FOR HARBOR WORK

Estimates for Streams in Oregon and Washington.

THE LIST IS ONLY A PARTIAL ONE

General Wilson Gives Little Encour agement to the Project of a Boat Railway at The Dalles.

WASHINGTON, Oct. 29 .- The following partial list of river and harbor estimates was given out today:

Upper Columbia and Snake Rivers. 10,000
Columbia, between Vancouver and mouth of Willamette 18,000
Long Tom 10,000
Catakkanie 10,000 ewis lowiitz, Wash..... uging waters of Columbia

General Wilson evidently has little faith in a bout railway at the dalles rapids. in speaking of that project he said:
"It is quite probable that an improvement in this part of the river would resuit in a very great benefit to the Upper Columbia country, providing, as it would an all-water route for the shipment of grain. A portage road would perhaps answer the purpose for several years to come, and it could be constructed, equipped and operated at far less ex-pense than the boat rallway.

"At the same time, the Columbia above

Cellio, and the 67 miles of the Snake River between its mouth and Riparia, are considerably obstructed by rapids and shoals, and the outcome of an attempt to regularly navigate these portions of the two streams at all seasons is more or less problematical. Owing to the uncertainty of the outcome of an attempt to regularly navigate the Columbia above Cellio, and the Snake, considerable doubt exists as to the advisability of constructing at this time the proposed loat railway between The Dalles and Celilo at an estimated cost to the Government of \$2,264,467. No boats now ply the Upper Columbia, and no commerce is now handled by the river. Before any very great sum is expended by the United States in improvements of an important character, the fullest information should be at hand concerning the character and volume of the commerce to be accommodated."

mates are made for Port Orford liarbor. Several other improvements for which money has been expended in the past have no estimates, as there are be ances on hand for their continuance.

The Amur brings news that more snow has fallen during the last few weeks along the Alaskan and Northern British Colum-bia Coast than is usually encountered up to Christmas. From Wrangel northward snow extends to the water's edge. Two recent deaths are reported from Southenstern Alaska, one being Squire Howe, the other Fred Burbee. The latter was killed in a mining accident.

Cinims to Have Been Chested. VANCOUVER, B. C., Oct. 29.—The Kootenel and Boundary mining districts, of British Columbia, are stirred over a rallway investigation now being held at Nelson. It is alleged by the secret service agents of the Canadian Pacific Railthat a regularly organized ring has existed in the mining regions for some time past, whereby the Canadian Pacific has been defrauded out of many sands of dollars by means of fraudulent tickets, originally purchased undated at the offices of the company, to be taken by the conductors, in the scheme of fraud, and returned to the special agents of this trainmen's syndicate by the special agents, to be sold over and over again. It is understood that in the majority of the cases hotel runners acted as go-be-

TRIED POR TRESPASSING. Case of Deputy Game Warden at

Oregon City. OREGON CITY, Or., Oct. 29.-The trial on the charge of trespassing or the premise of Captain J. T. Apperson, October 6, occurred in the Justice Court today. State Game Wardes Quimby was present and testified that he had instructed Moody to watch certain parties and ascertain if they were not shooting more than the lawful number of birds daily.

The attorney for the defense desired to introduce evidence that Messrs. Campbell

and Moody were ordered off the Meldrum place on the day in question. Senator Brownell, attorney for Moody, objected to this testimony being introduced, as it had no bearing on the charge of trespassing on Captain Apperson's place, and was appeared by the court

ing on Captain Apperson's place, and was sustained by the court.

Attorney Cross, for the prosecution, said: "It's a small hole to crawl out of, but I guess there is no help for it."

On the stand, Moody stated that it was necessary for him to appear to be hunting, accompanied by his dog, so that he could more successfully play the role of detective. The Justice will hand down his decision tomorrow, and it is conceded that Moody will be acquitted.

COAL IN THE JOHN DAY VALLEY. Found Six Miles Below Prairie City-Promises to Be Good Vein.

Sumpter Miner. Elmer Cleaver passed through here some days ago on his way from Prairie City to Baker City, with a wagonload of coal which he took from the surface of out-

which he took from the strates of our
croppings on John Day River, six miles
below Prairie City.

Mr. Cleaver says that the first outcroppings occur where this wagonload was secured, five or six miles below Prairie City. on the John Day River banks. From that point for a distance of about 30 miles, the 'blossom" can be found almost anywhere in the valley. To secure this lot he put on rubber boots, waded into the stream and knocked off the big obtruding chunks with a pick. One piece which he had with him was as large as a two-foot cube. It is found in a sandstone formation, in layers five or six feet thick, tilted at an angle of about 35 degrees, with sandstone between. The formation is said to be al-most identical with that of the great coal

deposits at Rock Springs, Wyo.

The quality of this surface coal is, of course, not the best. The transformation from vegetable to mineral matter is not yet complete. Samples show the grain of the wood very distinctly, and on one piece the bark can be plainly distinguished. This, however, is generally the case with surface coal, the quality always improv-ing with depth. But even these halfformed specimens burn readily, give out much heat and leave but little ash. Some of it was sent to Pendleton and ested in a blacksmith shop with very satisfactory results, reports the East Oregon-

CHANCES IN MARION COUNTY IM-PROVE EACH DAY.

Silver Republicans Have Dropped Prefix and Are Working for Success of Regular Party.

SALEM, Oct. 29.—That Marion County will roll up a much larger majority for McKinley in 1900 than it did in 1896 becomes every day more apparent. As the cans manifest much greater enthusiasm and take more interest in the campaign, but there is little increase in the campaign, est taken by Democrats. A few of the Democratic leaders, who must continue in the control of the local party organization, keep up their hopes, if not their expectations, of Bryan's election, but the rank and file, the mass of wage-carners and farmers, in the Democratic party do not seem to care a whoop whether Bryan is elected or defeated. They will vote the Democratic ticket because it is Democratic, but not because they have any great desire that Bryan should be victo-

rious.
The trend of opinion is everywhere manifest. The scarcity of Bryan buttons worn on the lapel, the absence of "re-form" agitation on the streets, and the comparative sizes of authences, all show comparative sizes of audiences, all show that the Republican party is far stronger in Marion County today than it was four years ago. When Hon. Tilmon Ford opened the campaign in Salem he spoke to a crowded house. A few days later Hon. Binger Hermann spoke in the Armory and was greeted by a packed house, after hundreds had turned away from the doors because of the crowd within. But when Judge Thomas O'Day, of Portland, spoke in the same room, the available space was not half filled. Judge O'Day had been widely announced as an eloquent orator and humorous speaker, but even these drawing cards failed to fill the seats with men desirous of lis-

tening to an advocate of Bryanism. How different four years ago. In 1896 the Republicans and Democrats held a meeting on the same evening, the former in the old Opera-House and the latter in the old Armory. It is remembered and commented upon today that the Demo-crats had a crowd which filled the Armory to the doors and that a crowd blocked the sidewalks outside.

The vote in Marion County four years ago stood about like this: McKinley, 3744; Bryan, 3415; Palmer, 94; Levering, 68; total, 7823. Of the Bryan vote, it is estimated, by Democratic leaders, that about 1800 were cast by Popullats, 1200 by Democrats and the remaining 415 by Silver Republicans. A. F. McAtee, a prominent G. A. R. man, who voted for Bryan with his Silver Republican collegence four years are save that practi. leagues four years ago, says that practi-cally all the Silver Republicans are back in the old party. But it is to be ex-pected that a considerable proportion of these men will be among the stay-athomes, and that they will nearly all be lost to Bryan. McKinley's plurality of 329, however, will be about doubled by reason of the return of Silver Republi

There will also be considerable gains from the Democratic and Populist ranks, and the plurality over Bryan will be augmented by a large slice of the Populist vote going to the Social Democrats. Through the fusion into which they were drawn, the Populists were induced give up in the campaign the funda-mental principles of their party. But they have not given up their principles entirely, and many will turn to the Social Democracy as the party most nearly representing their views.

DEMOCRATIC SIDE OF IT. Leader Says Idaho Will Go for

Bryan by 5000. WEISER, Idaho, Oct. 29.-Frank Harris, of this piace, chairman of the Democratic Central Committee of Washington County, and member of the State Democratic Central Committee, declares that Judge Street's statement in The Oregonian a few days ago as to the political situation before the form of the Democratic Central Committee, declares that Judge H. H. Davis, the Lawton merchant, and J. C. Wooley, of Granite, have an Street's statement in The Oregonian a few days ago as to the political situation before the first terms of the contract of the c tion here is far from correct.

He says that the Democrats will carry the entire ticket in Washington County by 200 to 250 votes, and that Bryan will carry the county by a majority of 300. In the state election, he says Bryan will car-ry by 5000 majority. He says that this calculation is based on the combined vote of the Populist and Democratic candidates for Governor last election less the Republican vote for that office. He says that the vote in the state will be increased 25 per cent, and that a majority the gain will go for Bryan. He says that many of the new voters are employed in building railroads now in progress or construction in this state, and that the foremen as well as the majority of suboptractors are Democrats, and that this that no systematic poll of the vote has been made by either party, as has been

toral ticket, he says that only a few votes will be lost from error in voting to the Democrats; that it is the purpose of all Democrats and Populists to vote for the hold office until the first Monday in De-Democratic elector. Out of 15 precincts cember. in Washington County, he gives two to

ly for his success

Chairman Harris is far more enthusiastic than a majority of the members of his party. tI is generally conceded that the race in the state will be close and no one thinks of taking the last election as Times have changed since There is prosperity here upon every hand, and the most hopeful Demo-crats only claim a small majority, and generally admit a division in county officers. The Republicans claim that the majority of the new voters will be for McKinley, and that the well-to-do Democrats and others who are prospering un-der the present Administration are say-

OREGON CITY, Or., Oct. 19.-J. D. Ste-ens, of Canby, who is the leader of the Socialistic movement in this county cham-ploning Debs' candidacy for President, estimated today that the party would poli about 250 votes. The greater portion these votes would be cast for Bryan Electhe event that there were no Socialistic nominations. However, the Prohibitionists claim an equal number of votes in the county, which will draw more or less from the Republicans. At the June election the highest Prohibition can-didate for Representative received 218 votes, and the lowest 168, so that the vote for Woolley cannot be expected to lessen the Republican majority in June to any great extent.

OREGON'S CHIEF TRIBUNAL REN DERS AS MANY DECISIONS.

Suits Were Appealed From Multno mah, Polk and Douglas Counties-Rulings by the Court.

SALEM, Oct. 28.—The Supreme Court today handed down decisions as follows: Theodore Altona, respondent, vs. P. P. Dabney, garnishee, appellant, vs. P. P. nomah County, J. B. Cleland, Judge; affirmed. Opinion by Bean, C. J.

This was a garnishment proceeding against Dabney, who was alleged to have money belonging to Herman Vetter, against whom plaintiff had a judgment. Dabney claimed that he had paid the money, \$1000, to Vetter. The trial in the lower court resulted in a decree for the plaintiff and in sustaining this decree the Supreme Court says, among other things: "The motion to vacate the decree for

want of jurisdiction was properly over-ruled. It was based upon the fact that the allegations and interrogatives were neither served within the time fixed by the court in the order for the examina tion of the garnishee, nor upon him per-sonally, but his subsequent appearance by answer was a waiver of any irregu-larity in that regard. The allegations in a garnishee proceeding are essential to jurisdiction of the subject matter. But the jurisdiction of the person may be acquired by a voluntary appearance. A garnishee stands in the position of disinterested stockholder, and, therefore, ac-cording to the great weight of authority, cannot waive service of the process by which the property in his hands, or the debt due from him to the principal debtor, is garnisheed. Proceedings sub-sequent to the garnishment, however, instituted for the purpose of ascertain-ing the truth or faisity of the garnishee's certificate, are personal to self, and there is no reason why he may not waive the service thereof by a voluntary appearance, as in other actions or proceedings against him."

Discussing the evidence in the case,

the Supreme Court says: "This testimony requires no comment, It speaks for itself. There is but one conclusion to be drawn from it-that the pretended payment of the money to Vetter was a mere 'paper transaction,' arranged for the purpose of concocting a defence to the fereclosure suit then pending, and that no payment was actually made or intended to be made."

Rebecca A. Skinner, executrix of the last will and testament of Hiram Alonzo Skinner, contestant and appellant, ve-George E. Lewis, et al., proponents and respondents, from Polk County, R. P. Boise, Judge; en motion to dismiss ap-peal; motion denied. Opinion by Bean,

In denying this motion, the Supreme Court lays down the following rules of law, some of them new in this state: "When there are several respondents, and some of them except to the sufficiency of the sureties on the under-taking on appeal, the appeal is not to be deemed abandoned as to the other respondents, although the transcript is not filed within 30 days from the expiration of the time allowed them to except to the sureties. It will be sufficient com-pliance with the statute if it is filed within 30 days from the justification of the sureties on the exceptions filed by their co-respondents:

"Where a cause originates in the Coun-ty Court, and on appeal to the Circuit Court is tried on the testimony given in the County Court, it is not necessary on appeal to this court that the evidence be identified by the certificate of the Circuit Judge. It is enough if it is iden-tified by the certificate of the County

Judge. "It is no valid objection to an orde granting an application of an executo or administrator to be substituted in place of a deceased party that it was made on the day notice thereof was served upon the attorneys for the opposite party, as notice in such case is be-lieved to be unnecessary unless required by the court. H. Wollenberg, administrator de bonts non of the partnership property of S. Marks & Co., respondent, vs. R. L. Minard et al., appellant, from Douglas Merlard, et als., appellant from Douglas County, J. W. Hamilton, Judge; modified. Opinion by Moore, J.

This was a suit to subject certain real property to the payment of a judgment. It was alleged that a deed executed by Minard to A. T. Thompson was in-tended as a mortgage to secure the sum of \$500 and to place the property beyond the reach of Minard's creditors, and with intent to hinder, delay and defraud the plaintiff. The cause was referred to Ira B. Riddle, who took the testimony and found that Thompson was an innocent purchaser of said real property for a valuable consideration and without knowledge of Minard's indebtedness, The court, however, set aside such find-ings and found that Minard executed the deed without any consideration therefor, and with intent to cheat and defraud his creditors, he having no other prop-erty with which to pay his indebtedness, and decreed that the deed be set aside and the property sold upon execution to satisfy plaintiff's judgment.

The Supreme Court reviews the testimony at length and modifies the decree

in the following words:
"From this testimony and the circum stances adverted to we think the deed was executed to secure the sum of \$500, which has not been repaid. The decree will, therefore, be modified and the said premises sold subject to Thompson's lien thereon, the proceeds to be applied, first, to the expenses of the sale and the costs and disbursements in this court and the court below; second, to the satisfaction of plaintiff's said judgment, and the surplus, if any, to be paid to whoever may be found entitled thereto by the court

AGUINALDO'S SISTER CAPTURED

The sister of Aguinaldo has been captured by Butterick fashions, as pictured in THE DELINEATOR, the famous woman's magazine. This fact was brought to our notice by a number of subscriptions to THE DELINEATOR from Filipino ladies, sent by the largest book and stationery house in Manila. The list includes the name of the sister of Aguinaldo, the Filipino leader, this lady being one of the first to adopt the smart and becoming gowns of her American sisters.

THE DELINEATOR

for NOVEMBER-just out

is adapted in every way to the needs of the well-dressed woman, who not only wants to know of the incoming styles, but desires to keep fully informed regarding every interest of the home. The leading features of this number are:

THE WINTER STYLES

Fully and beautifully illustrated, showing eighty of the latest designs from Paris, London and New York, several of these being in colors.

The dressmaking stricle on MILITARY SHOULDERS, which will be the prevailing style this Winter in women's coats, jackets, etc., gives full directions for obtaining this new square-shoulder or military effect. This style accentuates the present athletic waist secured by the tapering effect at the waist line, now so popular with well-dressed women.

The Fashions of London, by Mrs. Aria Dress and Gossip in Paris, by Mrs. John Van Vorst The Love Story of the Brownings, by Clara E. Laughlin The Enchanted Ring, a poem by Edith M. Thomas. Pastimes for Convalescing Children, by Lina Beard

Superintendent of Public Instruction J. H. Ackerman, accompanied by Superin tendent Bickers, of the Reform School, and Superintendent Wentz, of the Mute School, will go to Monmouth tomorrow to inspect the manual training depart-ment in the public schools at that place. The public schools at Monmouth are con ducted in connection with the training department of the State Normal School. The object of this visit by the state officlais is to ascertain what portion manual training work of the schools at

Monmouth can be adapted to the needs of the pupils of the mute and blind schools, and to learn the best methods of introducing the work. The manual training work consists principally of artistic paper and wood cutting, plain and fancy sawing, cooking, etc.

Malheur County today paid into the state treasury \$72 07, which amount settles that county's 1809 state tax and de linquent interest in full.

FALL FISHING ABOUT ENDED. Columbia River Seines Have Closed Down-Few Gillnetters at Work ASTORIA, Or., Oct. 29.—The Fall fish-ing season on the Columbia is about at

an end, although several canneries are still packing some fish. The seines have all closed down, and there are very few gillnetters at work. The weather for the past week has prevented Bay traps from being lifted, but the upriver traps continue to do quite well. Kaboth's seining grounds made the high catch of Fall fish, getting 18 tons of sil-

versides. Supplies for Alaska Cannery. The American bark Harry Morse has been chartered by the Alaska Fisher-men's Packing Company, of this city, to carry supplies to its cannery at Bristol Bay, Alaska, next season. The start north will be made about next April. This will be the third season that the Harry Morse has had this engagement, and she remains there until the season's catch is completed, and brings it down
