OLD COMBRIDES MEET.—County Commissioner William Showers and School Clerk H. S. Allen were much surprised and delighted yesterday to receive a visit from C. W. Gordon, of San Brancisco, an old comrade in arms, who called at the City Hall to look them up. Mr. Gordon was on his way home from attending the National G. A. R. encampment and an extended visit to old friends and relatives in the East. He was for a number of in the East. He was for a number of years connected with the Trinity Jourpears connected with the Trinity Jour-nal, published at Wesverville, Trinity County, California. In 18th he and Mesers, Showers and Allen, who were then min-ing in that county, callsted in the Fourth Regiment, California Volunteers, and were comrades till 1885. It can well be imagined that there was a good deal of talking done during Mr. Gordon's visit, and each of them heard of the where-abouts or death of many of their old abouts or death of many of their old officers and comrades. Mr. Gordon was Assistant Sucretary of the Senate of Califormin in 286, and has for the past 38 years been in the book and job printing husiness in San Francisco. He left yesterday afternoon for home

DEATH OF MRS. NOTES,-Mrs. Sarah Jame Noyes, widow of the late Captain Allen Noyes, died at her residence, 155 Twenty-second street, some time during Toesday night, in the 89th year of her age. Captain and Mrs. Noyes oame to Oregon in 1870 and lived for a long time at Astoria. In 1896 they built their residence in this city, where Mrs. Noyes lived until the closing scene. She formerly resided at Searsport, and was the daughter of Josiah and Mary Stet-son, of Center Lincolnville, Me., of which state her ancestors were among the very earliest settlers. THLAMOOK RAY INPROVEMENTS.—Cap-tain W. W. Hart, United States En-gineer, returned yesterday from an inspection of the Government works for the improvement of Tillamook Bay. The done has proved very efficient and has greatly benefited the channel to Tilla-mook City. Work for the season is about completed, and when the wharf and wareuse now being built for the storage of tools and plant is completed everything will be closed down till next season, when will be closed down till next season, when at is hoped another appropriation will be secured for completing the improvement of the harber. The work done is very satisfactory to all concerned, and it is thought that an appropriation of \$25,000 will suffice to complete all necessary im-

Honors Argesten,-T. Schafer and Jack Riley, two hoboes, were arrested yesterday by Detectives Snow and Kerri-gan on a charge of larceny. Last week Mrs. Holden, living at East Morrison and Thirty-second streets, employed the two men to carry in wood. As a reciprocal measure, the men disappeared with a tent in the yard and a supply of pre-serves from her storeroom. The detectives were put on the case and made the arrest early yesterday morning. Inspecting Crit Crematory.-F. P.

Inspecting of the Board of Waymouth, president of the Board of Public Works of Spokane, was in the city yesterday for the purpose of inspecting the workings of the carbage crematory. Spokane has been dumping garbage into the river there, but as the city grows this proves unastification, and the need of proves unsatisfactory, and the need of a crematory is felt, and should Mr. Weymouth's report in regard to the crems tory prove satisfactory Spokane will probably build one before long. IDENTITY NOT DISCLOSED.-The Orego-

mian has received two communications from Winlock, Wash., stating that the young man who was spoken of by Mrs. J. E. Thomas and Mrs. Anderson, of the fodging-house in Multnomah block as possibly being the person who was kicked by horses in a car and who died unknown, arrived sufely at Winlock and is in school there. It is very improbable that the identity of the unfortunate unknown will ever be discovered.

FINE APPLEE.-H. Lougeoy, who lives cear Clackamas Station, has left with The Orogonian several very superior Northern Spy apples and a splendid speci-mon of the Gargo pear. The apples are the best of their kind and if the facts of their culture were known this mention could do them more justice. The firm-ness and peculiar flavor of the pear suggest that more general culture of the fruit in Oregon ought to be profitable.

"Whose Baby Are You?"

"An effervescent ecstacy," is the way Mark E. Swan describes his latest conto the furcical literature of the "Whose Baby Are You?" that its first appearance in this city at the Metropolitan Theater for one wek. commencing Sunday, October 2l. Swan wrote "Brown's in Town," made such a success last season. latest production, "Whose Baby production, "Whose Baby Are he considers his funniest effort. In spite of its somewhat rag-time suggestion, the piece is really a high-class three-act farce, that deals with the adventures of an eccentric young artist and an amusing baby. The entire piece is a rattling jumble of fun, a mase of ludi-crous situations and brain-bewildering complications, that set the average audistructed for laughing purposes only. An excellent company of farceurs interpret the hilarious story of the pieces. The cast includes Miss Frankly Gale, Miss Mabel Meredith, Miss Alice Williams, Miss Fil-lena Mgris, Mr. Lew H. Newcomb, Mr. Francis X. Hope, Mr. Fred G. Hearn, Mr. Fred R. Runnells, Mr. Roy Foster and others. "Whose Baby Are You?" is considered one of the hits of the present dramatic season.

A musical farce which will attract more than ordinary attention is "A Wise Guy." which is announced for presentation at Cordray's Sunday and all next week. The piece is entitled to special notice because it is the first effort of George M. Cohan, the well-known author of man's comedy sketches. The promise of a real farce-comedy by Mr. Cohan, therefore, should arouse the interest of theater-go-"A Wise Guy" deals with a Summer vacation, participated in by a gay party of New Yorkers, and the presence of a number of lively girls and gallant young men naturally presupposes a series of fir-tations. This is the theme of the play, and out of it the author is said to have evolved a series of complications which result in endless amusement, and a good deal of genuine dramatic interest. A company of singers, dancers and comedians is employed in the presentment, and some of the best known are William Sellery, of the best known are William Benery, Charles Graham, Edward Sandford, Anna Charles Graham, Edward Sandford, Anna

Mortland, Bertle Haydn, Saville and Stew. art, and Joy and Clayton. Lee, the Hypnotist.

Beginning October 12, and continuing a week, Lee, the hypnotist, will give a series of performances at the Marquam Grand. Mr. Lee is making his first Coast tour this season, having for the past 10 seasons been playing the Eastern cities. That he is master of his chosen profession there can be no doubt. When a mere boy he began to study what was then called mesmerism. He spent seven years in India, among the priests who are noted for their knowledge on all matters occult. From them he gained the great-er part of his knowledge, and he stands today a leading exponent of hypnotism in the New World. Unlike other hyp-notists, Mr. Lee does not try to appear mysterious. There is nothing of the Svengali about him; no long hair or wild eyes. The only mystery is how he does it. But he does it. His enter-tainments are refined, bewildering and, above all, highly amusing. There is no facing, and no revolting scenes, as there were years ago, to convince a doubting

Mr. Lee does not carry a lot of subjects with him, but secures his material to work upon from his audiences. Simple tests are first tried, then he gradually carries them into deeper stages. When thoroughly hypnotized, some of the antics he puts his subjects through are very him there is a subject through are very him they are others. ludierous. Some think they are opera or dramatic stars; others that they are professional cakewalkers or screnaders, Some imagine they are deaf and dumb, with a funny story to tell, and their efforts to tell it proves very humorous.

One test in particular, which no hypnotist attempts, is of allowing those in the audience who wish to try the first effects of sleep. This he does nightly, and it is one of the most convincing proofs of the genulneness of his performances. Tests in catalepsy, which no living athlete could peform in a normal state, are produced in different forms each night, with local people, during his engagement. He comes with a great rep-utation, and, according to press chippings, he can sustain any claims he may make

MORE PRESSURE WANTED

SUNNYSIDE PEOPLE TO APPEAL TO WATER COMMITTEE.

Petitions Have Been Prepared Asking for Better Protection From Fire-East Side Notes.

The people of Sunnyside will endeavor to pursuade the water committee that it is necessary that a better water pressure should be maintained on the mains in that portion of the city for fire and all other purposes. Petitions addressed to the committee and asking for an inves-tigation of the constitute for the constitute. the committee and asking for an inves-tigation of the conditions have been pre-pared and will be circulated for signa-tures of owners and tenants, and as soon as generally signed, a meeting will be called, when a committee will be ap-pointed to present the petitions to the water commission. This committee will also make such representations to the water committee as may be necessary. Since the fire in the Hanson dwelling Since the fire in the Hanson dwelling on East Yamhill and East Thirty-third streets, when it was seen how light the pressure really is at Sunnyside, there has been much concern, and it has been the moving force in getting these petitions out. It is feared that the fire protection is not adequate; besides, there has been such a growth at Sunnyside that the water supply has become rather light,

especially in the Summer.
Sunnyside is supplied with a 10-inch main, which connects with the East Side supply pipe from the lower recryoir at Mount Taber. The fall from the lower reservoir to Marguerite avenue. the 10-inch supply pipe was laid, is not sufficient to give the required pressure, and the only remedy for the deficiency is

side who think the committee could connect the Marguerite avenue supply pipe with the main Bull Run conduit on the Section Line road, but this cannot be done. This large main carries the water under the river to the high services of the West Side, and cannot be tapped. The water committee has plans prepared by the late Colonel Smith for a 12-inch main connecting with the high Mount Tabo resecrylor for the purpose of supplying all the high district on the East Side, including Albina. It was estimated when the survey was made that this main would cost about \$80,000. Those who have examined the situation think the committee may see its way clear to start on this pipe line, and carry it down from Mount Tabor, something over a mile, and connect it with the pipe system at Sunnyside, and then by means of gates supply all the high ground on the East Side, and not be compelled to carry this big pipe further until wanted. It is esti-mated that the cost of laying this fraction of the proposed high service pipe would be about \$7500, and it would solve the problem of mediataining a good fire pres-sure not only at Sunnyside, but in all the East Side high district, where there is a

Roads East of the Sandy River. Road Supervisors Evans and Ellis have done much good work on the country roads east of the Sandy River during the present year. Under the charge of the former the road from the Corbett hill to the Grange Hall has been practically made new for a distance of over a mile the farmers of that neighborhood. In other portions of Mr. Evans' district, also, general improvements have been made in the way of repairs and new bridges. In Supervisor Ellis' district the hill road above Bridal Vell has just been improved for a distance of over three miles, and also made nearly new. Some steep grades were reduced and the road made better in every respect. Mr. Ellis also has done some work over toward Larch Mountain. Commissioner Steel has been all through these two road districts and kept in formed on what is necessary by a per-sonal inspection. At the present rate of improvement the roads east of the Sandy River will soon compare favorably with those west. Goods are needed there, as farmers are settling and improving the

Dangerous Firewood.

It has long been a practice for residents on Belmont street to dump thefr firewood on the public thoroughfare, and leave it there unguarded over night, to the great danger of blcyclists and others. UP-TO-DATE CHINESE TEA.

Flower Mission Will Entertain at Dekum Residence Next Saturday.

Notwithstanding the present unpleas-antness existing between China and other nations, there seems to be a craze for things Chinese, probably from the fact that so much has been said and writ-ten of the country, its habits and customs, of late. Porch teas a la Chinese have been popular from the foreign prettiness of lighting with lanterns, the in-troduction of bamboo chairs and stands and serving the beverage not from cups, but tiny bowls, as is the fashion in the Flowery Kingdom. Portland is not going to be behind the rest of the world, therefore as a Chinese tea is the most up-to-date function, the Flower Mission

will follow the fashion.

The one to be given at the Dekum residence, 171 Thirteenth street, promises to be a delightful affair. The rooms will be decorated with banners and silken draperies, and incense will be burning in all the nooks and corners. The Chinese lanterns will cast a soft glow over the Celestial maidens, with their gorgeous costumes and little feet. A row of the original Chinese asters will be one of the striking features, and they will not be for sale. Seld Back, Jr., is assisting the Flower Mission with his usual clever
