HOHENLOHE RETIRES

German Chancellor's Resignation Accepted by Kaiser.

VON BULOW MAY SUCCEED HIM

Prince's Withdrawal Due to Old Age and Disapproval of the Emperor's Policy in China.

BERLIN, Oct. II.—The Kolnische Zeitung asserts that Prince Hohenlohe has tendered his resignation as Imperial Chan-cellor, and that it has been accepted. According to the same authority, Emper-or William has designated as the retiror william has designated as the retiring Chancellor's successor Count von Bulow, Minister of Foreign Affairs,
Although rumors had been current for several days that Prince Hohenlohe intended to retire, little credence was given to any of them, since such reports had returned periodically for several years past. The fact is that neither the Foreign Office nor any other government de-partment in Berlin knew until this even-ing of Prince Hohenlohe's retirement and

Emperor William's approval of it.
The reasons which induced the Prince to insist upon retiring were, in the main, to insist upon retiring were, in the main, simply growing infirmness and his distinct disapproval of Emperor William's personal policy in China. To his intimate friends, Prince Hohenlohe during the last three months has repeatedly expressed strong criticism upon what he has called the Kaiser's "sentimental and impulsive interference in the reach! impulsive interference in the troubles in

Since the Chinese matters assumed a threatening aspect in June, Prince Ho-heniohe has virtually abandoned the duties and prerogatives with which the conclothes the Chancellor, having vainly endeavored to inculcate more so ber and dispassionate views regarding the China outrages. Nearly all Summer Prince Hohenlohe was away on his Ger-man, Russian and Austrian estates, leaving the Emperor and Count von Bulow to conduct the policy of the empire to suit themselves. This figureheadism, of course, could not long endure. More-over, in addition to increasing and prolonged fits of somnolence, the Prince has recently displayed exceeding physical weakness. The members of his family have all along been strongly urging him to retire from official life and to pass the remainder of his days in quietude.

The final parting with the Emperor was cordial. At supper last evening in Hamburg, the Emperor, after toasting the Prince, thanked him warmly for the services he had rendered and kissed him on both cheeks.

The Kolnische Zeitung asserts that Count von Bulow has also been appointed Prussian Minister, Resident and Foreign Minister. Nothing is known posi-tively about Prince Hohenlohe's success-or, although general credence is given to the assertions of the Kolnische Zeitung ting Count von Bulow.

The Berliner Tageblatt mentions Prince Eulenberg, German Ambassador at Vien-na: Prince Hohenlohe Langenburg, the Stadtholder at Strassburg, and Duke Trechenberg as possible successors of the Chancellor. Count Hatzfeldt, German Ambassador in London, is also named. It is suggested that if Count you tulow becomes Chancellor, Prince Eulen-urg might be assigned to the Foreign

OUR GOLD IMPORTS

London Bankers Believe the Movement Is Nearly Ended.

LONDON, Oct. II .- At the meeting of the Chartered Bank of India, Australia and China today, the president referred to the bank's important interests in the Philippines, and said he viewed with equanimity the transfer of the islands to the United States, as he anticipated "Anglo-Saxon vigor would create a strong government, crush the rebellion and fos-

Referring to the Indian currency, the president said the problem was still un-solved. He added that although the desired steadiness in exchange was fairly maintained, the supply of rupees, in the absettee of internal demand for gold, proved insufficient, and the auth were compelled to purchase nearly 4,000,000 sterling worth of bar silver during the current year, in order to increase the circulation. The profit on this would vield the government a surplus of 1,500,000. But whether such an advantageous addition to the revenue was desirable from an acconomic standpoint, was debatable. Financiers in London who have

watched the gold movements in the United States with keen interest, not unmixed with anxiety," he continued. "are convinced that no more gold is likely to be drawn from England. It is calcu lated here that \$17,500,000 gold have gone or is going to the United States. The last of this amount is coming from Australia next week. London bankers, basing their theory on America's legal reserve per cent, say the gold in or on its way to America should enable all the immedi. ate requirements to be met, and should more gold be needed the Bank of France is ready to ship to the United States But it is not believed the Bank of France will be asked for any large amounts. These calculations are responsible for the drop in the London discount rates, and the talk of a decreased bank rate. At the same time, the authorities seem to believe that the balance of trade will remain in America's favor, but that it will not be drawn in gold sterling bills. perhaps stocks being taken instead of the unproductible specie."

The president admitted that the pro-

fessional element in Europe has "so un-loaded itself of American securities that it cannot meet large obligations, as it used to, by the revenue of American

"The gold now on its way to New York from South Africa," remarked the president further, "does not come from any secret hourd, but represents soldiers' savings and expenditures, for which £5,000,000 in gold has been sent from England and the major part of which is likely to seek circulation in other parts of the

Lightermen's Strike.

LONDON, Oct. 18.—An additional 300 lightermen joined the 1500 now on strike today. There does not seem to be any prospect of the trouble being arbitrated. The congestion of boats is now more se Hundreds of barges of pr and merchandise remain unloaded, blocking traffic seriously and affecting the merchants who are awaiting the goods. The strikers will be materially assisted by the action of a leading merchant, wh disapproves of the stand taken by the employers' association. He has made a deal direct with the men's union, and eafter will do his own lighterage. Last evening, a formal manifesto was issued by the lightermen's society calling out the remainder of the men, and it is probable that by the end of the week, all the Thames lightermen will have struck.

Buller May Succeed Wolseley.

LONDON, Oct. 18 .- Under reserve, the Daily Express publishes a report that General Sir Redvers Buller has been summoned from South Africa to succeed Lord Woiseley as Commander-in-Chief, Lord Roberts declining to accept the pom without a free hand.

Lineres to Re a Minister. offered the portfolio of war, stipulates, at Marseilles.

as a condition of acceptance that he shall have perfect freedom to introduce sweeping military reforms and to reorganiz entire army. He also stipulates his method of reaching these ends must rest solely with himself. Senor Silvela, it is understood, has accepted these conditions, and the nomination of General Linares is, therefore, practically assured.

Crown Prince Will Rule.

STOCKHOLM, Oct. 17.-At today's see sion of the Council of State it was decided to entrust the government of the country to the Crown Prince Gustavus during the illness of King Oscar. The Crown Prince and Crown Princess and their eldest son, Gustavus, start Friday for Christiania. where the Crown Prince will open the Storthing and take the oath before the

WORK OF ENUMERATION HAS BEEN COMPLETED.

Whole Force of the Bureau Is Being Concentrated on the Work of Tabulating the Statistics.

WASHINGTON, Oct. 17.—The enumera-tion work of the twelfth census is com-pleted and the enumerators are practi-cally all paid. There were 53,000 enumera-tors and 297 supervisors. The cost of the enumeration will be about \$4,200,000. The factory work also is about finished. All of the special field agents in the manu-facturing and industrial lines will com-plete their work and be paid off by plete their work and be paid off by November 1. The cost of this work will be about \$250,000. The whole force of na to Duke Henry, of Mecklenburg- | the Census Bureau is being concentrated

HOW THE SCIENCE OF 3000 A. D. PROBABLY WILL RECONSTRUCT THE ANTI-EXPANSIONISTS OF 1900 WHEN THEIR SKELETONS ARE DUG UP. -From Punch.

Schwerin, in the second chamber of the Netherlands Parliament today was greeted with cheers. The house charged the president to transmit to the Queen its congratulations and thanks for commu-nicating the glad event, which was of the highest importance to the dynasty and

African Expedition Massacred. ROME, Oct. 17.—The Tribune publishes correspondence today from Asmara, southwest of Massowah, describing the massacre of an expedition to Lake Assal. The expedition is said to have been com-posed of British, but it is more likely that the members were French, as the lake is situated in possessions ceded to France by Emperor Menelik, of Abyssinia.

It seems that the column, numbering 200 men, went to Lake Assal to obtain the tax on salt exported. The natives replied that they had no money, but would give cattle. To this the chief of the expedition agreed. Thereupon a large number of na tives entered the camp of the expedition on various pretexts and massacred the on various pretexts and massacred disarmed members during bivouack. A second expedition was sent to assist avenge the first, but it is believed that this also met with a similar fate.

Berl Berl on Shipboard.

FALMOUTH, England, Oct. 17.-The Norwegian bark Brilliant, from Newcastle, N. B., September 1, for Grimsby, to-day landed at this port eight seamen suffering from bert bert, and the body of one man who died from the disease all of whom had been taken from the Norwegian bark Homewood, which salled for Ship Island August 3, for Havre, and was spoken by the Brilliant October 8 in a water-logged condition, in latitude 48 Captain Rotter and six of the Homewood's crew refused to leave that The Homewood will proceed for

Empress Frederick Secretly Married. BERLIN, Oct. 17.-The report that Dowager Empress Frederick was married last April to Baron Seckendorff, who was Hoffmeister under Emperor Frederalthough widely circulated abroad always been strenuously denied here until the present crisis in her disease. Now, however, it is being circulated and accepted, together with number of fresh details such as that the marriage occurred in England. It is said that the principal malady of the Dowager Empress is cancer of the kidneys. According to latest bulletins, she is somewhat better, but a fatal result

Zeppelin's Airship. FRIEDERICHSHAFEN, Oct. 17 .- Count Zeppelin's airship ascended this afteroon, was steered against the wind and put successfully through various tacks and maneuvers. It was then sailed in the direction of Immenstadt. The King and Queen of Wurtemburg witnessed the trial. e airship in its flight remained poised in the air for 45 minutes at a height of 600 meters, and then safely descended to

bazar.

WASHINGTON, Oct. 17 .- The battleship Texas has been ordered out of com-mission. The colliers Pompeli and Leonidas, now at League-Island yard, and the Happibal, at Norfolk, have been ordered prepared for service. They will be equipped with merchant crews. The flagship Brooklyn, with Admiral Remey aboard, has arrived at Nagasaki, on her way to Manila, The Adams left San Diego for Magdalena, The surveying-ship Ranger is at the Mare-Island yard. The Wilmington has salled from Pernambue for the St. Vincent.

Army Assignments. WASHINGTON, Oct. 17 .- Officers ently promoted have been assigned to

regiments as follows: Lieutenant-Colonel Jesse M. Lee, to the Sixth Infantry, vice Brinkerhoff, retired; Major W. J. Turner, to the Sixth Infantry, vice Booth, transferred to the Seventh here today. He was 71 years old

Infantry; Major Frank Taylor, to the Fifteenth Infantry, vice Lee, promoted.
Captain J. Y. M. Blunt, Assistant Quartermaster of Volunteers, having tendered his resignation, has been honorably discharged from the service.

THE LATEST NOTIFICATION.

Silver Republicans' Letter to Candidate Bryan.

LINCOLN, Neb., Oct. 17 .- The letter notifying William Jennings Bryan of his nomination by the National Silver Repub-lican Convention has been in his possession some days, and will be answered tomorrow. The letter recites the manner of Mr. Bryan's nomination, and explains at length that the Silver Republicans are Lincoln Republicans. Copious extracts are made from Lincoln's letters and speeches. Free coinage is advocated, and militarism denounced. The letter says in

"At St. Louis the aristocracy controlled and kept the party name—without it the campaign of 1896 would have resulted differently. At Chloago the people con-trolled and kept the party name. We be-lieve the rank and file of voters in all parties are faithful to the true Americanism embodied in the Declaration of Inde-pendence, and when freed from party surroundings, will support and vote for the man representing the rights of the masses. Not only was the St. Louis con-vention, as representing the Republican party, false to the party's history, but since that time, having been controlled by the Herods, who seek gain and rule for the few, it has been led still farther away from its early moorings. The growth of trusts under its sway; the reducing of the people's money rights to a banking privilege to be paid for by the people's labor, while the product is har-vested by the few; the concen-tration of the Nation's wealth in the hands of the few to the detriment of the welfare and happiness of the many; the subjugation of the people striving to maintain man's God-given rights—the right of self-government—all these are subversions of Republican democracy, and not merely tend, but actually take part and assist in establishing an imperialistic power that will, if fostered and developed cause to exist in the near future, upon the cause to exist in the near ruture, upon the ruins of our once fair Republic, an empire, the product of its greed and ambition. "When we think 250,000 people own three-fourths of the Nation's wealth;

64,750,000 people own only one-fourth— when 52 per cent of the people own not even a home—we become alarmed. This showing alone is enough to alarm the great mass of American voters. All who seek to have the Nation kept in the line of a republic must see it can only done by not surrendering the control of the country entirely into the hands of 250,000 people; but that the Executive and lawmakers must be representatives

of the 64,750,000 people.
"The plea of trade must never cover and hide the plea of human rights, for when we disregard the rights of others, we are but schooling them and ourselves to disregard our own rights.

"We hereby notify you that at the gathering of Lincoln Republicans in the Silver Republican convention, held on last Independence day in Kansas City, where 1830 truly conscientious delegates were assembled, as is shown by the prayer spoken by its chaplain-of patriotic dele-gates, as is shown by the fact that the pates, as is shown by the ract that the Declaration of Independence was there read and the voice of old Liberty bell was there heard in a poem, "The Bell," there also read—of intelligent, conscien-tious, earnest and patriotic delegates, as is shown by the resolutions adopted; which prayer, Deciaration, poem and resclutions we inclose herewith, and make a part of this letter, you were made their

"That prayer, the Declaration, the poem and the resolutions constitute our plat form. Upon that platform you, sir, were unanimously nominated as our candidata for President of this Republic, and we were delegated to inform you of that nomination. May we ask, as we believe in the rights of free government, that you, when elected and become President, as we fully believe you will be, that you remember with solicitude the cause of the great common people, the 64,750,000 tollers. The people for whom Jefferson lived and labored, and for whom Lincoln Habens Corpus Filed in United lived and labored, as well. The people whose arm never tires; the people labor produces the wealth of the Na tion, and whose prosperity is the prosperity of all; whose devotion ceases: whose patriotism never falters; who are ever ready to defend and pro tect; they who are the rock upon which our country may safely rest; they whose strength builds, whose loyalty guards. whose patriotism defends the trocha filled with their blood if need be, over trochs. which their country's enemy can never

> Distilling Voting Trust Restrained, NEW YORK, Oct. 17 .- Vice-Chancellor Emory at Newark, N. J., today granted an order restraining the holders of the syndicate stock of the Distilling Company of America from voting that stock at the meeting to be held in Jersey City today. The syndicate stock over \$200,000, and without it the syndicate, which is composed of W. C. Whitney, P. A. B. Widener and others, will not have the two-thirds to carry through proposal to reduce the capital stock of the company. According to the allegaons of Dr. Philip Kreissel, of Chicago, the complainant in the suit against the Distilling Company, this stock came into sion of the holders by fraudulent methods.

Fortune Awaiting Heirs. NEW YORK, Oct. 17 .- The family of the late John Clarke, of New York, has engaged counsel to try to obtain the estate of his brother, Imlay Clarke, who died a few years ago in Australia, leaving a fortune estimated at \$20,000,000. The dead man was an owner of gold mines, Recently, Governor Voorhees, of New Jersey, was informed that the multimili ionaire's heirs were in that state. He left none in Australia and Ms whole is said to be lying untouched waiting to or about November 20, 1899, a day or two be divided among four nephews and before the grand jury which found the indictment was impaneled. Witness said James N. Clarke and James W. Clarke, whose present whereabouts are unknown

> Baldwin's Polar Expedition. WASHINGTON, Oct. 17,-Evelyn Bald-

win, an ambitious explorer of the Arctic regions, has secured from the State Department passports and letters to Consuls at the northernmost points of civilization in Europe and Asia for use in his pro-posed expedition to the north pole next posed expedition to the north pole next Spring. Mr. Baldwin says it is his desire to place the American flag as near the pole as possible, and he hopes to be able to reach a point farther north than any other explorer, including those now in the field. His expedition is backed financially by William Ziegler and other capitalists interested in scientific work in New York.

Burglars Entered Salem Residence. SALEM, Oct. 17 .- The residence of W. H. Fletcher, a member of the Salem School Board, was rangacked by burglars last night while all the members family were away. THE TREATMENT THAT CURES

Dr. Copeland's New Treatment, that has lifted the darkness and blight of the word "incurable" from hundreds of thousands of these cases of diseases in the Throat, Bronchial Tubes and Lungs, works its curative action for two reasons:

(1) It reaches every sore spot, from the orifice of the nose to the deepest part of the lungs, to the innermost recesses of the middle ear.

(2) Instead of irritating, inflaming, and feeding the fires of the disease, it soothes, quiets, heals and cures. What is the treatment that cures these

onditions, once regarded incurable? By what process does it restore the diseased membrane, remove the poison and relieve the soreness of disease? Let the experience of persons cured and being cured

How It Cures Catarrh.

Here is a patient taking treatment for Catarrh of the Head. He breathes the soothing medication through his nostriis and the nassi channels open up, the stuffed-up feeling in the head leaves and he can breathe naturally through the nose again. The dull pains across front of the head fade away, and nasal membrane is soothed-until the in-flammation and soreness are all gone. The bad odor of the breath passes away. and the lost sense of smell returns. The fropping in the throat is checked, the nose does not stop up toward night any more, the sneezing and snuffing have ceased, the discharge from the nose grows less and less and finally stops al-together. The disease has been checked and eradicated from the system before it ever reaches the throat. It has not been driven down into his throat or into his lungs or into his ears, as is often done by ther treatments.

How It Cures Diseases of the Throat.

Here is another patient who had Ca-tarrh in the Head. He caught cold after cold, and the disease spread down into his throat. He breathes and drinks in the disease-banishing medication. It bathes the membranes of his head and throat. The soreness of the head and throat be-

returning, and the voice again becomes soft and melodious. There is no more longer does every exposure to the Weather result in a stuffed-up throat that becomes sore and inflamed, and no longer does he find his throat and tongue dry as chips when he wakes from refreshing sleep.

How It Cures Deafness.

Here is another patient who for years had been a sufferer. Every fresh cold seemed to stay longer than former colds, and he noticed that his ears got stopped up and his hearing became duller and duller, and there were ringing and bussing noises in his ears. The Catarrh had passed upward and backward from the throat along the Eustachian tubes leading from the throat into the ear. He had visited Throat doctors and Ear doctors and Catarrh doctors, without relief. In this condition we find him inhaling the never-failing medication, and soon he notices a change. The noises in the ears stop, there is no more discharge, the hearing gets better and finally the tubes of the ears open up and something seems to give way in the head. His hearing has completely returned. No wonder he considers the result a marvel

How It Cures Bronchial Disease

Here is another patient who was always sensitive to the weather. He contracted Catarrh of the Head, and it passed to the Throat, then down the Windpipe and into the Bronchial Tubes. He coughed at night so that he could not sleep; there was pain behind the breastbone and under his shoulder-blades. When he coughed he brought up a frothy, grayish material, streaked with blood. He lost appetite and strength. He tried cough syrups and dif-ferent medicines to no avail. He now breathes in with full inspiration the restoring and soothing medicine. The sore spots along the Bronchial Tubes heal, the cough ceases, the pain leaves. The appe-tite and strength return. He is again well and happy man.

How It Cures Diseases of the Lungs.

comes less, and the desire to hawk and all the history of colds and catarrh exthroat, to glottle, to windpipe, to the bronchial tubes, and then into the small gagging and vomiting in the morning. No tubes of the lungs. His cough always longer does every exposure to the weather troubled him. He raised large quantities of vile-looking material, he had fever every afternoon and could not sleep at night. He had no appetite, and his strength and ambition failed. He had night sweats every once in a while, and feared that his end was near.

See him after a course of treatment. A new man. The healing and soothing medication has time after time sought out every nook of the disease, even to the extreme depth of the lung cells, and bathed and cooled and healed the mem-brane. There are no more of the foul discharges, no more cough, no more fever, no more pain, no more night awents. The appetite returns, and with it comes back strength and ambition. The checks fill out and regain their color. The step becomes buoyant. He has been saved from lingering but absolutely sure death.

THE DEFENSE CLOSED

TRIAL OF HENRY YOUTSEY DRAW-ING TO AN END.

-The Prisoner's Condition Last Night Was Much Worse.

GEORGETOWN, Ky., Oct. 17 .- The defense in the Youtsey trial closed its case late this afternoon, and the commonwealth began its rebuttal testimony. which will likely be concluded tomorro at noon. The feature of the day was the testimony of Colonel Nelson, one of Yout-sey's attorneys, who denied that he had told Arthur Goebel and Colonel Campbell that "Youtsey knew enough to hang Governor Taylor," but admitted that he did say his client (Youtsey) knew thing that would be very beneficial to the commonwealth in the prosecution of this that if Youtsey thus admitted that he did know something damaging to Tay lor, he must necessarily know other details of the tragedy. The defense got in some strong testimony today squarely contradicting the prosecution's witnesses. Dr. J. A. Mahaffey, Republican Legislator, was the first witness today. He said Berry Howard was in the House obby when the shooting occurred. liam Lewis, a member of the Legislature from Leslie County, confirmed Dr. Ma-haffey's testimony. Attorney Thomas P. Carothers, of Newport; Paris C. Brown, of Newport, and Rev. M. B. Adams, pastor of the Baptist Church at Frankfort, all said Youtsey's reputation as a moral, upright man was excellent. E. C. Wolff, photographer of Frankfort, said he took a photograph of the executive building about 40 minutes after the shooting. and the windows in Powers' office were down. Robert Hazlock, a gunsmith, said the bullet found in the tree was known as a metal jacket bullet, with lead insid and a copper jacket outside, and was fired from a rifle which, he thought, the bullet did not fit exactly. On cross-examination, he said the bullet was the same exactly as those exhibited by the prosecution as being counterparts of those bought by Youtsey in Cincinnati. Colonel Crawford, the half-brother of

Youtsey, told of a conference he and Nelhad with Colonel Campbell and Arthur Goebel in Frankfort, as follows: "Colonel Campbell acted as spokesman, and said he believed Youtsey knew something about the killing of Goebel. Camp. bell produced a paper, which he said cor tained statements that Youtsey had made to him, and that he wanted Youtsey to sign the papers. I told him I did not believe Youtsey had made any such statements to him. Arthur Goebel then We believe Youtsey knows who fired the shot and who was in that room." Colonel Nelson was put on the stand,

and corroborated Crawford as to what oc-

curred at the conference. Colonel Campbell produced a copy the paper which was discussed at that first conference and asked in detail of Colonel Nelson if such and such was not ontained in the papers submitted to him and Crawford at the conference. Nelson admitted that most of the matters were discussed. Nelson says he did teil Arthur Goebel and Campbell in the Gibson house in Cincinnati that Youtsey could tell something that would be beneficial to the commonwealth in its prosecution of Governor Taylor, but did not say Youtsey knew enough to hang Tay-

James Kenney and Lee Jenkins, of Georgetown, testified that they had made the test and found that while running down the steps into the bastment of the executive building a man's footfalls can-not be heard in the barber shop with either the door open or shut.

W. J. Davidson and Mrs. C. E. Na-son of Chicago, testified through affidavits for the defense. Davidson said the Stewart left his wife and family

Nason said she saw Youtsey on the east steps of the executive building so soon after the shooting that he could not have taken part in it.

Combs in the Assistant Adjutant-General's office when the shot was fired and also a few minutes before

Professor J. J. Rucker, a teacher and civil engineer of Georgetown, testified as to his measurements from the window of Powers' office to the hackberry tree, and said if the bullet fell 1 13-16 inches in passing through Goebel, estimating that distance to the foot, the bullet must have started from a point nine feet above the window-sill in Powers' office, but if the shot was fired from the second-story window, the bullet would have passed many feet over Goebel's head, if it had

The Legislative act appropriating \$100,000 to apprehend the murderers of William

Goebel, it was agreed, might be consid ered as read to the jury.

C. W. Short, of Pineville, said he was in the barber shop under the executive build- arrived today from Mexico. He brought ing when the shots were fired, and that news of a tragedy enacted in the vicinity immediately after the shots were fired of his mine near Zacatecas. He said some one behind him said: "Did you hear that shooting? Where was it?" He turned to answer the question, and found it was Youtsey who had asked it. He said he did not see Youtsey enter the room. cross-examination, he said he did tell William Ayers, the Pineville attorney. that the night after the killing the little red brick building on the Statehouse square was full of armed men, and that by common consent four men were tolled off to each window to do the shooting. He denied telling Avers that the insults to Kohn and Phelps by Bradley and Youtsey before the contest board were prearranged and done to bring on a riot for which the Republicans were prepared.

James Howard testified that he was the and convicted for the murder of William Goebel; that he never saw Youtsey in his life to know him; never had any talk at any time with Youtsey, nor did he accompany Youtsey to any place or anywhere at any time; that he was no Caleb Powers' office the morning of January 30, or in any other room in that building that morning. On cross-examination, he said he had been convicted in Clay of murdering George Baker, County, had secured a new trial, and went to Frankfort January 30 to secure a pardon from Taylor; that he was in the Board of Trade Hotel when Goebel was

shot. The defense closed here, with permis sion to put on one more witness row. The commonwealth began its re-buttal by putting William Ayers on the stand. Court adjourned until tomorrow Youtsey's condition tonight is much worse. He had another paroxysm and is unable to take nourishment, except

Evidence of a Terrible Crime. LYNN, Mass., Oct. 17.-The trunk of man's body, with the head and legs severed, was found today at Floating Bridge Pond. The body was in a coarse sack, strongly sewed at the top and bottom and was that of a man weighing about 160 pounds. On the body were a dark jacket and trousers. The head had been severed at the shoulders, and the legs at the knees, and the arms had also been liver and stomach disorders, sleepless-cut off. There were two built holes in the breast, which had apparently caused to man. death, the body being dismembered af-terwards. From the lacerated condition of the trunk, it is believed that a butcher's cleaver or an ax was used in the work. A broken watch guard and the absence of anything of value in the pockets are believed to point to robbery. It is thought that the man had been dead 10 days.

Father Charged With Murder. NEW YORK, Oct. 17.—Harry Howard Stewart, 26 years old, of Cleveland, O., was arrested here on a charge of murder,

leaying of a gun by Youtsey in his office

January 27 had no reference to any attempt to kill Goebel or any one else. Mrs. his 3-months-old girl buby. He was work. ing for the Metropolitan Life Insurance Company as stenographer. Stewart re-fused to make any statement. He was taken part in it.

State Senator Huff said he saw Dick

Ohlo authorities an opportunity to send

the child disappeared nearly two weeks ago. The body of a 3-months-old baby, with its throat cut from ear to ear, was taken from the lake Tuesday. The police allege that it is that of the Stewart child. Stewart and his wife lived with the latter's parents. Mr. and Mrs. E. E. William at 308 Superior street. A week ago Mon-day night Stewart arose between 1 and 2 o'clock in the morning, took the child from beside its sleeping mother, and left the house. He was traced to Philadelphia, but refused to return
