

OWNERS CAN END IT

With a Few More Notices the Strike Will Be Over.

STATEMENT BY JOHN MITCHELL

Prospects Bright for an Early Settlement of the Trouble-Clash at Wilkesbarre.

HAZLETON, Pa., Oct. 22.—President Mitchell, in an interview tonight, practically admitted that the anthracite coalminers' strike would end as soon as the operators presented a notice guaranteeing the payment of 20 per cent advance in wages until April 1. President Mitchell said:

"The prospect of an early settlement of the coal strike is becoming brighter. Some of the operators have not yet given a notice signifying their willingness to fall in line either with the Reading Company or with the proposition made by the Lehigh Valley Company, in the Hazleton region. If all of them notify their employees by posting notices of otherwise that an actual advance of 20 per cent will be paid each mine employee, and guarantee its continuance until April 1, together with the abolition of the sliding scale, I believe that the terms would be accepted by the miners.

Although, as President Mitchell says, the outlook for an early settlement of the strike is bright, it is difficult to make a prediction as to when the end will come. Some of the operators are showing a disposition not to issue a second notice guaranteeing the payment of the 20 per cent increase in wages until April. Among these are the Delawares, Lackawanna and Westmoreland.

The largest demonstration ever held in this city took place early this morning, when nearly 3000 miners gathered in a large square at their head road President Mitchell, who received an enthusiastic ovation all along the march. Thousands of miners accompanied by their wives came to the city from every mining town in the region. There were 150 men in the line who had tramped 15 miles over the mountains from Panther Creek Valley. They, with the miners from Hazleton, made up the rank of strikers who were marching and closing pickets, were the heroes of the parade.

Reports from the few collieries that are still in operation in this region show that the number of men at work today was not more than last week. The number of coal and iron policemen around the mines has been somewhat increased during the last 48 hours. Strikers' pickets are also numerous in the vicinity of the mines.

NEW YORK, Oct. 23.—A special to the World from Scranton says: "It is thought that Mitchell has received here that President Mitchell had agreed to the operators' offer posted three weeks ago, and that the strike is ended.

Mr. Bryan spoke to a congregation composed of coolsmen at the little mountain town of Sewell. He told the people there that the Democratic party stood for the arbitration of labor disputes and for a representative of labor in the Cabinet of the President. When some one in the crowd asked him what he would do for the old soldiers he replied that he would appoint a Commissioner of Pensions who would be more satisfactory to the soldiers than the present one.

short sentence tells it: 'Let well enough alone. No man who lives for his country, no man who is proud of his citizenship, can have more than one choice upon that question. Today we are in the midst of the greatest era of prosperity that this country has ever known; but it is nothing more than the natural condition of a Nation having, among its greatest natural resources, those of any, the greatest natural resources of any, the greatest people of any, full of industry, ingenuity and progress. It is for the people to decide whether these conditions shall continue.'

The young couple always together before marriage rarely keep up this happy intimacy as man and wife. They are not tired of each other, but the young wife finds herself weak and languid, with no inclination for exercise. And thus begins a division of pursuits and interests which often ends in divided lives.
