"This is where you have a great many people who have a full dinner-pail, because the state always gives the pris-oners a full dinner-pail; but while they are given a full dinner-pail they are de-prived of their liberty, and when the trusts offer a full dinner-pail to an American workingman I want you to know that they offer it in return for a sur-render of the liberty of the individual. "We are opposed to correcting an evil by the utter destruction of the industry in which that evil rises. If the stovepipe is out of order it is very poor policy to get rid of the difficulty by burning down the house. Our method of dealing with these evils is to correct the corporation laws which permit such evils to exist. Now, the National Government under the Conwithin has at present no power to deal with these great corporations. On the last of last June, the Republicans introduced in Congress a bill to give the Na-tional Government power to regulate, if necessary to suppress, any of the big trusts or similar corporations. I say if pecessary to suppress, for there is both good and evil in corporations, just as among individuals. We want to cut out the cancer, but we don't want to KUI the patient. Every Republican but two voted for, and every Democrat but four voted against, the amendment to the Constitution and in favor of the trust, and the Democratic leader, Mr. Richardson, of Tennussee, stated that he voted in favor of the trust because it was had policy, from a Democratic standpoint, to take the trust issue out of the present campaign. In other words, they avowed, with singular shamelessness, that they did not wish a remedy for the evils connected with the trusts, but that they wanted to keep an open sore that it might benefit their party. Gentlemen, you

cannot afford to support a party that ap-proaches a great public question in that spirit. "In my own state two years ago I ran against Mr. Van Wyck, who was nominated by Mr. Croker. (I speak advisedly, It is strictly a one-man power in New York.) They denounce trusts on the stump. I would not promise as much as they did, because I was hampered by the fact that I intended to make my words good. I intended to make my per-formances and my promises square. We put through in New York the franchise tax bill, under which \$200,000,000 of corparale property, street railway and simi-lar franchises, were added to the assessment roll. The result is that within the past six years of Republican rule in New York the tax rate has been lower than for years. That is performance. On the other hand, we have in New York Mr. Croker. Mr. Croker denounces trusts and he is one of the biggest stockholders in the loc trust. Mr. Croker's rival in nis loyal support of Mr. Bryan is David B. Hill. He is against trusts in his public capacity, but in his private capacity he is the retained counsel of the hig cor-porations in the effort to break down the franchise tax law. Now, gentlemen, the thing you want is sincerity-in making what you say on the stump good off that stump, and a ton of oratory does not count so much as a pound of perform-ance. Agondillo and T. On April 27 I took to Mirs Bay, in the tugboat Fame, San-dico, Garchiterens and Alejandrino.

"After the battle of Manila Bay, Admiral Dewey gave Alejandrino permission to land at Cavite and join his friends. He, however, declined to do so, unless the Admiral furnished him with a marine guard. He remained on the collier Nan-shan until it was convenient for the Ad-miral to return him to Hong Kong, which occurred within a fortnight. Alejandrino returned discredited by his own associates, who openly charged him with cowardice. The letter under review proven

him also to be a liar." This dispatch from Wildman was re-ferred to the Navy Department for the information of Admiral Dewey, who com-

the crowd. Senator Frye spoke briefly, taking imperialism as his main subject, ridiculing the issue and asking the people of South Dakota, some of whom had lost sons in the Philippines, if they feared such a thing. Senator Hanna was then introduced.

"Hello, Mark!" yelled the crowd. Mr. Hanna proceeded to discuss the tar-

"What about the trusts?" asked some one in the crowd. "We want to know about the trusts." "Well, my friends, if you will tell me

what a trust is, I'll answer your ques-tion," said Mr. Hanna. No reply came. "Well, if you don't know, I'll tell you," continued Mr. Hanna. "A trust under the law and what is known as a trust in commerce is where the stock of a cor-poration is put into the hands of a trustee, carrying with it the voting power. Every single organization of that kind that ever had its existence in the United States has been wiped out through the action of the Sherman law, and that law

was put upon the statute books of the United States by a Republican Con-Mr. Hanna then proceeded with his

speech, but a moment later he was again interrupted by a question regarding the Cleveland Shipbuilders' Association. "Say, Senator, that man thinks the world is flat. Don't pay any attention

to him," yelled a farmer. "All right," said Mr. Hanna, with a bridge

hand a grip that made him wince a little. "Not a bit." replied he, laughing. "My hand is pretty hard, too."

At Lake Preston, a stop of about 15 minutes was made, while Mr. Dolliver and Senator Hanna addressed a fair-sized crowd. Senator Hanna then started to shake hands with the people gathered around the rear of his car, but was al-most pulled off the platform in the struggle to clasp his hand, and was finally compelled to retreat. At Desmet the same programme of

shaking hands and speech-making was gone through during, the five minutes the train stopped. It was dark when Iroquois, the next stopping place, was reached, but in spite of this a large crowd met the train and enthusiastically cheered the National committeeman. The reception given Senators Hanna

and Frye at Huron was a unique one. In and around the little park near the railroad station and on both sides of the street leading up town were stationed several hundred members of the local Republican marching club, carrying torches and Roman candles, and as the visitors alighted from the train the sky fairly blazed with stars and rockets. The principal meeting was held in the opera-house, and here Senator Frye spoke at An overflow meeting was also ength.

### Shot by an Actress

CHICAGO, Oct. 17 .-- Joe Pazen, proprietor of the Pazen Theatrical Exchange, was shot in the abdomen today by Zorah Card, an actress. Pazen was taken to the County Hospital in a critical condition The shooting occurred in Pazen's office in the presence of two or three persons. Pazen ran into an adjoining office holding his stomach and calling for a doctor. Shortly the woman came in twirling the smoking revolver. Pezen asked her why she did not get away while she had a "Why should I?" she replied. "I shot

self-defense." you in She then gave herself up to the police.

The two are thought to have quarrelet over some theatrical engagement.

New England Cotton Manufacturers WASHINGTON, Oct. 17.-The semi-an-sual meeting of the New England Cotton Manufacturers' Association was begun here last night and will continue through Thursday. About 150 members of the association were present at the opening session, and more are expected before the meetings are brought to a close. Prestdent D. M. Thompson, of Providence, wel-comed the members in a brief address, and Secretaries Gage and Long, who oc-cupied seats on the presiding officer's platform, also spoke. A paper was read by Labor Commissioner Carroll Wright, who had for his subject bv Carroll D "The Factory as an Element in Social Life," and President Thompson delivered his formal address.

# Train Went Through a Bridge. DENVER, Oct. 17.-A special to the News from El Paso, Tex., says:

A fatal wreck occurred on the Southern Pacific today, 50 miles east of this city. A bridge gave way as a westbound freight train was passing over it, and the engine and four cars went down. Engiengine and four cars went down. Engineer John Schaffer and Fireman W. B. Ediscn were killed. Recent heavy rains had weakened the foundations of the

They say take care of the well-to-do and they will take care of those who are not well-to-do, and when you tell them of the story of Lazarus and Dives, they say: 'What a lucky man Lazarus was say: 'What a lucky man Lassrus was to have a Dives so near that he could get the crumbs that fell from Dives' table!' A man in your state in 1896 said that the prometty of the interference that the prosperity of the laboring man and the farmer depended upon the pros-perity of the banker and the business man He got it just reversed. The pros-perity of the business man depends upon the prosperity of the farmer and the la-boring man, for until wealth is produced there is no wealth to exchange. And yet the Republicans, if they built a house as they build society, would build the roof first and then hang the house to the roof. They go on the theory that a man who has a place to work ought to be under some obligation to his employer. No man employs another unless the man employed can make enough to pay his own wages and a profit beside to the man who employs him. And yet when election day comes, the employer sometimes thinks that the man who works for him sells his citizenship when he sells his labor. And often the employer tries to coerce the laboring man. If it is right for an employer to vote the vote of his employe, then I insist that the law should be changed so as to give every employer as many votes as he has employes. As it is now, they sometimes get away, and if the vote belongs to the citizen and not to the employer, then every citizen who prizes his ballot and appreciates the re-sponsibility of citizenship should speak out against the intimidation that is often

against those who are in the employ of others."

Mr. Bryan then took up the question of trusts and militarism along the usual lines. He called attention to Governor Roosevelt's argument that the people were not afraid of a large standing army, and said if any one asked who was afraid of a large standing army, to tell him Governor Roosevelt was, as evidenced by his recent statements that a large army would be unnecessary, but for the war in the Philippines. Speaking of the claim of the Republicans that our presence in the Philippines was due to destiny, Mr.
