WOT IN A HURRY TO ADHERE TO ANGLO-GERMAN AGREEMENT.

Subject is One That Requires Careful Consideration-State Department Corresponding With Conger.

WASHINGTON, Oct. 23.-It is not the purpose of the State Department to act upon the suggestion contained in the British-German agreement respecting China and give it its adherence for sew-eral days at least. The subject is one/of sufficient importance to warrant careful consideration, and especially is it desira-ble that further light be shed upon the third clause of the agreement before the United States acts, though it is not doubt-ed at least a qualified adherence will be

The Department is in correspondence by with Mr. Conger, who is advising it freely of the various propositions that arise before the body of Ministers resident at Pekin, who are now, in conform-ity with the terms of the French note, consulting, with the object of beginning negotiations with the Chinese Government. It cannot be garhered, howeven, that any marked progress has been achieved up to this moment.

The Temps, which is a semioficial organ, says, under a London date:
"The belief in diplomatic circles is that the Anglo-German agreement is purely a mutual guarantee against either coun-try selsing the Yangtse Valley. Gernany, even if not in an economic crisis, is at least in serious embarrassment, brought about by the enormous industrial machinery which she has created at a great cost. She, therefore, seeking comeroial outlets, cast her eyes on China, and especially on the Yangtse Valley, fearing England might attempt to seize the Yangtse Valley, she signed the sublished agreement. Diplomats are coned that no secret clause exists. The third article applies to the eventuality Russia definitely seising Manchuria, in which case Germany and England would divide the Yangtse Valley. But, there are reasons to believe, this will not occur, because Russia is determined not to seize Manchuria,

At a Cabinet Council today, M. Delcause announced that the Ministers of the powers at Pekin met recently semiofficially to examine the French propositions as a basis for peace negotiations, and showed themselves favorable thereto,

AS ROCHEFORT VIEWS IT. Anglo-German Alliance Aimed Solely

at Russia. NEW YORK, Oct. E.-A dispatch to the Journal and Advertiser, from Paris,

Henri Rochefort, speaking of the Anglo-German alliance, says:

"Englanus pretended respect for the integrity of China is a mere farce. Her zoal for the integrity of China is about

real as her respect for the integrity the Transvanl Republics. This newly found anxiety to keep the nation's integrity did not formerly characterize England's policy-why, she permitted Germany to dismember France.
"The 'open door' and 'integral China are mere phases of diplomatic hyprocrisy.

The real object of the Angio-German alliance is to prevent Russia from taking Manchuria. Engiand and Germany are also trying to break the Franco-Russian alliance. Should Russia hold Manchuria. her rivals, England and Germany, will wage war against her. France cannot stand by and see Russia beaten, for with Russia vanquished, these two powers would turn their force against France. We have now to deal not with a triple but with a quadruple alliance. England and Germany are both influenced by the

principle of might. They respect nothing but superior force. The German Emperor has gone back to his grandmother's leadstrings. Of course, he gets some cialists make it difficult for him to get money through the Reichstag for his ambitious schemes, and England is probably supplying it in consideration of the

CHICAGO, Oct. 23.-Dr. Francis E. Ciark, founder of the Christian Endeavor, and president of the United Society, told recent trip around the world and of Christian Endeavorers in other countries, at the annual meeting of the Chi-cago Union last night. He said:

The names of our missionaries who lost their lives in China will go down in his-tory as those of true martyrs. I regret their fate, but I am proud of them and I believe their example will be a power for good. There were rumors of a serious outbreak soon when I was in and around Pekin, but no missionary thought of deserting his post. One of them I could never forget no matter how old I might live to be. He was Horace T. Pitkin, a graduate of Yale, talented and a wealthy nan. He gave up everything to spread helisticality in China. When I last saw him his whole soul was wrapped up in his work and he had no thought for per-sonal comfort or personal danger. Others will take the places of those who were cut off and the work in China will go on and on until the country is brought to Christ"

NEW YORK, Oct. 23.-A statement was given out today by a gentleman closely affiliated with the affairs of the Pacific Coast Company, successor to the Oregon Improvement Company, wherein he shows that this company has had a singularly successful period of prosperity since its reorganization in December, 1897. Boston has considerable interest in this company, and is represented on the board of directors by T. Jefferson Coolidge, Jr., and H. A. Gates Trying to Secure Control of

KANSAS CITY, Mo., Oct. 28.-John W. Gates, of Chicago, and other holders of securities in the Guardian Trust Com-pany, made application in the Federal Court today for a receiver for the company and for an injunction to prevent a meeting of the stockholders called for tomorrow to elect a new board of directors. This is said to be an attempt of the Gates element to gain control of the company's affairs and to stop it from alding in the financing of the Kansas City, Mexico & Orient Railway, the short line which A. E. Stillwell is building between Kansas City and Topolobampo, on the Pacific coast of Mexico. Eight new directors of the trust company were to have been elected tomorrow, and Stillwell was, it is said, in possession of sufficient proxies to enable him to control the election and name the directors. The new board was then to meet and elect Mr.

Stillwell president of the company.

The Gates petition, filed today makes sensational charges against Stillwell and his associates. The court granted an order restraining the disposition of any of the trust company's assets and against the holding of the meeting tomorrow. Final hearing will be had tomorrow morning. Mr. Stillwell, in a statement

"Mr. Gates tried to rule the trust company, and, falling, he is now endeavor-ing to ruln it. The suit is a personal attack on me, and an effort to prevent the Orient line from being built. It will be a severe blow to Kansas City if a receiver is appointed for the Guardian Trust Company. The company is in good financial condition, and its prospects are of the brightest kind. It is not interested in any way in one Orient Railroad enterprise, beyond acting as trustee, for which it is to be paid. I have been particular to keep the business of both separate and distinct, and the statement that the trust company's money was being used for the railroad is false. WEST SOLID FOR M'KINLEY Great Movement Toward Republicanism Easily Noticed.

WASHINGTON, Oct. 20.-After an extended tour of the West, Mr. Milton E. Adles, private secretary to Secretary Gage, returns to Washington, bringing with him very encouraging reports, par-ticularly as regards the political outlook in the extreme West. Mr. Alles spent some time in Oregon, Washington and California, returning through Idaho, Mon-tana, Utah. Wyoming and Colorado, in each state making inquiries and observations as to the trend of public sentiment. He says that there is no denying that the great movement throughout the entire West, excepting no state, is toward Republicanism, and the only thing that can possibly prevent any of the states west of the Missouri River going for McKinley will be the enormous majorities that some of them rolled up for Bryan four years ago, which are to be overcom The three Coast States, he says, are surely for McKinley, with good-sized maorities in Oregon and California Wyoming is Republican beyond a doubt, and he thinks that at least two of the other states named will be found in the

Throughout the West Mr. Alles found "imperialism" an absolutely dead issue. Nobody seems to take any interest in it, nobody is scared by it, and no one recog-nizes any such issue as possible. The Western people are fully allive to the real ssue, expansion, and while there is a division of sentiment on this question or against the retention of the Philippines, and do not bandy words or disgulse this sentiment under a false name. There are anti-expansionists in the West, but no anti-imperialists. In fact, the expansionists appear to be in the vast maority, in all of the states through which this gentleman traveled.

"I noticed a remarkable contrast be-tween the East and the West," said Mr. Alles. "Over on this side of the country, especially in the Northern and Eastern States, there was great apathy observed mong Republicans on every hand when I started West some weeks ago. But when I got beyond the Missouri River, all this disappeared. There is no apathy in the great West. The Republicans in those states realize that their only hope of success lies in persistent and continuous hard work, and I never saw a campaign waged with such vigor as is going forward, paricularly in states which were carried by Bryan four years ago. As I said before those states do not go for McKinley, will be because the Bryan majorities of 1896 were too large to be overcome in four years' time. The Republicans in those states certainly earn success, and I should not be surprised to see them win." Speaking of the German vote, Mr. Ailes aid the assertions of the Democrats that they would get the great bulk of this vote was without foundation. He stopped in several of the large German centers and talked with leading German poli-ticians in each place. And without exception assurances were given that there would be no general slump of the Germans to Bryan, but rather that the ma-jority of them would, as in 1896, cast their votes for McKinley.

Wyoming in Line for McKinley. Governor Deforest Richards, of Wyoming, is confident that his state will into line for McKinley in November. Four years ago the electoral vote of Wyoming went to Bryan. "Two years ago," says Governor Richards in a letter received by a friend of his in Carbondale, Ill., "I, together with the en-tire state ticket, canvassed the state, squarely drawing the issue between the gold standard and free silver, and after most determined campaign we carried the state and broke the backbone of the free-silver movement in the Rocky Moun-tain district of our country. The effect of our victory two years ago has been felt to a marked degree by our neighbors. I confidently believe that Kansas, Idaho and Washington will change their vote from Bryan to McKinley, with every prospect of Colorado and Utah doing the same thing."

WASHINGTON, Oct. 23.—The following is the complete list of honorary pall-bearers for the funeral of ex-Secretary of State John Sherman, tomorrow: Se retary Hay, Secretary Gage, Justice Ha lan, of the Supreme Court; Admiral Dewey, General Nelson A. Miles, ex-Sen-ator J. D. Cameron, J. A. Kasson, of the State Department; Judge Bancroft Davis, Justice A. B. Hayner, of the Dis-trict Supreme Court, and Myron M. Par-

ker, of this city. The family of Mr. Sherman have sent personal invitations to the services in this city to such members of the diplo-matic corps as have left cards at the house. Owing to the fact that Mr. Sherman was not at the time of his death connected with the State Department, it is impossible for the department to issue neral official invitation to the diplomatic corps to attend the services, the wish of the family, however, that all members of the corps now in Washington should feel themselves included in the general invitation. The funeral train will leave Washington for Mansfield at 3:30 o'clock tomorrow afternoon.

Assistant Secretary of State Alvee A. Adee has been chosen to represent the Department of State at Mansfield on the occasion of the funeral. He will accom-pany the remains to Mansfield. The body of the late Secretary has been placed in a heavy, plain black-covered casket with silver handles. A silver plate on the top bears the simple inscription

Washington Star. A correspondent of the Philadelphia ed by H W Hubbard of New York as Press, who has recently made a jour through the Western States, thinks it is possible that the Republicans may carry Nebraska. Local pride counts for much and it has heretofore been thought discreet to concede Nebraska to the Presi dential candidate of the Democratic party. This year, however, prosperity is arguing against Mr. Bryan in his own home. The farmers are prospering. They are getting good prices and paying off their debts. They take no stock in antiimperialism, and are asking themselves If the luxury of having a President from their own state is sufficient offset to all the advantages that they are conscious of enjoying under a Republican Administra-tion. The same influences that tell so strongly against Bryan in Nebraska are equally strong in all the neighboring states of the West. Kansas, South Dakota and Wyoming, which Bryan four years ago, are placed this year confidently in the McKinley column while even Colorado, Utah, Montana, Ida ho and Nevada are not certain to repeat their error of four years ago and vote for

MISS ROSA MCAHAN OF BUTTE. How After Two Years She Found a

Remedy for Dandruff. Miss Rosa McAhan, of 211 West Qarts street, Butte, Mont., says: "Herpicide has thoroughly cleansed my scalp of dandruff, which was entirely covered; and t has stopped my falling hair. I have tried many different preparations in the past two years, but none took effect except Newbro's Herpicide." Dandruff is a cept Newbro's Herpicide. In andruit is a germ disease, and Herpicide is an infallible destroyer of the germ. "Destroy the cause, you remove the effect." Kill the dandruff germ. Ask your druggist for Herpicide. It is a delightful dressing; aulays itching; makes the hair soft as silk.
