COLLAPSE, SAY BETTORS states. 219. Having thus calculated the ENDED THEIR TROUBLES result, Mr. Walbaum is prepared to make

BRYAN'S CAMPAIGN GONE TO SMASH AND NOTHING DOING.

Bix to One Offered on the General Result-Nobody'll Take the Bryan End.

Men with money to bet on the election of President McKinley had to hunt with a dark lintern and a search warrant yes-lorday to find anybody who wanted to bet on Bryan, says the New York Sun of October 21. In Wall street Bryan money had disappeared almost as completely as if it had never been there. All kinds of inducements were offered by McKinley supporters to draw Bryan money into the hands of the stukeholders, but there was nothing doing. In fact, in the last hope of getting a bet down, the men with Mc-Kinley money offered luxurious bets. One of these was an offer to bet any part of \$1000, at odds of \$ to 1, that McKinley would get 160,000 plurality in this state. This offer was made by a prominent Wall street broker shortly after the market opened yesterday morning, and it was hung out as long as there was a possibility of getting it covered. To be absolutely accurate, the offer stood good as long as the broker remained in his

office, and he remained there three hours after the market closed. No Bryan money had appeared, however, at a few minutes after 3 o'clock, and so the broker went home concluding that the result of three days' registration had convinced those inlined to take the short end of McKinley bets that it was practically impossible to win, no matter how the let was framed.

About the first offer made public in Wall street yesterday was that of a broker who announced that he had \$500 to bet against \$250 that McKinley would carry Illinois. The broker and his agents carried the terms of this offer wherever it was supposed there was any Bryan money, but never a taker was found. Shortly after the market opened, Cooper, & Bendleston announced that they had \$4000 to bet against \$1000 that McKinley would be elected. The news of this offer was sung through the street, but nobody appeared to have \$1000 which he cared to risk on such a proposition. As a last resort the firm telephoned to Bell & Co., where, it was understood, there was plenty of Bryan money, that Cooper, Cramp & Beadleston had \$4000 to bet on McKinley at odds of 4 to 1. The answer was sent back that Bell & Co. hadn't any Bryan money. When this answer was reported in Cooper, Cramp & Beadleton's office, one of the customers remarked; its like it was all over but the

J. J. Judge, an outside broker, who has been making many large bets, let it be known about 11 o'clock that he had \$10,000 to bet in \$500 lots at 414 to 1 that McKin-ley would be elected. Those who heard Mr. Judge's offer simply smiled and sent word to him that he would have to offer better odds if he expected to place his Half an hour later, in the hope of drawing out some Bryan money, Judge offered to bet \$20,000 even that McKinley would carry Indiana. Not a nibble did

Well," Mr. Judge is reported to have said, "we'll see if a bet can be framed which will be considered attractive enough for the men with Bryan cash, if, andd. indeed, any such men are to be found." Mr. Judge thought for a little and then aused the announcement to be made that he would bet \$30,000 even that McKinley would carry Bryan's own State of Nebraska. Nobody was any more eager to socept that offer than any other that and been made, and Judge concluded that there was no chance of getting any

ioney on, on McKinley, George S. Lancon & Co. offered to bet \$20,000 to \$5000 that McKinley would be elected, and they could not place any part of it. After these offers had been without drawing out any Bryan money, the quotations shifted and 5 to 1 on McKinley was off-red, with no takers. Then, just before the market closed, 6 to 1 in small sums was offered, the most

liberal odds yet hung up, but nobody wanted to bet

the following bets: One hundred thousand dollars, or any part of it, at odds of 5 to 1, that Mc-Kinley will be elected; \$10,000 even that he will have 100,000 plurality in New York State; \$10,000 even that Bryan will not have more than 50,000 plurality in the City of New York; \$10,000 even that Mo-Kinley will carry Kings County; \$30,000 to \$10,000 that McKinley will carry Illinois. As to his doubtful states, Walbaum will bet 6 to 5 that McKinley carries Dela-ware; even money he will carry Mary-land; 4 to 5, Kentucky; even money, West WASHINGTON, Oct. 26.-The Chinese Minister has received a dispatch stating that Kang Yi, a member of the Cabinet with Hung Li, and one of the intense anti-foreign leaders whose punishment was demanded by the powers, died of ill-ness the 18th inst.; also that Yu Hsien, the late Governor of Shan Si, who is said to have been responsible for the death of many missionaries, has committed sul-cide by swallowing gold leaf. Minister Wu regards this act as a sign of the Virginia; 6 to 5, Indiana; even money, Kansas.

FOR SAFETY OF RESERVOIRS

City Sues to Condemn a Small Par-

cel of Land. The City of Portland has begun suit against Leander Lewis in the State Cir-cuit Court, to condemn a piece of 1and near the reservoirs at the City Park. The land adjoins the King and Grover tracts, siready purchased by the city, and to complete the sliding lands purchase the city desires the Lewis parcel, which is small, in order to have no obstacle in the way properly to drain the lands and get the reservoirs in proper condition. It is alleged that Lewis was offered \$500, which he refused, and that the land in question is not worth over \$350.

Today's dispatch shows, however, that Kang Yi himself recognized that there was no hope of Imperial fa-vor. Although the dispatch to Minister Wu says only that Kang Yi "died" on the company. The complainant, who is a large stockholder in the company, alleges that defendants L. G. Wheeler and Madge Wheeler on October 8, unlawfully and with force and violence went upon the claims and property of the company and into the mouth of a main tunnel thereon and about and into the buildings, and assaulted and drove away the agents, miners, etc., of the company sent there to work and develop the property, and threatened to shoot and kill said agents and employes, and these defendants con-tinue to remain about and near said property and continue to threaten to beat, shoot, and kill any employes of the company who may be sent there to open, work or develop the property.

The object of the suit is to have a stop put to such proceedings and the rights of complainant Kickhoefer protected. L. G. Wheeler is the son of A. E. Wheeler, of Milwaukee, Wis., who is president of the company, and Madge Wheeler is the wife further of L. G. Wheeler. From this it would appear as if there was some trouble among the stockholders of the company.

If it keeps on at this rate, somebody will be offering 100 to 1 on Mccfore election, in the hope of gettling a bet down, just for the record." The real reason for the offering of these xtraordinary odds on President McKinley in Wall street is probably to be found in the general condition of the market and of business generally. The trade reviews, the bank statements and the crop bullcting, to say nothing of railroad carn ings, show that the financial world has altendy discounted the election and has loguired a confidence in the result sel-logn, if ever before, known in a Presidon, if ever peters, known in a dential year. It is true, of course, that many investments and industrial enterprises are bing held up until the result ins been appounced, but the feeling seems so widespread that McKinley will be elected that according to some of the best-informed financiers in Wall street, the business of the country is in better shape, and plans for more enterprises have been formed than have been know of before in the October of a Presidential year in a quarter of a century.

Under these circumstances it was said that the powers probably would seek to learn Russia's views on the third clause, as Russia's approval undoubtedly would remove the idea that there is any pos-sible menace intended. But it is recognized among diplomatic officials that it would be extremely difficult to secure an expression from Russia on this point, as unfavorable rejoinder, which she an might be expected to give, would amount to a declaration that she had some territorial designs on Manchuria, and a re fusal to answer would be similarly open such construction. The impression is growing among the representatives of

The May Flower, an old abandoned mine at Wallace, has developed a large body of high-grade ore. It was relo-cated last Spring and the ore body dis-closed by extending the old tunnel less than three feet. Considerable excitement has been

caused by a strike on the Keno. Keno is about three mlles northwest of Chesaw, near Strawberry Lake. The property is owned by Denis & McCarty and has always been highly thought of owing to the wonderful copper values. The work has been somewhat scattered and no considerable depth has been obtained until this Summer, when the own-ers have been steadily sinking in the 40-foot shaft. The ledge recently encountered is over five feet wide and the assays average \$70 in copper and gold.

OREGON CITY, Oct. 26 .- Joseph Hough of Wilsonville, aged 19, was arrested to-day on a charge of seduction, but proceedings were stayed on his agreeing to marry Florence Peters, aged 16. The marriage will take place as soon as the written consent of the parents can be se-
