JAP SERVANTS WANTED IN IOWA.— Mayor Rowe is in receipt of a letter from Mr. Pennie, a banker of Chariton, Iowa, frecting him to procure two Japanese ervants, a cook and a man for general servants, a cook and a man for general housework, pay their passages to Chariton, and draw on him for the amount. It is promised that they will have a good home and will be kindly treated. Festerday some 15 keepers of Japanese restaurants visited the City Hall to pay their license and among them Mayor Bowe discovered one who was in his employ for seven years as a cook and whom loy for seven years as a cook and whom he says was a good and faithful servant.
The Mayor at once entered into negotiations with him to select and secure two good men to be sent to Iowa. Just how it is that there is a demand for Japanese cooks and general housework men in lows is not known. Perhaps the people there have heard that servant girls by the carload are about to leave the East for Oregon, and fear the supply will run there, or it may be that it is already as difficult to procure good ser-vant girls there as it is here. At all svents Mayor Bowe intends to fill the rder of Mr. Pennie, if Japanese can be found who will go to lowa.

JACKRABEITS IN MARKET. - Jackrab-its from Eastern Oregon are coming to market in considerable numbers, and as they are in excellent condition they enter into competition with the Belgian hares which are now quite frequently displayed in the markets. The latter are held at \$1 each, while the native jackrabbit, whose ears and legs are of about the same length, go for 50 cents. It seemed funny to see a dealer yesterday pointing out to customers who were bloking at to customers who were looking at carcasses of Belgian hares the me uttons or "thumb tacks" fastened to their cars showing their registered ors as evidence of their genuine-Old residents say that the fatness of the jackrabbits coming from Eastern Oregon indicates that there is going to be a cold Winter. The fact that feed has been good on the ranges probably has more to do with their condition than prospective state of the thermometer has on three months hence

SURVEY OF THE DALLES.-The party sent out by Captain Harts. United States En me time ago under P. G. Eastwick, to make a survey for a canal around obstructions to navigation at the and the survey is now being platted in Captain Hart's office. The report of the survey will be forwarded to Washington early in November, and will be placed in the hands of a committee and after going through the usual routine will come before Congress. It is probably intended to be compared with the plans for the boat railway at The Dalles, long in con-templation, so as to see which will be the more desirable, the cheaper and better means of overcoming the obstructions be-tween The Dalles and Cellic a canal or a tween The Dalles and Celilo, a canal or a boat railway. Every one knows that a canal can be built and operated, but there are many interested persons who have doubts as to the practicability of a

BESTER PUMP FOR DREDGE.-The dredge ortland is at the Willamette Iron Works naving a new pump put in. This is a see simile of the first pump put in the fredge which was designed by J. A. Lesourd, and which proved a grand success. The one being removed was de-signed by Stewart Smith, an engineer aployed by the Port of Portland Comended to be an improvement on the first, but which members of the commission say has proved a failure as it has never attained a third or even a quarter of the efficiency of the Lesaurd pump. Much lime has been wasted in installing this amp and in experimenting and inboring with it in the endeavor to secure some satisfactory results from it. It will take about a week to get the new Lesourd pump installed and in working order, and then satisfactory reports from the opera-tion of the dredge may be looked for.

FRIGHTFUL ACCIDENT TO A BABY.—The little child of Mr. and Mrs. Rolph H. Miller, of 551 Montgomery street, died Monday from the effects of a frightful accident a few days before. The child had been left in a room near a table on which set a large library lamp. It in some way managed to creep up to the table, and selzing the cloth which covered is, to draw itself along, pulled the cloth and lamp upon its head together. The The baby's clothing became saturated, with oil, which caught fire from the overturned lamp, and in an instant it was the center of a mass of flames. Mrs. Miller, who entered the room just as the baby had overturned the lamp, scized it and extin-guished the flames, but although the burns were not deep enough to cause death, the shock to the child was too reat for its frail constitution and it ingered only a day or two.

Honos Stral Hars.—Five hobos were arraigned in the Municipal Court yester-day for breaking into a freight car on the Terminal grounds and stealing a case of hats. They gave their names as John Fagan, W. J. Byrne, Harry Arnold, James Hayes and William Wood. Each pleaded not guilty and Judge Cameron will look into the merits of their cases today. Two of the worthles were arrested by Detectives Snow and Kerrigan before it was known that the hats had been stolen and us each was wearing one of the missing Fedoras, the charge against them is considered strong. The other mem-bers of the gang were identified by sec-ond-hand dealers who had purchased some of the headgear from them. The police have recovered about a dozen of the stolen hats, which were consigned to a North Third street dealer.

GAME-SLAYER CAUGHT.—Henry Pretty-man, a Deputy Game Warden under Game Warden under Game Warden Quimby, with a Deputy Sheriff, made a clever capture this week of a farmer named Edward Boke, living at Farmington, for violation of the game law in killing Chinese pheasants and trapping quali. The deputies steed the farmer un when he came late the city, and ar up when he came isto the city, and watched him. He did not sell to any down-town house, but drove out on Pourteenth street, where he sold a sack full of birds to a grocer. His movements had been carefully watched by the deputies, and they stepped into the gro-cery store and asked the proprietor if he would sell them an upland bird. He replied that he had none in the store and could not accommodate them. The Dep-uty Game Warden stepped behind the uty Game Warden stepped behind the counter and picked up the sack of birds he well knew had just been placed there. It was found to contain quail and one Chinese pheasant. The quall had not been shot, but had been kfiled by having their heads crushed on the top. The farmer said his dog caught the quall, but the deputies are confident they had been trapped, as quail are not to be caught by down Themfore, two charges were

by dogs. Therefore, two charges were lodged against Farmer Boke, for killing the pheasant and trapping the quail. HANDBALL TOURNAMENT .- In the Multcomah Club's handball tournament, the doubles last night gave place to the sin-gles. Three games were played off as preliminaries, resulting in two sets each. One of the features was the re-entry of Walter Holt, one of the champions of the old club, holding the doubles cham-pionship with Allen Elisworth for a num-ber of seasons. Holt signalized his coming by a swift victory over one of the lively young players of this season. The following is the result of last night's games. Zan defeated McAlpin, score 21-18, 21-14. Bennett defeated Knight, score 21-6, 21-8. Holt wen from Lum-gair, score 21-19, 21-16. Wickersham defaulted to Graham. Tonight there will be three games among the singles. Graham plays Bennett, Stiles will meet Holt, and Jones will do battle with Trenk-

COMING ATTRACTIONS.

"The Fast Mail" at Cordray's.

What promises to be the greatest at-tempt in the era of realism will be seen at Cordray's Sunday and all next week, in the melodrama of Lincoln J. Carter's "Fast Mail." The play is famous throughout the country for the completeness and magnitude of its mechanical effects. The production is under the personal supervision of the author. Identification of the author Identification of the author Identification of the author Identification. sonal supervision of its author, Lincoln J. Carter. Special scenery is carried for the 10 complete sets to be used in the play. In the second act a steamboat is shown, with the boiler-room and intricate machinery, and the glowing furnaces. The boat is blown up by a tremendous explosion and the wreck is seen going down in midriver. The great railway scene is another of the upprecedented achievements of their performance in the direction of realism. A freight train of 14 care is run across the stage with an filuminated caboose and a practical locomotive. The fireman and engineer are seen at their respective stations, looks like reality itself. A mail train comes speeding by and catches the mail-pouch, just as every one has seen it do many

In the last act Niagara Falls is shown in its all natural beauty. The soft moonlight adds to the effect, and the scene needs only the addition of the suspension bridge to complete the effect

The Dailey Company Coming. The Dailey Company, which is to open at the Metropolitan Sunday night for all week, is the bidest dramatic organization of the West. It was organized in San Francisco in 1890, where it played two consecutive seasons at the National (now Alhambra). Later it played a suc-cessful season in Honolulu, and since that time has been playing the West to phenomenal business. In the opening phenomenal business. In the opening play, on Sunday night, "The New South,"
Miss Nannary has a congenial role,
which gives her ample opportunity to
display her emotional powers. The other
leading roles will be essayed by Stanley Ross, Louis Belmour and Virginia

"The Lost Paradise," which will follow "The Lost Paradise," which will follow "The New South," is a story of capital versus labor, and served to bring into prominence such well-known players as Georgia Cayvoan, Maude Adams and

MAY RETURN HERE.

Prospect That F. W. Vaille Will Come to Portland Again.

The numerous Portland friends of F. Vaille Director-General of Posts in the Philippines since shortly after the capture of Manlia, are pleased to learn that he is about to return to this country. As he is to resume his old office as assistant superintendent, Railway Mail Service, which position, in charge of the star route service, he filled here for some time, they think there is a chance that he may return to Portland.

C. M. Cotterman, who acted as chief clerk, Railway Mail Service, here for some time, has many friends here who are pleased to learn that he is to take the position vacated by Mr. Vaille, and enjoy the 14000 salary and the pleasures of a sojourn in Manila for a term. The relaxing climate of Manila, combined with the arduous duties of Director of Posts, renders life there rather trying on an American, and it is not likely that any one will be required to fill that post for more than a few years at a time. Those here who are unacquainted with Mr. Vaille may remember him as the writer of a number of interesting letters to The Oregonian shortly after he went

BUSY PLACE

Town and Country, Professionals and Amateurs, All Represented at Ellers Plano House.

Not many of the people who drily pass the beautiful establishment of Eliers Piano House, in the new Music building, at \$51 Washington street, have any idea of the extent and volume of business that is daily transacted there. And as a fair indication of the work that is being done here, it will be of interest to enumerate the list of sales recorded on the books yesterday. The early morning mail brought an order for a new Heinze upright, which was chipped to Mr. U. S. Dotson, teacher, at Montesano. Another contract came in, signed by Miss Joyce, of Centralia, Wash., also a teacher, who purchased n very fine new Weber upright. Walla Walla came in with an organ sale and one piano sale, a Kimball. Spokane sold a fine new Kimball plano, and also a Chickering upright; a Kimball chapel organ was sold by Mr. Green, at La Grande; a beautiful oak-cased Kimball upright, found a buyer at Cascade Locks, through Mr. Wallace, who also sold a nice second-hand upright to a prominent physician there. Baker City comes in with the sale of a fine new Crown orchestral piano; a large cabinet grand Kimball organ; a fine new Singer upright swere sold by Mr. Johnston, at Wasco, in prosperous Sherman County. One of the Kimball planos had to be forwarded by express in order to arrive in time as a surprise for the lucky little daughter, who will own it. A Burdette organ and also a fine cabinet grand Kimball upright was sold at Marysville, Cal. Medford, Or., comes in with the sale of a large cabinet grand Kimball upright was sold at Marysville, Cal. Medford, Or., comes in with the sale of a large cabinet grand Kimball upright was sold at marysville, Cal. Medford, Or., comes in with the sale of a large cabinet grand Sunyesant plano, and also reports the sale of a fine new Chickering upright, and also a fine new Chickering upright, and also a largest-size Whitney.

HERE IN TOWN.

In addition to these sales, five new pianos were sold at retail in this city. One, a fancy cabinet grand Kimball, goes to Vancouver, Wash.; another fancy Kimball goes to a family on Sherman street, who knew the Kimball piano in Australia, where these world-famous instruments are sold in quite large numbers.

The third instrument, also a Kimball, in fancy mahogany case, an exact duplicate of the Kimball pianos as exhibited at Omaha, where they received the highest award, goes to Baker City, to be forwarded inland to John Day. The other two instruments are the popular Heinze make, one in pretty oak case going on the East Side, the other to a prominent physician on the West Side.

ARTISTS' PIANOS.

ARTISTS' PIANOS.

In addition to this a beautiful Chickering parlor grand was secured by the ladies of the Woman's Club, and delivered at their clubrooms, is the Seiling-Hirsch building, where it will, no doubt, be frequently heard in the delightful entertainments which are regularly furnished by the club.

In addition to this, the two beautiful Chickering grand pianos furnished for the Beatrice Barlow-Dierke concert, at Arion Hall, were returned to the store, and also a fine Chickering upright, which was used at Herr Schott's recital at Bishop Scott Academy the evening before.

RAILROADS HUSTLING.

RAILROADS HUSTLING.

No wonder that the railroads cannot supply the carload shipments of planos for Ellers Plano House fast enough. A carload of Kimballs was unloaded at the Northern Pacific yesterday; a carload of Chickerings is due at the O. R. & N. yards tomorrow; then the next day, comes a carload of Webers, and before the close of the week another carload of Kimballs is due. Several days ago Mr. Ellers stated that they had disposed of 147 instruments during September, and that the October list would include at least 160. From all indications the 160 mark will be passed today.

It takes work, and lots of it, to attend to every detail of this enterprise, and the Messra. Hy. Ellers, S. J. McCormick and A. H. Ellers, composing this firm, as well as every employe about the large establishment, seem to be kept altogether too busy nowadays to devote much talk to the all-absorbing topic of politics.
