An-other organ in the church was not taken, probably because there was no room for it on the wagon. Several ladies of the church witnessed the proceeding, and also A. J. They all noticed what a handsome, min-fstorial-looking gentleman was bossing

First it was supposed that the property had been taken away or stored in the basement as a keen Hal-lowsen joke by some of the irrking boys of the neighborhood, but nothing of the kind happened. The furniture had disap-peared completely. Then it was found that the goods had been hauled away. The trustees declared they had not given any one permission to borrow the furniany one permission to borrow the furnilocked as usual, and had found it locked in the evening. The church congregation was mystified.

but everybody seems to take it as a fore-gone conclusion that McKinley will be elected, and everything else is going on as if nothing is going to happen.

"In this I see the greatest danger, as dead things crawl,' and the Republicans don't seem to think that the usual hard work is necessary this year. I shuerely hope they are right, and that McKinley. will have an easy victory. Bryan has lost lots of votes in New York City by the speech he made here. It was the most radical opposition speech ever made. think if he knew exactly how many meal McKinley eats daily, he would no doubt oppose that particular number of meals, and see some danger for the Government in that particular number. He don't seem to have any particular ideas of his own (sliver excepted), and thinks it is neces-sary for him to oppose everything ever done by any previous President."

Nothing has been seen or heard of the two men who left the Cape Flattery light in an open boat for Neah Bay about a week ago, and they are about niven up for lost. Captain Day, Lighthouse Infor tost. Here and Hereabout. Light-Other Matters.

Idle men are becoming more numerous around city employment offices as cold weather settles down over the great region now being developed in the North. Transient laborers are a good deal like birds, and flit southward as the days get shorter and the frosty nights cause the leaves to full. More men will mane their headquarters in Portland this year than last, because railroad work has largely shut down in California, as a result of C. P. Huntington's death. Last year, at this time, men were being passed mouthyard over the road by the score, as they were wanted on the many lines

The story of the play is a deeply interesting one, and it is in the bands of a company fully capable of doing it jus-tice. "The Past Mail" will be presented for the last time tonight.

Halloween complaints continue to pile up from all portions of the East Side. Owing to the wide expanse of territory, including the suburbs, the depredations were considerable, and the amount of damage done is estimated at above \$2000. The depredations range from \$2.50 to \$50, and in the aggregate amount to a large sum. A gentleman suggests that here-after the Chief of Police lasue an order commanding all boys to be indoors on Halloween after 8 o'clock. A resident who made close observation on the East Slde yesterday writes:

District Meeting November 10. The Directors of the Woodstock District have called a meeting of the taxpayers and residents of that district to meet at the public hall at that place on the evening of November 10 to consider the offer made by the city in the way of tuition for pupils attending there.
