BOER WAR NOT ENDED

UNEXPECTED ACTIVITY DELAYS ROBERTS' DEPARTURE.

Rumors of Attacks on the Railway North of Standerton-General Buller Recalled.

LONDON, Oct. 15.—Commenting upon the activity of the Boers and the state-ment from Cape Town that Lord Roberts postponed his home-coming, the Standard sayst

"There are certain indications point ing to the conclusion that unexpected dif-ficulties have arisen which Lord Roberts doesns grave enough to delay his return for some time to come. The facts sug-gest that it is impossible yet to denude South Africa of any substantial portion of the large army now engaged in dom-inating a sullen and recalcitrant people." The editorial finally calls for the severest measures against irreconcilable Boers, "prompt and ruthless punishment for every insurgent burgher caught in

Work for Him in England.

NEW YORK, Oct. 15 .- General Buller's impending return from South Africa is understood to be due to a rather unexpected call upon his services in reorganiz-ing the army service corps, says the Lon-don correspondent of the Tribune. His experience in South Africa of the many defects of the existing organization has led to the authorities asking him to put the system under which the corps conducts its work on a proper footing.

A dozen engineers, representing the largest mining interests, have been allowed to go to Johannesburg and report on the condition of the plants; pumping operations have not been resumed and miners and natives cannot be employed until the rallways are prepared to carry coal and supplies on a large scale. The railways barely suffice for the needs of the army, and it is not believed that the mines can be operated with efficiency before the end of six months. It may be 32 months before returns are received from the immense mass of capital invest-ed in the Transvaal.

CARNIVAL OF BAD MANNERS.

Englishmen Are Glad the Elections Are Over.

NEW YORK, Oct. 15 -- A dispatch to the Tribune from London says: There are many signs of public relief over the close of the can-vass. While it has been a short canvass, there has been much bitterness Old politicians describe it as a carnival of bad manners and evil passions. Two members of the Ministry have been charged with having a financial interest Government contracts. Members of the opposition have been arraigned as traitors. There have been challenges to libel suits and honorable members of Par nt have called one another hars and the Quiontal Secretary has been repeatedly portrayed as a craven statesman who condoned Cecil Rhodes' guilt because he

ters would be read in the Commons if he fulled to do so. The ordinary amenities of public life have been suspended and it has been a low-toned canvass with many breaches of good taste and fair play. Well-bred of good taste and fair play. Englishmen shrug their shoulders and confess that the standards of party politic been lowered by offensive personalities and malignant assaults. What was designed by the Ministers as a patrictic khaki revel has degenerated into a cam-paign of defamation. The influence of the canvase upon the personal fortunes of Mr. Chamberlain is now the chief topic of political circles. Nobody denies that he has been feroclously and wantonly attacked, and that the Birmingham co des. Lancashire and the country gen-erally have stood by him and vindicated him. MARCHING IS RESUMED

STRIKERS ATTEMPT TO CLOSE PANTHER VALLEY MINE.

Troops Sent Out to Head Them off-Operators Not Disposed to Accept Convention's Offer.

HAZLETON, Pa., Oct. 15.—The threat-ened march of strikers to Panther Creek Valley started from this section tonight. The objective points of the marchers are Lansford, in Carbon County, and Coal-dale, in Schuylkill County. These towns are about 20 miles south of Hazleton, and the strikers expect to reach their destination early tomorrow morning. Most of the collieries in that section are operated by the Lehigh Valley Coal & Navigation Company. They have been working all through the strike, despite the efforts of numerous organizers sent to that section for the purpose of getting the

Troops on the Way. SHENANDOAH, Pa., Oct. 15.—Advices have reached General Gobin, in command of the State troops here, that a large body of marching strikers have left McAdoo for the Panther Creek region. They expect to reach that valley in time to in-tercept the miners on their way to work in the morning. General Gobin ordered six companies of the Fourth Regiment to leave tonight for the valley, and a special train on the Philadelphia & Reading was provided to take them to Tam-aqua, which station is but a few miles from Coaldale. General Gobin went with troops and assumed personal com-d. The Governor's troop of cavalry, which is stationed at Oneida, will leave which is stationed at Oneida, will leave for the Panther Creek region early in the morning. General Gobin, before leaving, said he was requested by Sheriff Toole to send soldiers to the Panther Creek Valley.

COAL-CARRYING COMPANIES. Do Not Consider the Miners' Pro

posals as Satisfactory. NEW YORK, Oct. 15 .- Whether or no NEW YORK, Oct. 12.—Whether or not the demand made by the miners will be granted by the operators is a question upon which definite information is not obtainable in this city. Efforts were made to see W. H. Truesdale, president of the Delaware, Lackawanna & Western Railroad; E. B. Thomas, president of the Eric Railroad, and Alfred Walter, president of the Lehigh Valley, but reporters who visited their homes were informed that all three of them were away from town.

The coincidence of their absence from the city upon the same day led to the presumption that they had been called away to attend some conference to con-sider the men's demands, but other officials of the companies who were seen pro-fessed to have no knowledge of the hold ing of any meeting by the heads of the coal-carrying railroads. The three com-panies referred to will be largely concerned in any decision that may be reached as to the acceptance or refusal of the terms formulated by the strikers. Another dominant factor in the deliberations Anof the operators who control the situa tion would be R. M. Oliphant, president of the Delaware & Hudson Coal Company, but he is lying seriously ill at his me in this city, and can take ne part

in the controversy. Some of the individual operators who were seen said that they had no idea of what attitude the railroads would take, but they agreed that whatever action determined upon by the coal-carrying roads would of necessity receive the acquiescence of the individual mineowners. More than one of the independent operators expressed the opinion that the railroads would not agree to arbitration, inasmuch as such an agreement would be one-sided in the face of the readiness which the men had manifested, as shown in the instance of the employes of the Markle mine, to disregard, when it suited their purpose, contracts which provide for the settlement of disputes by arbitra

"Nor do I think," one of the independuation, "that the mineowners will consent to bind themselves to pay so large an in-crease until April 1, when the falling off in the demand for coal which always cours in the Spring, might very greatly reduce prices.

"While I do not think that the demand to abolish the sliding scale would in itself be rejected by the operators, if that en the only additional concess asked for, I am inclined to believe that the answer of the railroads to the men will be that they have made their offer, and will not go beyond it, or, in other words, the miners must either be contented with the present proffered advance of 10 per cent in wages, or remain idle.

DISTRESS IN THE COAL FIELDS. Want and Ruin Have Followed in the Wake of the Strike.

NEW YORK, Oct. 15.—A special to the World from Hazleton, Pa., says: Want and ruin have followed in the wake of the strike in the anthracite region. Families who lived in comfort while mines were in operation now feel the pinch of privation, and the bare necessities of existence seem like luxuries business men, upon whom prospert y smiled, have been brought to the verge of bankruptcy; thriving towns have come stagnant, casual travelers have for saken them, and newspaper correspondents and labor leaders constitute the most important element in the floating population. The strikers who had some little money on hand for an emergency have cut their living expenses down to a minimum, buying nothing but food, and little of that. In many instances, they are able to obtain some credit from local dealers, but the bills cannot run very high. As there was little coal to be hauled the coal railroads had to lay off the crews of most of their coal trains. There are auctually in the enormous yards at Mauch Chunk several hundred coal cars which, under normal conditions, should be scattered on railroads from the Atlantic to the Pacific. In many towns it is now impossible to obtain coal for domestic use

at any price. The stagnation of trade here is, of course, felt by the manufacturers and wholesalers of the Eastern cities, who furnish the supplies, and as the merchants can obtain no cash from their customers, they must appeal to their creditors for leniency. Appeals are being made to the United Mineworkers organization for funds for the relief of the destitute strikers who can get no credit.

HAVE NOT BEEN ADVISED. Wilkesbarre Operators Waiting for

Notice of Miners' Proposal. WILKESBARRE, Pa., Oct. 15 .- Operators here say that officially they do not know of any overtures by the strikers for a settlement. They have read of the action of the convention at Scranton, but declare they will not recognize the union. Their first official knowledge of any proposals by the strikers will be when the employes of each company send a committee to officials and declare they have agreed to go back to work if the oper-ators will grant their requests, and then submit the resolution of the convention as their proposal for a settlement.

In high mining circles, the end of the strike is not expected for some time, and then only by the mcn giving in. The op-erators will stand by their first offer, and say they will not increase it. Superinsay they will not increase it. Superin-tendent Lathrop, of the Lehigh Valley Company, said:

operators will not agree to continue the payment of 10 per cent increase for any fixed time. As to arbitration, the

IN SCHUYLKILL REGION. Operators May Accept the Conven-

not'

tion's Offer. POTTSVILLE, Pa., Oct. 15.-The Schuylcill delegates to the Scranton convention have returned, and the prevailing impression is that the collieries will soon be at work, provided the operators agree to the terms of that body. Among the rank and file there is an inclination to accept the decision of the convention. It is generally taken as a fact here that the operators in the upper anthracite belt will agree to the offer of the convention,

and that the miners there are eager to back to work at the advance which their employers are willing to pay. In the Schuyikil region it will be re-membered the men went out largely on a sympathetic strike, and it is believed they will follow the miners of the upper belt back to work, though many are dissatisfied because, according to their reckoning, in accepting the 10 per cent advance they are not getting all they are fighting for. The convention demanded the aboli-tion of the sliding scale, by which the Reading Company's 28,000 miners have always been paid. This scale was fixed ecording to the price of coal at Por-Carbon, and was always a small percentage either above or below the \$2 50 basis. The last scale fixed their wages 6 per cent above the \$2 50 basis, and some mi ners now argue that in reality they will be getting only 4 per cent advance. In contradition of this the leaders say

that they will get 10 per cent net, or equal to 16 per cent above the basis. On the even \$2 50 basis, outside laborers were paid \$8 10 a week, inside laborers, \$10 60 and miners \$12 a week. If the company agrees to the convention's offer to do away with the sliding scale, then the men would be paid exactly 10 per cent above

these amounts.
There are many things left unsettled that no doubt will lead to further con-tentions while these questions are being arbitrated in the next few days. For instance, the Reading Company has been charging \$1 50 a keg for powder, while I the upper region the price has been \$2 75. The convention said nothing about this and in the Schuylkill region this com-modity may be increased in price to make up for the 10 per cent increase. The Reading officials feel that they have been discriminated against by the settlement proposed by the Scranton convention,

PHILADELPHIA, Oct. 15.-It is expected that the officials of the Reading Company will tomorrow take up for consideration the proposition of the ers' convention. It is known that some of the directors of the company are opposed to the abolishment of the sliding scale, which has for years been in operation at the Reading collieries. One of the directors of the Reading Company said today that he is opposed to a new wage scale, and intimated that he would make an effort to defeat such a proposition. He said that the sliding scale had for years proved satisfactory both to the company and employes, as was evidenced by the fact that until the convention at Sci demanded a change, no protest had come from the company miners.

Union Men Warn Miners.

SHAMOKIN, Pa., Oct. 15.—Committees of the United Mineworkers have been calling on the miners this afternoon and endeavoring to warn them not to pay any attention to petitions being circulated by agents of the several coal-carrying com-panies, asking miners to return to work pending a settlement between the oper ators, coal-carrying companies and the miners. They are informing the men that the operators are carrying into effect a stampede of the men in order to break up the strike, and that it is possible the operators have decided not to with the demands of the Scranton con-

Passenger Agents Entertained. CHICAGO, Oct. 15.-Every railroad in the West was represented by its general passenger agent or assistant general passenger agent on a special train which left Chicago today by the Michigan Central for Buffalo. The train, which is composed entirely of new and beauti-fully appointed Pullman sleeping, dining and buffet cars, is, the Michigan Central officials declare, a foretaste of the splendid service the road will institute be-tween Chicago, Detroit and the West for the Pan-American Exposition next year at Buffalo. The railroad officials are the guests of the Michigan Central and are on their way to Buffalo to attend the annual meeting of the Association of General Passenger and Ticket Agents, which convenes in Buffalo Tuesday. The Michigan Central has placed the train at the service of the visitors during the convention, and it will, before returning to Chicago, be utilized in excursions between Buffalo and Niagara Falls.

How It Cures Catarrh.

Here is a patient taking treatment for Catarrh of the Head. He breathes the soothing medication through his nostrils and the nasal channels open up, the stuffed-up feeling in the head leaves and he can breathe naturally through the nose again. The dull pains across the front of the head fade away, and the nasal membrane is soothed until the in-fiammation and soreness are all gone. The bad odor of the breath passes away, and the lost sense of smell returns. The dropping in the throat is checked, the nose does not stop up toward night any more, the sneezing and snuffing have ceased the discharge from the nose grows less and less and finally stops al-together. The disease has been checked and eradicated from the system before it ever reaches the throat. It has not been driven down into his throat or into his ungs or into his ears, as is often done by other treatments.

The Catarrh had passed upward and backward from the throat along the Eustachian tubes leading from the throat into the ear. He had visited Throat doctors and Ear doctors and Catarrh doctors, without relief. In this condition we find him inhaling the never-failing medication, and soon he no-tices a change. The noises in the cars stop, there is no more discharge, the hearing gets better and finally the tubes of the ears open up and something seems to give way in the head. His hearing has completely returned. No wonder he co siders the result a marvel.

How It Cures Bronchial Disease

Here is another nationt who was always sensitive to the weather. He contracted Catarrh of the Head, and it passed to the Catarrh of the Heath, and it passed the Throat, then down the Windpipe and into the Bronchial Tubes. He coughed at night so that he could not sleep; there was pain behind the breastbone and under his shoulder-blades. When he coughed he brought up a frothy, grayish material, streaked with blood. He lost appetite and strength. He tried cough syrups and different medicines to no avail. He now breathes in with full inspiration the restoring and soothing medicine. The sore spots along the Bronchial Tubes heal, the cough ceases, the pain leaves. The appe-tite and strength return. He is again a well and happy man.

tained the action of the Federal authorities.
The court today handed down several decisions. In the case of Amelie Saxih-ner vs. the Siegel-Cooper Company, Louis Marquet, Alexander Nielson and Rudolf Geis (five actions), to enjoin the use of the trade-mark "Hunyadi," the court reversed the decree of the United States Court of Appeals, Second District, and remanded the case to the lower court for the reinstallment of its decision, except as to the sefzure of bottles and labels, where the court held that the defense of laches did not hold. The lower court had found for the defendants on the ground of laches abandonment. The court laid down the general rule in this case that wher-ever a trade-mark has become common property there could be no cause for ac-tion. In the case of Oscar Looker et al. vs

the Attorney-General of Michigan, involving the mode of electing directors for a corporation (cumulative voting), the court affirmed the decision of the Supreme Court of Michigan, that such voting did not impair the obligation of contracts. The case of Alice Well vs. the United States was dismissed on motion of the the famous litigation over the La Abra mining claim, which was settled finally by the decision of the court last Winter, This case was the last one on the docket relative to that claim.

The court advanced the case of Homer who was convicted of murder by the District Court of Alaska, to the second Monday in December. Bird is from New Orleans, and while on his way to Alaska with some companions quarreled with them over the division of food and killed two of them. He was convicted of murder, and now is before the Supreme Court as a plaintiff in error.

Wisconsin Under Natural Draft. WASHINGTON, Oct. 15 .- The Navy De-

partment has been informed that the battleship Wisconsin averaged 15.3 knots an hour for 17 hours on her return to San Francisco from the trial course off Santa Barbara. This was made under natural draft, and is regarded as an excellent performance, considering the length of the run.

Bristow's Investigation

NEW YORK, Oct. 15 .- A special to the Herald from Washington says: Since his return from the investigation of the Cuban postal frauds, Fourth Assistant Postmaster Bristow has been en gaged in formulating the evidence to be submitted by the department when those arrested are brought to trial. The record of every official, from Rathbone down, has been gone into, and the lives of all before they became associated with the Cuban postal system have been investi-

gated. Rathbone and Neely will be vigorously prosecuted. It is hoped they will be brought before a Judge rather than a jury. The character of their alleged crime makes them amenable to no set punishment, that being left to the Judge or jury

It is practically decided that the ex-Directer-General shall be tried on four charges. The first charge will be that under the Cuban law. through his negligence his subordinates were enabled to cheat the Government. The Cuban law makes Rathbone responsible for every cent taken by Neely and others. The second charge is that Rathbone took \$1000 for which he never gave vouchers. The third charge deals the per diem allowances made to him by the Postmaster-General. The fourth charge deals with his extravagant expenditure of the Government funds,

Army and Navy Orders. NEW YORK, Oct. 15 .- A special to the Herald from Washington says: Secretary Long has decided not to order ome any of the marines now in the Philippines. Instead, if more marines should e available they will be sent to Manila Reinforcements are necessary because of the contemplated reduction of General MacArthur's command by the withdrawal of the volunteers.

The War Department has practically determined to adopt General Davis' recommendation and reduce the military force in Porto Rico. The troops will be brought to the United States and then ent to Manila. Eight companies of the Tenth Infantry, it is believed, can be spared from the island, and these will make a welcome addition to General Mac-Arthur's command. In order that there may be no inter-

ruption of the practice work of the submarine bont Holland, instructions have been given to Lieutenant Caldwell, her commanding officer, to take her from Newport to Annapolis. She will be able to start out from the Naval Academy in all seasons, and her crew will have ample opportunity to become acquainted with the operation of the vessel.

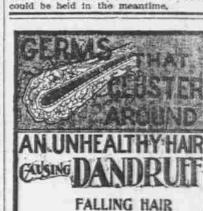

No Idiots Admitted

NEW YORK, Oct. 15.—S. M. Muine, a Philadelphia shoemaker, sent to Russia for his wife and five children. They arrived at Ellis Island several days ago and were detained because one of the children, a girl 8 years old, was an imbedile, The law prohibits absolutely the admittance of an insane person or an idlot into plaintiff, thus ending the legal side of this country. A brother of the woman, the famous litigation over the La Abra named Hodes, of Youngstown, O., saw Assistant Secretary of the Treasury Taylor and arranged that Mulne should take the idiot back to Russia while Mrs. Moine and the four healthy children should go with him to his home in Youngs'own. Assistant Secretary Taylor said that under no circumstances could the "hit-1 brought into this country. If the father was able to give bond to the amount of a million dollars that the child would be well taken care of and that it would never become a public :narge it would have no effect, as the law mikes no pro-

> Imboden Discharged. KANSAS CITY, Mo., Oct. 15.-The case

against Leonard H. Imboden, who in Sen tember, 1899, was sentenced to the penitentiary for 10 years, for conducting a "wildcat" bank, was today dismissed Imboden had appealed to the State Su preme Court, which recently decided that there was not sufficient evidence produced to warrant conviction. When the case was called today for retrial the Pro-cuting Attorney, having secured no nevidence, decided that it was useless to

prosecute the case further. The Distillery Company Row. * NEW YORK Oct. 15 .- The application of Philip Kreiss of Chicago, a stockholder in the Distilling Company of America, for an injunction restraining August Bein and others from voting on their stock at the annual meeting of the company Wed-nesday next, came up before Vice-Chancellor Emory today in Newark. He ad-journed the case until tomorrow after-noon. Counsel for the Distilling Company wanted an adournment for 30 days, but this was objected to by Mr. Kreiss' counsel, as he pointed out that an election
