# NOT TRYING TO GET A SLICE OF CHINA.

Will Only Annex Territory When Forced to Do. So by Similar Action of the Powers.

NEW YORK, Oct. 18.-In a long dispatch from Yalta, Russia, near which place the Cmar is staying, a correspondent of the Herald quotes a high Russian official who sees the Caar daily and is fully. conversant with the Emperor's views on the Chinese situation. This of-ficial asked that his name be not stated. but the tone of the dispatch leaves little doubt it was Count Lamsdorff, the new-ly created Minister of Foreign Affairs' of Russia. The official said of the Russian policy toward China: "I defy any one to show that Russia

has deviated in any respect from the policy which has been announced, and which is given quite openly in the Russian press. What Russia undertook to do she did. Her policy has been open and perfectly simple from the first, "So far from having designs upon Man

churla, Russia's frontier in that part was not properly protected. We were so un-prepared that we had to submit to being attacked and bombarded. Does that look like our being prepared to annex Manchuria?

"Our Ministers and our people were in great danger in Pekin. It was our duty to relieve them. We undertook to do so, and we achieved their rescue. But Pekin from that moment had no further importance because it was no longer the seat of the Chinese Government. Com municition was cut off, which was very awkward. Tien Tsin was 10 days nearer in regard to communication. That was

a very important fact and explains why we wanted to be there and not in Pekin.

"Circumstances have altered somewhat now, owing to the duly recognized plenipotentinfies being in Pekin to treat with and communication having been well-nigh restored. It is of no importance to us today whether negotiations are carried on in Pekin or not.

"Just look at our country! Can and one who knows this country imagine for a moment that Russia is in want of additional territory? How can any thinking person entertain such a view? Russia is quite content with what she has got. What she has she wishes time to develop. "Recent German communications have

been much more moderate and have made possibility of peaceful negotiations much better. Why, what would our po sition have been according to the first ideas? We should have been called upon to place ourselves in the position of public executioners. How could we accept that? None of the powers is at war with Why then should there be any talk of taking away territory from her?

"As regards our policy, my august mas-ter has decided upon all the questions that have come before him in this Chinese question in a perfectly straightfor-ward manner, his sole object being, after weighing each matter, to arrive at a just and supright conclusion. That is his na-ture. His Minister of Foreign Affairs tried his utmost to carry out those im-pertal conclusions to the best of his abil-

"If the other powers, one or any of them, were to think it right to push matters and annex Chinese territory, then Russia would have to come in and hold her own. That is not what Russia wish-Such a policy would only be forced upon her."

Lord Salishury's Wishes. NEW YORK, Oct. 19 .-- A dispatch to the Tribune from London says: Lord Salisbury, it is an open secret in British diplomatic circles, wishes the Emperor of China to return to Pekin as soon as p ble, so that peace negotiations CAL be opened and a settlement reached withour the necessity for a prolonged military occupation of the Capital. While he is

It is a well-known fact that Lydia E. Pinkham's Vegetable Compound has cured more women than any other remedy. It therefore must be the best possible medicine for female ills.

But some women make the mistake of thinking that they will try something else simply because it is new. That mistake is often a fatal one fatal to the health and happiness of the experimenter.

Is it not foolish to risk the possible results of such experiments? Is it not better to depend upon a medicine which has been tried successfully for thirty years, and which has never been found wanting?

Do not therefore let any one persuade you to try something which they say is just as good. It cannot be just as good. Mrs. Pinkham's Compound is the best, and there can be only one best. This is not a mere assertion, but is a positive fact, admitted by hundreds of regular physicians.

Rely on your own common sense, and Mrs. Pinkham's life-long

experience, and you will make no mistake. Don't experiment with your health, but take a medicine that you kno is good, and is backed by such letters as these to Mrs. Pinkham :

During September 199 cars of wheat and four and one of cattle were billed out of Harrington. Of this number 44 were loaded with flour and feed by the Harrington Milling Company, and 155 with wheat from the various warehouses.

Water is the paramount issue on Colville reservation. At 12 o'clock Friday the Auditor's office was filled with applicants to file water rights, and a dozen were filed at 12:01, several for the same water. It is said there are several instruments recorded on every little stream on the reserve.

A Palouse farmer, according to the Colfax Gazette, on an investment of \$71 for feed, raised 16 hogs and marketed them or \$158. His profit on the investment was \$8: or considerably over 100 per cent. He fed the hogs on wheat that was worth not 10 exceed 40 cents per bushel.

The air shaft in the lower tunnels of the Myztery and Bride mines of Monte Christo, begun several years ago, before the washout of the railroad, was completed this week. The new shaft renders lower sections of the mines accessible. This means an increased payroll of

from \$15,000 to \$30,000 per month, and the running of trains into Monte Cristo. A Walla Walla grain dealer says that

only about 50 per cent of the 1900 wheat has as yet found its way to market, and that was when it was commanding from 48 to 50 cents per lushel. For the past several weeks little if any has been disposed of by the farmers, who refuse to sell at the present price of 4614 cents for Bluestem and 43 cents for Club. There are many Walla Walls County farmers who not only have their present season's crop on hand, but also crops of the past several years.
