These facts convict them of insincerity, and that is all there is about it." At Tork an open-air meeting of large

proportions was held, and Governor Roosevelt made a 15-minute speech.

In Other Nebraska Towns,

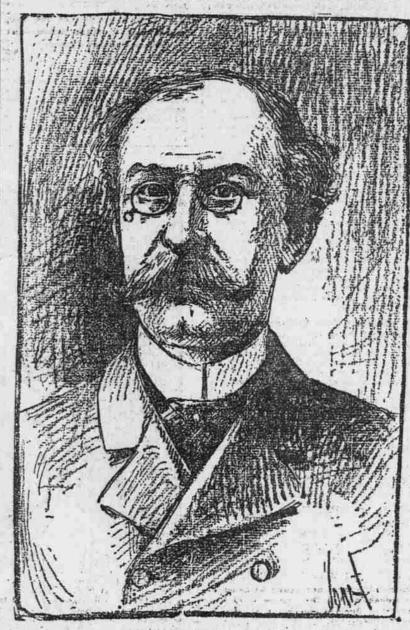

NORTH PLATTE, Neb., Oct. 2 -- The train bearing the Roosevelt party made an extended stop here today. A meet-

ing was held at the opera-house. Gov-ernor Roosevelt spoke briefly on the is-sues of the day, saying he did not know what the paramount issues of the oppo-sition party were. He said he did not think the Democratic party was happy in selecting as an issue of the campaign the dishonor of the American flag. What-ever the issue might be, he said, he was ready to meet them on it.

At Lexington, Neb., Governor Roosevelt said:

"I have but a moment in which to speak to you; I want to take advantage of this first opportunity of arguing a criticism of Mr. Bryan and putting a question to him in return. No question can be asked me either about my past record as Govor or concerning any present issues that I am not ready to answer, and I would like to have similar frankness from our opponents. Last week, at Blair, in this state, Mr. Bryan spoke of what I had said about the ice trust. His speech was reported as follows: That if Governor Roosevelt was right in this matter, the remedy lies with himself as Governor of the state in which the trust was supposed to exist, as he possessed the power to destroy it.'

"That is hardly correct as a matter of detachments will see to it that the above-mentioned articles of war are read to the men of each separate organization by its Cantain or other affect as a matter of governmental knowledge. I cannot call out the militia to destroy a trust. The difficulty comes in the delay caused by the trust counsel, as structs surgeons to enforce sanitary they are appealing, as they have a right to appeal, to every legal technicality, and are making every effort to stop a de cision on the merits of the case. The people who are responsible for the action of the trust's counsel are the stockholders of the trust, who are, among others, Mr. Richard Croker, the leader of the De cratic party in New York, and Mr. Van Wyck, who was my opponent for Governor of New York, two years ago, run ning on an anti-trust platform, and who is now one of the biggest stockholders in "Mr. Van Wyck was the New York which drew up the trust pistform, Messrs. The issue today is just what it was in 1996, only more so. The question is, Do the American people want a safe foun-dation for their interest, sound money and protection to American interests and 'American workingmen?

"I do not want to talk about imperial-ism, my friends. That is played out. It is a bugaboo. It was intended to be a bugaboo. It was intended to deceive the American people. It is an impossible 18sue: it is a fraud; it is a humbug to talk about the American people resolving themselves into an empire, or that a man with the reputation, with the character and ability of William McKinley would be an Emperor. (Applause.) "There was a conference in Chicago ecently of all the head chiefs of the opposition, and the New York people ar anxiously awaiting to know what will be the issue when Mr. Bryan comes East. He has been summoned there by his peror, Dick Croker, and he will be told that he must not talk free silver in New York. I have seen in the newspapersand I believe every word of it, to say-that there was a deal made to put Mr. Croker above even Mr. Bryan, as far as power is concerned in this campaign, and I want to know of our Western friends, whether Democratic or Republi can, whether they propose, in view of the present condition of affairs in our country, to follow any man who is dic-tated to from Tammany Hall. These are all personalities, but underlying that let Every what this man stands for. body knows what politics is in New York. Everybody knows the power of one man in the ranks of the Democratic politicians in New York, and if there is anything approaching imperialism in this country, it is the power of the boss of Tammany. It was under his power that no person was permitted to land a p of ice upon the docks of New York pound out his permission, and that permission was given to only one company. You hear about trusts. The ice trust of New York affects every poor man who lives within the limits of that great city, and is the worst trust that ever was, and it could not be made efficient unless, as was the case, the power governing the City of New York, with the power at its head, would not permit any other company to land a pound of ice upon a single dock in that city. ...at is the power and the that governs the men that are motive now dictating the policies in this 'campaign. The Nation's Confidence, "By their almost united voice, as far as the electoral vote was concerned, the Northern States in 1896 said: 'We do not believe in adopting a policy that will-undermine the conndence in this country. We don't believe in the promises made by Mr. Bryan, nor that we need more money.' We did not need more money, There was plenty of circulating metrv h our great system of to transact all business ay. What we wanted was dium with our great of the day. confidence. Party prejudices, allegiances, were forgotten: stmply self-interest, self-protection, assumed sway in the minds of the majority of these people. And they put their fool down and said: 'We will have none of it.' It did not make any difference to them and it does not now, whether those prin ciples are Republican, Jeffersonian, Democratic, or what. All they want to know is, does it mean success and prosperity to ourselves and familles? "They may bring all the demagogues they command upon the rostrum: they may attempt to create class prejudice; they may lie till they are black in the face, but they cannot fool the people. It is that upon which my confidence rests; it is that when the intelligent business interests of this country are fully aroused with the importance of the re-

for the purpose of leading astray the minds of the people from the real issue. There is but one issue, only one-the issue of prosperity and the continuation of it. The issue today is just what it was in 1995, only more so. 'We insist that the ideals of a century shall not be sacrificed to a sordid com-mercialism; that the lofty purpose for which the American people made war upon Spain shall not be degraded, and that our flag shall not become a mere commercial asset. Neither conquest, coloniza-tion nor forcible government are Demo-cratic or American. They have been forced upon the United States by a Republican Administration, but the Dem-ocracy protests against their adoption by the people. The offenses of Republicar leaders against liberty become the guilt of the Nation, if indersed at the polls.

"We declare the law enacted by the Republican Congress for the government of Porto Rico to be a gross outrage upon the liberties of the people of that island, a scheme of despotic rule devised for the plunder and oppression of the people. rather than for its just government. maintain that the people of Porto Rico are entitled to all the rights of American citizenship, guaranteed by the Consti-tution to all other sections of our common country, and should not be subjected to the wrong of taxation without repre-sentation, against which our fathers revolted. NEW YORK, Oct. 2.-Hearing was resumed before Commissioner Shields to-day for the removal of B. D. Greene and J. F., E. M. and W. T. Gaynor to the disdiction of the Georgia Federal Court. The cross-examination of Robert F. Westcott, father-in-law of Captain Carter, was continued. His recollection of transa tions with Captain Greene and others was very indistinct. Through the cross-exam-ination, counsel several times referred to information given to the Government by Mr. Westcott. The witness lost his tem per when the accusation was made today "I never said a word," he retorted, "un-til after Captain Carter's sontence was contirmed and he was in fail. I gave my books and papers to my counsel for investigation after your firm had accused me of being a partner with John Gaynor.' The witness denied that he was ever partner of Gaynor. The witness said in an excited way when counsel taunted him on his improved memory; "It is a strik ing incident in a man's life when he is accused of being a d-d thief. You know that I am innocent and that these state ments are d-d lles made because I re-fuse to be implicated."
