COMMERCIAL AND FINANCIAL NEWS

The weather resterday was not very but it is thought not improbable that the satisfactory for trade, and most of the enforcement of conservative views on retailers are taking things easy until atsnistractory for trade, and most of the retailers are taking things easy until after the first of the month. At the same time there was a fair amount of business with the country, and rescipts of produce were quite liberal, but thore was no change of importance in prices, except in eggs. The differential between Eastern and Oregon has widened until the imported stock resterday advanced a cent to 25% cents, and is rather firm at that figure. The unmerciful slaughter of ducks on Sunday has flooded the market with birds, which of course shuls out the demand for poultry.

In the grain markets there was a firmer feeling and slightly higher prices. This was reflected somewhat in the local market by dealers showing more of a disposition to just its cents.

The recipit caused the reaction in that stock from yesterday's strength, and threw on the market some very large blocks. Late in the day Southern Pacific, after holding firmly all through the carly dealings, shot up Ps on cancentrated and very heavy buying. The stock was bought early for the London account, seemingly on satisfaction over the choice of the new president. An almost endless stream of stock was poured out when the price reached 28, but all offerings were confidently absorbed, and the price fanally rose through that figure, but the buying was then relaxed.

This late movement had a sympathetic effect on the whole market and pulled

Sluggish and Irregular Movements in Hands of Professionals.

NEW YORK, Oct. 30.-There were only one or two movements of any interest on the Stock Exchange today. The marthe stock exchange town. The ma-ket fell into a state of semi-stagnatich et times, and moved singrishly and irregu-larly with no other motive power than the operations of the professionals, who the operations of the professionals, who sought to make a day's trade. There was a very marked lack of the orders through commission-houses which were a feature last week. The apsthetic aspect of the market was unexpirated by any news of the day. It was the outcome largely of the conservative apirit of caution which is not unusual in the closing days of a National campaign. In not unusual in the closing days of a National campaign. There is some uncashess lest the speculation on the part of the outside public has overdiscounted the conditions expected to develop after the election is out of the way.
