. What was known as River street, extending along low ground between the most thickly populated part of town and Snake River, was inundated by the surf, and a sudden rise in the river, caused by the heavy rains, and every vestige of a human habitation or shop swept away. The elements were no respecter of per-sons or property, and not a roof or ridge polo remains to tell the tale in this part of the town. Lumber in vast quantities has been washed to sea, to return-a-large part of it-twisted, broken and largely rendered useless for any purpo except firewood. Thousands of tons coal was swept seaward, much of it being borne back in the surf, worn smooth as pebbles and cobble-stones. Beachcombers by the hundred were kept busy day and night retrieving coal, lum-ber and other wreckage from the mercileas surf. Men worked all night recov ering lumber as it was thrown up on the beach, only to have it taken from them (all that was marked and accordingly capable of identification) by soldiers under orders and restored to its original owners. One firm had a thousand tons of coal swept away-result, coal has risen from \$30 to \$100 per ton. Wreekage has been strewn along the beach for 20 miles, and altogether the scene really beggars de-scription. The enormous barge St. Rookum broke her moorings and now lies on the beach a total wreck. This barge brought to Nome 1500,000 feet of lumber, 400 head of stock and a large cargo of merchandise

Vessels Off Cape Nome.

As is usually the case in such emer-gencies, all steamers and sailing vensels off shore put to sea when the storm rose and were seen no more until it subsided
