NEW YORK STOCK MARKET. Speculative Holders Well Fortified

With Time Lonns. NEW YORK, Oct 2 - Today's develop-ents in the money market served fully to justify the pecuniary attitude assumed by Interests toward speculation during the past wook. Sind the borrowing demand with which to hold stocks on margin proceeded with the headlong engeness that was shown last week, the effect of today a flurry in call leans inevitably would have been much aggravated. In the first place, the available resources of the money market would have been much episted, and in the second place the contraction of credit it necessitated would have brought out much more burdensome of stocks.

The wheat market continued on the down grade yesterday, and closed lower all around. Argentine shipments were about double those of the week previous and reports to the effect that the coming crop in this country was not so seriously damaged as had been reported, the rate being I per cent market to collateral, the rate being I per cent higher tor loans where there was any admixture of industrial securities than where they were all ratifieds. Considerable attention was attracted also by reports of a greatly in-

and three others are practically finished, so that the river is again so nearly bare of ships that there is no indusement for buyers to fold up with wheat until ton-nage comes along, as the docks are pretty well filled now. Freights are steady, with he new entargments reported.

In the wholesede district there was a good bushess peaterday, in spite of the rain, and produce receipts were quite interest. An ubusually large number of wild ducks and quite a few wild geese were received presentagy. These, coming on a market that was overwocked all through the interior. as # per cent. This created a feeling of

The banks have gained on the interior movement by express to the extent of probably nearly \$500,000. Not until today, when \$200,000 was deposited at the Subtreasury for transfer to Chicago, has there been any transfer to the interior price going to 16918c than there was a short time ago. The grocery markets are firm, with no changes.

Postland 2321,800 # 94-20 Exchanges.

Postland 100 500 22,214 closes points. The price of this, and the large shipments by the Subtreasury on account of gold deposits at Pacific Coast points, the official statement of the week's Subtreasury operations, shows a gain by banks of \$85,000. But it must be remembered that this includes a payment last Friday of checks of \$20,000 for Australian gold deposited with the Government at San Francisco. This gold was drawn over the counter at the Subtreasury by the banks, and therethe Subtreasury by the banks, and there-fore figured in last Saturday's bank state-

cline in cash reserves.

Although there has been liquidation in stocks, the borrowings incident to the monthly settlements are likely to figure in the icon item tomorrow, and increase, the reserve requirements. The poor bank statement, prefigured, explains the day's events in the money market. Covering by shorts caused recovery in stocks later, but prices in closing dealings were weak. The bond market was dull and irregu-lar. Total sales, par value, \$1,510.000. United States refunding 2s, when issued,

THE RECORDER'S OFFICE.

Demand for Economy in the Office Work.

PORTLAND, Nov. 1 .- (To the Editor.) In yesterday's Oregonian the following item appeared in the local column: The receipts of the office of the County Re-conder since the incumbency of Recorder Beach have been as follows: July, \$517; August, \$403. September, \$525. October, \$667. The av-\$403. September, \$825. October, \$807. The average receipts per day was as follows. In July \$21.59: August, \$18.90; September, \$21.87; October, \$25.81. There were 28 working days in July, 23 in August, 24 in September and 27 in October. There is now one less copylst employed, one who worked extra for the past three mouths having been relieved. The force now comprises four copylsts, and the Recorder, and the Chief Deputy, which makes the expense of the office a little more than \$709 per month. The intrease in receipts is about 30 nth. The increase in receipts is about 30 month. The increase in receipts is about 30 of transportation facilities, as the railinuse to increase it will probably be necesmary to add another copylet. The rate per
follio for recording intruments is 10 cents,
if a raise to 15 cents were made, the office
would pay its running expenses, and there
would be a surplus of \$5000 to \$6000 et the

SAN PRANCISCO, Nov. 2—Wood.

Spring, Nevada, 11618c; Eastern Oregon, 19614c; Valley, Oregon, 19614c. Fait, Hight here is found the vice of the char-

this effect."

Right here is found the vice of the character of administration which seems to permeate nearly every department of this county and city. The office-holder, instead subject that concerns every one of us. of seeking to cut off expense and make a saving, does just the other thing-puts an additional burden on the taxpayer. It may be that our people will awake to this fact, but right here is a good place to begin cutting expense instead of increasing the tax.

creasing the tax.

In the first place, the office itself is wholly unnecessary, and if our members of the Legislature do their duty it will be abolished. The law now provides a salary of \$5500 a year for the Recorder and \$1800 a year for a chief deputy. It would be interesting to know how much of the copying of records they do, or in what way the county rest value received. and the properties of the country gets value received for such extravegant pay, from these two of the copying of received the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two of the country gets value received for such extravegant pay, from these two officers, if they did their share of the first pay and order the country gets value received for such extravegant pay, from these two officers, if they did their share of the first power to be self-supporting, and more, if the country commissioners would be no occasion for so many clerks. But even the day of the follows and more, if the country on the country, the follows and the country gets value received for such extravegant and order the copying of the country, the follows and the country gets value received for such extravegant and order the copying of the country, the follows and the country gets value received for such extravegant and order the copying of the country gets value received for such extravegant would be not command the pay the country of the country and order the copying of the country gets would be not considered.

I take the following extract:

Go with me to the country; the farmers have grown rich, fat and independent. They are living in fine houses, riding behind gay horses in costly carriages. Their land is 40 per canthigher than when I left. They are now monay-lenders thatead of borrowers. Their sons and daughters are off at colleges and universities. The old "spinning jenny" of their mother's stands in the garret all covered with dustant the piano couples its place. And why? For two years wheat has been 82 cents per bushel, potations 75 cents and corn 80 cents. in the October number of the Phillisting

lights, H 5264 30; Yorkers, M 7524 30; pigs. H 5054 75.
Sheep—Receipts, 1656; market, steady; licie periraying condition of the New Jambs, M 2565 25; mustons, M 9934 16.
York farmers, from which I quote as fol-

There was a time when the farmers about East Aurora were fairly rich, but that was in the long ago. To talk now about "the independence of the agrarian population" is a fine piece of irony. So reduced are the farmers of New York State that no first-class insurance company will assume a risk on farm property. Last week I was shown a circular sent out by "the Agriculturiat Insurance Company," of Watertwon, N. T., wherein its agents were ordered to write no more policies on farm property ordered to write no more policies on farm property. erry under any consideration; and the anomaly comes in when we consider that this company was organized in 1865 for the special purpose of incoring agriculturists against less by fire. I've, the farmers bround East Aurora are poor.

Many think that the expansion of pros-Many think that the expansion of pros-perity noted by Mr. McLaren was the re-sult of the expansion of the volume of legal-tender money resulting from the dis-covery of California gold, and that the present condition of the farmers noted by the Philistine is the result of Govern-mental refusil since 1878 to fully coin one of the precious motals of the Constitution, thereby preventing the necessary expan-sion of the volume of standard money, ab-solutely required by our increase in resi solutely required by our increase in real wealth and population, and I think that SYLVESTER PENNOYER.
