RUSE TO PAY LICENSES.-There was a great rush of persons at the City Hall yesterday, anxious to pay licenses and avoid the penalty imposed on delinquents. Long strings of people extended from the paying counters in the City Treasurer's office out into the hall, and some stood in line for half an hour. A few com-plained of being obliged to walt, but if everybody had put off paying till the last moment they would have been obliged to walt much longer. The same condition of affairs prevalled at the water works Today is the last day of grace allowed to payers of licenses and water rates, so it is probable that the rush will be even larger than it was yesterday. Should the vehicle license ordi-nance be declared valid, and with the blanket license law in force there will be such a large number of persons to pay license every quarter that it will be necessary for people to begin paying carly in the month, for if every one puts this matier off till the last moment many will get left. Councilman Branch, of the license committee, spent some time in the Treasurer's office yesterday assisting persons in making out their applications for license, and materially aid-ed in expediting business.

SHORTAGE OF POWER.—The City & Sub-urban Rallway Company, which has been taking 200 horse-power of electricity from the Portland General Electric Company, was short on power yesterday, owing to an accident to one of the Electric Company's transformers. Last night they were installing two generators in their power-house, near Inman, Poulsen & Co's mill, which will furnish them about 700 horse-power, and yesterday a new 400 horse-power generator was shipped to them from Schenectady, N. Y., which they hope to have installed by the last of the month, which will furnish them with all the power they require. The Electric Company's transformer will be thing will be running smoothly.

SOLDIERS' MEETING TUESDAY NIGHT,-The old McKinley and Hobart Veterans' League, which comprised 657 members in Multnomah County, and McKinley and Roosevelt Boldlers' League, organized Monday night, at room 610 Chamber of Commerce building, will both meet at the Tabernacle, corner of Twelfth and Morrison streets, Thursday evening, at 7:30 o'clock. The old league may be re-Morrison streets, Thursday evening, at exuberant gayety of the French chanson, the rhythmic passion of the Spanish organized, or a proposition submitted to combine the two clubs. Veterans of all wars are invited to attend and become members, and a very large gathering is anticipated. Short addresses will be made by a number of old soldiers, and a grand time generally is promised. SCARLET FEVER SCARE EXAGGERATED -

Health Commissioner Menefee visited Sellwood Monday afternoon to investigate the report in regard to the preva-lency of scarlet fever there. He found that the matter had been greatly ex-aggerated, and that while a large num-ber of children had been temporarily withdrawn from the school, owing to the scare caused by such exaggerated report, there were only seven children in the town afflicted with scarlet fever, and only four families were affected. There will be no necessity for closing the school and there was no cause for the excitement created. INVESTIGATING FREE DELIVERY CONDI-

TIONE.-C. T. McCoy, assistant superin-tendent of the United State Free Mail Delivery Department, has been in the city looking into the free-delivery serv-ice here, and has gone to Seattle, and may be required to go to Nome. Post-master Croasman sent in an application for additional carriers for the Postoffice here some time ago, and Mr. McCoy will probably report on this matter when he returns to Washington. His report, ver it may be, will doubtless be approved by the department.

ANXIOUS ABOUT HIS PROPERTY .- A citizen of Stamford, Conn., has written to Recorder Beach to inquire about the value of half a dozen lots in "Portland Park P. O.," which he owns. He wishes Mr. Beach to have the lots appraised and then to sell the same. He incloses a rude plat of the property, which is bounded by Howes and Troup avenues and Fourth and Fifth streets. Just where these avenues are is not clear, as they do not appear in the list of streets published in the directory.

ONLY A THREADBARE FAKE.—President Mohier and other officials of the O. R. & VOTES NOT TO BE LOST PIANOS N. Co., have been puzzled the last day or two to know the occasion of persons intwo to know the occasion of persons in-quiring about young bloedhounds having been distributed along the line of the O. R. & N., to be trained to run down train-robbers. They could not imagine how such an utterly foundationless re-port could have got into circulation. It was at last accertained that some Pugat Sound paper had reversed a two-year-old Sound paper had revamped a two-year-old hoaz perpetrated on the Short Line by substituting for this road the O. R. & N., but by leaving in the names of stations and agents on the Short Line had so muddled the fake yarn that there was neither head nor tall to it. The circumstantiality of the details given in regard to the lineage and the blood of the blood-thirsty bloodhounds seemed to indicate that there was some foundation for the story, and some applied to the Short Line people here for information in re-gard to the matter, and so the fake was

Another Smallfox Case.—J. E. Martin, a young man whose family reside at Eugene, and who arrived here Saturday night from Davenport, Wash., was found to be suffering from smallpox, and was young men can only vote on certificates signed by six freeholders. This is the sixth case of smallpox which has been noted here durtaken to the pesthouse are convalescing. David Kuhn, another patient, is recovering, and young Underwood, who has been quarantined at Sunnyside, will be out in a few days.

FIFTH WARD REPUBLICANS.-The Fifth Ward Sound Money Republican Club has opened for the campaign in its new quar-ters in the Monnastes building, corner of First and Jefferson streets. The club-rooms have been newly papered and painted and nicely furnished. A large mount of campaign literature may be found at these rooms, which are open every day and evening. The regular meeting of the club takes place on Wednesday evening of each week, but, owing to the fact that the Rough Ricers' Marching Club will drill at the Tabernacle on that evening, the meeting has been postponed until Thursday night. There will be good speakers in attendance and everybody is invited.

SCHOTT SONG RECITAL.

Evolution of the Polk-Song Among Various Nations.

Last night, at Bishop Scott Armory, there was the usual outbreak of vigorous enthusiasm that always marks a song recital by Anton Schott. The building was filled with an audience of his loyal friends, who called for encore after en-core, and invaribly received it, since Herr Schott is proverbially generous and obligschott is proverbany generous and oblig-ing in this respect. A most interesting programme had been prepared, embrac-ing folk-songs of different nations, bal-lads, and operatio numbers. Much of the interest centered in the pleasant occupa-tion of tracing out the connection between these various types in the evolu-tion of the simple folk-song into the care-fully elaborated aria. It was fascinating work, also, to compare the national characteristics of the different peoples represented on the programme. There were the plaintive Irish melodies, the siluring italian strains with the gleam of a dagger siways lurking in the background, the in our American "Home, Sweet Home," and the sturdy dignity and poetry of the German Hed. Weber, Schubert, Loewe and Schumann contributed some specially and Schumann contributed some specially beautiful numbers. In Schubert's well-known "Der Lindenbaum," and in the Loewe ballad, "Prens Eugen," opportun-ity was given to compare the original folk-song, on which the composer had based his composition, with the complex, finished product of his genius. Among the operatic numbers were songs from Lortzing's "Waffenschmied," and "Czar and the Zimmermann"; Balfe's "Bohemian Girl," and Humperdinck's "Haensel and Gretel." The Wurtemberg song produced one of the heartlest encores of the even-

Schott was in such capital voice that after going through the long programme, considerably extended by encores, he was able to give the "Marseillaise" with pow-erful dramatic effect and without a break in his tones. This he did no less than three times at the conclusion of the even-ing, for this splendid patriotic hymn of the French has attained an unprecedented popularity among Portland people, by rea-son of Herr Schott's superb delivery of it. Miss Ottillie Schueckfing assisted in the programme, giving a number of lieder which were enjoyed by the audience. She was also one of the accompanists of the

evening, Miss Marie Velguth, whose ex-ceptionally artistic work in accompanying is well known to Portland people, being the other assistant. Mr. Vannod's lucid and entertaining explanations added materially to the value of the programme. This is the first of a series of six lec-ture recitals which are to be given by Anton Schott this Fall and Winter. The next recital will take place in two weeks.

ENTERTAINING PERFORMANCE

The performance at the Fredericksburg commences with a feature act at 8:15 P. M. sharp, and continues without inter-ruption for the balance of the night. This change by the management is appreciated by the general public, as shown by the increased attendance early in the evening, although the announcement was first made Monday afternoon. The bill this week is unusually strong, and several strong specialties are on the programme. Harry Lewis and Marjorle Lake, singers and novelty dancers, direct from Salt Cal-ace, Salt Lake City, in an original elty entitled "The Darktown Swells," e-ated a most favorable impression, and received a number of encores, Fairbanks Bros., the great clubswingers and jug-glers, are so original in their methods that the act seems different to all turns of this kind that has ever been seen in Portland. CLERK HOLMES INTERPRETS THE

Papers May Be Prepared Before Election Day and Presented at the Polls.

REGISTRATION LAW.

H. H. Holmes, Clerk of the County Court expresses the opinion that electors who were unable for any cause to register last Spring may prepare registration blanks in advance, signed and sworn to by six freeholders, and vote at the Presidential election.

When the registration books were open, prior to the June election, quite a number of young men called at the registration office and stated that they were not yet 21 years old, but would be before November, and desired to register so as not to lose their votes for President. Begistration was refused these persons, because

Signatures. Residences

***************** ************************************* Subscribed and sworn to by the elector and witnesses before me this day 1900.

Justice of the Peace for District. Notary Public for Oregon.

The general understanding has been that this blank must be filled out at the poll-ing-place on the day of election. This would prove inconvenient for many electors, who would be unable to find six freeholders at the polls whom they knew. or to bring that number to the polls. On the other hand, if the blank may be filled in and sworn to before election day, ample time and opportunity will be afforded to have it done.

Mr. Holmes, speaking of the subject yes-terday, said: "The object of the registration law is not to prevent any one en-titled to vote from doing so, but to pre-vent any illegal voting. I do not find anything in the law that prevents filling in of a blank ahead, or prevents me, as a notary, from swearing the witnesses, There is nothing in that blank that pre vents an elector from having it prepared prior to election day before a Justice or notary.

The law upon this point provides: 'It it appears the elector is not registered in the precinct in which he applies to vote, the elector in every case, of course, shall be considered challenged, and shall be required to subscribe and affirm to biank 'A.' prescribed by section 3 of this act, filled out according to the facts, and in addition thereto he shall be required to procure six freeholders of the county to take and subscribe to the second oath. as specified in said blank 'A' of section 3 of this act, and the same shall be con-sidered by the judges and forthwith decided, and after noting thereon with lak whether the elector is allowed to vote or not, and, if allowed to vote, the polibook number of the elector, they shall file the same. Unless the elector in every such case so establishes his right to vote in the precinct, and to the satisfaction of the judges, his vote shall not be re-ceived. In carrying out the provisions of this act, the judges of election, or either of them, are hereby authorized to admin-ister and certify oaths, and to issue sub-

penas to require the attendance of wit-nesses before them."

Clerk Holmes is in receipt of numerous letters from persons in outside counties who are registered in Multnomah County, and who have moved away. They ask for certificates stating that they are registered here, to be used in their new resi-dence place, but the law provides no such form, and the Clerk can only answer the letters and state that the writer's name appears upon the register. An elector may vote for President in any part of the state, and these persons cannot be deprived of their votes, but they may or may not be required to swear in the vote according to the manner in which elec-tion judges decide. There are also elec-tors in Portland who have moved their places of residence since the June elec-tion or the time of registration, and the Clerk decides that they can vote in the precincts wherein they are registered. It matters not what part of the city a man votes in, if he only votes once. Mr. Holmes states that before election

day he will furnish the judge of each elec-tion board with a copy of the election laws, so that they may carefully peruse

PIANOS GOING

At such low prices that four went Monday and two yesterday, with two good prospects hanging fire for today. The public seem to know when they are offered a real good thing in the way of plano bargains. Still we have a few left—a Chase upright, burr walnut case. \$100; good condition. Also a good Harrington; dark, large size, \$110. These are just the thing for practice. You put either of them in the auction room a year of two later and gat your money back. You cannot do so on a a high-priced piano, We also have a walnut-cased Kingsburry, with an exceptionally fine tone, only \$185. This plano is better than a new one. We sold two Kingsburry yesterday, and this is the only one left. The Decker plano is atill unsold. This Decker was selected a few years ago by one of Portland's best musicians. The tone and action are as good as new. Only \$125 for what cost the owner \$\$75.

There is one Waldorf, with a beautiful, rich tone, a tone you only get in a Waldorf plano, for \$200. The case is slightly marred. We have still another beautiful, large-size upright, fancy oak case, that we will make you a price of \$225. This plano is brand new, and well worth double the money. Here is a real bargain. Why pay nearly double for a plano not near so good? Why can we do this? There are a number of reasons. One is that Graves & Co. are known to be SPOT CASH buyers. If a dealers buys on 4 to 8 mouths' time he usually pays \$25 to \$50 more for a pinao. If a dealer sells what is known as a consigned plano (where factory owns the goods), he pays from \$40 to \$75, and even \$100 more than "spot cash." Another—we have no agents to pay a commission of \$25 to \$50 to. You save this. Also another is we have a bargain in the lease of our large store; our small musical department pays all expenses. Planos are usually sold at from 100 to 200 per cent profit to cover the bnormous expense a deale? is out in order to sell them. As we have no such expenses, we figure for 10 to 20 per cent profit to cover the bnormous expense a deale? is out GRAVES & CO.

The Clerk calls atten-tion to the fact that the returns in pre-vious elections have many of them frequently come in in bad shape—so bad in some instances as to make their legality questionable.
