CROKER IN THE CABINET.

No Doubt That Bryan Offered Him a | Governor Looked On While Foreign-Position.

WASHINGTON, Oct. 17 .- The belief is generally expressed, since the demonstra, tion in New York, that Bryan has actu-ally promised Croker a Cabinet position. No other explanation is given of the manner in which the Democratic candi-date accepted the attentions of Croker, the millionaire, who has made his money out of New York corruption. It is now believed that the Bryan demonstration will arouse the business men of New York to the importance of defeating Bryan in order to prevent Croker from being the right hand of the National Ad-

Jim Ham Lewis Thrown Down. WASHINGTON, Oct. 17,-An interesting story of the way Jim Ham Lewis was thrown down in New York yesterday is told by the New York papers. Ham left his other campaign engagements and hurrice to New York, hoping to get some prominence by speaking on the same plat-form with Bryan. He was referred to Croker, and the big bess, after looking him over, said that he had all the freaks on hand he could care for, and, although there were a half dozen meetings, Jim was not given a show. He then scooted back into the country to continue his talks to small audiences, where pink whiskers and scattering vocabulary can do no good nor harm.

Kong Daily Press publishes well-authen-ticated details of the massacre of missionaries and native Christians in Shan Si. Governor Yu, who was admittedly responsible for Missionary Brooks' murder, is declared to be directly responsible for the The story begins with the murder of Miss Whitechurch and Miss Sewell, whose house was surrounded by Boxers. Their appeals for protection to the local magistrate were greeted with the statement that his soldiers were for the protection of the Chinese, and not for such as they. This reply being made in the presence of the mob, the crowd thereupon broke into the house, looting it. Miss Whitechurch and Miss Sewell were then selzed, stripped and clubbed to death. Miss E. Coombs, of the Bap-tist Mission, was burned to death in her own house, the mob seizing her as she at-tempted to escape, and flinging her back into the burning building. All the other missionaries, numbering 35, fied to the mountains, but were arrested and sent back laden with chains and iron collars They were driven on foot to the Governor's yamun, where the Boxers were allowed to torture them until they slowly expired. Governor Yu and his soldiers looked on while the butchery was in progress, and the 23 heads were afterward displayed outside the yamun. The same day 10 Roman Catholic priests and 40 na-tive Christians were similarly slain. UNION CAN NOW CALL IT OFF

Sliding Scale Aboltahed-Advance Will Bemain in Porce Until April 1 or Longer.

PHILADELPHIA, Oct. 17 .- The great strike of the anthracite mineworkers of Pennsylvania, which began September 17, practically ended today, when the Phila-delphia & Reading Coal & Iron Company and the Lehigh Valley Coal Company agreed to abolish the sliding scale in their respective regions and to grant an advance in wages of 10 per cent net, the advance to remain in remain in operation until April 1, 1901, or thereafter. This action meets the demands of the Scranton miners' convention. The decision was arrived at after convention and the second periods of the second periods are the second periods. rived at after a conference between rep-resentatives of the individual coal opera-tors and the large coal-carrying compa-

nies. The conference began yesterday.

Today's action was the culmination of
the recent meeting of the individual operators at Scranton, following the mineworkers' convention in the same city.

Nearly all the colleries in the coal region had, previous to the mineworkers' con-vention, posted notices granting an advance of 10 per cent. The mineworkers, in considering this, demanded that the sliding scale in the Lehigh and Schuyl-kill districts be abolished, the increase to be guaranteed to April 1, 1901, and all other differences be submitted to arbi-tration. The individual operators agreed to everything, and the appointment of a committee to induce the Reading and Lehigh companies to abolish the sliding scale and make the wage increases per-

manent followed.

It is conceded that the result of today's It is conceded that the result of today's conference is a complete victory for the men. All the demands of their convention are acceded to, and, as one of the individual operators put it after the conference, the operators go a little further in agreeing to maintain the wage advance after April 1. This same operator, who requested that his name be not used, said, in speaking of the conference:

"It is up to the miners now. We have agreed to everything and nothing remains now but for them to return to work as soon as the notice is posted by

Just how soon the official order notifying the men that the strike is ended and to return to work will be issued by President Mitchell can only be conjectured. It is believed here that no order to return will be issued until a notice similar to or in line with that of the Reading and Lehigh companies is posted at all the mines. The Reading Company's otice reads:

"This company hereby withdraws the notice posted October 3, 1900, and to bring about practical uniformity in the advance of wages in the several coal regions, gives notice that it will suspend the operation of the sliding scale, will pay 19 per cent advance on September wages until April 1, 1901, and thereafter until further notice, and will take up with the mine em-ployes any grievances which they may

The conference today was held in the The conference today was held in the private office of President Harris, of the Reading Railway Company, There were present George E Baer and John L. Welsh, directors of the Reading Company, and reputed representatives of the Morgan interests in that company; President Harris and General Manager Henderson, of the Philadelphia & Reading Coal & Iron Company; John B. Garrett, vice-president of the Lehigh Valley Railroad Company; Congressman William Cornell, of Scranton, an individual operator; Her-bert M. Howe, representing A. Pardee &-Co., and A. S. Kimerer, of Mauch Chunk, representing K. Finners & Whitney representing Kimerer & Whitney. Vice-President Garrett, of the Lehigh

Valley Company, said: "Concerning our operations in "Concerning our operations in the Schuylkill region, you may say that the action of our company will be similar to that of the Reading Company. REJOICING IN HAZLETON.

It Is Believed All the Operators Will It is Believed All the Operators will Follow the Reading. HAZLETON, Pa., Oct. 17.—The news from Philadelphia today that the Phila-delphia & Reading Coal & Iron Company, after a conference with officials of other mining companies, had agreed to the anthracite miners' proposition brought forth many expressions of surprise that it should come so soon after the convention of Saturday last. President Mitchell, of the United Mineworkers, when informed of the Reading Company's action declined to say whether the union would let the men return to work at those col lieries where the operators had accepted the miners' proposition before all the other companies had fallen into line. It is generally believed that the big coal-carrying roads that mine coal will quickly follow the Reading Company and grant acceptance of the proposition, and that all other operators will do the same. The first companies in the Hazleton re-gion to take action similar to that of the Reading Company were Calvin Pardee & Co., operating the Lattimer collieries, and A. Pardee & Co., owners of the Cranberry

powder from \$2.75 to \$1.50, which reduc-tion is to be considered in arriving at a net increase in wages. The news from Philadelphia

The news from Philadelphia spread through the entire region with almost lightning rapidity. Everywhere satisfaction was expressed by the striking miners and others. It is believed that the strike will be officially declared off this week, and that all the men will have a chance to see Monday.

Eleven Slavonian strikers, who are alleged to have been the leaders of a mob which started a riot at Oneida last Wednesday, when one private guard was killed and several persons dangerously injured, were arrested today at the place, and taken to Pottsville for a hearing. The officials of Coxe. Brothers & Co., whose mine was the object of attack that day, caused the arrests. At Pottsville day, caused the arrests. The Engi-neer-in-Chief expresses the opinion that the personnel bill was either a mistake or the proper course has not been taken

to carry out its intent. The condition of the steam engineer in-terests of the Navy is said to be even less satisfactory than last year, and it is urged that in no other way can relief be obtained than by the immediate assignment to duty as under-studies and assistants to the experienced engineers in the Navy of the younger line officers, in as great numbers as is consistent with other duty. It is claimed that success already has attended the assignment of line officers to such duties, and that the practice should be extended. As a matter of fact there are now available 100 less engineer officers than just prior to the passage of the personnel act, which act was intended to increase their numbers. The suggestion is made that Naval Cadets be trained in engineering aboard the Cincin-

nati or the Raleigh after these vessely are thoroughly modernized. A considerable increase is wanted in the number of warrant machinists, who have given general satisfaction.

Experiences of the Shields Party in Marinduque.

MANILA, Oct. 17.—Full details are now at hand as to the capture of Captain D.

Shields and his party by insurgents in the Island of Marinduque, last month, and their experiences before their rescue. After weeks of captivity, hard treatment, hunger and continual marching to avoid the rescuing force, which greatly aggravated the sufferings of the wounded. Captain Shields and his command were delivered by the rebels to General Hare last Sunday, at Buena Vista, on the Marinduque coast,

Captain Shields and his party, while operating east of Torrijos, were in ambush in the steep hills. They at-tempted to cut their way to the coast, but became subjected to the enemy's foursided fire, Captain Shields being shot twice and badly wounded. After four had been killed and five wounded, being out of ammunition, the command surrendered through a misunderstanding among them, to 25 insurgent riflemen and 125 bolo men. The rebels divided their prisoners into small parties and conveyed them, heavily guarded, to impassable volcanic mountains.

On this news reaching Manila, two companies of the Thirty-eighth Infantry, under Colonel George S. Anderson, were immediately sent to Marinduque. This force was followed by eight companies of the Eighth Infantry, under General Hare. The combined force of 1200 men proceeded to occupy all the towns in the island. The wounded praise unstintedly the care and services rendered them dur-ing their captivity by the Hospita Corps men who were with them.

NO FEAR OF IMMEDIATE DEATH

The ex-Secretary Has Been Gradually Growing Weaker and Worse for the Past Week.

WASHINGTON, Oct. 17.-John Sherman is dangerously ill at his residence on K street, in this city. The attack has taken the form of a general collapse, in part due to the general debility incident to old age, and to the effects of serious UL ness, from which he suffered while on a trip to the West Indies two years ago. He never had fully recovered from that illness. Mrs. Sherman's death during the Summer at the old homestead at Mansfield, O., also had its effect on the erable statesman, who deeply mourned her

several weeks ago from Mansfield, and since that time has been living in the family residence here. He was then feeble is health, but was able to take daily drives about the city. For the past week, however, he has been gradually growing worse and weaker, and yester-day and today his condition becoming serious, relatives in various parts of the untry were notified of the change. Some of them are expected to come to the city There is said to be no immediate dan-ger of death, and it is possible he may rally, if no further unfavorable symp-toms occur. The ex-Secretary is in his 78th year.

INTERNAL REVENUE RECEIPTS

Month's Collections Show Decrease Over September Last Year.

WASHINGTON, Oct. 17.-The monthly statement of the collections of internal revenue shows that the receipts from all sources in September, 1900, amounted to \$23.63.814, a decrease, as compared with September, 1890, of \$1.07.071. The receipts from the several sources of ravenue are given as follows:

Spirits 39,704,038
Pobacco 4,568,235
Fermented Equors 6,81,250
Neomargarine 287,501
Special taxes not elsewhere enumerated 8,630
Miscellaneous 3,032,084

For the three months ended September 30, 1900, the receipts from all sources ex-ceeded those for the corresponding period of 1899 by \$1.514 780.

A notable decrease in the receipts is shown in the sale of documentary and proprietary stamps, the decrease in the last month being \$450,500, as compared with September, 1899, and during the last three menths, 31,251,252, as compared with the corresponding period last year.
