Hay's Answer to Anglo-German Agreement.

OBJECTION TO THE THIRD CLAUSE

Japan Approves of the Compact, Believing It Aimed at Russin-Punjahment of Tunn.

WASHINGTON, Oct. M .- The State Department today made public the British German agreement respecting the main-tenance of an "open door" and the terti-torial integrity of China, with the answer of the United States Government sent in duplicate to each of the powers to the agreement. The answer to Lord Paunce-fote follows:

Department of State, Washington, October 29, 1906 .- Excellency: I have the honor to acknowledge the receipt of your note of the Edd of October, encousing the text of an agreement between Great Britain and Germany relating to affairs in China. which was signed in London on the 19th inst. by the Marquis of Salisbury and the German Ambassador on behalf of their respective governments, and inviting the acceptance by the United States of the principles recorded in that agreement. These principles are:
"1. It is a matter of joint and perma-

ment luternational interest that the ports on the rivers and littoral of China should remain free and open to trade, and to every other legitimate form of economic activity for the people of all countries, without distinction, and the two governmeats agree on their part to uphold the same for all Chinese territory, as far as they can exercise influence. "I Her Britannio Majesty's Govern-

ment and the Imperial German Govern-ment will not on their part, make use of the present complication to obtain for themselves any territorial advantages in Chinese dominions, and will direct their policy toward maintaining undiminished the territorial condition of the Chinese

The United States has heretofore made known its adoption of both these principles. During the last year this Government invited the powers interested in China to join in an expression of views and purposes in the direction of impartial trade with that country, and received autisfactory assurances to that effect from all of them. When the recent trouwere at their height this Government, on the 8d of July, once more made Chinere Empire, and had the gratification of learning that all the powers held similar views. Since that time the most gratifying harmony has existed among all the nations concerned as to the end to be pursued, and there has been little vergence of opinion as to the details the course to be followed. "It is, therefore, with much satisfaction

that the President directs me to inform ron of the full sympathy of this Govern-ment with those of Her Britannie Maj-esty and the German Emperor in the prin-ciples and forth in the cisuses of the agreement above cited. The third clause of the agreement pro-

In case of another power making use of the complications in China in or-der to obtain, under any form whatever, any territorial advantages, the two con-tracting parties reserve to themselves the right to come to a preliminary under-standing as to the eventual steps to be taken for the protection of their own in-terests in China.

"As sais clause refers to a reciprocal

arrangement between the two high con-tracting powers, the Government of the United States does not regard itself as called upon to express an opinion in re-

Missionaries Will Be Permitted to Go Back to Pekin.

NEW YORK, Oct. 21.—Rev. Arthur J.

Brown, one of the secretaries of the Presbyterian Board of Foreign Missions, today
received a letter from David J. Hill, Assistant Secretary of State, which covers various points connected with the present status of the missionaries in China. The etter was written in connection with in formation that Rev. A. M. Cunningham and his wife, missionaries at Pekin, were about to return to their post, and re-questing that the United States authorities in China be informed of their purposs, if, in the judgment of the depart-ment, those authorities might interpose any objection to their return to the city.

The conditions governing access of foreigners to the non-treaty towns of the interior, including Pekin, and their se-curity there, Mr. Hill writes, "will necessarily be considered in the negotiations for a definite settlement between China and the powers. While it would be premature to open access to the Chinese in terior for our citizens engaged in commorcial or professional pursuits, there would seem to be no objection to Mr. Cunningham's return. The United States forces at Tien Tein and Pekin would doubtiess afford him all facilities for his return, not in conflict with regulations which may have been adopted regarding the return of foreigners into the city of this correspondence will be Minister Conger for his informa-

### \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* IMPORTATION FOR TRUSTS.

He has proposed two remedies for trusts; one is an amendment of the Constitution of the United States plac-ing the control of them in the Federal ent, the other a law forbidding one state from selling or transacting any business connected therewith in another state without a license from the authorities in Washington, Shade to be preached in thy name. This is "Imperialism" Indeed. This would con-centrate in the Government at Wash-ington entire and absolute control over every business interest in the country, for no business above the dignity of the retail store is confined within the limits of any state. The summary judgment of the officer who must jesus or withhold the license would consti-tute a power for favoritism and oppression appalling to contemplate. DOWNE'S APPOINTMENT.

The New Secretary for Pareign Affates Will Have Only Nominal Control of His Department.

LONDON, Oct. It was as unexpected as it is unwelcome. Even the stanchest ministerial newspapers openly denounces it.

out of touch with the feelings and wishes of the electorate and the Conservative party, while the Liberal Westminster Gazette, crowing over the discomfiture of the Ministerial newspapers, which have been so loudly demanding the retirement of Lord Lansdowne, expresses relief at the fact that Joseph Chamberlain was not given the post, saying:

"The latter's appointment would have filled thoughtful people with dismay, and it is something to have escaped this rerious dager."

London Press Comment. LONDON, Nov. 1.-If the Daily Telegraph's announcement had been a mere resier to ascertain the temper of the pub-lic toward Lord Lansdowne's appoint-ment, he would bertainly never have be-come Minister of Foreign Affairs; but, al-

"The appointment of the Marquis of Lansdowne as Her Majesty's principal Secretary of State for Foreign Affairs is an almost inconceivable blunder. He has neither the character, qualifications nor conceivance for such a nosition. The only experience for such a position. The only plausible excuse for the appointment is that Lord Sallsbury will still control the Foreign Office, while Lord Landowne re-lieves him of his routine duties."

The Daily Mail says: "If Lord Lansdowns is appointed Foreign Secretary and some other gentleman of agreeable manners is made First Lord of the Admiralty, the country may lament a great opportunity lost forever."

The Daily Chronicle says: "We may well ask whether the country would have voted quite so "khaki" had it known of this appointment beforehand."

The Daily News says: "It is presumably the explanation of the control in foreign affairs which would have been impossible if &r. Chamberlain had been appointed. In fact, Lord Salisbury will still be the Foreign Minister, with Lord Lansdown as his clerk."

The Times, to a large extent, takes the the view of the Liberal organs, namely, that Lord Salisbury will now find time to be the real Fremier and to exercise greater control over the whole Cabinet, instead of a mere nominal control. instead of a mere nominal control.

No More Bodies Have Been Found-Drug Company Carried & Large Supply of Explosives.

NEW YORK, Oct. Si.-A revision made tonight of these persons missing and thought to have perished in the explosion and fire at Tarrant & Co.'s drug store, shows M unaccounted for. Of this num-ber, four are not known at the addresses given by the persons reporting them as missing. Out of the whole number, eight are put down by the police as employes of Tarrant & Co. Not a single body had up to 19 o'clock tonight been found in ruins, though what looked like parts bodies have been dug up. It begins to look as if what remains are in the mass of debris which still cumbers the place would be totally unrecognizable, even should the workmen find them. For instance, what was supposed to be parts of bodies taken from the ruins ast night turned out on examination at the morgue to be binckerned pieces of melted gum arabic. Again today another mass was found which the workmen first thought to be human flesh, but is now thought to be melted rubber. The search-ers have found in the ruins of the Home Made Hotel a number of articles, such as books, a handkerchief, a cigar-holdder

etc., but whether their owners escaped or ot is unknown.

The authorities are pushing the investigation into the amount of explosives stored in the building, with a view of prosecutions. Along this line, Secretary Doherty, of the fire department, said to-
